SEPA Determination of Nonsignificance (DNS)

File: SEP2018-00039

Project Description: A new duplex on a parcel containing 4 existing units. The proposed project also includes utilities, a parking area, and driveway.

Proponent: Daniel Williamson

Address and Parcel #: 6833 Hannegan Rd, Everson APN#: 3903085504840000

Lead Agency: Whatcom County Planning & Development Services

Zoning: Small Town Commercial

Comp Plan: Rural Community

Shoreline Jurisdiction: N/A

The lead agency for this proposal has determined that with proper mitigation, no significant adverse environmental impacts are likely. Pursuant to RCW 43.21C.030(2)(c), an environmental impact statement (EIS) is not required. This decision was made following review of a completed SEPA environmental checklist and other information on file with the lead agency. This information is available to the public on request.

☐ There is no comment period for this DNS.

☒ Pursuant to WAC 197-11-340(2), the lead agency will not act on this proposal for 14 days from the date of issuance indicated below. Comments must be received by 4:00 p.m. on May 22, 2018 and should be sent to: Robert Eckroth, reckroth@whatcomcounty.us

Responsible Official: Mark Personius, mpersoni@whatcomcounty.us

Title: Director

Telephone: 360-778-5900

Address: 5280 Northwest Drive
Bellingham, WA 98226

Date of Issuance: May 8, 2018

Signature:

A handwritten signature in blue ink, appearing to read "Mark Personius", is written over a horizontal line. The signature is stylized and includes a large, sweeping flourish.

An aggrieved agency or person may appeal this determination to the Whatcom County Hearing Examiner. Application for appeal must be filed on a form provided by and submitted to the Whatcom County Current Planning Division located at 5280 Northwest Drive, Bellingham, WA 98226, during the ten days following the comment period, concluding June 1, 2018.

You should be prepared to make a specific factual objection. Contact Whatcom County Current Planning Division for information about the procedures for SEPA appeals.

SEP 2018 - 00039

SEPA Environmental Checklist

Purpose of Checklist:

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

Instructions for Applicants:

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Use of Checklist for Non-Project Proposals:

For non-project proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B plus the Supplemental Sheet for Non-project Actions (Part C). Please completely answer all questions that apply and note that the words "project", "applicant", and "property or site" should be read as "proposal", "proponent" and "affected geographic area", respectively. The lead agency may exclude (for non-projects) questions in Part B - Environmental Elements that do not contribute meaningfully to the analysis of the proposal.

A Background

- 1 Name of proposed project, if applicable:
Hannegan Duplex
- 2 Name of applicant: Daniel Williamson
Applicant phone number: 360-815-5705
Applicant address: 6439 Mount Baker Hwy
City, State, Zip or Postal Code: Deming, WA 98244
Applicant Email address: dan@williamsoncivil.com
- 3 Contact name: Daniel Williamson
Contact phone number: 360-815-5705
Contact address: 6439 Mount Baker Hwy
City, State, Zip or Postal Code: Deming, WA 98244
Contact Email address: dan@williamsoncivil.com
- 4 Date checklist prepared: 4/1/2018
- 5 Agency requesting checklist: Whatcom County Planning & Development
- 6 Proposed timing or schedule (including phasing, if applicable):
Summer of 2018
- 7 Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? Yes ☐ No ☒
If yes, explain:
- 8 List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal:
None
- 9 Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? Yes ☐ No ☒
If yes, explain.

- 10 List any government approvals or permits that will be needed for your proposal, if known.

Building Permit from Whatcom County

- 11 Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

The project proposes to build a duplex consisting of two 1,600 square foot units with garages for residential use. The project will be the final addition to an existing homeowners association with two other duplex buildings.

- 12 Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

The location is on the west side of Hannegan road, just south of the intersection with the Pole road and north of the entrance to Raspberry Ridge Golf Course.

Township: 39N
Range: 03E
Section: 08

Address 6833 Hannegan Road, Everson, WA 98247

Plans submitted with building permit show precise location of building including site plan, vicinity map and general topography and will not be duplicated with this checklist.

390308550404

B Environmental Elements

1 Earth

a. General description of the site:

- | | |
|-------------------------------------|--------------|
| <input checked="" type="checkbox"/> | Flat |
| <input type="checkbox"/> | Rolling |
| <input type="checkbox"/> | Hilly |
| <input type="checkbox"/> | Steep Slopes |
| <input type="checkbox"/> | Mountainous |
| <input type="checkbox"/> | Other |

b. What is the steepest slope on the site (approximate percent slope)?

1-2%

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils.

Sand

d. Are there surface indications or history of unstable soils in the immediate vicinity? Yes ☐ No ☒

If so, describe.

e. Describe the purpose, type, total area, approximate quantities and total affected area of any filling excavation or grading proposed.

No fill proposed

Indicate source of fill.

N/A

Indicate where excavation material is going.

Back fill on site.

- f. Could erosion occur as a result of clearing, construction, or use?

Yes ☐ No ☒

If so, generally describe.

- g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

Approximately 50% of the site will be impervious, designed in accordance with current Whatcom County Stormwater standards

- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

The high rate of infiltration for the site soils makes erosion highly unlikely both during and after construction.

2. Air

- a. What types of emissions to the air would result from the proposal during construction, operation and maintenance when the project is completed (i.e., dust, automobile, odors, or industrial wood smoke)?

During Construction minor equipment use such as excavators and rollers will be used intermittently.

If any, generally describe and give approximate quantities if known.

- b. Are there any off-site sources of emissions or odor that may affect your proposal? Yes ☐ No ☒

If so, generally describe.

- c. Proposed measures to reduce or control emissions or other impacts to air, if any:

3. Water

a. Surface:

- (1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? Yes ☐ No ☒

If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

- (2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? Yes ☐ No ☒

If yes, please describe and attach available plans.

- (3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. 0

Indicate the source of fill material.

- (4) Will the proposal require surface water withdrawals or diversions? Yes ☐ No ☒

Give general description, purpose, and approximate quantities if known.

Does the proposal lie within a 100-year floodplain?

Yes ☐ No ☒

If so, note location on the site plan.

- (5) Does the proposal involve any discharges of waste materials to surface waters?

Yes ☐ No ☒

If so, describe the type of waste and anticipated volume of discharge

b. Ground Water:

- (1) Will ground water be withdrawn from a well for drinking water or other purposes? Yes ☐ No ☒

If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.

- (2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals.....; agricultural; etc.). Describe the general size of the system, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

A County approved and inspected domestic sewage system has been installed and will be utilized by this duplex.

c. Water runoff (including stormwater):

- (1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known).

Runoff will be exclusively from stormwater. The runoff will be handled according to the approved stormwater plans which call for infiltration.

Where will this water flow? *Infiltration facilities*

Will this water flow into other waters? Yes ☐ No ☒

If so, describe.

(2) Could waste materials enter ground or surface waters?

Yes ☐ No ☒

If so, generally describe.

(3) Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site: Yes ☐ No ☒

If so, describe.

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:

None

*-OR
5/1/18*

4 Plants

a. Check types of vegetation found on the site:

- ☐ Deciduous tree: alder, maple, aspen, other
- ☐ Evergreen tree: fir, cedar, pine, other
- ☐ Shrubs
- ☒ Grass
- ☒ Pasture
- ☐ Crop or grain
- ☐ Orchards, vineyards or other permanent crops
- ☐ Wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other
- ☐ Water plants: water lily, eelgrass, milfoil, other
- ☐ Other types of vegetation

b. What kind and amount of vegetation will be removed or altered?

The site is historically pasture and grasses. some of these ares will be converted to impervious surfaces such as asphalt and roof.

c. List threatened or endangered species known to be on or near the site.

None known

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

grasses and minor shrubs will be installed for aesthetic purposes upon completion.

e. List all noxious weeds and invasive species known to be on or near the site.

None known

5. Animals

a. Check any birds and animals, which have been observed on or near the site or are known to be on or near the site:

Birds:

☐ Hawk,
☐ Eagle,
☐ Other:

☐ Heron,
☐ Songbirds;

Mammals:

☐ Deer,
☐ Elk,
☐ Other:

☐ Bear,
☐ Beaver;

Fish:

☐ Bass,
☐ Trout,
☐ Shellfish;

☐ Salmon,
☐ Herring,
☐ Other:

b. List any threatened or endangered species known to be on or near the site.

None known

- c. Is the site part of a migration route? Yes ☒ No ☐

If so, explain.

The project falls in the Pacific Flyway encompassing most of western Washington

- d. Proposed measures to preserve or enhance wildlife, if any:

None

- e. List any invasive species known to be on or near site.

None known

OR
5/1/18

6. Energy and Natural Resources

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

Electricity and Natural gas will be used to heat and air condition the homes.

- b. Would your project affect the potential use of solar energy by adjacent properties? Yes ☐ No ☒

If so, generally describe.

- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

None

OR
5/1/18

7. Environmental Health

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? Yes ☐ No ☒

If so, describe.

None known

- (1) Describe any known or possible contamination at the site from present or past uses.

None known

- (2) Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity.

None known

- (3) Describe any toxic or hazardous chemicals that might be stored, used, or produced during the projects development or construction, or at any time during the operating life of the project.

Typical construction materials such as fuel and paints will be stored in minor quantities during construction.

- (4) Describe special emergency services that might be required.

Typical Fire/Police services associated with residential buildings may be required.

- (5) Proposed measure to reduce or control environmental health hazards, if any:

None

-OR
5/1/18

b. Noise

- (1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

Traffic noises from the Hannegan Road.

- (2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

Short Term: typical construction noises coming from equipment use normal for small scale single family residential building projects.

Long Term: Two more single family residential units may cause a slight increase in traffic noise

- (3) Proposed measures to reduce or control noise impacts, if any:

Work to occur only during
daylight hours

-OR
5/1/18

8 Land and Shoreline Use

a. What is the current use of the site and adjacent properties?

The site is used currently being used to stockpile small amounts of fill. Adjacent properties are used as a golf course & residential buildings.

Will the proposal affect current land uses on nearby or adjacent properties? Yes ☐ No ☒

If so, describe.

b. Has the project site been used as working farmlands or working forest lands? Yes ☐ No ☒

If so, describe.

How much agriculture or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any?

None known

If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to non-farm or non-forest use?

0

(1) Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling and harvesting? Yes ☐ No ☒

If so, how:

c. Describe any structures on the site.

None

- d. Will any structures be demolished?
If so, what?

Yes ☐ No ☒

- e. What is the current zoning classification of the site?

The site is zoned as STC for Small Town Commercial

- f. What is the current comprehensive plan designation of the site?

None known

Rural Community

OR
5/1/18

- g. If applicable, what is the current shoreline master program designation of the site?

None known

- h. Has any part of the site been classified as a critical area by the city or county? Yes ☐ No ☒

If so, specify.

- i. Approximately how many people would reside or work in the completed project?

2-6

2-18 when taking all units
(6) into account

OR
5/1/18

- j. Approximately how many people would the completed project displace?

0

OR
5/1/18

- k. Proposed measures to avoid or reduce displacement impacts, if any:

N/A

OR
5/1/18

- l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:

N/A

OR
5/1/18

- m. Proposed measures to ensure the proposal is compatible with nearby agricultural and forest lands of long-term commercial significance, if any?

N/A

OR
5/1/18

9 Housing

- a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

☐ High
☒ Middle
☐ Low-income

Number of Units 2

(3) duplexes
(6) Total

Oh
5/1/18

- b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

☐ High
☐ Middle
☐ Low-income

Number of Units 0

- c. Proposed measures to reduce or control housing impacts, if any:

N/A

Oh
5/1/18

10 Aesthetics

- a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

22.5'
Hardi-Plank siding

- b. What views in the immediate vicinity would be altered or obstructed?

None known

- c. Proposed measures to reduce or control aesthetic impacts, if any:

N/A

Oh
5/1/18

11 Light and Glare

- a. What type of light or glare will the proposal produce? What time of day would it mainly occur?

None Known

- b. Could light or glare from the finished project be a safety hazard or interfere with views?

None known

- c. What existing off-site sources of light or glare may affect your proposal?

None known

- d. Proposed measures to reduce or control light and glare impacts, if any:

None known

12 Recreation

- a. What designated and informal recreational opportunities are in the immediate vicinity?

Raspberry Ridge Golf Course

- b. Would the proposed project displace any existing recreational uses? If so, describe.

No

- c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:

None

OK
5/1/18

13 Historic and Cultural Preservation

- a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state or local preservation registers located on or near the site? Yes ☐ No ☒
If so, specifically describe.

- b. Are there any landmarks, features, or other evidence of Indian, historic use or occupation, this may include human burials or old cemeteries?

Yes ☐ No ☒

Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Yes ☐ No ☒

Please list any professional studies conducted at the site to identify such resources.

- c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples: Include consultation with tribes and the Department of Archeology and Historic Preservation, archaeological surveys, historic maps, GIS data, etc.

None known

- d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required.

N/A

OR
5/1/18

14 Transportation

- a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plan, if any.

Hannegan Road

- b. Is site or geographic area currently served by public transit?

Yes ☒ No ☐

If not, what is the approximate distance to the nearest transit stop?

- c. How many parking spaces would the completed project have? How many would the project eliminate?

4 spaces plus two, two car garages, none eliminated

- d. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? Yes ☐ No ☒

If so, generally describe (indicate whether public or private).

- e. Will the project use (or occur in the immediate vicinity of)

- ☐ Water,
☐ Rail, or
☐ Air transportation?

If so, generally describe.

N/A

OR
5/1/18

- f. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and non-passenger vehicles). What data or transportation models were used to make these estimates?

Two, two bedroom single family resident buildings will create a minimal number of trip increases. 0% of the trips will be by commercial and non-passenger vehicles.

- g. Proposed measures to reduce or control transportation impacts, if any:

N/A

OR
5/1/18

15 Public Services

- a. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)?

Yes ☒ No ☐

If so, generally describe.

Two additional single family units will require a slight increase in need for public services in the area.

- b. Proposed measures to reduce or control direct impacts on public services, if any.

N/A

OR
5/1/18

16 Utilities

- a. Check utilities currently available at the site:

- ☒ Electricity,
☒ Water,
☒ Telephone,
☒ Septic system,

- ☒ Natural gas,
☐ Refuse service,
☐ Sanitary sewer,
☐ Other

- b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

Pole Road water
Association for 5/1/18
