#### Memorandum

TO: Honorable County Councilmembers Honorable Executive Louws

THROUGH: Mark Personius, PDS Director WP

FROM: Chris Elder, PDR Program Administrato

DATE: 7/23/2018

SUBJECT: Request to amend the PDR Program Guidelines as recommended by the Purchase of Development Rights Oversight Committee

The Purchase of Development Rights Oversight Committee worked on updating the PDR Program Guidelines during regular committee meetings for the entire year of 2017. Based on the receipt of numerous applications from property owners voluntarily applying to sell development rights on properties that would protect other values such as working forestlands or the protection of important ecosystem areas, the PDR Oversight Committee amended the PDR Program Guidelines to be able to effectively receive, process, and support these applications. Development pressure in Whatcom County continues to impact agricultural areas, but pressure is also being applied to working forestlands and important ecosystem areas. The Program guidelines and scoring criteria, as presented in the attached documents, prioritize the protection of agricultural applications.

Several Comprehensive Plan policies also support this broadened program scope including the following:

Policy 8G-5: Support conservation of working forest land base through cooperation between landowners, private organizations, and public agencies, and through incentives such as the current use tax assessment provisions of RCW 84.33, and RCW 84.34.

Policy 10K-7: Promote voluntary fish and wildlife habitat enhancement projects through educational and incentive programs, such as purchase of development rights or habitat conservation easements. These projects, which can be done by individuals, organizations, and businesses, will buffer and expand fish, plant, and wildlife habitat.

The PDR Oversight Committee and PDR Program staff recommend these updated guidelines and the attached ordinance. We look forward to discussing these recommended changes with you.

Please call Chris Elder, PDR Program Administrator, with any questions or concerns.

1 2 3	PROPOSED BY: PDS INTRODUCTION DATE: 8/8/2018
4	
5 6	ORDINANCE NO
7	ADOPTING AMENDMENTS TO THE
8	PURCHASE OF DEVELOPMENT RIGHTS PROGRAM
9	
10	WHEREAS, Whatcom County government recognizes agriculture and forestry as
11	major contributors to the local economy, and agriculture, forestry, and ecosystem functions
12 13	and values as contributing to a high quality of life for Whatcom County citizens; and
13 14	WHEREAS The Crowth Management Act and the County Communication Disc
15	WHEREAS, The Growth Management Act and the County Comprehensive Plan support the retention of agricultural and forestry lands of long term commercial significance
16	and protection of ecosystem functions and values, and encourage the use of innovative
17	techniques to do so; and
18	
19	WHEREAS, Ordinance #92-002 enacted a property tax levy known as the
20	Conservation Futures Tax as authorized by RCW 84.34.230 to provide a funding source to
21	assist in acquiring open space, wetlands, farm and agricultural land, and timber land; and
22	
23 24	WHEREAS, Ordinance #2002-054 established the Whatcom County Agricultural
24 25	Purchase of Devleopment Rights Program; and
26	WHEREAS, The Whatcom County Council has identified the Purchase of
27	Development Rights Program as an effective tool to protect community values by
28	compensating willing property for the voluntary sale of development rights, and
29	
30	WHEREAS, The Whatcom County Purchase of Development Rights Program has
31	received several voluntary applications from non-agricultural property owners wishing to
32	protect their working forestlands and important ecosystem areas, and
33	
34 35	WHEREAS, Additional sources of matching funds are available to support acquisition
36	of conservation easements on properties that protect forestry and ecosystem values, and
37	WHEREAS, The Purchase of Development Rights Oversight Committee has updated
38	the program guidelines so as to maintain the protection of agricultural lands as the primary
39	purpose of the program, and
40	
41	WHEREAS, The Purchase of Development Rights Oversight Committee voted
42	unanimously on January 26, 2018 to recommend approval of the updated guidelines.
43	
44 45	
46	
47	
48

#### Chapter 3.25A 1 AGRICULTURAL, FORESTRY, AND ECOLOGICAL PURCHASE 2 **OF DEVELOPMENT RIGHTS PROGRAM** 3

- 4 Sections: 5 3.25A.010 Short title. 6 3.25A.020 Purpose. 7 3.25A.030 Applicability. 8 3.25A.040 Definitions. 9 3.25A.050 Designation of program administrator – Powers and duties. 10 3.25A.060 Purchase of development rights oversight committee established – Powers and duties. 11 12 3.25A.070 Eligibility criteria. 13 3.25A.080 Ranking system. 14 3.25A.090 Conservation easement terms and conditions. 15 3.25A.100 Application and evaluation procedure. 16 3.25A.110 Purchase of development rights procedure.
- 17 3.25A.120 Restriction on buy-back – Extinguishment and exchange of easements.
- 18 3.25A.130 Authorization.

#### 19 3.25A.010 Short title.

- 20 This chapter shall be known and may be cited as the "Agricultural, Forestry, and Ecological Purchase of
- 21 Development Rights Program." For the purpose of this chapter this program shall be known as the "PDR"
- 22 program. (Ord. 2013-015 Exh. A; Ord. 2002-054 § 1).

#### 23 3.25A.020 Purpose.

24 To establish a voluntary agricultural, forestry, and ecological purchase of development rights program for 25 Whatcom County which will enhance the protection of the county's farmland, forestland, and important 26 ecosystem areas, enhance the long-term viability of the agricultural and forestry enterprises within the county and provide public benefit by retaining properties in permanent resource use, in addition to the protection ecosystem functions and values. (Ord. 2002-054 § 1).

#### 29 3.25A.030 Applicability.

30 The PDR program shall be available for all qualifying lands, as identified in the PDR program guidelines,

31 except those lands under the ownership or control of the United States of America, the state of

27

28

- 32 Washington or an agency or instrumentality thereof. Any conservation easement acquired pursuant to this
- 33 chapter shall be voluntarily offered by the owner. (Ord. 2002-054 § 1).

#### **34 3.25A.040** Definitions.

35 The following definitions shall apply in the interpretation and implementation of this chapter:

36 "Administrator" is that person placed in a managerial position over the daily operations of the PDR

- 37 program. The administrator shall serve as a direct liaison to the program.
- 38 "Conservation easement" means a nonpossessory interest in one or more parcels by one or more

39 qualified easement holders under WCC <u>3.25A.090(B)</u> acquired under RCW <u>64.04.130</u>, whether the

40 easement is appurtenant or in gross, voluntarily offered by an owner and acquired by purchase or

- 41 donation pursuant to the PDR program guidelines, imposing limitations or affirmative obligations for the
- 42 purpose of retaining or protecting agricultural, forestry, and ecosystem values of the parcel or parcels.
- 43 "Owner" means the owner or owners of the fee simple interest of the parcel.
- "Development rights" means an interest in and the right to use and subdivide land for any and all
  residential, commercial and industrial purposes and activities which are not incident to agricultural.
  forestry, and/or ecosystem uses.

47 "Parcel" means a legal lot of record, lawfully recorded in the Whatcom County auditor's office. A
48 conservation easement may contain one or more parcels; for purposes of this chapter the term "parcel"

49 shall include all parcels covered by, or proposed to be covered by, the conservation easement,

50 The "PDR program guidelines" shall be adopted by county council and contain the rules and regulations 51 under which the PDR program operates. They include eligibility criteria, site selection criteria, a standard 52 conservation easement and other procedures and information necessary to ensure fair and consistent

53 administration of the PDR program,

- "Qualifying lands" means those properties meeting the eligibility criteria established in the PDR program
   guidelines for which development rights may be purchased pursuant to this chapter. (Ord. 2002-054 § 1).
- **56 3.25A.050** Designation of program administrator Powers and duties.
- A. Designation. The administrator shall be designated by and report to the director of planning anddevelopment services.
- 59 B. Powers and Duties. The administrator or his or her designee shall administer the PDR program and60 shall have powers and duties to:

- 61 1. Establish reasonable and standard procedures and forms consistent with this chapter and the
- 62 PDR program guidelines for the administration and implementation of the program.
- 63 2. Promote the program in cooperation with the PDR oversight committee by providing educational64 materials to the public and conducting informational meetings.

65 3. Investigate and pursue, in conjunction with the county, state, federal and other programs
66 available, to provide additional public and private resources to fund the program and to maximize
67 private participation.

- 68 4. Evaluate and rank all applications to determine their eligibility and provide assistance to the PDR69 oversight committee in ranking properties.
- 70 5. Coordinate the preparation of appraisals.
- 71 6. Negotiate conservation easement terms and value with the owner or owners.
- 72 7. Provide staff support to the county council, the PDR oversight committee, and the county's73 authorized appraiser.
- 8. For each conservation easement accepted into the program, establish baseline data, and assure
  that the terms and conditions of the easement are monitored and complied with by coordinating a
  monitoring program with each easement holder. (Ord. 2002-054 § 1).
- 77 3.25A.060 Purchase of development rights oversight committee established Powers and duties.
- 78 A. Establishment. The PDR oversight committee is hereby established, as follows:

791. The committee shall consist of seven members appointed by the county executive and confirmed80by county council. Each member shall be a resident in and of Whatcom County. The committee81shall be comprised of three farmers, one individual representing farm-supporting businesses, one82individual possessing real estate experience, one citizen (nonfarmer) from the unincorporated83county, and one citizen (nonfarmer) from an incorporated city. No members may have an84ownership interest in any of the lands submitted for purchase pursuant to this chapter.

2. The members of the committee shall serve at the pleasure of the county council. The initial terms
of the members shall be as follows: two members shall be for two years; three members shall be
for three years; and two members shall be for four years. Each term after the initial term shall be for
four years.

- 3. The members of the committee shall serve without pay, but the county council may, at its
- 90 discretion, reimburse members for actual and necessary expenses incurred in the performance of91 their duties.
- 92 4. The committee shall elect a chairperson, vice-chairperson and secretary at its first meeting each93 calendar year. The secretary need not be a member of the committee.
- 94 5. The administrator shall be an ex-officio member of the committee.
- 95 B. Purpose. To provide oversight and evaluation for the county PDR program. The PDR oversight
  96 committee's role is to advise the council in the selection of eligible lands offered for PDR acquisition.
- 96 committee's role is to advise the council in the selection of eligible lands offered for PDR acquisition.
- 97 C. Powers and Duties. The PDR oversight committee shall have the powers and duties to:
- 98 1. Promote the program, in cooperation and under the guidance of the administrator, by providing99 educational materials to the public and conducting informational meetings.
- 2. Review and make recommendations to the administrator and the county council as to whichconservation easements should be purchased.
- 3. Annually review the PDR program guidelines and recommend to the county council any changes
   needed to maintain the program's consistency with the comprehensive plan, or to improve the
   administration, implementation and effectiveness of the program.
- 105 4. Provide an annual report of program accomplishments to county council and county executive.

D. Organization – Meetings. Meetings of the committee shall be open and accessible to the public and
shall be subject to the Open Public Meetings Act. The committee shall determine its own meeting
schedule but shall meet at least annually. A public comment period will be provided at each meeting.
Written records of meetings, decisions, findings and recommendations shall be kept and such records
shall be public. The committee shall adopt its own rules and procedures for the conduct of business. The
committee shall elect a chairperson from among its members who shall preside at its meetings. A quorum
shall consist of four members present and the committee shall operate on a "majority rule" basis.

E. Technical Advisory Committee. A technical advisory committee, without voting privileges, may be
formed to advise the PDR oversight committee on technical/scientific matters as needed. Representatives
may include but not be limited to individuals from the following agencies: Cooperative Extension Service,
National Resource Conservation Service and Whatcom Conservation District. (Ord. 2002-054 § 1).

#### **117** 3.25A.070 Eligibility criteria.

- 118 In order for a parcel to be eligible for a conservation easement, it must be located outside of an
- 119 established urban growth area and within Rural 2A, Rural 5A\*, Rural 5A, Rural 10A, Residential Rural,

120 Rural Residential – Island, Rural Forestry, or Agriculture zoned land and meet any additional eligibility

- 121 criteria as defined in the PDR program guidelines, (Ord. 2011-025 § 1 Exh. A; Ord. 2002-054 § 1).
- \*The asterisk refers to Rural 5A areas depicted on the official zoning maps with an asterisk that are subject
   to WCC 20.36.252, Rural residential density overlay.

#### 124 3.25A.080 Ranking system.

- 125 In order to effectuate the purposes of this chapter, parcels for which conservation easement applications
- have been received shall be evaluated by utilizing the site selection criteria as contained in the PDR

127 program guidelines. The ranking system shall be used to prioritize the acquisition of conservation

- 128 easements. (Ord. 2002-054 § 1).
- 129 3.25A.090 Conservation easement terms and conditions.
- 130 Each conservation easement shall conform with the requirements of this chapter. The deed of easement
- shall be in a form approved by the county attorney, and shall contain, at a minimum, the provisions
- incorporated in the standard agricultural conservation easement. Central to the purpose of the PDR
- 133 program are the following:

A. Allowable Uses. Uses that are compatible with the long-term productivity of the soil for the pursuit of
 farming <u>or forestry</u> enterprises <u>and/or protection of ecosystem functions and values</u>.

- B. Designation of Easement Holders. The county shall be the easement holder, and if designated by the
   county council, one or more other public bodies or gualified organizations, as defined in RCW 64.04.130.
- 138 C. Conservation Easement Duration. A conservation easement acquired under the terms of this chapter139 shall be in perpetuity. (Ord. 2002-054 § 1).
- 140 3.25A.100 Application and evaluation procedure.
- Beginning in the first year following the adoption of the ordinance codified in this chapter and continuing
- 142 thereafter, the county shall conduct a voluntary property selection process generally as follows and
- 143 pursuant to the PDR program guidelines.
- 144 A. Application. Owners of qualifying lands will be invited to make application for purchase of development
- rights by the county by giving notice in one newspaper of general circulation. Application materials will be
- provided by the administrator and will include, at a minimum, a standard application form and information

about the PDR program. Applications shall be submitted to the administrator and reviewed forcompleteness.

B. Evaluation. The administrator shall review and determine eligibility and priority classification of

applications. The applications ranked by the administrator shall be forwarded to the PDR oversight

151 committee. The committee shall review the applications and establish parcels for easement purchase

152 based on selection criteria contained in PDR program guidelines. The committee shall then forward the

153 parcels to the county council which shall review and prioritize parcels on which it will seek to purchase

154 conservation easements.

C. Appraisal. For those applications that meet the requirements of subsection B of this section, the
 committee shall cause an appraisal of the applicant's development rights to be made in accordance with
 PDR program guidelines:

D. Requirements and Deadlines May Be Waived. Any requirement or deadline set forth in this chapter or the PDR program guidelines may be waived by the county council if, for good cause, it is shown that urgent circumstances exist that warrant consideration of an application. Under such circumstances the council may purchase a conservation easement at any time and through any process it deems necessary.

E. Reapplication. An owner of a parcel not selected by the county council for purchase of a conservation
easement may reapply in <u>any-the</u> future <u>open application period</u>. (Ord. 2013-015 Exh. A; Ord. 2002-054
§ 1).

#### **165 3.25A.110** Purchase of development rights procedure.

Each application for a conservation easement shall be processed and evaluated pursuant to the
 requirements as contained in the PDR program guidelines which will include at a minimum the following:

A. Development Rights Sale, Based on anticipated funding the administrator shall estimate the number of

development rights that can be acquired from the initial pool of parcels identified in WCC <u>3.25A.100(B)</u>.

170 The administrator shall coordinate negotiations with the property owners. Upon completion of

171 negotiations, the administrator shall arrange for an appraisal of the development rights by an independent

172 county-authorized appraiser. The PDR oversight committee and administrator shall review the results of

the appraisal. The administrator shall, in writing, invite property owners to sell to the county development

174 rights for the amount of the appraised value of such development rights, subject to the terms and

175 conditions of a proposed deed of easement. Property owners desiring to sell and/or donate development

176 rights shall submit a written offer to sell. Nothing in this chapter shall compel an owner to submit an offer

to sell.

- B. Acceptance. An offer to sell development rights shall be forwarded to the county council foracceptance.
- 180 C. Conservation Easement Established, A conservation easement shall be established when the owner
- and an authorized representative of the holder of the easement have each signed the deed of easement.
- 182 The deed shall be recorded in the Whatcom County auditor's office.
- 183 D. Offers Not Made Offers Not Accepted Invitation to Other Owners. If an owner invited to sell elects
- not to do so, then the county administrator may send an invitation to sell to the owner(s) of the next
- highest prioritized parcel(s) remaining on the list of parcels.
- 186 E. Costs. If the county council accepts an offer to sell development rights, the county may pay all other
- 187 costs including environmental site assessments, surveys, recording costs, if any, and other charges
- 188 associated with closing. However, the county shall not pay expenses or fees incurred by the property
- 189 owner for independent appraisals or legal, financial, or other advice, or expenses or fees in connection
- 190 with the release and subordination of liens to the easement purchased by the county. (Ord. 2002-054
- 191 § 1).

#### **192** 3.25A.120 Restriction on buy-back – Extinguishment and exchange of easements.

- 193 If circumstances arise that render the purpose of this easement impossible to accomplish, the easement can be extinguished only by judicial proceedings. In the event of such an extinguishment or the taking of 194 195 the property by the exercise of the power of eminent domain, grantors shall pay to Whatcom County an 196 amount determined by subtracting the fair market value of the property subject to this easement from the 197 fair market value of the property unrestricted by this easement, at the time of extinguishment or 198 condemnation if Whatcom County is not compensated for its property interests at the time of the 199 extinguishment or condemnation. Other details regarding restrictions on buy-back or extinguishment as may be deemed necessary shall be contained in the PDR program guidelines, and/or the easement deed. 200
- 201 (Ord, 2013-015 Exh. A; Ord. 2002-054 § 1).

#### 202 3.25A.130 Authorization.

- A. The county is hereby authorized to acquire development rights from lands described and prioritized in
- 204 WCC <u>3.25A.080</u>. Such acquisition may be accomplished by purchase, gift, grant, bequest, devise,
- 205 covenant or contract but only at a price which is equal to or less than the appraised value determined as
- 206 provided in this chapter and the PDR program guidelines.
- B. If the owner so elects, the county is authorized to pay the purchase price in a lump-sum single
- 208 payment at time of closing, or to enter into contract for installment payments against the purchase price.
- 209 When installment purchases are made, the county is authorized to pay interest on the declining unpaid

- 210 principal balance at a legal rate of interest consistent with prevailing market conditions at the time of
- 211 execution of the installment contract and adjusted for the tax-exempt status of such interest.
- 212 C. After county acquisition of development rights, the county may purchase the remaining agricultural.
- 213 <u>forestry, or ecosystem</u> -rights or other property interests in such land only when requested by the owner
- 214 and when such acquisition is necessary to maintain agricultural. forestry, or ecosystem uses of the
- 215 property. (Ord. 2002-054 § 1).

# I. INTRODUCTION

These Program Guidelines are authorized under WCC Title 3.25A and serve as rules and procedures for administering the Whatcom County Agricultural, Forestry, and Ecological Purchase of Development Rights (PDR) Program.

The Guidelines serve two functions:

- A. To provide an overview of the land preservation process for the property owner. Specifically, this information can be found in Section V.
- B. To establish the rules and operational procedures that the PDR Oversight Committee and the Administrator must follow when operating a Purchase of Development Rights program.

## **II. PDR PROGRAM OBJECTIVE AND PRINCIPLES**

Responding to the loss of County farmland, the Whatcom County Executive initiated the development of a Purchase of Development Rights (PDR) program in September of 2001. A PDR Advisory Committee comprised of farmers, citizens and conservation organizations was formed and tasked with assisting County staff in the development of a proposal for County Council consideration. The Purchase of Development Rights Program was enacted through Ordinance 2002-054 in September of 2002.

Since that time Whatcom County continues to experience a rapid development rate. Responding to the continued loss of agricultural land and of other land types such as forest resource lands and areas of ecological importance, these program guidelines have been updated accordingly.

#### A. Objective

The primary objective of the Whatcom County Purchase of Development Rights Program, in conjunction with other tools, is the protection of farmland. The secondary objective of the PDR Program is the protection of forestland and areas of ecological importance. The Whatcom County Purchase of Development Rights Program will help to sustain the farming and forestry enterprises as well as support healthy ecosystem function throughout Whatcom County.

#### **B.** Principles

The PDR Program provides a strategic tool to protect County farmland, forestland, and areas of ecological importance.

1. Preserve the County's Agricultural lands, Forestlands and Areas of Ecological Importance

Encourage the protection of a critical mass of agricultural and forestry land to sustain the farm-related and forestry-related businesses and activities that are necessary to support the agricultural and forestry industries in Whatcom County. Additionally the Program will encourage the protection of areas of ecological importance necessary to sustain ecosystem health and function.

#### The primary PDR Program emphasis will be:

- a. Reduce conversion of land to non-agricultural uses within the Agricultural District;
- b. Provide a buffer to discourage encroachment into the Agricultural District;
- c. Consolidate and protect areas of agricultural land; and
- d. Protect agricultural lands located outside the Agricultural District that are under increased pressure of development.

#### The secondary PDR Program emphases will be:

- a. Reduce conversion of land to non-forestry uses within the Forestry Districts;
- b. Provide a buffer to encroachment of the Forestry Districts;
- c. Consolidate and protect areas of forestry land;

- d. Address commercially significant forestry lands outside the Forestry Districts that are under pressure of development.
- e. Protect areas of ecological importance and support and enhance ecosystem functions within agricultural and forestry lands;
- h. Improve and support habitat connectivity and protection of critical habitat corridors.

## 2. Offer Effective Program Design

Maintain a voluntary tool for the preservation of productive agricultural and forestry lands, as well as areas of ecological importance in the County that will:

- a. Provide farmers and foresters with the market based economic value for agricultural and forestry land without selling the land;
- b. Provide property owners with the market based economic value for areas of ecological importance without selling the land.
- c. Support and promote ongoing agricultural and forestry activities by offering an attractive option for farmers, foresters, and landowners;
- d. Support and promote ecosystem function by offering an attractive option for landowners; and
- e. Provide for ongoing monitoring and enforcement.

### 3. Leverage Program Impact and Efficiency

Enhance and support a coordinated approach to the preservation of the agricultural and forestry lands, as well as areas of ecological importance that will:

- a. Create community support for agricultural and forestry preservation initiatives;
- b. Create community support for the protection of areas of ecological importance;
- c. Complement and foster other County programs and policies to preserve farming and agricultural lands;
- d. Complement and foster other County programs and policies to preserve forestry and forestry lands;
- e. Complement and foster other County programs and policies to enhance ecosystem function and protect areas of ecological importance; and
- c. Leverage other public and private funding sources and provide or increase property owner incentives and program effectiveness.

#### A. Priority Consideration

Areas around the county have been identified to receive priority consideration for PDR Program participation.

Agricultural priority areas (Appendix A) include a combination of the twelve initial PDR Target Areas, Ten Rural Study Areas, Watershed Improvement District areas, in addition to the lands within the Agriculture Zone. Preservation of these areas protect designated agricultural lands and can establish a perimeter of PDR farmlands to protect against development encroachment into large blocks of agricultural lands. These lands, due to their soils, land use, and proximity to core agricultural areas, are deemed priority farmlands for program participation due to their vulnerability for conversion to non-agricultural uses.

Forestry priority areas (Appendix B) include lands located within the Rural Forestry zone and areas designated by the Washington State Department of Natural Resources as being priority for protection from conversion under Washington's Forest Action Plan.

Ecological priority areas (Appendix C) include lands containing a mapped Habitat Conservation Area or within 165' of habitat conservation feature. This includes fish bearing streams, areas identified under the Washington State Department of Fish and Wildlife's Priority Habitats and Species, and the Chuckanut Wildlife Corridor. Additionally the mapped FEMA Floodplain and Flood Hazard areas have been included in addition to a 300' buffer of the Historic Meander Zone.

#### B. PDR Program Eligibility

Two factors will be important in determining eligibility:

- 1. Availability of funding to expand the program and
- 2. Advancement of PDR Program objectives. Priority lands will continue to receive preference over other lands through weighted selection criteria.

All applicants for PDR Program participation must be within an Agriculture, Rural, Rural Residential, or Rural Forestry zoning designations. Properties located in Urban Growth Areas are ineligible to participate in the program, unless coordination with cities is a component of an application.

Applications received on parcels smaller than 10 acres may not retain any development rights.

All valid applications will be reviewed to determine if the acquisition of development rights will promote the PDR program's goals and priorities. Selection criteria have been developed to guide, but not control, the review and assessment of eligible properties during selection.

Valid and accepted offers on eligible properties of greater points shall be considered for purchase with available funds before properties receiving lower scores. The criteria, which will be used to evaluate the applications, are outlined below.

Rating instructions: The selection criteria allow for a score of up to 100, with all five criteria sections assessed. Each criteria section is rated and assigned a point value. Then each section is assigned a weight factor. The five weight factors add up to 1.0. When total point values for a section are multiplied by the weight factor, a score will be reached for that section. The total of the 5 section scores result in the final applicant score. Staff performs the ranking, with review and adjustment by the PDR Oversight Committee.

### 1. Site Evaluation

The points for each criteria are based on a 100 point scale. Higher points are given to site characteristics that are more desirable, such as parcel size, characteristics that reflect a site's threat of conversion, and characteristics that make a site more desirable to farming, such as available water rights.

A. Total size of parcel(s) (nominal acres)

a. 0 – 10	0 points
b. 10 – 20	15 points
c. 20-49.9	30 points
d. 50-79.9	
e. >80	

B. Number of existing development rights offered under current zoning

a. 1-2	20 points
b. 3	40 points
c. 4	60 points
d. 5	80 points
e. >/=6	100 points

C. Adjacent land is conserved by easement or other means (Whatcom Land Trust, NRCS CREP Program, or owned by a municipality or NGO)

a. >1 mile	0 points
b. ½ to 1 mile	. 25 points
c. $\frac{1}{4}$ to $\frac{1}{2}$ mile	.50 points

d. < ¼ mile	75 points
e. Adjacent	

D. Percent of parcel actively farmed

a. 0-25%	. 25 points
b. 26-50%	
c. 51-75%	75 points
d. >75%	.100 points

E. Number of legal lots of record

a. 0-2	20 pts
b. 3	
c. 4	60 pts
d. 5	80 pts
e. >/= 6	100 pts

F. Legal water availability documentation

a. Certified Water Right/Access to public water	100 pts
b. Water Claim or documented water use	50 pts
c. No Water documentation or legal water access	0 pts

#### G. Proximity to major roads or road intersections

(For purposes of this evaluation, "major roads" means roads with a daily traffic volume of 3,000 or more trips. A list of roads currently meeting this definition is *included as Appendix D to this report.*)

a)	Property is at an intersection of major roads	100	) Points
b)	Property is within 1,500 feet of the intersection		
	of two major roads	75	Points
c)	Property fronts on a major road	50	Points
d)	Property is within 2,500 feet of a major road	25	Points
T1 ( C			
1 hreat of	Conversion/Parcelization		

#### H. Threat of Conversion/Parcelization

Total Number of Parcels in surrounding <sup>1</sup> / <sub>4</sub> mile	
a) Less than 20 parcels	50 Points
b) 20 – 50 parcels	100 Points
c) 50 – 100 parcels	50 Points
d) more than 100 parcels	

Once a point value for the section is determined, it is multiplied by a weight factor to indicate the importance (weighted factor for Site Evaluation section has been 0.35, but is subject to ongoing review by the Committee).

### 2. Land Evaluation

Productive farming, forestry and associated activities depend on soil capability (the suitability of soils for most types of field crops and/or timber production). Therefore, emphasis should be placed on the property's soil characteristics. The scoring system uses the NRCS Prime Farmland classifications, LESA classifications and APO soils classifications, including classification of soils of statewide importance as well as consideration given to site index score for forest soils. Highest points are assigned to better agricultural soils and lower points to poorer agricultural soils. Forest soils also receive additional points. Points are assigned based on the productivity and/or characteristics of the soil (profile, texture, slope, other). A soils chart is included as Appendix D. If a soil has a site index rating and a prime soil rating, the rating with the highest number of points will be applied.

LESA Rating	APO or Non-APO Prime 1	Non-APO - Prime 2-8	Soils of Statewide Importance	Site Index
	100	90	0	0
2	95	85	0	0
3	90	80	0	0
4	85	75	0	0
No Rating	80	70	50	0
Site Index Rating				
	0	0	0	60
2	0	0	0	50
3	0	0	0	40
4	0	0	0	30
5	0	0	0	20

Below is a table detailing the soil point system:

Farm applications receive points for this section proportional to the percentage of each soil type that exists on the property. An example of how this would work follows: A farm under review is 40 acres, of which 29.79 acres (about 75%) is soil 179-Whatcom Silt Loam 4-9% slopes, which is classified as LESA 4, APO Prime 1; and 10.21 acres (about 25%) is soil 180-Whatcom Silt Loam 9-15% slopes, which is not classified as APO or Prime, but is a soil of Statewide Importance. This farm would score a total of 76.07 points for this Section, as shown:

Α	B	С	D	E	F	G	H	I	J	К
Soil #	Area (in acres)	% (B/Total area)	APO Soil	Prime 1-6?	LESA Rating	Prime Rating	Statewide Soil	Site Index	Points	score (J*C)
179	29.79	74.48%	Y	Y	4	1	0	2	85	63.30
180	10.21	25.53%	N	N	0	0	yes	2	50	12.76
Total area	40									76.07

Once a point value for the section is determined, it is multiplied by a weight factor to indicate the importance (weighted factor for Land Evaluation section has been 0.35, but is subject to ongoing review by the Committee).

#### **3.** Ecological Evaluation

The Washington State Department of Ecology Watershed Characterization report has identified recommendations for addressing water flow processes within sub-watersheds.

A.	Protection (Overall importance to Water flow processes)	
	a. Highest protection	100 pts
	b. Protection	
	c. Protection/Restoration	
	d. Conservation (no change)	
B.	Water Flow Restoration ~ Is property owner willing to restore ecosystem proceedey ond the minimum required practices? a. Yes b. Maybe/No	50 pts
C.	Site contains conservation values (viewsheds, wetlands, notable wildlife habita critical areas)	it, other

a. Yes	50 pts
b. No	0 pts

Once a point value for the section is determined, it is multiplied by a weight factor to indicate the importance (weighted factor for Ecological Evaluation section has been 0.10, but is subject to ongoing review by the Committee).

#### 4. Special Considerations

A.	040	ntains heritage/historical significance, i.e. Heritage Barn Registry	50 /
	1. 2.	Yes No	.50  pts
B.	1. 2. 3.	n Sale Opportunity below market value 91%-Full Value. 71%-90% 50%-70% < 50% Full Value.	. 0 pts 33 pts 66 pts
C.	1. All r	al of all remaining development rights? emoved elopment rights remaining	
D.	a. Iı	ed within a priority area : n priority area Not in a priority area	. 100 pts 0 pts

Once a point value for the section is determined, it is multiplied by a weight factor to indicate the importance (weighted factor for Special Considerations Points section has been 0.10, but is subject to ongoing review by the Committee).

#### 5. Matching Funds Secured

1.	100% secured	100 pts
2.	75% secured	75 pts
3.	50% secured	50 pts
4.	25% secured	25 pts
5.	0% secured	0pts

Once a point value for the section is determined, it is multiplied by a weight factor to indicate the importance (weighted factor for Bonus Points section has been 0.10, but is subject to ongoing review by the Committee).

#### 6. Final Score

The points for each section are added up and multiplied by a weight factor, which indicates the importance that is placed on a particular characteristic. The weighted scores are then added to provide an overall score (0-100). The higher the score, the more closely the property meets the goals of the program and hence is a higher priority for purchase and preservation. Properties which score less than 40 (forty) points will not be recommended for program participation. The PDR Oversight Committee retains the ability to add or subtract up to 5 points on any application. A write-up of committee opinion will be included in all council proceedings.

## V. OVERVIEW OF PDR PROGRAM PROCEDURES

#### A. Outreach and Publicity

Step 1: The County shall annually give notice in one newspaper of general circulation in each area where eligible lands are located which may be acquired. The notice shall include the properties eligible to participate, the application process and applicable timeframes and extensions.

The Administrator may identify each property with potential development rights within priority consideration areas and provide written notification to the property owners.

#### B. Application and Ranking

- Step 2: Voluntary pre-application screening. Interested property owners may meet with the County PDR Program Administrator (Administrator) to review their eligibility and special circumstances, if any.
- Step 3: Application. An owner of land eligible for PDR Program participation submits and application for County acquisition of property or development rights. The application must be submitted on the form provided by the County. Lot of Record application must be submitted simultaneously unless determination has already been completed.
- Step 4: Lot of Record/Density Determination. An owner of land eligible for PDR Program participation submits a Lot of Record application and signs a Letter of Intent that states that payment for this service must be made upon closing of the easement or should the applicant wish to withdraw their application. This application determines legal status of lots being considered and determines that number of development rights remaining on said lots. PDR Program application may be submitted simultaneously.
- Step 5: The Administrator reviews each application for completeness, determines if the subject property meets minimum eligibility criteria and assigns a preliminary score based upon the PDR site selection criteria.
- Step 6: The PDR Oversight Committee reviews PDR Program applications and recommends proposed development rights acquisition utilizing the selection criteria. Recommendations for development right acquisition are prepared and forwarded to County Council to approve, deny, or recommend modification.
- Step 7: The Administrator estimates the number of appraisals that can be initiated based on available funds and chooses the top ranked parcels from the County Council's list of parcels. The property owner is notified in writing of eligibility status.

- Step 8: Property owners disputing their ranking may request a reconsideration of their ranking to the PDR Oversight Committee within 14 days after receiving written notice. The Committee shall review the reconsideration request at the next regularly scheduled meeting. Special consideration will be given if applicant modifies the original offer to include a bargain sale. The PDR Oversight Committee may, at its discretion, change the site's rank, recommend the site for subsequent consideration, or deny the request.
- C. Title
- Step 9: The Administrator initiates a title search. Closing is conditioned on the resolution of all unapproved title exceptions, within the County's sole discretion, which may require the receipt of subordination agreements or payoff letter.
- D. Pricing Estimate and Appraisal
- Step 10: The Administrator or designee provides preliminary estimate of value, and notifies the property owner of an estimated range of value within which the appraisal will likely fall. The Administrator or designee sends the applicant a letter of intent, including range of expected value. The letter calls for the signature of property owner(s), and spells out conditions under which costs for further due diligence and the lot of record must be reimbursed to the county if the property owner chooses to withdraw from the program within a specified period of time.
- Step 10: The Administrator or designee proceeds to verify assumptions through official county processes, such as a formal Lot of Record and density determination, and conduct other due diligence as necessary (such as water rights research and Title research and clearing).
- Step 11: Unless Council and the Executive specifically authorize an alternate approach to determine value, the Administrator commissions a full appraisal by a County authorized appraiser to appraise the development rights value of the land proposed for development rights sale. The development rights value is the difference between the market value of full ownership of the land, and the agricultural value.
- Step 12: The appraiser submits the completed appraisal (or the alternate determination of value is conducted and submitted) to the Administrator and the Oversight Committee for their review.
- Step 13: The Administrator or designee meets with the property owner to review the appraisal (or alternate determination of value), state the offer, review the conservation easement provisions, agreement terms and conditions, and to answer the property owner's questions.
- Step 14: If the property owner believes that the land has not been adequately appraised or valued, the owner may, within the time allowed in the schedule, commission an appraisal at the owner's expense.

- E. Offer to Purchase Easement and Agreement
- Step 15: A written offer to purchase development rights based on appraised or determined value is made to the property owner following budget authorization by the County Council, and approval by the County Executive.
- Step 16: Within 30 days, the property owner accepts, rejects or makes a counter offer. Counter offers will be reviewed and evaluated by the Oversight Committee and the County's authorized appraiser.
- Step 17: Property owners desiring to sell their development rights sign a Purchase and Sale Agreement.
- F. Adjacent Property Owner Notification
- Step 18: Neighboring property owners are notified that adjacent land is in the process of being preserved.
- G. Approval
- Step 19: Review materials are presented to the County Executive for review and approval, rejection, or recommendation for modification.
- Step 20: Review materials are sent to other participating entities for partially or wholly funded conservation easements several days prior to any deadline.
- I. Settlement
- Step 21: Settlement will occur following County Executive approval of transaction terms and is contingent upon a title search and any other evidence, such as a land survey, that may be necessary to establish clear title.
- Step 22: Payment will be in full at time of settlement unless the County and property owner agree to an installment sale.
- Step 23: Checks are requested from the Finance Manager and settlement is scheduled within a week or two of approval. Federal or state money is dispersed according to federal or state regulation.
- J. Recording
- Step 24: The conservation easement will be recorded at the County Auditor's office. The County or its designee will monitor the properties under easement at least annually to ensure compliance with the easement.

#### A. Description

A conservation easement deed is a legally binding document, which is recorded by the County Auditor, forever restricting the property to agricultural and directly associated uses, and for which compensation may be paid. As an easement in gross in perpetuity, restrictions are binding upon the owner and future owners, and run with the land.

#### B. PDR Program Conservation Easements

At the time of acquisition of development rights from a participating property, a conservation easement is placed on the property permanently restricting development of the site and protecting/preserving the agricultural, forestry, and ecological values associated with the site. The conservation easement must be signed by both the property owner(s) and the County Executive or his/her designee and recorded with the property records for the property. A model conservation easement deed is included in these guidelines as attachment D.

#### 1. Conservation Easement Requirements

Conservation easements shall be on a form approved by the Whatcom County Prosecuting Attorney and shall meet the following basic requirements:

- a. The deed shall be in recordable form and contain an accurate legal description setting forth the metes and bounds of the area subject to the easement;
- b. Restriction is granted in favor of Whatcom County, or if designated by the organizations as defined in RCW64.04.130;
- c. Restriction is granted in perpetuity, and shall bind existing and future property owners; and
- d. Unless specifically provided for, nothing in the restrictions shall be construed to convey to the public a right of access or use of the property, and the owner of the property, his/her heirs, successors and assigns shall retain exclusive right to such access or use subject to the terms of the easement.

#### 2. Filing

After the conservation easement is signed and notarized, it must be recorded with the Whatcom County Auditor's Office.

#### C. Conservation Easement Conveyance

Conservation easements may be either donated or sold, or a combination of both.

- 1. Conservation Easement Donation
  - a. A donation of a total parcel will not be subject to eligibility except as below in section c. Partial parcel donation shall be considered under the same rule as for development rights sales. Notwithstanding the eligibility of the property, acceptance of a fee interest or partial donation is within the discretion of the County Council.
  - b. Whatcom County will accept voluntary donations or bequests of development rights as perpetual easements in gross if meeting eligibility criteria (except priority area criteria) and within the discretion of the County Council.
  - c. All properties offered for development rights donation must meet the following minimum eligibility criteria:
    - 1. The PDR Oversight Committee will consider each offer on a case by-case basis, considering the property's consistency with current and future land uses, and
    - 2. The property must be at least 1 acre in size, and
    - 3. Be in agricultural or forestry use or contain ecological values and has not been irrevocably devoted to a use inconsistent with the above values,
    - 4. Cannot be located within an Urban Growth Area, unless coordination with the proximal small city is a component of the donation.
- 2. Conservation Easement Sale
  - a. Whatcom County will purchase perpetual conservation easements on qualified properties in accordance with the policies and procedures of the Whatcom County Agricultural, Forestry, and Ecological Purchase of Development Rights Program, with Federal, State, County, and/or private funds and any combination thereof.
  - b. All properties offered for conservation easement sale must meet minimum eligibility criteria as contained in Section III.

# VII. OPERATIONAL PROCEDURES FOR ACQUIRING PDR EASEMENTS

#### A. Outreach and Publicity

Annually, notice shall be published in one newspaper of general circulation. Application opening and closing dates, if any, will be determined by the PDR Oversight Committee. The Committee shall have the discretion to consider applications in rounds, or individually on a rolling basis. If selection deadlines are extended, the committee will provide public notice of the extension.

#### B. Application and Ranking

- 1. Property owner(s) voluntarily submits an application(s) to the County. The application must be submitted to the County on the form provided by the PDR Program, and according to the relevant public notice. Applicants are to include at a minimum:
  - a. Name(s) and address(es) of the property owner(s) of the site;
  - b. Legal description and parcel number(s);
  - c. Copy of the property deed and title;
  - d. Total acreage of farmland to be included in the PDR Program;
  - e. Current land use and soils;
  - f. Number of dwelling units;
  - g. Description of the farming operation;
  - h. Other information necessary to evaluate property eligibility;
  - i. Lot of Record/Density Determination application and payment, or Lot of Record/Density Determination application and signed Letter of Intent agreeing to terms of payment at the time of easement closing or upon withdrawal from program, or completed Lot of Record/Density Determination; and
  - j. Acknowledgement of intent to grant to Whatcom County a conservation easement in a form provided by the County.
- 2. The Administrator shall review each application to determine completeness and eligibility.
- 3. Applications meeting all minimum eligibility criteria shall be evaluated and scored by the administrator and Oversight Committee according to the site selection criteria. (See Section IV)
- 4. The PDR Oversight Committee shall provide the County Council with information and scoring of properties recommended for conservation easement acquisition by the committee. County Council shall approve or deny pursuit of conservation easement acquisitions on the parcels.

- 5. The Administrator shall then arrange appraisals (or alternate determination of value) of eligible applicant properties as determined by the County Council.
- 6. The PDR Oversight Committee and Administrator shall provide updates to the County Council discussing recommended purchases, possible program changes, and anticipated budget needs.
- C. Appraisal
  - 1. Appraisals for eligible properties shall be conducted to determine the value of development rights of parcels in the order of acquisition priority until acquisition funds are expended.
    - a. The appraisals are to be made by an independent appraiser qualified to appraise agricultural, forestry, and/or ecological land for development rights purchases. An appraiser is deemed qualified if he or she possesses a State of Washington certification as a State Certified General Real appraiser, MAI designation by the Appraisal Institute (or equivalent), and at least five years agricultural lands appraisal experience. Appraisers shall supply a narrative or UAAR form report, which contains information as required by the Uniform Standards of Professional Appraisal Practice (USPAP), Uniform Appriasal Standards of Federal Land Acquisition (UASFLA) and as specified in any contract with the County.
    - b. An appraisal report is an objective report of market facts. The appraisal report must estimate both the unrestricted fee market value of the land only, excluding the value of buildings, and the agricultural value of the land only, of which the difference is the development rights value.
    - c. Both values shall be based primarily on an analysis of comparable sales. If comparable sales data is not available for agricultural lands, the appraiser may use local farmland rental values or capitalized production values to determine the agricultural values of the land.
    - d. A description of the buildings or other improvements shall appear in the appraisal report; however, the buildings will not be valued and therefore will not be considered in determining the development rights value.
    - e. The appraiser shall report whether the subject property has any land use restrictions, public or private and/or physical attributes, which limit the developmental capability of the land.
    - f. The appraiser shall be advised that conservation easements are perpetual. The perpetual nature of the easement shall take precedent over any agricultural zoning status.
    - g. The appraisal shall be in writing and may be discussed with the owners prior to the submission of written offers.

- h. If the property owner believes the property has not been adequately appraised, the owner may, within the time allotted, request that a review appraisal be made at the owner's expense. This appraisal must be completed in accordance with the guidelines set forth herein. If the review (owner's) appraisal is not completed within the allotted time, the application will be delayed for future committee consideration. If a review appraisal is completed, the appraisals will be reviewed by the County's Appraiser. The County's Appraiser in consultation with the Program Administrator and the PDR Oversight Committee will accept, modify or reject the review appraisal. The determination of the County's Appraiser is final.
- i. The maximum value of development rights purchased by the County shall be no more than the easement value contained in an appraisal report. The easement value is the difference between the farmland's value before and after the voluntary conservation easement.
- 2. Council and the Executive may specifically authorize an alternate approach to determine value in accordance with state and local laws, in which case the conditions of that approach would substitute for the appraisal guidelines as set forth in C.1., above.
- D. Title and Survey Issues
  - 1. The Administrator shall request a title report confirming that applicant is the owner of the property and has unrestricted legal right to transfer the development rights (i.e. there must be clear title to transfer the property). The title report will be provided to the County Attorney for review.
  - 2. All encumbrances (including but not limited to: liens, mortgages and judgments) against the property must be subordinated, satisfied or removed prior to development rights acquisition. Mortgage and/or lien holder subordination and releases may be required acknowledging that a conservation easement will be placed on the property and subordinating their interest in the property to the deed restriction.
  - 3. At settlement for a County or joint development rights purchase, the PDR Oversight Committee or applicant shall provide a title insurance policy issued by a title insurance company authorized to conduct business in Washington State by the Washington State Office of Insurance Commissioner. The cost of such title insurance shall be a shared cost, with the county's portion considered a cost incident to the development rights purchase and a reimbursable expense from the County's Conservation Futures Fund.
  - 4. It is the property owner's responsibility to survey (or provide a legal description that meets specific standards) any exceptions from the easement and any graveyards or cellular towers that may be located on the property. It is the property owner's responsibility to provide a legal description for any commercial

operation on the farm that is not incidental to the overall farming operation, in order to exclude it from the easement. Surveys shall be conducted by a licensed surveyor in accordance with state and federal regulations.

- E. Development Rights Value and Purchase Price
  - 1. The maximum value of development rights purchased by the County shall be no more than the easement value contained in an appraisal report. The easement value is the difference between the land's value before and after the voluntary conservation easement.
  - 2. Development rights may only be purchased in perpetuity.
- F. Recommendation of Development Rights Purchases by the PDR Oversight Committee
  - 1. The PDR Oversight Committee, in making recommendations concerning applications and purchase offers, shall consider the following:
    - a. Evaluation according to the site selection criteria
    - b. Consistency with County Comprehensive
    - c. Cost relative to total allocations and appropriations
    - d. Proximity to other land subject to protection easements
  - 2. Upon receiving the recommendations of the PDR Oversight Committee and the Administrator, the County Executive shall review the recommendations and shall take final action to authorize or deny proposed purchase terms and offers, consistent with authorization by the County Council.
  - 3. If a property is approved for development rights purchase, the Administrator will meet with the property owner and review the terms, conditions and amount of the County's offer. A written offer will be provided to the property owner. Written notice shall also be provided to land not approved for development rights purchase.
  - 4. Within 30 days of receipt of a written offer from the County an applicant must indicate in writing which of the following actions they intend to pursue:
    - a. Accept the offer.
    - b. Reject the offer.
      - 1. Reject offer outright
        - a. no further action
        - b. participate in future review
      - 2. Submit a counter offer within 90 days of written notice of offer by the County.
    - c. Failure to notify the County within 30 days shall constitute rejection of the offer.

- 5. If the offer is accepted, the Administrator shall prepare a Purchase and Sale agreement. USDA or State Funds must be paid as lump sum. The method of payment shall be specified from the options listed below:
  - a. Lump Sum
  - b. Installment Purchase Agreement (IPA)
  - c. Like-Kind Exchange
  - d. Or a combination of the above
- 6. For development rights purchase utilizing the Installment Purchase Agreement (IPA) program, the County Council at settlement shall provide an opinion of legal counsel that the County's obligations to make installment payments of principal and tax-exempt interest over time are legal, valid, and binding. And that such payments are a general obligation of the County for which its full faith, credit, and taxing power are pledged. Interest paid by the County is exempt from federal income taxes.
- 7. All Agreements of Sale and Conservation Easements require the County Council's approval.
- G. Grant of the Agricultural, Forestry, and/or Ecological Protection Conservation Easement

Before the purchase of development rights can be finalized, a conservation easement in a form approved by the County Attorney and consistent with the policies of the PDR Program Guidelines, must be placed on the property permanently restricting development of the site and preserving its agricultural, forestry and/or ecological values.

The principal interest of the County is to ensure that lands are preserved and subsequently stewarded in a manner that maintains and enhances their farmland, forestland, and/or ecological values. There may be some instances where there is a public interest in another public entity or non-profit organization to hold the conservation easement, for continued stewardship and protection of the land. The County will consider:

- 1. The preferences of the donor or seller;
- 2. Administrative, monitoring, and enforcement issues associated with the conservation easement and the resources available to address these issues;
- 3. Requirement of Federal, State or County funding sources utilized to purchase development rights.

#### H. Development Rights Purchase Recommendations/Submission Requirements

1. County Council: Each recommendation for development rights purchases with County funds, State funds, Federal funds, private donor funds or a combination of funds shall be presented to the County Council at a regularly scheduled public meeting.

2. Letters of Notification: Letters of notification for development rights purchases will be sent to adjoining property owners by the Administrator.

## A. Intent

This fund was established in 1992 to be used solely to acquire right and interests in open space land, farm and agricultural land, and timber land, so as to protect, preserve, maintain, improve, restore, limit the future use of, or otherwise conserve the property for public use and enjoyment.

## B. Fund Sources

This Conservation Futures Fund is funded by a real property tax applied to all real property within Whatcom County at a rate determined by the county administration and county council.

## C. Fund Source Accounts

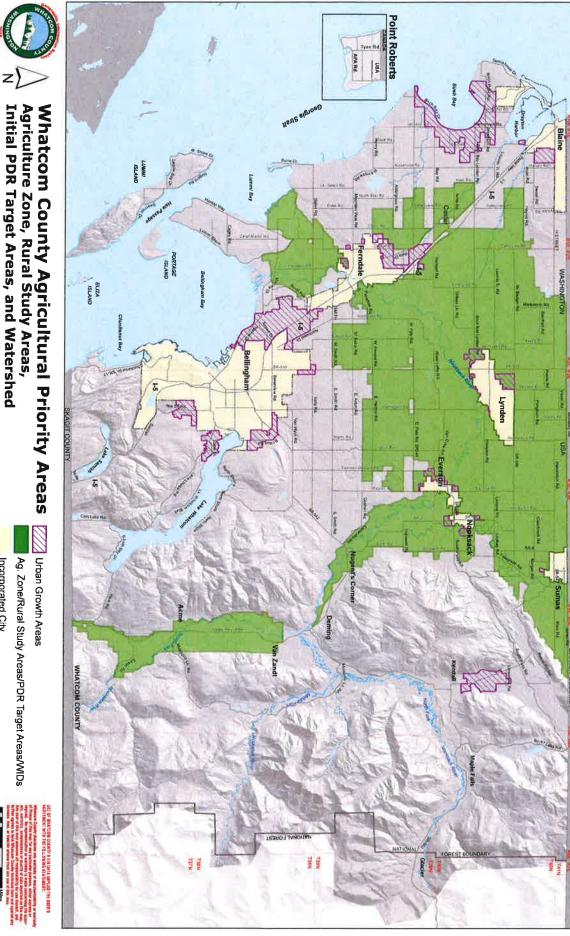

Council shall annually consider an allocation of Conservation Futures Fund to be placed in a Purchase of Development Rights Account.

## D. Installment Payment Fund

- 1. The intent of installment payment funds, which are established by the County, is to encumber and invest committed funds for which recipient property owners have elected annual installment payments for a period, which may vary according to the wishes of the property owner.
- 2. The full consideration of any transaction for which installment payments of five years or less have been elected shall be placed in the fund, less the amount of any first installment to be paid at settlement. This amount shall be invested and annual installment payments shall include the interest accrued.
- 3. Annual installment payments shall be made on or before January 20<sup>th</sup> of each year.
- 4. A property owner may enter into an Installment Purchase Agreement for fifteen (15) to thirty (30) years at an interest rate to be negotiated between the property owner and the County. The property owner will receive semi-annual interest payments that are tax exempt. Principal will be paid in one lump sum at the end of term. The property owner will also receive a security representing the Installment Purchase Agreement. The property owner may sell or assign this Agreement.

## E. Public Expenditures

- 1. All public expenditures from the Conservation Futures Fund are subject to approval by Whatcom County Council and will be made in accordance with approved disbursement procedures.
- 2. Expenditures from the PDR Program Account shall be limited to interests in qualified agricultural, forestry, and/or ecological land participating in Whatcom County's Agricultural, Forestry, and Ecological Purchase of Development Rights Program, and other expenses necessary to the acquisition of conservation easements authorized under RCW 84.34.200-.240.
- 3. The annual appropriation to the PDR Program by the County Council shall be available for the calendar year in which the appropriation was made and or the subsequent calendar year.

### I. INTRODUCTION

These Program Guidelines are authorized under WCC Title 3.25A and serve as rules and procedures for administering the Whatcom County Agricultural. Forestry, and Ecological Purchase of Development Rights (PDR) Program.

The Guidelines serve two functions:

- A. To provide an overview of the farmlandland preservation process for the property owner. Specifically, this information can be found in Section V.
  - B. To establish the rules and operational procedures that the PDR Oversight Committee and the Administrator must follow when operating a Purchase of Development Rights program.

Revised and adopted, April 9, 2013

Page 1

## **II. -PDR PROGRAM OBJECTIVE AND PRINCIPLES**

Responding to the loss of County farmland, the Whatcom County Executive initiated the development of a Purchase of Development Rights (PDR) program in September of 2001. \_A PDR Advisory Committee comprised of farmers, citizens and conservation organizations was instructed to assist formed and tasked with assisting County staff in development development of a proposal for County Council consideration. The Purchase of Development Rights Program was enacted through Ordinance 2002-054 in September of 2002.

Since that time Whatcom County continues to experience a rapid development rate. Responding to the continued loss of agricultural land and of other land types such as forest resource lands and areas of ecological importance, these program guidelines have been updated accordingly.

### A. Objective

In conjunction with other tools for protecting farmland. The primary objective of the Whatcom County Purchase of Development Rights Program, in conjunction with other tools, is the protection of farmland. The secondary objective of the PDR Program is the protection of forestland and areas of ecological importance. The Whatcom County Purchase of Development Rights Program will contributehelp to sustainingsustain the farming enterprise inand forestry enterprises as well as support healthy ecosystem function throughout Whatcom County.

### **B. Principles**

The PDR Program is to provide provides a strategic tool to protect critically located County farmland, forestland, and areas of ecological importance.

### 1. Contribute to the Preservation of Preserve the County's Agricultural Land Baselands, Forestlands and Areas of Ecological Importance

Encourage the <u>retentionprotection</u> of a critical mass of agricultural <u>and forestry</u> land to sustain the farm-related <u>and forestry-related</u> businesses and activities that are necessary to support the agricultural <u>industryand forestry industries</u> in Whatcom County. <u>Additionally the Program will encourage the protection of</u> <u>areas of ecological importance necessary to sustain ecosystem health and function</u>.

#### The primary PDR Program emphasis will be:

- a. Reduce conversion of land to non-agricultural uses within the Agricultural District;
- <u>b.</u> Provide a buffer to <u>discourage</u> encroachment <u>of into</u> the <u>agricultural</u> <u>eoreAgricultural District;</u>
- b. Reduce development potential within the agricultural core;
- c. Consolidate and protect large areas of agricultural land; and
- d. Address unique and regionally important farming activities <u>Protect</u> agricultural lands located outside the <u>agricultural core</u>Agricultural District that are under increased pressure of development.

The secondary PDR Program emphasis will be:

- <u>a.</u> Reduce conversion of land to non-forestry uses within the Forestry <u>Districts;</u>
- Provide a buffer to encroachment of the Forestry Districts;
- c. Consolidate and protect areas of forestry land;
- d. Address commercially significant forestry lands outside the Forestry Districts that are under pressure of development.
- e. Protect areas of ecological importance and support and enhance ecosystem functions within agricultural and forestry lands:
- h. Improve and support habitat connectivity and protection of critical habitat corridors.
- 2. Offer Effective Program Design

Maintain a voluntary tool for the preservation of productive agricultural landand forestry lands, as well as areas of ecological importance in the County that will:

- a. Provide farmers and foresters with the market based economic value for agricultural and forestry land without selling the land;
- bb. Provide property owners with the market based economic value for areas of ecological importance without selling the land.
- c. Support and promote ongoing agricultural activity and forestry activities by offering an attractive option for farmers, foresters, and landowners; and
- ed. Support and promote ecosystem function by offering an attractive option for landowners; and
- e. Provide for ongoing monitoring and enforcement.
- 3. Leverage Program Impact and Efficiency

Enhance and support a coordinated approach to the preservation of the agricultural landand forestry lands, as well as areas of ecological importance that will:

- a. Create community support for agricultural <u>and forestry</u> preservation initiatives;
- bb. Create community support for the protection of areas of ecological importance;
- <u>c</u>. Complement and foster other County programs and policies to preserve farming and agricultural lands; and
- <u>Complement and foster other County programs and policies to preserve</u> forestry and forestry lands;
- Complement and foster other County programs and policies to enhance ecosystem function and protect areas of ecological importance; and
- Leverage other public and private <u>fundfunding</u> sources and provide or increase property owner incentives<u>and program effectiveness</u>.

## **III.- ELIGIBILITY CRITERIA**

### A. Priority Consideration

Areas around the county have been identified to receive priority consideration for PDR Program participation.

TwelveAgricultural priority areas (Appendix A) include a combination of the twelve initial PDR Target Areas (shown in Appendix A) are priority farmlands that are located within designated areas of Everson, Beard Road, Ten Mile Road, east Hemmi Road, Laurel, south Custer, north Custer, Stein Road, west Lynden, north Lynden and northeast Lynden.Rural Study Areas, Watershed Improvement District areas, in addition to the lands within the Agriculture Zone. Preservation of these areas protect designated agricultural lands and can establish a perimeter of PDR farmlands to protect against development encroachment into large blocks of agricultural lands.

Ten Rural Study Areas (shown in Appendix B) are priority farmlands that are located in Rural-zoned areas of Guide/Aldrich, Grandview, Ten Mile, Loomis Trail, Custer, Harksell, East Badger, Minaker, Lawrence, and South Fork. These lands, due to their soils, land use, and proximity to core agricultural areas, are also deemed priority farmlands for program participation.

In addition, the lands zoned Agricultural in Whatcom County are also priority farmlands due to their vulnerability for program participation. Lands immediately adjacent to Ag lands or Rural Study Area lands will also be given priority through the selection processconversion to non-agricultural uses.

Forestry priority areas (Appendix B) include lands located within the Rural Forestry zone and areas designated by the Washington State Department of Natural Resources as being priority for protection from conversion under Washington's Forest Action Plan.

Ecological priority areas (Appendix C) include lands containing a mapped Habitat Conservation Area or within 165' of habitat conservation feature. This includes fish bearing streams, areas identified under the Washington State Department of Fish and Wildlife's Priority Habitats and Species, and the Chuckanut Wildlife Corridor, Additionally the mapped FEMA Floodplain and Flood Hazard areas have been included in addition to a 300' buffer of the Historic Meander Zone.

### B. PDR Program Eligibility

Two factors will be important in determining eligibility: **1**. Availability of funding to expand the program and **2**.

Revised and adopted, April 9, 2013

Page 4

4.2. Advancement of PDR Program objectives. Priority farmlandslands will continue to receive preference over other farmlandlands through weighted selection criteria.

All applicants for PDR Program participation must be within an Agriculture, <u>Rural</u>, <u>Rural Residential</u>, or Rural <u>Forestry</u> zoning <u>designation</u><u>designations</u>. Properties located in Urban Growth Areas are ineligible to participate in the program, <u>unless</u> <u>coordination with cities is a component of an application</u>.

Applications received on parcels smaller than 10 acres may not retain any development rights.

### **IV. SITE SELECTION CRITERIA**

All valid applications will be reviewed to determine if the acquisition of development rights will promote the PDR program's goals and priorities. Selection criteria have been developed to guide, but not control, the review and assessment of eligible properties during selection.

In all selection rounds, validValid and accepted offers on eligible properties of greater points shall be considered for purchase with available funds before properties receiving lower scores. The criteria, which will be used to evaluate the applications, are outlined below.

Rating instructions: The selection criteria allow for a score of up to 100, with all five criteria sections assessed. Each criteria section is rated and assigned a point value. Then each section is assigned a weight factor. The five weight factors add up to 1.0. When total point values for a section are multiplied by the weight factor, a score will be reached for that section. The total of the 5 section scores result in the final applicant score. Staff performs the ranking, with review and adjustment by the PDR Oversight Committee.

### 1. Site Evaluation

The points for each criteria are based on a 100 point scale. Higher points are given to site characteristics that are more desirable, such as parcel size, characteristics that reflect a site's threat of conversion, and characteristics that make a site more desirable to farming, such as available water rights.

A. Total size of parcel(s) (nominal acres)

	0 poi
b. 10 – 20	15 pc
c. 20-49.9	
d. 50-79.9	
e. >80

### 2. Land Evaluation

Productive farming, forestry and associated activities depend on soil capability (the suitability of soils for most types of field crops), and/or timber production). Therefore, emphasis should be placed on the property's soil characteristics. The scoring system uses the NRCS Prime Farmland classifications, LESA classifications and APO soils classifications, as well asincluding classification of soils of statewide importance. Higher as well as consideration given to site index score for forest soils. Highest points are assigned to better agricultural soils and lower points to poorer soils.agricultural soils. Forest soils also receive additional points. Points are also assigned based on the productivity and/or characteristics of the soil (profile, texture, slope, other). A soils chart is included as Appendix C.D. If a soil has a site index rating and a prime soil rating, the rating with the highest number of points will be applied.

LI S	A Rating	APO or Non-APO Prime 1	Non-APO - Prime 2-68	Soils of Statewide Importance	Nona <u>Site</u> Index
		100	90	0	0
1 ASIA	2	95	85	0	0
	3	90	80	0	0
	4	85	75	0	0
No	Rating	80	70	50	0
Site In	des Mating				
	1	<u>0</u>	<u>     0                               </u>	<u>0</u>	<u>60</u>
	2	<u>0</u>	<u>0</u>	<u>0</u>	<u>50</u>
	3	<u>0</u>	<u>0</u>	<u>0</u>	40
	4	<u>0</u>	<u>0</u>	<u>0</u>	<u>30</u>
	5	<u>0</u>	<u>0</u>	<u>0</u>	20

Below is a table detailing the soil point system:

Farm applications receive points for this section proportional to the percentage of each soil type that exists on the property. An example of how this would work follows: A farm under review is 40 acres, of which 29.79 acres (about 75%) is soil 179-Whatcom Silt Loam 4-9% slopes, which is classified as LESA 4, APO Prime 1; and 10.21 acres (about 25%) is soil 180-Whatcom Silt Loam 9-15% slopes, which is not classified as APO or Prime, but is a soil of Statewide Importance. This farm would score a total of 76.07 points for this Section, as shown:

Α	В	С	D	E	F	G	Н	I	J	К
Soil #	Area (in acres)	% (B/Total area)	APO Soil	Prime 1-6?	LESA Rating	Prime Rating	Statewide Soil	Site Index	Points	score ( <mark>IJ</mark> *C)
179	29.79	74.48%	Y	Y	4	1	0	2	85	63.30
180	10.21	25.53%	N	N	0	0	yes	2	50	12.76
Fotal area	40							-		76.07

Revised and adopted, April 9, 2013

Î

Once a point value for the section is determined, it is multiplied by a weight factor to indicate the importance (weighted factor for Land Evaluation section has been 0.3335, but is subject to ongoing review by the Committee).

#### Site3. Ecological Evaluation 2

The points for each criteria are based on a 100 point scale. Higher points are given to site characteristics that are more desirable, such as parcel size, characteristics that reflect a site's threat of conversion, and characteristics that make a site more desirable to farming, such as available water rights.

B. Total size of parcel(s) (nominal acres)

a. 20-49.9 30 pts

b. 50-79.9 70 pts

Once a point value for the section is determined, it is multiplied by a weight factor to indicate the importance (weighted factor for Bonus Points section has been 0.2210, but is subject to ongoing review by the Committee).

### 6. Final Score

The points for each section are added up and multiplied by a weight factor, which indicates the importance that is placed on a particular characteristic. The weighted scores are then added to provide an overall score (0-100). The higher the score, the more closely the property meets the goals of the program and hence is a higher priority for purchase and preservation. Properties which score less than 40 (forty) points will not be recommended for program participation. The PDR Oversight Committee retains the ability to add or subtract up to 5 points on any application. A write-up of committee opinion will be included in all council proceedings.

## V. OVERVIEW OF PDR PROGRAM PROCEDURES

### A. Outreach and Publicity

Step 1: The County shall annually give notice in one newspaper of general circulation in each area where eligible lands are located which may be acquired. The notice shall include the properties eligible to participate, the application process and applicable timeframes and extensions.

The Administrator may identify each property with potential development rights within priority consideration areas and provide written notification to the property owners.

### B. Application and Ranking

- Step 2: Voluntary pre-application screening. Interested property owners may meet with the County PDR Program Administrator (Administrator) to review their eligibility and special circumstances, if any.
- Step 3: Application. An owner of land eligible for PDR Program participation submits and application for County acquisition of property or development rights. The application must be submitted on the form provided by the County. Lot of Record application must be submitted simultaneously unless determination has already been completed.
- Step 4Step 4: Lot of Record/Density Determination. An owner of land eligible for PDR Program participation submits a Lot of Record application and signs a Letter of Intent that states that payment for this service must be made upon closing of the easement or should the applicant wish to withdraw their application. This application determines legal status of lots being considered and determines that number of development rights remaining on said lots. PDR Program application may be submitted simultaneously.
- <u>Step 5</u>: The Administrator reviews each application for completeness, determines if the subject property meets minimum eligibility criteria and assigns a preliminary score based upon the PDR site selection criteria.
- Step <u>56</u>: The PDR Oversight Committee reviews PDR Program applications and recommends proposed development rights acquisition utilizing the selection criteria. Recommendations for development right acquisition are prepared and forwarded to County Council to approve, deny, or recommend modification.
- Step 67: The Administrator estimates the number of appraisals that can be initiated based on available funds and chooses the top ranked parcels from the County Council's list of parcels. The property owner is notified in writing of eligibility status.

Step 78: Property owners disputing their ranking may request a reconsideration of their ranking to the PDR Oversight Committee within 14 days after receiving written notice. The Committee shall review the reconsideration request at the next regularly scheduled meeting. Special consideration will be given if applicant modifies the original offer to include a bargain sale. The PDR Oversight Committee may, at its discretion, change the site's rank, recommend the site for subsequent consideration, or deny the request.

### C. Title

Step 89: The Administrator initiates a title search. Closing is conditioned on the resolution of all unapproved title exceptions, within the County's sole discretion, which may require the receipt of subordination agreements or payoff letter.

### D. Pricing Estimate and Appraisal

- Step 910: The Administrator or designee initiates the pricing estimation process using the formula developed by a consulting appraiser and periodically updated OR aprovides preliminary estimate of value, and notifies the property owner of an estimated range of value within which the appraisal will likely fall. The Administrator or designee sends the applicant a letter of intent, including range of expected value. The letter calls for the signature of property owner(s), and spells out conditions under which costs for further due diligence and the appraisallot of record must be reimbursed to the county if the property owner chooses to withdraw from the program within a specified period of time.
- Step 10: The Administrator or designee proceeds to verify assumptions through official county processes, such as a formal Lot of Record and density determination, and conduct other due diligence as necessary (such as water rights research and Title research and clearing).
- Step 11: Unless Council and the Executive specifically authorize an alternate approach to determine value, the Administrator commissions a full appraisal by a County authorized appraiser to appraise the development rights value of the land proposed for development rights sale. The development rights value is the difference between the market value of full ownership of the land, and the agricultural value.
- Step 12: The appraiser submits the completed appraisal (or the alternate determination of value is conducted and submitted) to the Administrator and the Oversight Committee for their review.
- Step 13: The Administrator or designee meets with the property owner to review the appraisal (or alternate determination of value), state the offer, review the conservation easement provisions, agreement terms and conditions, and to answer the property owner's questions.

Step 14: If the property owner believes that the <u>farmlandland</u> has not been adequately appraised or valued, the owner may, within the time allowed in the schedule, commission an appraisal at the owner's expense.

### E. Offer to Purchase Easement and Agreement

- Step 15: A written offer to purchase development rights based on appraised or determined value is made to the property owner following budget authorization by the County Council, and approval by the County Executive.
- Step 16: Within 30 days, the property owner accepts, rejects or makes a counter offer. Counter offers will be reviewed and evaluated by the Oversight Committee and the County's authorized appraiser.
- Step 17: Property owners desiring to sell their development rights sign a Purchase and Sale Agreement.

### F. Adjacent Property Owner Notification

Step 18: Neighboring property owners are notified that adjacent land is in the process of being preserved.

#### G. Approval

- Step 19: Review materials are presented to the County Executive for review and approval, rejection, or recommendation for modification.
- Step 20: Review materials are sent to other participating entities for partially or wholly funded conservation easements several days prior to any deadline.

#### I. Settlement

- Step 21: Settlement will occur following County Executive approval of transaction terms and is contingent upon a title search and any other evidence, such as a land survey, that may be necessary to establish clear title.
- Step 22: Payment will be in full at time of settlement unless the County and property owner agree to an installment sale.
- Step 23: Checks are requested from the Finance Manager and settlement is scheduled within a week or two of approval. Federal or state money is dispersed according to federal or state regulation.

### J. Recording

Step 24: The conservation easement will be recorded at the County Auditor's office. The County or its designee will monitor the properties under easement at least annually to ensure compliance with the easement.

## **VI. CONSERVATION EASEMENTS**

#### A. Description

A conservation easement deed is a legally binding document, which is recorded by the County Auditor, forever restricting the property to agricultural and directly associated uses, and for which compensation may be paid. As an easement in gross in perpetuity, restrictions are binding upon the owner and future owners, and run with the land.

#### B. PDR Program Conservation Easements

At the time of acquisition of development rights from a participating property, a conservation easement is placed on the property permanently restricting development of the site and protecting/preserving the agricultural. forestry. and ecological values associated with the site. The conservation easement must be signed by both the property owner(s) and the County Executive or his/her designee and recorded with the property records for the property. A model conservation easement deed is included in these guidelines as attachment D.

#### 1. Conservation Easement Requirements

Conservation easements shall be on a form approved by the Whatcom County Prosecuting Attorney and shall meet the following basic requirements:

- a. The deed shall be in recordable form and contain an accurate legal description setting forth the metes and bounds of the farmland area subject to the easement;
- b. Restriction is granted in favor of Whatcom County, or if designated by the organizations as defined in RCW64.04.130;
- c. Restriction is granted in perpetuity, and shall bind existing and future property owners; and
- d. Unless specifically provided for, nothing in the restrictions shall be construed to convey to the public a right of access or use of the property, and the owner of the property, his/her heirs, successors and assigns shall retain exclusive right to such access or use subject to the terms of the easement.
- 2. Filing

After the conservation easement is signed and notarized, it must be recorded with the Whatcom County Auditor's Office.

### C. Conservation Easement Conveyance

Conservation easements may be either donated or sold, or a combination of both.

### 1. Conservation Easement Donation

- a. A donation of a total parcel will not be subject to eligibility except as below in section c. Partial parcel donation shall be considered under the same rule as for development rights sales. Notwithstanding the eligibility of the property, acceptance of a fee interest or partial donation is within the discretion of the County Council.
- b. Whatcom County will accept voluntary donations or bequests of agricultural development rights as perpetual easements in gross if meeting eligibility criteria (except priority area criteria) and within the discretion of the County Council.
- c. All properties offered for development rights donation must meet the following minimum eligibility criteria:
  - 1. The PDR Oversight Committee will consider each offer on a case by-case basis, considering the property's consistency with current and future land uses, and
  - 2. The farm property must be at least 4 acres 1 acre in size, and
  - 3. Be in agricultural <u>or forestry</u> use or <u>contain ecological values and</u> has not been irrevocably devoted to a use inconsistent with agricultural uses, and that has a high potential for returning to commercial agriculture, and the above values.
  - 4. Consist primarily of productive agricultural soils (APO soils) and,
  - 54. Cannot be located within an Urban Growth Area, <u>unless</u> coordination with the proximal small city is a component of the donation.
- 2. Conservation Easement Sale
  - a. Whatcom County will purchase perpetual conservation easements on qualified properties in accordance with the policies and procedures of the Whatcom County Agricultural. Forestry, and Ecological Purchase of Development Rights Program, with Federal, State, County, and/or private funds and any combination thereof.
  - b. All properties offered for conservation easement sale must meet minimum eligibility criteria as contained in Section III.

## VII. -OPERATIONAL PROCEDURES FOR ACQUIRING PDR EASEMENTS

### A. Outreach and Publicity

Annually, notice shall be published in one newspaper of general circulation. Application opening and closing dates, if any, will be determined by the PDR Oversight Committee. The Committee shall have the discretion to consider applications in rounds, or individually on a rolling basis. If selection deadlines are extended, the committee will provide public notice of the extension.

### B. Application and Ranking

- 1. Property owner(s) voluntarily submits an application(s) to the County. The application must be submitted to the County on the form provided by the PDR Program, and according to the relevant public notice. Applicants are to include at a minimum:
  - a. Name(s) and address(es) of the property owner(s) of the site;
  - b. Legal description and parcel number(s);
  - c. Copy of the property deed and title;
  - d. Total acreage of farmland to be included in the PDR Program;
  - e. Current land use and APO soils;
  - f. Number of dwelling units;
  - g. Description of the farming operation;
  - h. Other information necessary to evaluate property eligibility; and
  - i. Lot of Record/Density Determination application and payment, or Lot of Record/Density Determination application and signed Letter of Intent agreeing to terms of payment at the time of easement closing or upon withdrawal from program, or completed Lot of Record/Density Determination; and
  - j. Acknowledgement of intent to grant to Whatcom County a conservation easement in a form provided by the County.
- 2. The Administrator shall review each application to determine completeness and eligibility.
- 3. Applications meeting all minimum eligibility criteria shall be evaluated and scored by the administrator and Oversight Committee according to the site selection criteria. (See Section IV)
- 4. The PDR Oversight Committee shall provide the County Council with information and scoring of properties recommended for conservation easement acquisition by the committee. County Council shall approve or deny pursuit of conservation easement acquisitions on the parcels.

- 5. The Administrator shall then arrange appraisals (or alternate determination of value) of eligible farmland applicant properties as determined by the County Council.
- 6. The PDR Oversight Committee and Administrator shall provide an annual updateupdates to the County Council discussing recommended purchases, possible program changes, and anticipated budget needs.

#### C. Appraisal

- 1. Appraisals for eligible properties shall be conducted to determine the value of development rights of parcels in the order of acquisition priority until acquisition funds are expended.
  - a. The appraisals are to be made by an independent appraiser qualified to appraise agricultural, forestry, and/or ecological land for development rights purchases. An appraiser is deemed qualified if he or she possesses a State of Washington certification as a State Certified General Real appraiser, MAI designation by the Appraisal Institute (or equivalent), and at least five years agricultural lands appraisal experience. Appraisers shall supply a narrative or UAAR form report, which contains information as required by the Uniform Standards of Professional Appraisal Practice (USPAP). Uniform Appriasal Standards of Federal Land Acquisition (UASFLA) and as specified in any contract with the County.
  - b. An appraisal report is an objective report of market facts. The appraisal report must estimate both the unrestricted fee market value of the land only, excluding the value of buildings, and the agricultural value of the land only, of which the difference is the development rights value.
  - c. Both values shall be based primarily on an analysis of comparable sales. If comparable sales data is not available for agricultural lands, the appraiser may use local farmland rental values or capitalized production values to determine the agricultural values of the land.
  - d. A description of the buildings or other improvements shall appear in the appraisal report; however, the buildings will not be valued and therefore will not be considered in determining the development rights value.
  - e. The appraiser shall report whether the subject property has any land use restrictions, public or private and/or physical attributes, which limit the developmental capability of the land.
  - f. The appraiser shall be advised that conservation easements are perpetual. The perpetual nature of the easement shall take precedent over any agricultural zoning status.

- g. The appraisal shall be in writing and may be discussed with the owners prior to the submission of written offers.
- h. If the property owner believes the property has not been adequately appraised, the owner may, within the time allotted, request that a review appraisal be made at the owner's expense. This appraisal must be completed in accordance with the guidelines set forth herein. If the review (owner's) appraisal is not completed within the allotted time, the application will be delayed for future committee consideration. If a review appraisal is completed, the appraisals will be reviewed by the County's Appraiser. The County's Appraiser in consultation with the Program Administrator and the PDR Oversight Committee will accept, modify or reject the review appraisal. The determination of the County's Appraiser is final.
- i. The maximum value of development rights purchased by the County shall be no more than the easement value contained in an appraisal report. The easement value is the difference between the farmland's value before and after the voluntary conservation easement.
- 2. Council and the Executive may specifically authorize an alternate approach to determine value in accordance with state and local laws, in which case the conditions of that approach would substitute for the appraisal guidelines as set forth in C.1., above.
- D. Title and Survey Issues
  - 1. The Administrator shall request a title report confirming that applicant is the owner of the property and has unrestricted legal right to transfer the development rights (i.e. there must be clear title to transfer the property). The title report will be provided to the County Attorney for review.
  - 2. All encumbrances (including but not limited to: liens, mortgages and judgments) against the property must be subordinated, satisfied or removed prior to development rights acquisition. Mortgage and/or lien holder subordination and releases may be required acknowledging that a conservation easement will be placed on the property and subordinating their interest in the property to the deed restriction.
  - 3. At settlement for a County or joint development rights purchase, the PDR Oversight Committee or applicant shall provide a title insurance policy issued by a title insurance company authorized to conduct business in Washington State by the Washington State Office of Insurance Commissioner. The cost of such title insurance shall be a shared cost, with the county's portion considered a cost incident to the development rights purchase and a reimbursable expense from the County's Conservation Futures Fund.
  - 4. It is the property owner's responsibility to survey (or provide a legal description that meets specific standards) any exceptions from the easement and any

graveyards or cellular towers that may be located on the property. It is the property owner's responsibility to provide a legal description for any commercial operation on the farm that is not incidental to the overall farming operation, in order to exclude it from the easement. Surveys shall be conducted by a licensed surveyor in accordance with state and federal regulations.

# E. Development Rights Value and Purchase Price

- 1. The maximum value of development rights purchased by the County shall be no more than the easement value contained in an appraisal report. The easement value is the difference between the <u>farmland'sland's</u> value before and after the voluntary conservation easement.
- 2. Development rights may only be purchased in perpetuity.

# F. Recommendation of Development Rights Purchases by the PDR Oversight Committee

- 1. The PDR Oversight Committee, in making recommendations concerning applications and purchase offers, shall consider the following:
  - a. Evaluation according to the site selection criteria-
  - b. Consistency with County Comprehensive Plan (and Rural and Agriculture zoning designations).
  - c. Cost relative to total allocations and appropriations-
  - d. Proximity to other land subject to agricultural protection easements.
- 2. Upon receiving the recommendations of the PDR Oversight Committee and the Administrator, the County Executive shall review the recommendations and shall take final action to authorize or deny proposed purchase terms and offers, consistent with authorization by the County Council.
- 3. If a farmproperty is approved for development rights purchase, the Administrator will meet with the property owner and review the terms, conditions and amount of the County's offer. A written offer will be provided to the property owner. Written notice shall also be provided to farmlandland not approved for development rights purchase during the current application round.

- 4. Within 30 days of receipt of a written offer from the County an applicant must indicate in writing which of the following actions they intend to pursue:
  - a. Accept the offer.
  - b. Reject the offer.
    - 1. Reject offer outright
      - a. no further action
      - b. participate in future review
    - 2. Submit a counter offer within 90 days of written notice of offer by the County.
  - c. Failure to notify the County within 30 days shall constitute rejection of the offer.
- 5. If the offer is accepted, the Administrator shall prepare a Purchase and Sale agreement. USDA or State Funds must be paid as lump sum. The method of payment shall be specified from the options listed below:
  - a. Lump Sum
  - b. Installment Purchase Agreement (IPA)
  - c. Like-Kind Exchange
  - d. Or a combination of the above
- 6. For development rights purchase utilizing the Installment Purchase Agreement (IPA) program, the County Council at settlement shall provide an opinion of legal counsel that the County's obligations to make installment payments of principal and tax-exempt interest over time are legal, valid, and binding. And that such payments are a general obligation of the County for which its full faith, credit, and taxing power are pledged. Interest paid by the County is exempt from federal income taxes.
- 7. All Agreements of Sale and Conservation Easements require the County Council's approval.
- G. Grant of the Agricultural, Forestry, and/or Ecological Protection Conservation Easement

Before the purchase of development rights can be finalized, a conservation easement in a form approved by the County Attorney and consistent with the policies of the PDR Program Guidelines, must be placed on the property permanently restricting development of the site and preserving its agricultural, forestry and/or ecological values.

The principal interest of the County is to ensure that **agricultural** lands are preserved and subsequently stewarded in a manner that maintains and enhances their farmland, forestland, and/or ecological values. There may be some instances where there is a public interest in another public entity or non-profit organization to hold the conservation easement, for continued stewardship and protection of the land. The County will consider:

- 1. The preferences of the donor or seller;
- 2. Administrative, monitoring, and enforcement issues associated with the conservation easement and the resources available to address these issues;
- 3. Requirement of Federal, State or County funding sources utilized to purchase development rights.
- H. Development Rights Purchase Recommendations/Submission Requirements
  - 1. County Council: Each recommendation for development rights purchases with County funds, State funds, Federal funds, private donor funds or a combination of funds shall be presented to the County Council at a regularly scheduled public meeting.
  - 2. Letters of Notification: Letters of notification for development rights purchases will be sent to adjoining property owners by the Administrator.
  - 3. All eligible applications not selected for PDR Program participation may choose to be reviewed during the next application period or withdrawn. Within 30 days following receipt of written notice from the county, the property owner must notify the administrator in writing requesting review in the next selection period.

# **VIII.- CONSERVATION FUTURES FUND**

#### A. Intent

This fund was established in 1992 to be used solely to acquire right and interests in open space land, farm and agricultural land, and timber land, so as to protect, preserve, maintain, improve, restore, limit the future use of, or otherwise conserve the property for public use and enjoyment.

#### B. Fund Sources

This Conservation Futures Fund is funded by a real property tax applied to all real property within Whatcom County at a rate determined by the county administration and county council.

#### C. Fund Source Accounts

Council shall annually consider an allocation of Conservation Futures Fund to be placed in a Purchase of Development Rights Account.

#### D. Installment Payment Fund

- 1. The intent of installment payment funds, which are established by the County, is to encumber and invest committed funds for which recipient property owners have elected annual installment payments for a period, which may vary according to the wishes of the property owner.
- 2. The full consideration of any transaction for which installment payments of five years or less have been elected shall be placed in the fund, less the amount of any first installment to be paid at settlement. This amount shall be invested and annual installment payments shall include the interest accrued.
- 3. Annual installment payments shall be made on or before January 20<sup>th</sup> of each year.
- 4. A property owner may enter into an Installment Purchase Agreement for fifteen (15) to thirty (30) years at an interest rate to be negotiated between the property owner and the County. The property owner will receive semi-annual interest payments that are tax exempt. Principal will be paid in one lump sum at the end of term. The property owner will also receive a security representing the Installment Purchase Agreement. The property owner may sell or assign this Agreement.

# E. Public Expenditures

- 1. All public expenditures from the Conservation Futures Fund are subject to approval by Whatcom County Council and will be made in accordance with approved disbursement procedures.
- 2. Expenditures from the PDR Program Account shall be limited to interests in qualified agricultural, forestry, and/or ecological land participating in Whatcom County's Agricultural, Forestry, and Ecological Purchase of Development Rights Program, and other expenses necessary to the acquisition of <u>agricultural</u> conservation easements authorized under RCW 84.34.200-.240.
- 3. The annual appropriation to the PDR Program by the County Council shall be available for the calendar year in which the appropriation was made and or the subsequent calendar year.

# Memorandum

To: County Council and Whatcom County Executive
Cc: Jon Hutchings
From: WRIA 1 Planning Unit
Date: August 23, 2017
Re: Recommendations to the County to Improve Water Resources Management.

We suggest that you consider and adopt the following recommendations to improve water resources management by Whatcom County, as the Lead Agency in WRIA 1. The Planning Unit would like to review these recommendations with the County Council at the next Surface Water Work Session.

# Goal:

Whatcom County will define, own, and invest money and resources as needed in a process that will lead to binding agreements in water resource management that will address local, state, and tribal concerns

A successful program must include:

- Accountability that withstands staff turnover;
- A clearly defined current work program;
- One- and two-year goals with staff assignments as well as long term goals;
- Coordination of work between various entities;
- Direct linkage with goals of the 2005 WRIA 1 Watershed Management Plan—Phase 1.

# **Recommendations to Accomplish the Goal:**

- Implement the Instream Flow Selection and Adoption Plan (IFAP) as outlined in the 2005 WRIA 1 Watershed Management Plan—Phase 1. Update the IFAP as required to meet current conditions. The WRIA 1 Watershed Management Project is currently best positioned to provide the community engagement and involvement required for this process. The update could include instream flows, water quantity, water quality, habitat, accountability.
- 2. Publicly develop a water resources program similar to the 2001 Whatcom County Comprehensive Water Resource Plan, which was essentially a budget document for County water resource programs. This would provide transparency and accountability for actions, better assurance of coordination, and explain the value of current and future funding.

By developing the above program, the County can better track its progress in implementing the 2005 WRIA 1 Watershed Management Plan – Phase 1.

Further, it would enhance public involvement by defining how current and planned programs are coordinated to best effect. The current water resources level of service and funding discussion is an example of how this would be helpful.

3. Establish consistent data collection and timely monitoring. Implement the Long Term Monitoring Program specified in the 2005 WRIA 1 Watershed Management Plan—Phase 1, and update as needed.

Given the current water management environment, we cannot over-emphasize the need for investigative work that incorporates monitoring of aquifers with nearby streams to obtain the empirical data critical for assessing hydraulic continuity. Such work could be done as a pilot project at a few locations. This would address the *Hirst* decision as well as providing data to evaluate the potential benefits of measures such as moving wells farther from streams, stream augmentation, storage, ditch water level management, and other remedial and enhancement strategies.

	Request Tot	a/			(\$8,744)

#### 1a. Description of request:

We are requesting additional expenditure authority to use state dedicated funding to support services for individuals who have been charged with non-violent crimes. Services supported will include substance use disorder (SUD) assessments, residential treatment, outpatient treatment, and housing assistance.

#### 1b. Primary customers:

Individuals involved in the criminal justice system who have a pending non-violent criminal charge from a prosecuting attorney in the state of Washington, and who appear to have a SUD which requires treatment. Priority will be given to individuals who are enrolled in a therapeutic court program.

#### 2. Problem to be solved:

Non-violent offenders have limited access to resources to help them initiate and maintain long term recovery. CJTA funding provides a full continuum of therapeutic services for these individuals, especially those enrolled in therapeutic court programs.

#### 3a. Options / Advantages:

A local CJTA panel was convened to consider best options for use of these dedicated funds and made recommendations for those areas of service most needed by the population to be served. Gaps in care included: assessments in the jail, outpatient and residential treatment, and especially housing.

#### 3b. Cost savings:

Monies utilized will not be pulled from local sources. These state dollars have been dedicated to serve the identified population. Services will be contracted with local providers, alleviating the need to employ county staff to deliver the services. Providing clean and sober housing assistance and SUD treatment for individuals involved in the criminal justice system are proven strategies for saving costs in public funds. Treatment for people with addiction provides a savings of \$3-\$7 for every dollar spent. Housing people who are homeless, especially those challenged with an addiction, can result in \$14,700 per person saved in other costs.

#### 4a. Outcomes:

Outcomes include: Reduction in recidivism, increased stability in recovery from SUD, and increased retention in Therapeutic Court Programs. Outcomes will be tracked throughout an individual's participation in therapeutic court programs.

#### 4b. Measures:

Number of individuals receiving and completing in-jail as well as out-of-jail assessments for SUD, and number admitted to outpatient treatment, and number admitted to residential treatment, and number served with housing assistance.

# 1a. Description of request:

We are requesting expenditure authority to support the further development of the Generations Forward Children's Collaborative using funds from a new grant.

#### 1b. Primary customers:

Young children and their families

#### 2. Problem to be solved:

Children who are a racial or ethnic minority and those living in poverty are far less likely to have lifelong well-being. This exacerbated by an increased likelihood of experiencing adversity in childhood. Community-wide attention and effort are needed, with a focus on equity and recognition of the impacts of adverse experiences on child development, in order to improve the well-being of children.

# 3a. Options / Advantages:

We explored several ways of improving child well-being in Whatcom County including continuing to support existing coalitions and services. In reviewing the literature and responding to community input, it was clear that building a community-wide initiative focused on equity with a trauma-informed lens was the most likely path to success. This option will allow us to support currently successful initiatives, add new community development infrastructure and services where needed and emphasize the involvement of parents and community members most impacted by adversity.

#### 3b. Cost savings:

Early investment in children is the most powerful step to decreasing disparities and improving the health of our community. According to Nobel Prize winner economist, James Heckman, investing in early childhood has an annual rate of return of 7%-13% for communities.

# Memorandum

To:	Whatcom County Executive Jack Louws and
	Whatcom County Council Members
From:	Suzanne Mildner, Grant Coordinator
Subject:	Supplemental Budget Request for E911 funding (Pass through Grant to What-Comm)
Date:	August 20, 2018

The County is in the process of entering into a subrecipient agreement with the City of Bellingham to facilitate a pass-through grant from The Washington State Military Department. The grant funding is for FY2018-19 Emergency 911 equipment expenses for What-Comm Communications.

The State legislature recently passed ESSB 6032 which provided for reimbursement of costs for replacement/upgrade of E911 phone equipment for four counties, including Whatcom. This grant is from the State Military Department and is for direct reimbursement for the new CPE (911 phone) system, which was installed in 2016 at What-Comm Communications. The grant contract period is March 2016 through August 2019, for a total of \$466,866. The execution of the Subrecipient Agreement will be contingent upon your approval of this budget authority. Accordingly, we are requesting approval for supplemental funding in the amount of \$466,866 to support 911 operations at What-Comm Communications.

	Supplemental Budget Request Status: Pending

**Request Total** 

This is a state-funded pass through grant from the Washington State Military Department to reimburse What-Comm Communications Center for phone equipment costs.

#### 1b. Primary customers:

What-Comm Communications Center, City of Bellingham, Whatcom County

Intergov Subsidies

#### 2. Problem to be solved:

A new 911 phone system was purchased and installed by What-Comm in 2016. The State legislature recently passed ESSB 6032, Section 142, which provided for reimbursement of expenses for four Washington counties, including Whatcom County, for 911 phone system replacement costs. What-Comm can access this funding through the local county government.

#### 3a. Options / Advantages:

This intergovernmental grant agreement is a vehicle for accessing this fund source. The acceptance of these grant funds ultimately reduces the cost to the community for 911 services.

#### 3b. Cost savings:

N/A

#### 4a. Outcomes:

911 services cost reductions for our community due to state subsidies.

#### 4b. Measures:

The phone replacement project is already complete with new and improved 911 service equipment.

#### 5a. Other Departments/Agencies:

What-Comm Communications Center, City of Bellingham

#### 5b. Name the person in charge of implementation and what they are responsible for:

Greg Erickson, E911 Coordinator

WHATCOM COUNTY SHERIFF'S OFFICE BILL ELFO SHERIFF	SHEALER'S SHEALER'S CONTROL OFFICE	PUBLIC SAFETY BUILDING 311 Grand Avenue Bellingham, WA 98225-4038 (360) 778-6600
		RECEIVED
	Memorandum	AUG 23 2018
TO:	Jack Louws, County Executive	
FROM:	Sheriff Bill Elfo	JACK LOUWS COUNTY EXECUTIVE
DATE:	August 24, 2018	
SUBJECT:	Supplemental Budget ID #2637 DTF OCDETF FY2018 Funding Increase #1	

The attached supplemental budget requests budget authority for overtime services for Federal Organized Crime Drug Enforcement Task Forces (OCDETF) investigations.

# **Background and Purpose**

The Sheriff's Office entered into an Organized Crime Drug Enforcement Task Forces (OCDETF) Agreement for Fiscal Year 2018 (W.C. Contract No. 201801016) to participate in the investigation and prosecution of major drug trafficking organizations with an original allocation of \$2,500 (Supplemental Budget ID 2538).

Based on the level of participation of the Sheriff's Office, the Department of Justice (DOJ) authorized a funding increase of \$13,515. The Sheriff's Office used the original \$2,500 in May 2018 and needs budget authority for the additional \$13,515.

Deputies assigned to assist in OCDETF investigations may perform a variety of functions, including: interviewing witnesses, conducting surveillance, performing handling informant transportation prisoner and/or assignments. undercover transportation, preparing and executing search and arrest warrants, serving subpoenas, assisting with trial preparation, and testifying at trials.

The U.S. Department of Justice will reimburse the Sheriff's Office for overtime of deputies engaged in these federal OCDETF investigations. Associated payroll costs will come from existing Sheriff's Office budget.

# **Funding Amount and Source**

Funding of \$13,515 will be provided by U.S. Department of Justice Drug Enforcement Administration from the State and Local Overtime (SLOT) Funds.

Please contact Undersheriff Jeff Parks at extension 6610 if you have any questions. Thank you.

In 2018, the Sheriff's Office entered into an Organized Crime Drug Enforcement Task Forces (OCDETF) Agreement for Fiscal Year 2018 to participate in the investigation and prosecution of major drug trafficking organizations. The U.S. Department of Justice (DOJ) agreed to reimburse the Sheriff's Office for overtime of detectives engaged in these federal OCDETF investigations.

The DOJ authorized \$2,500 and Supplemental Budget ID #2538 was approved for the initial allocation. Subsequent increases of \$13,515 were awarded and budget authority is needed for the additional amount.

# 1b. Primary customers:

Citizens of Whatcom County

# 2. Problem to be solved:

Budget authority is needed to use the remaining OCDETF FY2018 funds for overtime in 2018.

# 3a. Options / Advantages:

# 3b. Cost savings:

Overtime reimbursement of \$13,515.

#### 4a. Outcomes:

Sheriff's Office Drug Task Force detectives will continue participation in federal OCDETF investigations.

# 4b. Measures:

# 5a. Other Departments/Agencies:

# 5b. Name the person in charge of implementation and what they are responsible for:

# 6. Funding Source:

The U.S. Department of Justice Drug Enforcement Administration will provide \$13,515 from State and Local Overtime (SLOT) Funds. Associated payroll costs of \$2,119 will be paid out of the existing Sheriff's Office budget.

#### 1a. Description of request:

Request Total

We are requesting expenditure authority to use funds received from Peace Health to support the Whatcom GRACE (Ground-level Response and Coordinated Engagement) program, which will provide intensive outreach services to individuals with complex health conditions.

#### 1b. Primary customers:

#### 1b. Primary customers:

Whatcom county residents who are GRACE participants. GRACE participants are individuals who utilize at a high frequency the crisis response systems (both law enforcement and EMS) as well as the hospital emergency department.

#### 2. Problem to be solved:

Individuals who demonstrate a high utilization of crisis response systems rarely use these systems appropriately or effectively. Their complex health care needs, including behavioral health needs, are not addressed in a comprehensive manner. These individuals typically require a team of professionals that can provide intensive services in a pre-planned and coordinated manner, focused on reducing inappropriate use of crisis services (including the jail), while promoting their health and well-being. The GRACE program will serve these individuals.

#### 3a. Options / Advantages:

The Whatcom GRACE program will provide intensive services to identified individuals in a team-based approach. Team members will provide outreach, engagement, and comprehensive services to meet the complex needs of individuals who are high utilizers of crisis response systems. Shared care plans will be followed to ensure coordinated services and ongoing support to these individuals are delivered, which will reduce the cost and burden to the community's crisis response systems.

#### 3b. Cost savings:

The county will realize savings by reducing the frequency of use of the crisis system by GRACE participants.

#### 4a. Outcomes:

GRACE participants will reduce their frequency of use of crisis response systems.

#### 4b. Measures:

Friday, August 24, 2018

# 1a. Description of request:

The 2017 WCEMS voter approved Levy provides funds for training EMS providers and supporting the ALS system. There is a recognized need for up to 18 Paramedics over the next two years due to projected Paramedic attrition in both the Bellingham and Ferndale (FD 7) Fire Departments. Additional paramedics are also necessary to staff a fifth Paramedic Unit as projected in 2020.

EMS Manager, M. Hilley in collaboration with our ALS partners and the Bellingham Technical College has developed an efficient and sustainable training program that will allows us to achieve the necessary training to fulfill recruitment needs over the next several years.

The total costs associated with setting up and operating the Paramedic School for the 2018/19 class is approximately \$835.000. It is generally assumed that the Levy will cover the costs for setting up the school over the next two years as BTC phases in the tuition based model. However, costs to the EMS Fund will be reduced with the recent Assitance to Firefighters Grant Program Award of approximately \$550K.

# 1b. Primary customers:

Whatcom County Citizens, Advanced Life Support (ALS) providers.

# 2. Problem to be solved:

There is an anticipated need for up to nine Paramedics to staff a fifth Paramedic unit in 2020 and up to nine Paramedics between the years of 2019 and 2022 due to retirements and promotions. As outlined in the EMS Levy Plan, As EMS Administrator, the County's obligation is to; "Improve the operational efficiencies of the system and to help contain costs by standardizing paramedic student training requirements and by consolidating and conducting joint training.

# 3a. Options / Advantages:

There is strong support throughout the agencies to support and sustain this high quality training program within the Bellingham Technical College. Neighboring counties have also indicated a need for succession planning with several agencies projecting Paramedic shortages over the next five years. Typically, our neighboring counties send their firefighters to the Harborview/University of Washington Paramedic program in Seattle. The Harborview program class size is limited to 14 students and will be unable to support anticipated paramedic training needs from our neighboring counties.

# 3b. Cost savings:

none

# 4a. Outcomes:

At the completion of the 2018-2019 Paramedic Training Program, 9 new paramedics will have graduated enabling our ALS agencies to stay fully staffed while preparing for the eventual 5th unit implementation.

# Memorandum

- TO: Honorable Whatcom County Councilmembers Honorable Jack Louws, Whatcom County Executive
- THROUGH: Mark Personius, Director, PDS M Kn M P
  - FROM: Chris Elder, PDR Program Administrator
  - DATE: August 24, 2018
- SUBJECT: Supplemental Budget Request to complete agricultural conservation easement acquisition for PDR applicant Sidhu

## Introduction

The Whatcom County Purchase of Development Rights (PDR) Program was initiated in September of 2001. The program has successfully purchased 130 development rights on 919.15 acres through 19 agricultural conservation easements.

The Purchase of Development Rights Oversight Committee has recommended purchase of an agricultural conservation easement on the Matheson property. Whatcom County Council has approved the PDR Program Administrator and County Executive to proceed with the acquisition of these easements through Resolution 2016-029. This supplemental budget request includes all costs associated with closing of this agricultural conservation easement including easement cost, baseline documentation fees, easement monitoring fees, and associated closing costs. This request will support completion of the PDR process on this property.

# **Background and Purpose**

The Sidhu conservation easement will represent the 20<sup>th</sup> purchase under the County's Agricultural Purchase of Development Rights Program. Completion of this easement will add an additional 40 acres to the total protected acreage in Whatcom County. This will bring the total protected acreage up to 959.15 acres. Whatcom Land Trust has developed a baseline condition report for the easement area and will be the legally responsible party to monitor and enforce terms of the conservation easements.

The Sidhu conservation easement was selected to receive matching funds by the board of the Whatcom Land Trust. These funds represent 50% of the actual easement cost.

# Sidhu - PDR Supplemental Budget Request

Sidhu Co		onitoring and enforcement Documents preparation	\$80,000.00 \$12,000.00 \$1,800.00 \$1,381.58
Subtotal			\$95,181.58
	Reimbursem	ent from Whatcom Land Trust	(\$40,000)
Net cost	Whatcom Co	\$55,181.58	

## **Request Summary**

This request is consistent with Resolution 2018-028 which authorizes the PDR Program Administrator and County Executive to enter into a purchase and sale agreement for the agricultural conservation easement on this property. The conservation easement will be completed and recorded during September or October, 2018.

Please contact Chris Elder, PDR Program Administrator at (360)778-5932 with any questions or concerns.

	4367.1000	Donations			(\$40,000)
	6610	Contractual Services			\$12,000
	7320	Land			\$83,182
	Request Tota	al			\$55,182

## 1a. Description of request:

The proposed budget amendment is to cover all associated costs for completion of an agricultural conservation easement on the Sidhu application. This includes easement cost, easement monitoring and enforcement fees, baseline documentation, and escrow and closing costs.

## 1b. Primary customers:

The community at large benefits from the PDR program due to the permanent protection of the land for farming purposes. This area will never be developed with additional housing and will stay in low-service cost status in perpetuity. Multiple benefits to agriculture, wildlife, water quality, and stormwater retention are among the benefits for the community.

## 2. Problem to be solved:

The primary focus of the Purchase of Development Rights Program is to permanently protect prime/productive agricultural land from conversion to non-agricultural uses. This property contains prime agricultural soils and has been recommended for protection by the Purchase of Development Rights Oversight Committee.

#### 3a. Options / Advantages:

The Agricultural Advisory Committee has considered the PDR program as an integral component of an overall agricultural protection strategy. The Growth Management Act requires the protection of resource lands. This is one of several efforts the County is making to comply with the state requirement. Zoning and Open Space Taxation are other programs currently employed by Whatcom County to protect agricultural land. PDR's are valuable partly because they are the only action currently available for the County to achieve permanent protection on agricultural lands.

### 3b. Cost savings:

Savings are difficult to quantify. Studies indicate that resource lands are the lowest cost properties for community services. Other savings are based on the benefits of not converting the property to some more intensive use. Water quality degradation, excessive stormwater runoff and increased costs for roads and other service provisions are eliminated when conservation easements establish a permanent agricultural development pattern in a given area. Maintaining a critical mass of viable agricultural land – especially land with water rights as this has – also helps support the agriculture economy.

#### 4a. Outcomes:

The PDR program originally targeted 10,000 acres for purchase. Since that time the Council endorsed a "Rural Land Study" that has targeted some 25,000 acres of agricultural lands within rural zoned land that they would like to see with additional protection. The Sidhu agricultural conservation easement is located within one of these Rural Study Areas and will contribute to achievement of the County's 100,000 acre

Supplemental Buuget Requeet					Siaras.

goal. The addition of this farm to the PDR land base will occur in 2018.

Supplemental Budget Request

## 4b. Measures:

The easement on this farm will be purchased with assistance from a Title company through a typical closing process. The successful closing of the easement purchase marks the outcome of this specific request. Annual monitoring reports are supplied by the Whatcom Land Trust for each completed agricultural conservation easement.

## 5a. Other Departments/Agencies:

This is a joint project which involves the Whatcom Land Trust (on-going monitoring/enforcement responsibilities) and Whatcom County – PDR program administration/funding. Reimbursement funding comes from the Whatcom Land Trust.

## 5b. Name the person in charge of implementation and what they are responsible for:

The Whatcom Land Trust will be responsible for the long-term monitoring under the terms of the conditions in the conservation easement and based on the contract that they have with Whatcom County. Gabe Epperson is the Conservation Director

## 6. Funding Source:

Conservation Futures Fund (as requested)

Therefore the total coming out of will be \$95,181.58, though the Whatcom Land Trust will reimburse. Whatcom County for a total of \$40,000 towards this transaction. The net expenditure after reimbursement will be \$55,181.58

## 1a. Description of request:

Lower Nooksack Watershed stream monitoring services

#### 1b. Primary customers:

WRIA 1 Watershed Management Board partners

Request Total

#### 2. Problem to be solved:

Whatcom County has a variety of water quality and quantity issues that need to be addressed to ensure there is water of adequate quantity and quality to meet our instream and out of stream needs. Stream monitoring provides the basic information that is vital to addressing these issues. In the past, the WRIA 1 Joint Board funded these stream monitoring activities. The Flood Control Zone District (FCZD) contracted with the U.S. Geological Survey to provide these services on behalf of the Joint Board. The WRIA 1 Joint Board has since dissolved and there are no longer funds available for this work.

#### 3a. Options / Advantages:

Whatcom County has worked with other WRIA 1 Watershed Management Board partners to identify a long-term funding source for stream monitoring. A source has not been identified at this time and the current contract for monitoring services expired on September 30, 2018. There are sufficient funds in the FCZD fund balance to cover the cost of one year of this critical work while a long-term funding plan is developed.

## 3b. Cost savings:

There are no cost savings. Use of these funds will allow this critical work to continue while a long-term funding strategy is developed.

#### 4a. Outcomes:

Maintaining a continuous record of stream montioring data for future water planning and further refinement of a forthcoming groundwater model.

#### 4b. Measures:

Monitoring data will be received and the continuous record will be maintained. Continuous monitoring will be obtained from 8 monitoring stations for one year.

#### 5a. Other Departments/Agencies:

Yes. The FCZD will contract with U.S. Geological Survey to conduct the stream monitoring.

## 5b. Name the person in charge of implementation and what they are responsible for:

US Geological Survey - Darrin Miller

## 6. Funding Source:

The FCZD will pay for this contract from cost center 169121.

\$86.391

# MEMORANDUM

TO:	Jack Louws, County Executive for the Flood Control Zone District
THROUGH:	Jon Hutchings, Public Works Director
FROM:	Gary Stoyka, Natural Resources Manager
DATE:	August 22, 2018
RE:	Supplemental Budget Request

# **Requested Action**

The Public Works Natural Resources Division is requesting supplemental budget authority for FY 2018 for continuation of stream monitoring activities.

Whatcom County has a variety of water quality and quantity issues that need to be addressed to ensure there is water of adequate quantity and quality to meet our instream and out of stream needs. Stream monitoring provides the basic information that is vital to addressing these issues. This supplemental budget request provides \$86,391 in funding authority to execute a new one year contract with the USGS to provide these continuous monitoring services.

This request for funding is from the Flood Control Zone District fund balance.

Please contact Gary Stoyka at extension 6218, if you have any questions or concerns regarding this request.

# RE: Agreement with Washington Department of Ecology for 2018-2019 Washington Conservation Corps Crew Sponsorship

# **Requested Action:**

Enclosed are two (2) originals of a 2018-2019 Washington Conservation Corps Crew Agreement between the Washington Department of Ecology and Whatcom County Flood Control Zone District for your review and signature.

# **Background and Purpose:**

Public Works proposes to sponsor a 6-member Washington Conservation Corps Crew for the 2018-2019 term. The crew will assist Public Works with salmon habitat, stormwater, and water quality monitoring and will be available for emergency response. The crew is shared with Whatcom County Parks and Recreation and the Nooksack Salmon Enhancement Association under separate agreements with Ecology.

# **Funding Amount and Source:**

Funding for this agreement is included in the Public Works – Natural Resource Division 2018 budget and the 2019 proposed budget. The agreement is not to exceed \$79,695.

Please contact Gary Stoyka at extension 6218, if you have any questions or concerns regarding the terms of this agreement.

WHATCOM COUNTY CONTRACT NO. 201809006

#### AGREEMENT BETWEEN

The State of Washington, Department of ECOLOGY AND

Whatcom County Flood Control Zone District

THIS AGREEMENT is made and entered into by and between the Department of Ecology, hereinafter referred to as "ECOLOGY", and <u>Whatcom County Flood Control Zone District</u> hereinafter referred to as the "SPONSOR."

IT IS THE PURPOSE OF THIS AGREEMENT to provide Washington Conservation Corps (WCC) members to complete environmental or disaster services projects, pursuant to Chapter 43.220 of the Revised Code of Washington.

THEREFORE, IT IS MUTUALLY AGREED THAT:

## STATEMENT OF WORK

Both parties agree to do all things necessary for or incidental to the performance of the work set forth in Appendix "A" attached hereto and incorporated herein.

#### PERIOD OF PERFORMANCE

Subject to its other provisions, the period of performance of this Agreement shall commence on <u>10/1/2018</u> and be completed on <u>9/8/2019</u>, unless terminated sooner as provided herein. The WCC Crew and/or WCC Individual Placement corpsmember specified in this agreement will be available to SPONSOR on the dates set forth on the calendar in Appendix "B" attached hereto and incorporated herein.

#### **COMPENSATION**

The parties have determined that the cost of accomplishing the work herein will not exceed \$79,695. Payment for satisfactory performance of the work shall not exceed this amount unless the parties mutually agree to a higher amount. Compensation for service(s) shall be based on the following established rates:

Provided by ECOLOGY	Reimbursed to ECOLOGY by SPONSOR
1 WCC crew: 3 way cost share with Whatcom Parks &	\$79,695
NSEA	
Total SPONSOR COST	\$79,695
	Above cost Not to be Exceeded

The costs reimbursed to ECOLOGY by SPONSOR are a cost-share rate. Estimated value of a WCC crew is \$5,334 weekly per WCC Crew consisting of five WCC/AmeriCorps Members and one Supervisor (excludes food and lodging). Indirect costs are included in SPONSOR share at a standard rate of 5% of direct costs.

## BILLING PROCEDURE

ECOLOGY shall submit invoices monthly to the SPONSOR's designated contact person listed under "Agreement Management" section. Payment to ECOLOGY for approved and completed work will be made by warrant or account transfer by SPONSOR within 30 days of receipt of the invoice. Upon expiration of the Agreement, any claim for payment not already made shall be submitted within 30 days after the expiration date or the end of the fiscal year, whichever is earlier.

## AGREEMENT ALTERATIONS AND AMENDMENTS

This Agreement may be amended by mutual agreement of the parties. Such amendments shall not be binding unless they are in writing and signed by personnel authorized to bind each of the parties.

#### ASSIGNMENT

The work to be provided under this Agreement, and any claim arising thereunder, is not assignable or delegable by either party in whole or in part, without the express prior written consent of the other party, which consent shall not be unreasonably withheld.

#### **ASSURANCES**

Parties to this Agreement agree that all activity pursuant to this contract will be in accordance with all the applicable current federal, state and local laws, rules, and regulations.

#### CONFORMANCE

If any provision of this Agreement violates any statute or rule of law of the state of Washington, it is considered modified to conform to that statute or rule of law.

#### **DISPUTES**

In the event that a dispute arises under this Agreement, it shall be determined by a Dispute Board in the following manner: Each party to this Agreement shall appoint one member to the Dispute Board. The members so appointed shall jointly appoint an additional member to the Dispute Board. The Dispute Board shall review the facts, agreement terms and applicable statutes and rules and make a determination of the dispute. The determination of the Dispute Board shall be final and binding on the parties hereto. As an alternative to this process, either of the parties may request intervention by the Governor, as provided by RCW 43.17.330, in which event the Governor's process will control.

## FUNDING AVAILABILITY

The obligation of the SPONSOR to provide reimbursements is contingent upon appropriation of funds by the SPONSOR's governing body for the specific purpose of funding the project, which is the subject of this Agreement. Upon the failure of such appropriation, the SPONSOR may terminate this Agreement.

ECOLOGY's ability to provide cost-share is contingent on availability of funding. In the event funding from state, federal, or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to completion or expiration date of this Agreement, ECOLOGY, at its sole discretion, may elect to terminate the agreement, in whole or part, for convenience or to renegotiate the agreement subject to new funding limitations and conditions. ECOLOGY may also elect to suspend performance of the agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification restrictions.

## **GOVERNING LAW AND VENUE**

This Agreement is entered into pursuant to and under the authority granted by the laws of the state of Washington and any applicable federal laws. The provisions of this Agreement shall be construed to conform to those laws. This Agreement shall be construed and interpreted in accordance with the laws of the state of Washington, and the venue of any action brought hereunder shall be in the Superior Court for Thurston County.

This Agreement is entered into pursuant to and under the authority granted by the laws of the state of Washington and any applicable federal laws. The provisions of this Agreement shall be construed to conform to those laws.

#### INDEPENDENT CAPACITY

The employees or agents of each party who are engaged in the performance of this Agreement shall continue to be employees or agents of that party and shall not be considered for any purpose to be employees or agents of the other party.

#### ORDER OF PRECEDENCE

In the event of an inconsistency in the terms of this Agreement, or between its terms and any applicable statute or rule, the inconsistency shall be resolved by giving precedence in the following order:

- 1. Applicable federal and state of Washington statutes, regulations, and rules.
- 2. Mutually agreed written amendments to this Agreement
- 3. This Agreement
- 4. Statement of Work and Budget.
- 5. Any other provisions of this Agreement, including materials incorporated by reference.

#### **RECORDS MAINTENANCE**

The parties to this Agreement shall each maintain books, records, documents and other evidence that sufficiently and properly reflect all direct and indirect costs expended by either party in the performance of the service(s) described herein. These records shall be subject to inspection, review or audit by personnel of both parties, other personnel duly authorized by either party, the Office of the State Auditor, and federal officials so authorized by law. All books, records, documents, and other material relevant to this Agreement will be retained for six years after expiration of this Agreement and the Office of the State Auditor, federal auditors, and any persons duly authorized by the parties shall have full access and the right to examine any of these materials during this period.

Records and other documents, in any medium, furnished by one party to this Agreement to the other party, will remain the property of the furnishing party, unless otherwise agreed. The receiving party will not disclose or make available this material to any third parties without first giving notice to the furnishing party and giving it a reasonable opportunity to respond. Each party will utilize reasonable security procedures and protections to assure that records and documents provided by the other party are not erroneously disclosed to third parties subject to state public disclosure laws.

#### RESPONSIBILITIES OF THE PARTIES

Each party of this Agreement hereby assumes responsibility for claims and/or damages to persons and/or property resulting from any act or omissions on the part of itself, its employees, its officers, and its agents. Neither party will be considered the agent of the other party to this Agreement.

#### **RIGHTS IN DATA**

Unless otherwise provided, data, which originates from this Agreement shall be "works for hire" as defined by the U.S. Copyright Act of 1976 and shall be jointly owned by ECOLOGY and SPONSOR. Data shall include, but not be limited to, reports, documents, pamphlets, advertisements, books magazines, surveys, studies, computer programs, films, tapes, and/or sound reproductions. Ownership includes the right to copyright, patent, register, and the ability to transfer these rights.

#### **SEVERABILITY**

If any provision of this Agreement or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Agreement which can be given effect without the invalid provision, if such remainder conforms to the requirements of applicable law and the fundamental purpose of this agreement, and to this end the provisions of this Agreement are declared to be severable.

#### **TERMINATION FOR CAUSE**

If for any cause, either party does not fulfill in a timely and proper manner its obligations under this Agreement, or if either party violates any of these terms and conditions, the aggrieved party will give the other party written notice of such failure or violation. The responsible party will be given the opportunity to correct the violation or failure within 15 working days. If failure or violation is not corrected, this Agreement may be terminated immediately by written notice of the aggrieved party to the other.

#### **TERMINATION FOR CONVENIENCE**

Either party may terminate this Agreement upon 30 days' prior written notification to the other party. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

#### WAIVER

A failure by either party to exercise its rights under this Agreement shall not preclude that party from subsequent exercise of such rights and shall not constitute a waiver of any other rights under this Agreement unless stated to be such in a writing signed by an authorized representative of the party and attached to the original Agreement.

#### ALL WRITINGS CONTAINED HEREIN

This Agreement contains all the terms and conditions agreed upon by the parties. No other understandings, oral or otherwise, regarding the subject matter of this Agreement shall be deemed to exist or to bind any of the parties hereto.

## AGREEMENT MANAGEMENT

The program manager for each of the parties shall be responsible for and shall be the contact person for all communications and billings regarding the performance of this Agreement.

#### STATEMENT OF WORK Appendix A

Work summary:

Under direction of SPONSOR, crew(s) will perform restoration activities. Specific tasks could include invasive control, native species installation, plant nursery care, scientific monitoring, and fence installation or repair.

Special terms and conditions:

- WCC members and staff will not be utilized to clear and/or clean up hazardous materials including hypodermic needles. If a significant amount of hazardous or unidentifiable material is discovered on a project site, activity will cease until SPONSOR either mitigates potential hazards or finds an alternate project site. WCC resources (includes members, supervisors, tools and trucks) will not be utilized for clearing active or abandoned homeless encampments.
- 2. Vehicle is not to be used for heavy hauling. The primary use of the crew vehicle is for transportation of crew, tools, and safety equipment. In the event that WCC vehicles are requested to tow SPONSOR equipment, SPONSOR is solely responsible for accidental damages, unless damages are caused by WCC negligence.
- 3. WCC is not responsible for normal wear and tear when project requires the use of SPONSOR-provided tools, equipment or safety gear.
- 4. SPONSOR will complete WCC-provided closeout survey or report within 30 days of agreement completion.
- 5. The assignment of corpsmembers shall not result in the displacement of currently employed workers, including partial displacement such as reduction in hours of nonovertime work, wages, or other employment benefits. Agencies that participate in the program may not terminate, lay-off, or reduce the working hours of any employee for the purpose of using a corpsmember with available funds. In circumstances where substantial efficiencies or a public purpose may result, participating agencies may use corpsmembers to carry out essential agency work or contractual functions without displacing current employees.
- 6. All state holidays and shutdown weeks are non-working days for members. Shutdown weeks are to be used by WCC staff/supervisors for planning purposes.
- 7. The WCC standard 40-hour schedule is Monday through Thursday from 7:00am to 5:30pm. An alternate schedule may be arranged with prior approval from the WCC.
- 8. Indirect costs are included in SPONSOR share at a standard rate of 5% of direct costs.

ECOLOGY shall:

- 1. Provide WCC members for the number of weeks specified in this agreement. Full-time crews and Individual Placements are available to SPONSOR for a maximum of 41 weeks (approx. 165 days) during the Federal AmeriCorps program service year (October-September).
- 2. In the event of a disaster response deployment, the WCC Program will make every effort to fulfill sponsor program needs, including sending additional members, whenever possible. Invoices will include all activities during the program year including training, community service events, and other activities required by WCC, excluding Emergency Response, if needed.
- 3. Provide training and development specified in Appendix "B": eight (8) days of formal WCC member training, a four (4) day Orientation Training, one (1) day dedicated to MLK Community Service, and a debrief meeting near the conclusion of the term. WCC members and supervisors are logging hours on these dates, but are unavailable to sponsor to perform project work.
- 4. Provide a 4-day Assistant Supervisor training to the designated Assistant Supervisor.
- 5. For crew (s), ECOLOGY agrees to provide a crew of 5 members, a crew supervisor, vehicle, and basic hand tools.
- 6. Cost-share rates are not based on actual attendance, however, invoices will be reduced for member or supervisor vacancies lasting 20 days or more.

#### SPONSOR shall:

- 1. Guide completion of appropriate projects for the number of weeks specified in this agreement by providing the logistical, technical and safety-related support necessary for project completion. Provide site orientation for WCC members, specific on-the job task training, and any materials beyond basic hand tools to complete tasks assigned under this Agreement. Obtain and ensure adherence to applicable permits as set by local, state, tribal or federal laws and regulations.
- Help to promote the AmeriCorps and WCC brands, logo, slogans and phrases. The WCC will provide cameraready logo. AmeriCorps is a registered service mark of the Corporation for National and Community Service.

#### AmeriCorps Prohibited Activities:

While charging time to the AmeriCorps program, accumulating service or training hours, or otherwise performing activities supported by the AmeriCorps program or CNCS, staff and members may not engage in the following activities (see 45 CFR § 2520.65):

- A. Attempting to influence legislation;
- B. Organizing or engaging in protests, petitions, boycotts, or strikes;
- C. Assisting, promoting, or deterring union organizing;
- D. Impairing existing contracts for services or collective bargaining agreements;
- E. Engaging in partisan political activities, or other activities designed to influence the outcome of an election to any public office;
- F. Participating in, or endorsing, events or activities that are likely to include advocacy for or against political parties, political platforms, political candidates, proposed legislation, or elected officials;
- G. Engaging in religious instruction, conducting worship services, providing instruction as part of a program that includes mandatory religious instruction or worship, constructing or operating facilities devoted to religious instruction or worship, maintaining facilities primarily or inherently devoted to religious instruction or worship, or engaging in any form of religious proselytization;
- H. Providing a direct benefit to-
  - I. A business organized for profit;
  - II. A labor union;
  - III. A partisan political organization;
  - IV. A nonprofit organization, that fails to comply with the restrictions contained in section 501(c)(3) of the Internal Revenue Code of 1986 related to engaging in political activities or substantial amount of lobbying except that nothing in these provisions shall be construed to prevent participants from engaging in advocacy activities undertaken at their own initiative; and
  - V. An organization engaged in the religious activities described in paragraph 3.g. above, unless CNCS assistance is not used to support those religious activities;
- I. Conducting a voter registration drive or using CNCS funds to conduct a voter registration drive;
- J. Providing abortion services or referrals for receipt of such services; and
- K. Such other activities as CNCS may prohibit.

AmeriCorps members may not engage in the above activities directly or indirectly by recruiting, training, or managing others for the primary purpose of engaging in one of the activities listed above. Individuals may exercise their rights as private citizens and may participate in the activities listed above on their initiative, on non-AmeriCorps time, and using non-CNCS funds. Individuals should not wear the AmeriCorps logo while doing so.

RECEIVED

# MEMORANDUM

JACK LOUWS COUNTY EXECUTIVE

TO:	The Honorable Members of the Whatcom County Flood Control Zone District Board of Supervisors
THROUGH:	Jon Hutchings, Public Works Director
FROM:	Gary Stoyka, Natural Resource Manager (MW) John N. Thompson, Senior Salmon Recovery Planner
RE:	Joint Funding Agreement for USGS Gaging Stations
DATE:	September 10, 2018

Enclosed are two (2) originals of a Joint Funding Agreement (No. 19WNWA20075) between the United States Department of Interior, U.S. Geological Survey (USGS) and Whatcom County Flood Control Zone District (FCZD) for your review and signature.

# Background and Purpose

This Joint Funding Agreement with the USGS will provide for continued data collection, real-time data access, and publication of surface water data at 8 stream gaging stations in the Nooksack River watershed for the 2019 water year (October 1, 2018 through September 30, 2019). These gaging stations were selected to provide data that complements data collected at other USGS and Ecology gaging sites and which collectively support watershed management and salmon recovery efforts in WRIA 1.

# Funding Amount and Source

This one-year agreement is for \$86,391. A supplemental budget request (#2636) has been prepared and is scheduled for Board of Supervisor consideration and approval at the September 25, 2018 Council meeting.

# Differences from Previous Contract

This new agreement reflects a 3% increase over the previous agreement amount of \$83,765 (WCC 201711007).

Please contact Gary at extension 6218, if you have any questions or concerns regarding the terms of this agreement,

Encl.

# FOR WATER RESOURCES INVESTIGATIONS

THIS AGREEMENT is entered into as of the, **1** day of **October**, **2018** by the U.S. GEOLOGICAL SURVEY, UNITED STATES DEPARTMENT OF THE INTERIOR, party of the first part, and the **Whatcom County Flood Control Zone District**, party of the second part.

- The parties hereto agree that subject to availability of appropriations and in accordance with their respective authorities there shall be maintained in cooperation a fixed-price agreement for the operation and maintenance of the cooperative streamgaging program between the USGS and the Washington State Department of Ecology, herein called the program. The USGS legal authority is 43 USC 36C; 43 USC 50; and 43 USC 50b.
- 2. The following amounts shall be contributed to cover all of the cost of the necessary field and analytical work directly related to this program. 2(b) includes In-Kind Services in the amount of \$
  - (a) by the party of the first part during the period

Amount	Date	to	Date
\$51,109	October 1, 2018		September 30, 2019

(b) by the party of the second part during the period

Amount	Date	to	Date
\$86,391	<b>October 1, 2018</b>		September 30, 2019

(c) Contributions are provided by the party of the first part through other USGS regional or national programs, in the amount of:

\$

Description of the USGS regional/nations program: USGS Federal Priority Streamgage Program

- (d) Additional or reduced amounts by each party during the above period or succeeding periods as may be determined by mutual agreement and set forth in an exchange of letters between the parties.
- (e) The performance period may be changed by mutual agreement and set forth in an exchange of letters between the parties.
- 3. The costs of this program may be paid by either party in conformity with the laws and regulations respectively governing each party.
- 4. The field and analytical work pertaining to this program shall be under the direction of or subject to periodic review by an authorized representative of the party of the first part.
- 5. The areas to be included in the program shall be determined by mutual agreement between the parties hereto or their authorized representatives. The methods employed in the field and office shall be those adopted by the party of the first part to insure the required standards of accuracy subject to modification by mutual agreement.
- 6. During the course of this program, all field and analytical work of either party pertaining to this program shall be open to the inspection of the other party, and if the work is not being carried on in a mutually satisfactory manner, either party may terminate this agreement upon 60 days written notice to the other party.

## 9-1366 (Continuation)

Customer #: 600000721

- 7. The original records resulting from this program will be deposited in the office of origin of those records. Upon request, copies of the original records will be provided to the office of the other party.
- The maps, records, or reports resulting from this program shall be made available to the public as promptly as 8. possible. The maps, records, or reports normally will be published by the party of the first part. However, the party of the second part reserves the right to publish the results of this program and, if already published by the party of the first part shall, upon request, be furnished by the party of the first part, at costs, impressions suitable for purposes of reproduction similar to that for which the original copy was prepared. The maps, records, or reports published by either party shall contain a statement of the cooperative relations between the parties. The Parties acknowledge that scientific information and data development as a result of the Scope of Work (SOW) are subject to applicable USGS review, approval, and release requirements, which are available on the USGS Fundamental Science Practices website (https://www2.usgs.gov/fsp/).
- 9. Billing for this agreement will be rendered: QUARTERLY. Invoices not paid within 60 days from the billing date will bear Interest, Penalties, and Administrative cost at the annual rate pursuant the Debt Collection Act of 1982, (codified at 31 U.S.C. § 3717) established by the U.S. Treasury.

# MEMORANDUM

SEP 1 3 2018

JACK LOUWS COUNTY EXECUTIVE

- TO: The Honorable Jack Louws, Executive for the Whatcom County Flood Control Zone District Board of Supervisors
- THROUGH: Jon Hutchings, Public Works Director
- FROM: Gary Stoyka, Natural Resources Manager
- DATE: September 4, 2018
- RE: Grant Agreement #2019-17 for Whatcom LIO Coordination

Please find enclosed for your review and signature two (2) originals of Grant Agreement # 2019-17 between the State of Washington Puget Sound Partnership (PSP) and the Whatcom County Flood Control Zone District to coordinate the Whatcom County Local Integrating Organization (LIO).

# **Requested Action**

Public Works respectfully requests that the County Executive approve and sign the attached grant agreement as the fiscal agent for the Whatcom County LIO.

# **Background and Purpose**

The WRIA 1 Watershed Management Board acts as Local Integrating Organization (LIO) for water resources programs in the Whatcom County region. The WRIA 1 Management Team met on August 22, 2018 and approved the draft FFY 2018 LIO Coordination Scope of Work for the Whatcom County Flood Control Zone District as fiscal agent, acting on behalf of the WRIA 1 Watershed Management Board, for negotiating a contract with the Puget Sound Partnership. This agreement provides funds for tasks related to 1) Maintaining, Organizing, Facilitating and Administering a LIO, 2) Action Agenda Implementation, 3) Performance Management, and 4) Adaptive Management of LIO Ecosystem Recovery Plan.

# **Funding Amount and Source**

This grant agreement with the Puget Sound Partnership provides \$75,000 to complete tasks as outlined in the scope of work. Please contact Gary Stoyka at extension 6218 or Austin Rose at 6286 if you have any questions or concerns regarding the terms of this agreement.

## **PURPOSE**

The purpose of this agreement is to provide support for the coordination of the Whatcom County Local Integrating Organization (LIO).

## STATEMENT OF WORK

The CONTRACTOR shall furnish the necessary personnel, equipment, material and/or service(s) and otherwise do all things necessary for or incidental to the performance of the work set forth in Exhibit B attached and incorporated herein.

In the event that the CONTRACTOR is a Sub-Recipient (grantee), Exhibit B shall describe the activities of the Sub-Recipient that are eligible for reimbursement under the award or sub-award.

## PERIOD OF PERFORMANCE

The period of performance under this agreement will be from October 1, 2018 or the date of execution (\_\_\_\_\_\_\_), whichever is later, through September 30, 2019. No work shall commence under this agreement until it has been fully executed by both parties.

## COMPENSATION AND PAYMENT

Compensation for the work provided in accordance with this agreement has been established under the terms of RCW 39.34.130. The parties have estimated that the cost of accomplishing the work herein will not exceed **Seventy-five thousand dollars (\$75,000)**. Payment for satisfactory performance of the work shall not exceed this amount unless the parties mutually agree to a higher amount prior to the commencement of any work which will cause the maximum payment to be exceeded. CONTRACTOR'S compensation for services rendered shall be in accordance with the Budget & Billing Procedures attached as Exhibit C.

In the event that the CONTRACTOR is a Sub-Recipient, the total amount of the award or sub-award for reimbursable activities shall not exceed the above amount, also in accordance with the Budget & Billing Procedures attached as Exhibit C.

## FEDERAL FUNDING INFORMATION

This Contract includes federal funding  $\boxtimes$  Yes  $\square$ No CONTRACTOR is a Sub-Recipient for purposes of this agreement  $\boxtimes$  Yes  $\square$  No

## TERMS AND CONDITIONS

All rights and obligations of the parties to this contract shall be subject to and governed by the Terms and Conditions contained in the following exhibits, herein incorporated by reference. The contents of this Agreement include:

- 1. This contract cover sheet
- 2. Exhibit A General Terms and Conditions
- 3. Exhibit B Statement of Work
- 4. Exhibit C Budget & Billing Procedures
- 5. Exhibit D Lobbying Certification
- 6. Exhibit E Sub-Recipient Federal Requirements (only if this is a Sub-Recipient contract)
  - Attachment 1- Federal Assurances Form 424B (Rev 4-2012)
  - Attachment 2- Federal Funding Accountability and Transparency Act Data Collection (FFATA form

## ORDER OF PRECEDENCE

In the event of an inconsistency in this agreement, the inconsistency shall be resolved by giving precedence in the following order:

- 1. Applicable Federal and State of Washington Statutes and regulations
- 2. This Agreement/Contract, including Exhibit A, General Terms and Conditions
- 3. Exhibit B, Statement of Work and Exhibit C, Budget & Billing Procedures
- 4. Any other Exhibit or provision, term or material incorporated herein by reference or otherwise incorporated

## ENTIRE AGREEMENT

This agreement, including referenced exhibits and any other provision, term or material expressly incorporated by reference, represents all the terms and conditions agreed upon by the parties. No other statements or representations, written or oral, shall be deemed a part hereof.

## **APPROVAL**

This agreement shall be subject to the written approval of the AGENCY'S authorized representative and shall not be binding until so approved. The agreement may be altered, amended, or waived only by a written amendment executed by both parties.

This agreement is executed by the persons signing below, who warrant they have the authority to execute the agreement.

AGREEMENT NO. 2019-17

## EXHIBIT A -

# GENERAL TERMS AND CONDITIONS

## Title: Whatcom County LIO – FFY2018 Funding

## 1. DEFINITIONS

As used throughout this contract, the following terms shall have the meaning set forth below:

- A. "AGENCY" means the Puget Sound Partnership (PSP) of the State of Washington, any division, section, office, unit or other entity of the AGENCY, or any of the officers or other officials lawfully representing that AGENCY.
- B. "AGENT" means the Director, and/or the delegate authorized in writing to act on the Director's behalf.
- C. "CONTRACTOR" means that firm, provider, organization, individual or other entity performing service(s) under this contract, and shall include all employees of the CONTRACTOR.
- D. "DEBARMENT" means an action taken by a Federal agency or official to exclude a person or business entity from participating in transactions involving certain federal funds.
- E. "EPA" means U.S. Environmental Protection Agency.
- F. "SUBCONTRACTOR" means one not in the employment of the CONTRACTOR, who is performing all or part of those services under this contract under a separate contract with the CONTRACTOR. The terms "SUBCONTRACTOR" and "SUBCONTRACTORS" means SUBCONTRACTOR(s) in any tier.
- G. "SUB-RECIPIENT" means a non-Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency. Guidance on distinguishing between a subrecipient and a contractor is provided in 2 CFR §200.330. Subrecipient and contractor determinations.

# 2. AMERICANS WITH DISABILITIES ACT (ADA)

If the contract includes federal funding, the CONTRACTOR must comply with Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination against persons with disabilities by entities receiving Federal financial assistance. The CONTRACTOR may also be required to comply with the ADA, which provides comprehensive civil rights protection to individuals with disabilities in the areas of employment, public accommodations, state and local government services, and telecommunications.

# 3. ADVANCE PAYMENTS PROHIBITED

No payments in advance of or in anticipation of goods or services to be provided under this contract shall be made by the AGENCY.

## 4. AMENDMENT

This Agreement may be amended by mutual agreement of the parties. Such amendments shall not be binding unless they are in writing and signed by personnel authorized to bind each of the parties.

# 5. ASSIGNMENT

The work to be provided under this Agreement, and any claim arising under this Agreement, is not assignable or delegable by either party in whole or in part, without the express prior written consent of the other party, which consent shall not be unreasonably withheld.

# 6. ASSURANCES

The parties agree that all activity pursuant to this Agreement shall be in accordance with all applicable federal, state and local laws, rules, and regulations as they currently exist or as amended.

AGREEMENT NO. 2019-17

Page 3 of 27

## 7. CONFIDENTIALITY

Confidential information: The CONTRACTOR shall not use or disclose any information concerning the AGENCY, or information that may be classified as confidential, for any purpose not directly connected with the administration of this contract, except with prior written consent of the AGENCY, or as may be required by law. Each party will utilize reasonable security procedures and protections to assure that records and documents provided by the other party are not erroneously disclosed to third parties. However, the parties acknowledge that state and local agencies are subject to chapter 42.56 RCW, the Public Records Act.

Personal Information (one form of confidential information): Personal information including, but not limited to, "Protected Health Information," collected, used, or acquired in connection with this contract shall be protected against unauthorized use, disclosure, modification or loss. CONTRACTOR shall ensure its directors, officers, employees, subcontractors or agents use personal information solely for the purposes of accomplishing the services set forth herein. CONTRACTOR and its subcontractors agree not to release, divulge, publish, transfer, sell or otherwise make known to unauthorized persons personal information without the express written consent of the agency or as otherwise required by law. Any breach of this provision may result in termination of the contract and the demand for return of all personal information. The CONTRACTOR agrees to indemnify and hold harmless the AGENCY for any damages related to the CONTRACTOR'S unauthorized use of personal information.

# 8. CREDIT AND ACKNOWLEDGEMENT

Reports, documents, signage, videos, or other media, developed as part of projects funded by EPA funded Agreements shall display both the EPA and Puget Sound Partnership logos and the following credit line: "This project has been funded wholly or in part by the United States Environmental Protection Agency under Assistance Agreement **[CE-01J31901]**. The contents of this document do not necessarily reflect the views and policies of the Environmental Protection Agency, nor does mention of trade names or commercial products constitute endorsement or recommendation for use."

## 9. DEBARMENT AND SUSPENSION

CONTRACTOR, by signature to this Contract, certifies that CONTRACTOR is not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any Federal department or agency from participating in transactions (Debarred). CONTRACTOR shall comply with applicable federal agency debarment and suspension rules adopted pursuant to Office of Management and Budget guidance at 2 CFR Part 180, such as 2 CFR Part 1532 for the Environmental Protection Agency, which implement Executive Order 12549. CONTRACTOR acknowledges that failing to disclose the information required at 2 CFR 180.335 may result in the delay or negation of this contract, or pursuance of legal remedies, including suspension and debarment.

CONTRACTOR shall not award subcontracts or subawards to persons (individuals or organizations) listed on the Excluded Parties List located at www.sam.gov/. CONTRACTOR agrees to include the above requirements in all subcontracts into which it enters. The CONTRACTOR shall immediately notify AGENCY if, during the term of this Contract, CONTRACTOR becomes debarred. AGENCY may immediately terminate this Contract by providing CONTRACTOR written notice if CONTRACTOR becomes Debarred during the term hereof.

# **10. DISALLOWED COSTS**

CONTRACTOR is responsible for any audit exceptions or disallowed costs incurred by its own organization or that of its Subcontractors.

## **11. DISPUTES**

In the event that CONTRACTOR is a state agency and a dispute arises under this Agreement, either of the parties may request intervention by the Governor, *as* provided by chapter 43.17.330 RCW, in which event the Governor's process will control.

In the event that a dispute arises under this Agreement, and the CONTRACTOR is not a state agency, it shall be determined by a Dispute Board in the following manner: Each party to this Agreement shall appoint one member to the Dispute Board. The members so appointed shall jointly appoint an additional

AGREEMENT NO. 2019-17

Page 4 of 27

The cost of resolution will be borne as allocated by the Dispute Board or the Governor.

# **12. DUPLICATION OF BILLED COSTS**

be final and binding on both parties.

The CONTRACTOR shall not bill the Agency for services performed under this contract, and the Agency shall not pay the CONTRACTOR if the CONTRACTOR is entitled to payment or has been or will be paid by any other source, including grants, for that service.

# **13. GOVERNING LAW AND VENUE**

This Agreement shall be construed and interpreted in accordance with the laws of the State of Washington and the venue of any action brought under this Agreement shall be in Superior Court for Thurston County.

# 14. HOTEL MOTEL FIRE SAFETY ACT

The Hotel and Motel Fire Safety Act of 1990 (Public Law 101-391) establishes a number of fire safety standards which must be met for hotels and motels. Pursuant to 40 CFR 30.18, if applicable, and 15 USC 2225a if any portion of this contract will be paid with federal funds, CONTRACTOR agrees to ensure that all space for conferences, meetings, conventions, or training seminars funded in whole or in part with federal funds complies with the protection and control guidelines of the Hotel and Motel Fire Safety Act (PL 101-391, as amended. CONTRACTOR may search the Hotel-Motel National Master List at: http://www.usfa.dhs.gov/applications/hotel to see if a property is in compliance (FEMA ID is currently not required), or to find other information about the Act.

If necessary, the head of the Federal agency may waive this prohibition in the public interest.

## **15. INDEPENDENT CAPACITY**

The employees or agents of each party who are engaged in the performance of this Agreement shall continue to be employees or agents of that party and shall not be considered for any purpose to be employees or agents of the other party.

# **16. INTELLECTUAL PROPERTY RIGHTS**

Unless otherwise provided, all materials produced under this contract shall be considered "works for hire" as defined by the U.S. Copyright Act 17 U.S.C. § 101, et seq., and shall be owned by the AGENCY. Where federal funding is involved, the awarding federal agency may have a proprietary interest in patent rights to any inventions that are developed by the CONTRACTOR as provided in 35 U.S.C. §§ 200-212 and 37 CFR part 401 and retains a royalty-free, nonexclusive, and irrevocable right to reproduce, publish, or otherwise use the work for Federal purposes, and to authorize others to do so.

CONTRACTOR acknowledges that in accordance with 40 CFR 30.36 and 31.34, EPA has the rights to reproduce, publish, use, and authorize others to use copyrighted works or other data developed under this assistance agreement for Federal purposes.

Examples of a Federal purpose include but are not limited to: (1) Use by EPA and other Federal employees for official Government purposes; (2) Use by Federal contractors performing specific tasks for the Government; (3) Publication in EPA documents provided the document does not disclose trade secrets (e.g. software codes) and the work is properly attributed to the recipient through citation or otherwise; (4) Reproduction of documents for inclusion in Federal depositories; (5) Use by State, tribal and local governments that carry out delegated Federal environmental programs as "co-regulators" or act as official partners with EPA to carry out a national environmental program within their jurisdiction and; (6) Limited use by other grantees to carry out Federal grants provided the use is consistent with the terms of EPA's authorization to the other grantee to use the copyrighted works or other data.

Under Item 6, the grantee acknowledges that EPA may authorize another grantee(s) to use the copyrighted works or other data developed under this grant as a result of: AGREEMENT NO. 2019-17 Page 5 of 27

- the selection of another grantee by EPA to perform a project that will involve the use of the copyrighted works or other data or:
- termination or expiration of this agreement.

In addition, EPA may authorize another grantee to use copyrighted works or other data developed with Agency funds provided under this grant to perform another grant when such use promotes efficient and effective use of Federal grant funds.

Materials means all items in any format and includes, but is not limited to, data, reports, documents, pamphlets, advertisements, books, magazines, surveys, studies, computer programs, films, tapes, and/or sound reproductions. Ownership includes the right to copyright, patent, register and the ability to transfer these rights.

In the event the materials are not considered "works for hire" under the U.S. Copyright laws CONTRACTOR shall grant AGENCY, and any federal entity which provided federal funds used in this contract, retain a royalty-free, nonexclusive and irrevocable license to reproduce, publish, recover or otherwise use the material(s) or property and to authorize others to use the same for federal, state or local government purposes.

Material which CONTRACTOR uses to perform the contract but is not created for or paid for by AGENCY is not "work made for hire"; however, CONTRACTOR shall grant the AGENCY a nonexclusive, royalty-free, irrevocable license (with rights to sublicense others) in such materials to translate, reproduce, distribute, prepare derivative works, publicly perform, and publicly display, provided that such license shall be limited to the extent which CONTRACTOR has a right to grant such a license to use this material for AGENCY internal purposes at no charge to AGENCY. The CONTRACTOR warrants and represents that CONTRACTOR has all rights and permissions, including intellectual property rights, moral rights and rights of publicity, necessary to grant such a license to the AGENCY. The AGENCY shall receive prompt written notice of each notice or claim of infringement received by the CONTRACTOR with respect to any material delivered under this contract. The AGENCY shall have the right to modify or remove any restrictive markings placed upon the material by the CONTRACTOR.

#### **17. LOBBYING PROHIBITED**

- a. By signing this contract, CONTRACTOR agrees to comply with Title 40 CFR Part 34, New Restrictions on Lobbying, 31 U.S.C. § 1352, and 40 CFR Part 30 if applicable. CONTRACTOR shall include the language of this provision in subcontracts that exceed \$100,000 of federal funds and require all subcontractors to certify and disclose accordingly.
- b. No Federal appropriated funds shall be paid by or on behalf of the CONTRACTOR to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
- c. If this contract includes federal funds exceeding \$100,000, CONTRACTOR shall sign and submit to AGENCY Exhibit D, Attachment 2, PSP Certification Regarding Lobbying (based on EPA Form 6600-06 (Rev. 06/2008). If CONTRACTOR signed and submitted the PSP Certification Regarding Lobbying form during the procurement process for this contract it is not necessary to resubmit the certification.
- d. If CONTRACTOR expends non-federal funds in any amount to lobby as detailed in a., above, CONTRACTOR shall complete and submit to Standard Form LLL (Rev. 4/2012), Disclosure of Lobbying Activity. The form can be found at: http://www.epa.gov/ogd/AppKit/form/sflllin\_sec.pdf.

#### **18. LOBBYING AND LITIGATION**

The chief executive officer of CONTRACTOR shall ensure that no grant funds awarded under this assistance agreement are used to engage in lobbying of the Federal Government or in litigation against the United States unless authorized under existing law. Cost principles in 2 CFR 200 shall be abided by. These principles generally prohibit the use of federal grant funds for litigation again the US or for lobbying or other political activities.

#### NONDISCRIMINATION and DISADVANTAGED BUSINESS ENTERPRISES

In accordance with 40 CFR 33.106 and its Appendix A, the CONTRACTOR shall not discriminate on the basis of race, color, national origin or sex in the performance of this contract. The contractor shall carry out applicable requirements of 40 CFR part 33 in the award and administration of contracts awarded under EPA financial assistance agreements. Failure by the contractor to carry out these requirements is a material breach of this contract which may result in the termination of this contract or other legally available remedies.

#### **19. PAYMENT TO CONSULTANTS**

EPA will limit its participation in salary rate (excluding overhead) paid to individual consultants retained by recipients or by a recipients' contractors or subcontractors shall be limited to the maximum daily rate for Level IV of the Executive Schedule (formerly GS-18), to be adjusted annually. This limit applies to consultation services of designated individuals with specialized skills who are paid at a daily or hourly rate. This rate does not include transportation and subsistence costs for travel performed (the recipient will pay these in accordance with their normal travel reimbursement practices).

Subagreements with firms for services which are awarded using the procurement requirements in 40 CFR Parts 30 or 31, are not affected by this limitation unless the terms of the contract provide the recipient with responsibility for the selection, direction and control of the individual who will be providing services under the contract at an hourly or daily rate of compensation. See 40 CFR 30.27(b) or 40 CFR 31.369j), as applicable, for additional information.

As of January 1, 2018, the limit is \$629.36 per day \$78.67 per hour. (Calculations: 2018 Level IV Executive Schedule annual pay = \$164,200 / 2087 = \$78.67 per hour or \$629.36 per day).

#### **20. PROJECT APPROVAL**

The quality, extent and character of any and all work, deliverables and/or services to be performed under this agreement by the CONTRACTOR shall be subject to the review and approval of the AGENCY through the Project Manager or other designated official. In the event that the AGENCY determines, that any work, deliverable, and/or service performed by the CONTRACTOR is unsatisfactory, the AGENCY may withhold reimbursement for the unsatisfactory work performed by the CONTRACTOR or require that the CONTRACTOR remediate their work product to get it to the satisfaction of the AGENCY. The Parties may agree in the Statement of Work to specific approval, acceptance, and/or remediation terms. If the Statement of Work is silent on this topic, the Disputes provision, above, will govern the resolution process.

#### **21. RECORDS MAINTENANCE**

The parties to this Agreement shall each maintain books, records, documents and other evidence that sufficiently and properly reflect all direct and indirect costs expended by either party in the performance of the service(s) described herein. CONTRACTOR shall retain such records for a period of six years following the date of final payment.

At no additional cost, these records, including materials generated under the contract, shall be subject at all reasonable times to inspection, review or audit by the AGENCY, personnel duly authorized by the AGENCY, the Office of the State Auditor, and federal and state officials so authorized by law, regulation or agreement. If this contract exceeds \$100,000 and any portion of the funding source is federal, the federal funding agency, the Comptroller General of the United States, or any duly authorized representatives shall have access to books documents, papers, and records of CONTRACTOR directly

pertinent to this contract for purpose of making audits, examination, excerpts and transcriptions (40 CFR 30.48(d)).

If any litigation, claim or audit is started before the expiration of the six (6) year period, the records shall be retained until all litigation, claims, or audit findings involving the records have been resolved.

#### 22. RECYCLED PAPER

In accordance with Section 6002 of the Resource Conservation and Recovery Act (RCRA) (42 U.S.C. 6962) any State agency or agency of a political subdivision of a State which is using appropriated Federal funds shall comply with the requirements set forth. Regulations issued under RCRA Section 6002 apply to any acquisition of an item where the purchase price exceeds \$10,000 or where the quantity of such items acquired in the course of the preceding fiscal year was \$10,000 or more. RCRA Section 6002 requires that preference be given in procurement programs to the purchases of specific products containing recycled materials identified in guidelines developed by EPA. These guidelines are listed in 40 CFR 247.

In accordance with the policies set forth in EPA Order 1000.25 and Executive Order 13423, Strengthening Federal Environmental, Energy and Transportation Management (January 24, 2007), Sub-Recipient agrees to use recycled paper and double sided printing for all reports which are prepared as part of this Agreement and delivered to EPA. This requirement does not apply to reports prepared on forms supplied by EPA, or to Standard Forms, which are printed on recycled paper and are available through the General Services Administration.

#### 23. RESPONSIBILITIES OF THE PARTIES

Each party to this Agreement hereby assumes responsibility for claims and/or damages to persons and/or property resulting from any act or omissions on the part of itself, its employees, its officers, and its agents. Neither party assumes any responsibility to the other party for the consequences of any claim, act, or omission of any person, agency, firm, or corporation not a part to this Agreement.

#### 24. SEVERABILITY

If any term or condition of this Agreement is held invalid, such invalidity shall not affect the validity of the other terms or conditions of this Agreement.

#### **25. SUBCONTRACTING**

Neither the CONTRACTOR nor any SUBCONTRACTOR shall enter into subcontracts for any of the work contemplated under this contract without obtaining prior written approval of the AGENCY. In no event shall the existence of the subcontract operate to release or reduce the liability of the contractor to the agency for any breach in the performance of the contractor's duties. This clause does not include contracts of employment between the contractor and personnel assigned to work under this contract.

Additionally, the CONTRACTOR is responsible for ensuring that all terms, conditions, assurances and certifications set forth in this agreement are carried forward to any subcontracts

#### **26. TERMINATION DUE TO FUNDING**

In the event funding from state, federal, or other sources is withdrawn, reduced, or limited in any way after the effective date of this contract and prior to normal completion, the AGENCY may terminate the contract under the "Termination for Convenience" clause, without the ten-day notice requirement, subject to renegotiation at the AGENCY'S discretion under those new funding limitations and conditions.

#### **27. TERMINATION FOR CAUSE**

If for any cause either party does not fulfill in a timely and proper manner its obligations under this Agreement, or if either party violates any of these terms and conditions, the aggrieved party will give the other party written notice of such failure or violation. The responsible party will be given the opportunity to correct the violation or failure within 15 working days. If the failure or violation is not corrected, this Agreement may be terminated immediately by written notice of the aggrieved party to the other.

AGREEMENT NO. 2019-17

Page 8 of 27

#### 28. TERMINATION FOR CONVENIENCE

Either party may terminate this Agreement upon 30 calendar days' prior written notification to the other party. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

#### **29. TREATMENT OF ASSETS**

- a. Title to all property furnished by the AGENCY shall remain in the AGENCY. Title to all property furnished by the CONTRACTOR, for the cost of which the CONTRACTOR is entitled to be reimbursed as a direct item of cost under this contract, shall pass to and vest in the AGENCY upon delivery of such property by the CONTRACTOR. Title to other property, the cost of which is reimbursable to the CONTRACTOR under this contract, shall pass to and vest in the AGENCY upon (i) issuance for use of such property in the performance of this contract, or (ii) commencement of use of such property in the performance of this contract, or (iii) reimbursement of the cost thereof by the AGENCY in whole or in part, whichever first occurs.
- b. Any property of the AGENCY furnished to the CONTRACTOR shall, unless otherwise provided herein or approved by the AGENCY, be used only for the performance of this contract.
- c. The CONTRACTOR shall be responsible for any loss or damage to property of the AGENCY that results from the negligence of the CONTRACTOR or which results from the failure on the part of the CONTRACTOR to maintain and administer that property in accordance with sound management practices.
- d. If any AGENCY property is lost, destroyed or damaged, the CONTRACTOR shall immediately notify the AGENCY and shall take all reasonable steps to protect the property from further damage.
- e. The CONTRACTOR shall surrender to the AGENCY all property of the AGENCY prior to settlement upon completion, termination or cancellation of this contract.
- f. All reference to the CONTRACTOR under this clause shall also include CONTRACTOR'S employees, agents or SUBCONTRACTORS.

#### 30. WAIVER

Waiver of any default or breach shall not be deemed to be a waiver of any subsequent default or breach. Any waiver shall not be construed to be a modification of the terms of this Agreement unless stated to be such in writing and signed by personnel authorized to bind each of the parties.

#### EXHIBIT B -

#### STATEMENT OF WORK

#### Title: Whatcom County LIO – FFY2018 Funding

# Task 1: Organize, Support, Administer, Facilitate and Coordinate a Local Integrating Organization

The local integrating organization (LIO) is responsible for organizing and supporting a committee representing Action Agenda planning, local ecosystem recovery planning, and implementation interests. The Partnership will support the LIO through Ecosystem Recovery Coordinator (ERC) participation at LIO meetings as the Partnership budget allows. The LIO shall maintain sufficient administration, facilitation, and coordination capacity to support the on-going goals and objectives of a LIO.

#### Required for FFY 2019 funding:

- Subtask 1.01 Maintain a local point of contact for the LIO.
- Subtask 1.02 Serve as an agent for local engagement and coordination in the LIO.
- Subtask 1.03 Administer the Whatcom LIO including arranging LIO meetings, preparing and distributing agendas, summaries, briefing papers, and other supporting materials, facilitating meetings and other tasks identified by the WRIA 1 Watershed Management Board or Management Team needed to support the LIO functions. LIO meetings include WRIA 1 Management Team, Steering Committee, and joint Staff Teams. These meetings are the framework for developing, vetting, and/or approving outcomes of subtasks outlined in each of the tasks in this scope of work. This is also the framework for discussing and coordinating LIO positions/responses/feedback to the regional Puget Sound committees.
- Subtask 1.04 Submit updated name, organizational affiliation, contact information (email), and role (which committee(s)) of each LIO member to the Partnership. Notify ERC and update member roster when there is a change to participation.
- Subtask 1.05 Maintain publicly-available information on the LIO, including notice of meetings, agendas, summary notes and/or opportunities for content review. Maintain LIO information on a public website.
- Subtask 1.06 Whatcom LIO participation in regional meetings and trainings may include:
  - Participate in four 5-6 hour in-person LIO Coordination meetings in Edmonds, WA. Possible dates for the LIO Coordinators in-person meetings are:
    - November 6, 2018 (Tuesday)

Partnership may adjust the following dates to better align with Ecosystem Coordination Board (ECB) dates. Meetings will fall on a Tuesday.

- February 12, 2019 (Tuesday)
- May 7, 2019 (Tuesday)
- o August 6, 2019 (Tuesday)
- November 5, 2019 (FYI only pertains to FFY 2020)
- Direct engagement in EPA convened meetings with LIO Coordinators and LIO policy bodies (these will be incorporated into in-person LIO Coordinator Meetings)
- Participate in up to eight hours of conference calls or web meetings

AGREEMENT NO. 2019-17

Page 10 of 27

facilitated by the Partnership

- Subtask 1.07 Coordinate with the salmon recovery lead entity(ies) by beginning conversations around improved collaboration and participating in workshops and trainings.
  - Attend up to one workshop on integration in the Fall 2018
  - Attend up to one training on integration in the Spring 2019
  - Provide summary of coordination efforts (Summer 2019)
- Subtask 1.08 Attend and present at the 2019 Puget Sound Summit. The 2019 Puget Sound Summit invites local, sub-regional and regional partners together to learn and workshop LIO ecosystem recovery efforts in order to build and improve crossscale coordination.
  - LIO Coordinator will attend an all-day Summit (Spring 2019)
  - Present to Summit Attendees. Details and format of presentation TBD.

#### Task 2: Steward and Implement Puget Sound Action Agenda 2018-2022

Local Integrating Organizations serve an important role in coordinating local implementation of priorities identified in the Puget Sound Action Agenda and are an essential element in the Puget Sound National Estuary Program (NEP) funding model. Work under this task addresses Near Term Actions (NTA) in the 2018 – 2022 Action Agenda and the approaches identified in LIO Ecosystem Recovery Plans.

#### Required for FFY 2019 funding:

Subtask 2.01	Support and steward the 2018 – 2022 Action Agenda. Coordinate and catalyze
	implementation of NTAs.

- Facilitate process for LIO to address common barriers, gaps, opportunities, and encourage best practices throughout LIO geography
- Identify existing funding sources and leverage existing partnerships that can contribute to NTA implementation
- Assist NTA owners in identification of funding opportunities through such means as:
  - Distributing funding opportunities to NTA owners and
  - Working with the LIO Committees to identify funding strategies for local priority actions.
- Subtask 2.02 Participate in the 2018–2022 Action Agenda adoption process and after action review.
  - Participate in the after action review. Type and level of engagement TBD. Recommended to set aside 16-24 hours in spring 2019.
- Subtask 2.03 Coordinate and execute a process to identify and recommend NTA(s) for direct funding from the Strategic Initiative Leads (SI Leads). Communicate process and recommended NTA(s) to SI Leads and the Partnership.
- Subtask 2.04 Provide input on the 2022-2026 Action Agenda Comprehensive Plan update, expected to begin summer 2019.

#### Task 3: Performance Management

The LIO shall report on progress of sub-tasks and deliverables through a quarterly progress report provided to the Partnership by the following dates: January 15, 2019; April 15, 2019; July 15, 2019; and

#### AGREEMENT NO. 2019-17

Page 11 of 27

September 30, 2019. The LIO shall provide monthly invoices with brief explanations of activities two weeks after the end of each month. These reports (progress reports and invoices) will be used by the Partnership for the Financial Ecosystem Assessment Tracking system (FEATs), NEPORT, NEP Atlas, and other reporting needs.

#### Required for FFY 2019 funding:

Subtask 3.01	Send progress reports by Task on a <b>quarterly</b> basis (January 15, 2019; April 15, 2019; July 15, 2019; and September 30, 2019) to the Partnership using the Partnership-provided reporting formats <i>(i.e. progress report template)</i> .
Subtask 3.02	Send billing summary by Task, and proof of expenditure for grant activities on a <b>monthly</b> basis to the Partnership using the Partnership-provided reporting formats ( <i>i.e. the "Paypack" document</i> ).
Subtask 3.03	Assist in ensuring information on NTA progress is available at least twice yearly and financial data on annual basis using Smartsheet (NTA owner is responsible for providing this information).
	<ul> <li>Using owner completed NTA report cards ensure LIO Management Team is aware of NTA implementation status.</li> </ul>
	<ul> <li>Using owner completed NTA report cards' annual financial data, ensure LIO Management Team is aware of implementation costs of local NTAs.</li> </ul>
	<ul> <li>Monitor/track reporting as necessary to confirm reporting by NTA owners to PSP is occurring, and assists Partnership in outreach to NTA owner if NTA owner is not responsive.</li> </ul>

Subtask 3.04 Distribute Progress Report to LIO committee(s) at least quarterly.

#### Task 4: Support Communication, Adaptive Management, and Synthesis of LIO Ecosystem Recovery Plans

The LIO shall manage revisions and communicate <u>LIO Ecosystem Recovery Plan</u> (Plan) content in coordination with local and regional partners. Adaptively managing and strategically communicating the LIO Plan engenders confidence in local and regional decision makers that there are well defined problems in Puget Sound at the LIO scale, that LIOs know what to do to address them, that the LIO knows which partners to engage and for what purpose, and that the work at the LIO level is well integrated into an overall strategy for Puget Sound Recovery. The Plan serves as a longer term strategic framework from which the Partnership and other partners can produce a variety of products associated with planning and communicating Puget Sound recovery goals, strategies, outcomes, barriers and solutions. Examples of these products include Implementation Strategies and a variety of LIO Plan Synthesis products.

#### Required for FFY 2019 funding:

Subtask 4.01	Contribute to communications development, products, and presentations of LIO
	Recovery Plans (Fall 2018 - Summer 2019)
	At least two of the following activities required:

- Provide draft outlines or examples of preferred report format and content to Partnership. Partnership will provide additional guidance on this activity.
- Provide feedback on draft reporting templates created by Partnership in

AGREEMENT NO. 2019-17

Page 12 of 27

response to LIO priorities

- Subtask 4.02 Adaptively manage LIO Ecosystem Recovery Plan. (Fall '18- Summer '19) *Required:* 
  - Identify priority adaptive management activities for 2018 and beyond, and advance implementation and/or refine and define goals.
  - Communicate & provide adaptive management needs and updates to the ERC and data steward for purposes of updating Miradi files (e.g., goals, objectives, results chains, NTAs).
  - Maintain and update the LIO Plan in Miradi files with 2018 near term actions and associated information provided by NTA owners (i.e., performance measures, goals) and updates based on adaptive management of LIO plans.
  - Continue to develop quantitative goal statements for priority vital signs and/or pressure sources, stressors and common intermediate performance measures
- Subtask 4.03 Support LIO Ecosystem Recovery Plan synthesis development for Implementation Strategy integration and other regional product integration. *Required*:
  - Review and provide feedback on the draft LIO Synthesis development, content and format.
- Subtask 4.04 Support implementation and coordination of education/outreach related to the local plan.

#### Schedule and Deliverables

The following table translates the subtasks identified previously into the deliverables and timeline for which the Fiscal Agent will be responsible for from October 1, 2018 – September 30, 2019. Summaries of progress towards subtasks are to be included in quarterly progress reports, and deliverables are to be provided to the Partnership within two weeks of the end of each reporting period in which they were completed, as noted in the table, but no later than January 15, 2019; April 15, 2019; July 15, 2019; and September 30, 2019.

Table 1: Summary of LIO Coordination Grant Scope of Work Deliverables and Budget for October 2018 – September 2019.

	Reporting Period FFY 2017 Funding

#### Contract #2019-17

AGREEMENT NO. 2019-17

#### **BILLING PROCEDURES**

The AGENCY shall reimburse the CONTRACTOR upon review and approval of work performed under the scope of this agreement and receipt of properly completed reimbursement requests.

THE AGENCY will pay for work and expenses that occurred within the period of performance. The AGENCY reserves the right to withhold 10% of the payment under each reimbursement request until satisfactory completion of the project.

Payment may be withheld if required work, services, progress reports and/or deliverables are not submitted to the satisfaction of the AGENCY.

The AGENCY may terminate the agreement or withhold payments claimed by the CONTRACTOR for services rendered if the CONTRACTOR fails to comply with any term or condition of this contract.

The AGENCY will pay indirect costs as approved in the budget. The CONTRACTOR may be required to submit a copy of their current federally approved indirect cost rate.

The CONTRACTOR shall receive reimbursement for travel and other expenses as identified below or as authorized in advance by the AGENCY as reimbursable. Such expenses may include airfare (economy or coach class only), other transportation expenses, lodging and subsistence necessary during periods of required travel at the current state reimbursement rates (<u>http://www.ofm.wa.gov/resources/travel.asp</u>).

If the CONTRACTOR expends more than the amount of the AGENCY funding in this agreement in anticipation of receiving additional funds from the AGENCY, it does so at its own risk. The AGENCY is not legally obligated to reimburse the CONTRACTOR for costs incurred in excess of the AGENCY's approved budget.

The CONTRACTOR shall submit a monthly invoice voucher or equivalent document to the AGENCY **unless** the agreement has been identified as a "deliverable-based" contract with specific due date or special conditions that have been approved by the PSP Project Manager. Payment for approved goods and/or services will be made by check, warrant or electronic fund transfer (EFT) within 30 days of receipt of the invoice. The CONTRACTOR must submit invoices for all work done within a fiscal year 30 days after the end of the fiscal year. Invoices shall be paid within 30 days after the final invoice has been submitted.

#### **BILLING CONDITIONS:**

All Contractors/LIOs must submit any budget changes to PSP for sufficient processing time of any amendment execution between PSP and the Contractor/LIO. If information provided does not allow for sufficient processing time, PSP will <u>not</u> adjust or pay for any invoices or billing over the 10% of the total amount listed for each task or subtask even if the added total amounts for those tasks/subtasks does not exceed the total budget.

#### **BILLING DETAIL**

Each invoice voucher or equivalent document submitted to the AGENCY by the CONTRACTOR must include all necessary information for the AGENCY to verify all expenditures. At a minimum, the CONTRACTOR shall specify the following:

- 1. The PSP contract/agreement number.
- 2. The time-period during which the services were performed.
- 3. A description of purchases, work and services performed.
- 4. Total invoice amount.
- 5. Expenditure detail based on the approved budget. Supporting documentation must include the same level of detail as the approved budget, such as:
  - a. Task Number

AGREEMENT NO. 2019-17

- b. Budget category (personnel, goods/services, subcontractors)
- c. Number of hours billed, if applicable and
- d. Hourly rate, if applicable.
- 6. A receipt must accompany any single expense in the amount of \$50.00 or more.
- 7. If match is required:
  - a. match requirement met during the billing period, and
  - b. cumulative match requirement met
- 8. A progress report describing the deliverables completed during the reimbursement request period.

The AGENCY shall not process payments if the CONTRACTOR fails to submit the required documentation.

Submit reimbursement requests to:

Puget Sound Partnership Fiscal Unit 326 East D Street Tacoma, WA 98421-1801

#### Requests may be submitted electronically to pspfiscal@psp.wa.gov

Payment shall be considered timely if made by the AGENCY within thirty (30) calendar days after receipt of properly completed reimbursement request.

#### Exhibit D

PSP Agreement #2019-17

### CERTIFICATION REGARDING LOBBYING CERTIFICATION FOR CONTRACTS, GRANTS, LOANS AND COOPERATIVE AGREEMENTS

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including sub-contracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all sub-recipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31 U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

AGREEMENT NO. 2019-17

#### EXHIBIT E

#### Puget Sound Partnership

#### SUB-RECIPIENT FEDERAL REQUIREMENTS

#### Title: Whatcom County LIO – FFY2018 Funding

#### 1. INTRODUCTION

This Exhibit E contains provisions that are not listed on OMB Standard Form 424B (Rev 4-2012). These provisions apply only to Sub-recipients.

#### 2. AUDIT REQUIREMENTS

Sub-recipient CONTRACTOR shall meet the provisions in Office of Management and Budget (OMB) Guidance, Subpart F, §200.501 (Audit Requirements), if the CONTRACTOR expends \$750,000 or more in total Federal funds in a fiscal year. The \$750,000 threshold for each year is a cumulative total of all federal funding from all sources. The CONTRACTOR shall forward a copy of the audit along with the RECIPIENT'S response and the final corrective action plan to AGENCY within ninety (90) days of the date of the audit report. For complete information on how to accomplish the single audit submissions, visit the Federal Audit Clearinghouse Web site: <a href="http://harvester.census.gov/facweb/">http://harvester.census.gov/facweb/</a>

#### 3. COST PRINCIPLES/INDIRECT COSTS FOR STATE AGENCIES

GRANT RECIPIENT agrees to comply with the cost principles of 2 CFR 200 Subpart E as appropriate to the award.

In addition to the US Environmental Protection Agency's General Terms and Conditions "Indirect Cost Rate Agreements", if the recipient does not have a previously established indirect cost rate, it agrees to prepare and submit its indirect cost rate proposal in accordance with 2 CFR 200 Appendix VII.

#### 4. CIVIL RIGHTS OBLIGATIONS

This term and condition incorporates by reference the signed assurance provided by the recipient's authorized representative on Standard Form 424B. These assurances and this term and condition obligate the recipient to comply fully with applicable civil rights statutes and implementing EPA regulations.

#### 5. CYBERSECURITY CONDITION

The subrecipient(s) must comply with the recipient's requirements (section (b) (1) – EPA must ensure that any connections between the recipient' network or information system and EPA networks used by the recipient to transfer data under this agreement, are secure) if the subrecipients network or information system is connected to EPA networks to transfer data to the Agency using systems other than the Environmental Information Exchange Network or EPA's Central Data Exchange.

#### 6. NON DISCRIMINATION AND DISADVANTAGED, MBE, WBE BUSINESS ENTERPRISES ADDITIONAL REQUIREMENTS

CONTRACTOR agrees to comply with the requirements of EPA's Program for Utilization of Small, Minority, and Women's Business Enterprises in procurement, contained in 40 CFR, Part

AGREEMENT NO. 2019-17

Page 20 of 27

33. CONTRACTOR shall include the following provision in all subcontracts involving use of federal funds:

In accordance with 40 CFR 33.106 and its Appendix A, the CONTRACTOR shall not discriminate on the basis of race, color, national origin or sex in the performance of this contract. The contractor administration shall carry out applicable requirements of 40 CFR part 33 in the award of contracts awarded under EPA financial assistance agreements. Failure by the contractor to carry out these requirements is a material breach of this contract which may result in the termination of this contract or other legally available remedies.

#### 7. DRUG FREE WORKPLACE

CONTRACTOR (Sub-Recipient) shall make an ongoing, good faith effort to maintain a drug-free workplace pursuant to the specific requirements set forth in Title 2 CFR Part 1536 Subpart B. Additionally, in accordance with these regulations, the recipient organization shall identify all known workplaces under its federal award and keep this information on file during the performance of the award.

CONTRACTORS who are individuals must comply with the drug-free provisions set forth in Title 2 CFR Part 1536 Subpart C.

The consequences for violating this condition are detailed under Title 2 CFR Part 1536 Subpart E. Recipient can access the Code of Federal Regulations (CFR) Title 2 Part 1536 at: <u>http://ecfr.gpoaccess.gov</u>.

#### 8. FEDERAL FUNDING ACCOUNTABILITY AND TRANSPARENCY ACT (FFATA) REPORTING REQUIREMENTS

- a. In order to comply with the FFATA, the Sub-Recipient shall complete the FFATA Data Collection Form (FFATA Data Collection Form, Exhibit E, Attachment 2) and return it to the AGENCY. The AGENCY will report basic agreement information, including the required DUNS number, for all federally-funded agreements at <u>www.fsrs.gov</u>. This information will be made available to the public at <u>www.usaspending.gov</u>. Sub-Recipients who do not have a DUNS number can find guidance at <u>www.grants.gov</u>. Please note that AGENCY will not pay any invoices until it has received the completed FFATA Data Collection Form.
- b. To comply with the act and be eligible to enter into this contract, your organization must have a Data Universal Numbering System (DUNS®) number. A DUNS® number provides a method to verify data about your organization. If you do not already have one, you may receive a DUNS® number free of charge by contacting Dun and Bradstreet at www.dnb.com.
- c. Any sub-recipient that meets each of the below criteria must also report compensation for its five top executives, using AGENCY's Federal Funding Accountability and Transparency Act (FFATA) Data Collection Form if the sub-recipient meets the following criteria:
  - Receives more than \$25,000 in federal funds under this award.
  - Receives more than 80 percent of its annual gross revenues from federal funds.
  - Receives more than \$25,000,000 in annual federal funds.
  - The public does not have access to this information about the compensation of the senior executives of your organization through periodic reports filed under section 13(A) or 15(d) of the Securities and Exchange Act of 1934 (15 U.S.C. 78m(a), 78(d) or section 6104 of the Internal Revenue Code of 1986.

See <u>www.fsrs.gov</u> for details of this requirement. If your organization falls into this above category, you must report the required information to AGENCY.

#### 9. INTERNATIONAL TRAVEL (Including Canada

All International Travel must be approved by the US Environmental Protection Agency's, Office of International and Tribal Affairs (OITA) BEFORE travel occurs. Even a brief trip to a foreign country, for example to attend a conference, requires OITA approval. Please contact your Partnership Project manager as soon as possible if travel is planned out of the country, including Canada and/or Mexico, so that they can submit a request to the EPA Project Officer if they approve of such travel.

#### 10. LEP (Limited English Proficiency) Title VI

As a recipient of EPA financial assistance, you are required by Title VI of the Civil Rights Act to provide meaningful access to LEP individuals. In implementing that requirement, the Sub-recipient agrees to use as a guide the Office of Civil Rights (OCR) document entitled "*Guidance to Environmental Protection Agency Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons.*" The guidance can be found at

http://frwebgate.access.gpo.gov/cgi-bin/getdoc.cgi?dbname=2004\_register&docid=fr25jn04-79.pd.

In accepting this contract, the recipient acknowledges it has an affirmative obligation to implement effective Title VI compliance programs and ensure that its actions do not involve discriminatory treatment and do not have discriminatory effects even when facially neutral. The recipient must be prepared to demonstrate to EPA/PSP that such compliance programs exist and are being implemented or to otherwise demonstrate how it is meeting its Title VI obligations. For example, if CONTRACTOR's responsibilities under this contract include gathering public input on an environmental issue, CONTRACTOR's communication with the public should attempt to minimize barriers that interfere with the ability of LEP persons to meaningfully participate.

#### **11. MANAGEMENT FEES**

Management fees or similar charges in excess of the direct costs and approved indirect rates are not allowable. The term "management fees or similar charges" refers to expenses added to the direct costs in order to accumulate and reserve funds for ongoing business expenses, unforeseen liabilities, or for other similar costs which are not allowable under this CONTRACT. Management fees or similar charges may not be used to improve or expand the project funded under this Agreement, except to the extent authorized as a direct cost of carrying out the scope of work.

#### 12. PEER REVIEW

The results of this project may affect management decisions relating to Puget Sound. Prior to finalizing any significant technical products the Principal Investigator (PI) of this project must solicit advice, review, and feedback from a technical review or advisory group consisting of relevant subject matter specialists. A record of comments and a brief description of how respective comments are addressed by the PI will be provided to the Project Monitor prior to releasing any final reports or products resulting from the funded study.

#### **13. REIMBURSEMENT LIMITATION**

If CONTRACTOR expends more than the amount of the Environmental Protection Agency (EPA) funding in this agreement in anticipation of receiving additional funds from EPA, it does

so at its own risk. EPA is not legally obligated to reimburse PSP, nor its sub-recipients, for costs incurred in excess of the EPA approved budget.

#### 14. SEMI-ANNUAL AND ANNUAL PERFORMANCE REPORTS

The Sub-recipient shall submit performance reports during the life of the project, as specified in the statement of work or work plan developed under this contract.

In addition to the periodic performance reports, the recipient shall submit a final performance report, which is due 90 calendar days after the expiration or termination of the award, or as specified in the work plan or statement of work. The report shall be submitted to the PSP Project Officer and may be provided electronically. The report shall generally contain the same information as in the periodic reports, but should cover the entire project period. After completion of the project, the PSP Project Officer may waive the requirement for a final performance report if the PSP Project Officer deems such a report is inappropriate or unnecessary.

#### 15. SIX GOOD FAITH EFFORTS, 40 CFR, PART 33, SUBPART C

Pursuant to 40 CFR, Section 33.301, the recipient agrees to make the following good faith efforts whenever procuring construction, equipment, service and supplies under an EPA financial assistance agreement, and to require that **<u>subrecipients</u>**, loan recipients, and prime contractors also comply. Records documenting compliance with the six good faith efforts shall be retained:

- a) Ensure DBEs are made aware of contracting opportunities to the fullest extent practicable through outreach and recruitment activities. For Indian Tribal, State and Local Government recipients, this will include placing DBEs on solicitation lists and soliciting whenever they are potential sources.
- b) Make information on forthcoming opportunities available to DBEs and arrange time frames for contracts and establish delivery schedules, where the requirements permit, in a way that encourages and facilitates participation b DBEs in the competitive process. This includes, whenever possible, posting solicitations for bids or proposals for a minimum of 30 calendar days before the bid or proposal closing date.
- c) Consider in the contracting process whether firms competing for large contracts could subcontract with DBEs. For Indian Tribal, State and local Government recipients, this will include dividing total requirements when economically feasible into smaller tasks or quantities to permit maximum participation by DBEs in the competitive process.
- d) Encourage contracting with a consortium of DBEs when a contract is too large for one of these firms to handle individually.
- e) Use the services and assistance of the SBA and the Minority Business Development Agency of the Department of Commerce.
- f) If the prime contractor awards subcontracts, require the prime contractor to take the steps in paragraph (a) through (e) of this section.

#### 16. SUB-AWARDS

If CONTRACTOR (Sub-Recipient) makes sub-awards under this contract, CONTRACTOR is responsible for selecting its sub-awardees and, if applicable, for conducting sub-award competitions. CONTRACTOR agrees to:

- a. Establish all sub-award agreements in writing;
- b. Maintain primary responsibility for ensuring successful completion of the approved project (Sub-Recipient cannot delegate or transfer this responsibility to a sub-awardee);

AGREEMENT NO. 2019-17

- c. Ensure that any sub-awards comply with the standards in Section 210(a)-(d) of OMB Circular A-133, and are not used to acquire commercial goods or services for the subawardee;
- d. Ensure that any sub-awards to 501(c)(4) organizations do not involve lobbying activities;
- e. Monitor the performance of sub-awardees, and ensure sub-awardees comply with all applicable regulations, statutes, and terms and conditions which flow down in the sub-award;
- f. Obtain AGENCY's consent before making a sub-award to a foreign or international organization, or a sub-award to be performed in a foreign country; and
- g. Obtain approval from AGENCY for any new sub-award work that is not outlined in the approved work plan in accordance with 40 CFR Parts 30.25 and 31.30, as applicable.

# 17. TRAFFICKING IN PERSONS AND TRAFFICKING VICTIM PROTECTION ACT OF 2000 (TVPA) AS AMENDED IN 22 U.S.C. 7104(g)

This provision applies only to a Sub-Recipient, and all sub-awardees of Sub-Recipient, if any. See page one (1) of this contract for determination of whether CONTRACTOR is a subrecipient. Sub-Recipient shall include the following statement in all sub-awards made to any private entity under this Agreement.

"You as the Sub-Recipient, your employees, sub-awardees under this award, and subawardees' employees may not engage in severe forms of trafficking in persons during the period of time that the award is in effect; procure a commercial sex act during the period of time that the award is in effect; or use forced labor in the performance of the award or sub-awards under this Award."

Sub-Recipient, and all sub-awardees of Sub-Recipient must inform AGENCY immediately of any information you receive from any source alleging a violation of this prohibition during the award term.

Federal agency funding this agreement may unilaterally terminate, without penalty, the funding award if this prohibition is violated, Section 106 of the Trafficking Victims Protection Act of 2000, as amended.

#### **18. UNLIQUIDATED OBLIGATIONS (ULO)**

Sub-recipients, and all sub-awardees of Sub-Recipients, if any, should manage their agreement and subaward funding in ways that reduce the length of time that federal funds obligated and committed to subaward projects are unspent (not yet drawn down through disbursements to sub-recipients and sub-awardees).

Page 24 of 27

#### ASSURANCES - NON-CONSTRUCTION PROGRAMS

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0040), Washington, DC 20503.

#### PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

**NOTE:** Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

- Has the legal authority to apply for Federal assistance and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project cost) to ensure proper planning, management and completion of the project described in this application.
- 2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
- 3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
- Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
- Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
- Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to:

   (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352)
   which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C.§§1681- 1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation

Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U. S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290

ee- 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.

- 7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
- Will comply, as applicable, with provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

#### **Previous Edition Usable**

Authorized for Local Reproduction

Standard Form 424B (Rev. 7-97) Prescribed by OMB Circular A-102

AGREEMENT NO. 2019-17

- Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333), regarding labor standards for federally-assisted construction subagreements.
- 10. Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more.
- 11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the

Endangered Species Act of 1973, as amended (P.L. 93-205).

12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

- Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).
- 14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.
- 15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. §§2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.
- 16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.
- 17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."
- 18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.
- 19. Will comply with the requirements of Section 106(g) of the Trafficking Victims Protection Act (TVPA) of 2000, as amended (22 U.S.C. 7104) which prohibits grant award recipients or a sub-recipient from (1) Engaging in severe forms of trafficking in persons during the period of time that the award is in effect (2) Procuring a commercial sex act during the period of time that the award is in effect or (3) Using forced labor in the performance of the award or subawards under the award.

#### 424B (Rev 4-2012) Federal Funding Accountability and Transparency Act Data Collection Form

This award is supported by Federal Funds that require compliance with the Federal Funding Accountability and Transparency Act. The purpose of the Transparency Act is to make information available online so the public can see how Federal Funds are spent. To comply with the act and be eligible to receive this award, your organization must have a Data Universal Numbering System (DUNS®) number. If you do not already have one, you may receive a DUNS ® number free of charge by contacting Dun and Bradstreet at www.dnb.com. The Puget Sound Partnership (PSP) also encourages registration with the System for Award Management (SAM) to reduce data entry by both PSP and your organization. You may register with SAM Free of Charge at <u>www.sam.gov</u>. Information about your organization and this grant will be reported by PSP to the Federal government as required by P.L 109-282. This information will then be made available to the public by the Federal Government on <u>www.USASpending.gov</u>.

RECEIV

#### MEMORANDUM

SEP 1 3 2018

JACK LOUWS

TO:The Honorable Jack Louws, County Executive, andCOUNTY EXECUTIVEThe Honorable Members of the Whatcom County Flood Control ZoneDistrict Board of Supervisors

THROUGH: Jon Hutchings, Public Works Director

FROM: Kraig Olason, Stormwater Program Manager

DATE: September 7, 2018

**RE:** Bid # 18-44, North Cottonwood Stormwater Improvements – Hazel Lane Construction Contract Award to Strider Construction Company, Inc.

Please find enclosed for your review and approval a contract award package for the **North Cottonwood Stormwater Improvements – Hazel Lane** capital improvement project in the Birch Bay watershed. This package consists of an agenda bill, project summary and vicinity map, project cost breakdown, bid tabulation, and the lowest apparent bid proposal. Bid proposals for this project were opened at 2:30 p.m. on Tuesday, September 4, 2018.

#### Requested Action

- Public Works requests that the Flood Control Zone District Board of Supervisors authorize the County Executive to approve the North Cottonwood Stormwater Improvements – Hazel Lane project for 2018. Pursuant to Resolution 2017-295 adopting the Six-Year Water Resources Improvement Program (WRIP) for 2018-2023, the Harborview Road Drainage Improvements Phase 1 was scheduled for construction in 2018 and the subject project on Hazel Lane was slated for 2019. However, due to required project coordination with the delayed Birch Bay Drive Pedestrian Facility project, Harborview Road drainage upgrades have been put on hold until 2020 and the Hazel Lane project is moving forward in 2018.
- Public Works requests that the Flood Control Zone District Board of Supervisors authorize the County Executive to enter into a contract for the subject project to Strider Construction Company, Inc. as the lowest responsible and responsive bidder as provided for by Resolution 2017-321 and WCC 3.08.100. The total cost of the bid is \$279,435.00 including all applicable taxes. Please signify your approval to award this contract to Strider Construction Company, Inc. on the Approval for Contract Award page.

#### **Background and Purpose**

The North Cottonwood Stormwater Improvements - Hazel Lane project will improve stormwater conveyance capacity, reduce flooding/drainage-related impacts to private property and county road systems, provide roof/downspout connections to the upgraded system and improve water quality by safely conveying the stormwater to a water quality treatment swale. The existing stormwater infrastructure is failing and conveyance is sluggish due to improperly installed driveway culverts, extremely low gradient and poor drainage system design. This project was identified as a high priority capital improvement project in the Central North Subwatershed Master Plan, the Six-Year Water Resources Improvement Program and by recommendation of the Birch Bay Watershed and Aquatic Resources Management (BBWARM) District Advisory Committee.

#### **Funding Amount and Source**

Expenditure for this project in the amount of \$279,435.00 is authorized under BBWARM's 2018 budget for Birch Bay projects (cost center 9259018002, work order 20028).

Please contact Kraig Olason at extension 6301, if you have any questions or concerns regarding the terms of this agreement.

Encl.

In accordance with WCC 3.08.230, I concur with this recommendation:

Sara Winger, Purchasing Coordinator

09/13/2018

Testing and Contingency	\$8,000.00
Total	\$398,535.00

#### North Cottonwood Stormwater Improvements – Hazel Lane (CN-C-1) Database ID No. 07-159

**Construction Funding Year(s):** 

2018 (revised)

#### **Project Narrative:**

This project involves drainage improvements within the North Cottonwood neighborhood, including re-grading ditches, replacing culverts and installing new pipes and catch basins. The upgrade to the drainage system will improve stormwater flows, reduce drainage-related impacts to private property and county road systems, provide roof/downspout connections to the upgraded system and improve water quality by safely conveying the Hazel Lane stormwater to the existing water quality treatment swale.

This project will complete the stormwater improvements within the North Cottonwood Neighborhood, as identified in the Birch Bay Central North Subwatershed Master Plan and the Birch Bay Comprehensive Stormwater Plan. It will also provide the final contributing area to the water quality treatment swale constructed in 2013, as a component of the Cottonwood Neighborhood Drainage Improvements Project.

#### Project Status:

Preliminary engineering design began in 2017 and was completed in 2018. Construction is scheduled to take place in the fall of 2018.

Total Estimated Project Cost: \$383,975

\$0

Expenditures to Date:

#### **BID PROPOSAL**

#### WHATCOM COUNTY PUBLIC WORKS STORMWATER DIVISION BELLINGHAM, WASHINGTON

### NORTH COTTONWOOD STORMWATER IMPROVEMENTS

#### HAZEL LANE

#### **BID NO 18-44**

#### DATE: September 4, 2018

TO: Whatcom County Executive and Council Whatcom County Courthouse 311 Grand Avenue Bellingham, Washington 98225

#### Gentlepersons:

This certifies that the Undersigned: has examined the location of the project site and the conditions of work; and has carefully read and thoroughly understands the contract documents entitled: "NORTH COTTONWOOD STORMWATER IMPROVEMENTS, HAZEL LANE, BID NO 18-44" Whatcom County, Washington, including the "Bid Procedures and Conditions," "Specifications and Conditions," "Contract Forms," "Construction Plans," and "Appendices," governing the work embraced in this project, and the method by which payment will be made for said work. The Undersigned hereby proposes to undertake and complete the work embraced in this project in accordance with said contract documents, and agrees to accept as payment for said work, the schedule of lump sum and unit prices as set forth in the "Bid" below.

The Undersigned acknowledges that payment will be based on the actual work performed and material used as measured or provided for in accordance with the said contract documents, and that no additional compensation will be allowed for any taxes not included in each lump sum or unit price, and that the basis for payment will be the actual work performed and measured or provided for in accordance with the said contract documents. The Undersigned certifies that it is not currently disqualified from bidding on any public works contract under RCW 39.06.010 or RCW 39.12.065(3).

### CERTIFICATION OF COMPLIANCE WITH WAGE PAYMENT STATUTES

The bidder hereby certifies that, within the three-year period immediately preceding the bid solicitation date August 22, 2018, the bidder is not a "willful" violator, as defined in RCW 49.48.082, of any provision of chapters 49.46, 49.48, or 49.52 RCW, as determined by a final and binding citation and notice of assessment issued by the Department of Labor and Industries or through a civil judgment entered by a court of limited or general jurisdiction.

I certify under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct.

### PROPOSAL FOR INCORPORATING RECYCLED MATERIALS INTO THE PROJECT

In compliance with a new law that went into effect January 1, 2016 (SHB1695), the Bidder shall propose below, the total percent of construction aggregate and concrete materials to be incorporated into the Project that are recycled materials. Calculated percentages must be within the amounts allowed in Section 9-03.21(1)E, Table on Maximum Allowable Percent (By Weight) of Recycled Material, of the Standard Specifications.

percent.

Proposed total percentage:\_

Note: Use of recycled materials is highly encouraged within the limits shown above, but does not constitute a Bidder Preference, and will not affect the determination of award, unless two or more lowest responsive Bid totals are exactly equal, in which case proposed recycling percentages will be used as a tie-breaker, per the APWA GSP in Section 1-03.1 of the Special Provisions. Regardless, the Bidder's stated proposed percentages will become a goal the Contractor should do its best to accomplish. Bidders will be required to report on recycled materials actually incorporated into the Project, in accordance with the APWA GSP in Section 1-06.6 of the Special Provisions.

### MEMORANDUM

RECEIVED

SEP 1 3 2018

TO:	The Honorable Jack Louws, Whatcom County Executive for the Whatcom County Flood Control Zone District Board of Supervisors	JACK LOUWS COUNTY EXECUTIVE
THROUGH	Jon Hutchings, Public Works Director	
FROM:	Kraig Olason, Stormwater Program Manager $ ot\!$	
DATE:	September 7, 2018	
RE:	Amendment 2 to Tetra Tech Contract #201803018-1 for Birch Bay Driv Improvement Project Design	ve Outfall

Enclosed for your review and signature are two (2) originals of Amendment 2 for Contract No. 201803018-1 between Tetra Tech, Inc. and Whatcom County for additional design assistance and analysis associated with the Birch Bay Drive Outfall Improvement Project.

### Background and Purpose

In December 2017, the failure of a corrugated metal outfall pipe on Point Whitehorn caused significant slope failure on a steep bluff to the shoreline, posing a critical public safety issue and the potential loss of personal property. The replacement of this outfall was originally scheduled for construction in 2021, but this pipe failure called for emergency action. Tetra Tech was hired in March 2018 (LOA 2018-SW-05) to conduct a hydrologic and hydraulic analysis and provide conceptual design options for repair. The results of that effort indicated that the most feasible design option was to re-route stormwater flows from this outfall further north along Birch Bay Drive (approximately 1500 feet) and outfall into a tributary of Terrell Creek.

Contract No. 201803018 involved the engineering design of this conveyance system and preparation of construction documents and bid package needed to construct the improvements. In May 2018, we learned that the Birch Bay Water & Sewer District (BBWSD) had a utility repair project planned for the same road corridor. Coordination of these two projects would reduce the impact/disruption to the neighborhood, save money for both districts and avoid major utility relocations in the future. Therefore, the scope of the original design contract with Tetra Tech was amended to include a larger project area that aligned with BBWSD's waterline maintenance project. To avoid utility conflicts at the intersection of Pt. Whitehorn Road and Birch Bay Drive, a new outfall location was identified in August 2018, which requires additional hydraulic analyses and design costs associated with the new road crossing and ditch stabilization measures leading to the new outfall location. Amendment 2 to this contract includes these supplemental engineering services.

The Birch Bay Drive Outfall Improvement project was identified as a high priority capital improvement project in the Point Whitehorn Subwatershed Master Plan, the Six-Year Water Resources Improvement Program (WRIP) and by recommendation of the Birch Bay Watershed and Aquatic Resources Management (BBWARM) Advisory Committee.

### Funding Amount and Source

Contract total of \$102,278.00 will be funded by existing authority in the BBWARM district budget (cost center 9259018001, work order 19852).

Please contact Kraig Olason at extension 6301, if you have any questions or concerns regarding the terms of this agreement.

Encl.

Whatcom County Contract No. 201803018-2

#### Amendment No. 2 Whatcom County Contract No. 201803018-1 CONTRACT BETWEEN WHATCOM COUNTY AND Tetra Tech, Inc.

THIS AMENDMENT is to the Contract between Whatcom County and Tetra Tech, Inc., dated April 1, 2018 and designated "Whatcom County Contract No. 201803018-1". In consideration of the mutual benefits to be derived, the parties agree to the following:

This Amendment does not extend the term of this Agreement and increases the maximum consideration by \$18,468.00 to a total consideration of \$102,278.00, as shown in Exhibit B-1 and B-1.1, see attached.

This Amendment also adds the following to the Scope of Work, Exhibit A-1, see attached.

Unless specifically amended by this agreement, all other terms and conditions of the original contract shall remain in full force and effect.

This Amendment takes effect: \_April 1, 2018 , regardless of the date of signature.

IN WITNESS WHEREOF, Whatcom County and <u>Tetra Tech, Inc.</u> have executed this Amendment on the date and year below written.

DATED this 10/4 day of September, 2018.

) ss.

## **EXHIBIT A-1**

## **INCREASED SCOPE OF WORK**

## Amendment No. 2 to Contract No. 201803018-1

### Supplemental Engineering Design Services

September 6, 2018

This scope of work includes supplemental engineering services for the design of the Birch Bay Drive Outfall Improvements project.

## TASK 1 - ADDITIONAL HYDRAULIC ANALYSIS FOR POINT WHITEHORN CROSSING AND DITCH STABILIZATION DESIGN WORK

Additions to Task 1 cover the increased effort associated with analyzing options and impacts to the Birch Bay Water & Sewer District (BBWSD) facilities for the culvert crossing of Point Whitehorn Road and the associated ditch outfalling to the beaver pond.

Task 1 Additional Scope Items

- Review and analysis of beaver pond culvert hydraulics and summary of increase/decreased peak flows at the ditch located at the BBWSD access road and at the culverts leading into the beaver pond.
- Revise crossing location to the flow splitter located approximately 185' south of Birch Bay Drive and Point Whitehorn Road to accommodate the BBWSD concerns and facilities located at the original crossing location.
- Design and construction documents associated with the repair and stabilization measures to existing incised ditch leading to the beaver pond to handle associated proposed design flows.

#### Task 1 Assumptions

- Potholing of BBWSD facilities at the revised crossing location and ditch to the beaver pond will be performed and provided by the BBWSD with survey point by Whatcom County.
- Permitting and easements associated with beaver pond ditch improvements provided by Whatcom County.

#### Task 1 Deliverables

- Memo (approximately 3 pages) summarizing changed flow contributions to the BBWSD access road ditch, the culvert under Pt. Whitehorn Rd leading to beaver pond ditch, and the capacity of concrete box culvert from the beaver pond crossing under the BBWSD access drive.
- Approximately 3 added sheets for the extended project length (1 erosion control sheet, 1 stormwater plan/profile sheet, and 1 detail sheet) for all submittals and updates to design report.

## **TASK 4 - PROJECT MANAGEMENT**

Additions to Task 4 include attendance at two BBWARM advisory committee/public outreach meetings.

#### Task 4 Assumptions

- Preparation of graphics to support meetings presentations, one hour each per meeting.
- Two BBWARM meetings are budgeted involving one employee from Tetra Tech for six hours.

MEMORANDUM

JACK LOUWS COUNTY EXECUTIVE

- **TO:** The Honorable Jack Louws, Executive for the Whatcom County Flood Control Zone District Board of Supervisors
- THROUGH: Jon Hutchings, Public Works Director
- FROM: Gary Stoyka, Natural Resources Manager (M Austin Rose, Planner I, Natural Resources
- **DATE:** August 24, 2018
- RE: State of Washington Department of Ecology Grant Agreement SEANWS-2018-WhCoPW-00013 Northwest Straits Project: Marine Resources Committee (MRC Operations and Projects

Please find enclosed for your review and signature three (3) originals of Grant Agreement SEANWS-2018-WhCoPW-00013, Northwest Straits Project: Marine Resources Committee (MRC) Operation and Projects, between the Washington State Department of Ecology (DOE) and Whatcom County for the sum of \$75,000.

## **Background and Purpose**

This grant agreement will fund administrative support and action projects for the Whatcom County Marine Resources Committee including education and outreach, water quality monitoring, bull kelp surveys, forage fish spawning surveys, and monitoring of a pilot Olympia oyster restoration project.

The administrative portion of the budget will fund the continuation of an existing 0.7 FTE position to support the MRC with meeting coordination, contract administration, project implementation, and monitoring.

## **Funding Amount and Source**

This grant agreement with Washington Department of Ecology provides the County with \$75,000 for administrative and technical support to the MRC and to implement action projects. No match is required.

Please contact Austin Rose at extension 6286 or Gary Stoyka at extension 6218, if you have any questions or concerns regarding the terms of this agreement.

Encl.

WHATCOM COUNTY CONTRACT NO. 201809004

## Agreement No. SEANWS-2018-WhCoPW-00013

### SHORELANDS NORTHWEST STRAITS AGREEMENT

BETWEEN

### THE STATE OF WASHINGTON DEPARTMENT OF ECOLOGY

AND

#### WHATCOM COUNTY

This is a binding Agreement entered into by and between the state of Washington, Department of Ecology, hereinafter referred to as "ECOLOGY," and Whatcom County, hereinafter referred to as the "RECIPIENT," to carry out with the provided funds activities described herein.

#### **GENERAL INFORMATION**

Project Title:	Whatcom Marine Resources Committee
	Operation and Projects
Total Cost:	\$75,000.00
Total Eligible Cost:	\$75,000.00
Ecology Share:	\$75,000.00
Recipient Share:	\$0.00
The Effective Date of this Agreement is:	10/01/2018
The Expiration Date of this Agreement is no later than:	09/30/2019
Project Type:	Northwest Straits Grant

#### Project Short Description:

The Whatcom MRC works to achieve important goals of resource conservation and habitat protection within the Northwest Straits, through implementing priorities of the Puget Sound Action Agenda. This grant will support the Whatcom MRC operations and projects for 2018-19.

#### Project Long Description:

The MRC is focused on two Action Agenda strategic initiatives: 1) protecting and restoring marine habitats; 2) restore and reopen shellfish beds. In addition to projects, this funding provides education and outreach programming and administrative support for the MRC to accomplish these goals.

#### Overall Goal:

The overall goal is to implement projects that improve the health of marine waters, shorelines, and aquatic resources of Whatcom County.

### AUTHORIZING SIGNATURES

RECIPIENT agrees to furnish the necessary personnel, equipment, materials, services, and otherwise do all things necessary for or incidental to the performance of work as set forth in this Agreement.

RECIPIENT acknowledges that they had the opportunity to review the entire Agreement, including all the terms and conditions of this Agreement, Scope of Work, attachments, and incorporated or referenced documents, as well as all applicable laws, statutes, rules, regulations, and guidelines mentioned in this Agreement. Furthermore, the RECIPIENT has read, understood, and accepts all requirements contained within this Agreement.

This Agreement contains the entire understanding between the parties, and there are no other understandings or representations other than as set forth, or incorporated by reference, herein.

No subsequent modifications or amendments to this agreement will be of any force or effect unless in writing, signed by authorized representatives of the RECIPIENT and ECOLOGY and made a part of this agreement. ECOLOGY and RECIPIENT may change their respective staff contacts without the concurrence of either party.

This Agreement shall be subject to the written approval of Ecology's authorized representative and shall not be binding until so approved.

The signatories to this Agreement represent that they have the authority to execute this Agreement and bind their respective organizations to this Agreement.

Date

IN WITNESS WHEREOF: the parties hereto, having read this Agreement in its entirety, including all attachments, do agree in each and every particular and have thus set their hands hereunto.

1.1 MRC Meetings and Communication: schedule and hold regular meetings of the MRC; prepare and distribute agenda; prepare and distribute meeting minutes; invite speakers on topics of community interest; and other logistical and communication functions as needed. Provide summary of activities for MRC representative to share at Northwest Straits Commission (NWSC) meetings.

1.2 Grant administration: Prepare progress reports, final report and closeout report for Northwest Straits Commission; track and administer budget; document matching funds and volunteer time; perform contract management; and prepare grant applications for MRC projects.

1.3 MRC Web Site: Existing MRC web site will be maintained and regularly updated with notices of upcoming meetings and agendas and other timely and relevant information.

1.4 Annual Report: This report will summarize MRC activities and progress on projects, including progress in achieving the Northwest Straits Initiative's performance benchmarks and connection to Puget Sound Action Agenda.

1.5 Annual Workplan: The workplan will include the objectives, timeframe, products, and benchmarks addressed in this scope of work.

1.6 Training: The MRC members will attend the Northwest Straits Commission training and/or additional conferences, trainings, and workshops as appropriate.

1.7 Representation at NWSC meetings: A representative of the MRC will attend each Northwest Straits Commission meeting and provide an update on current activities of the MRC.

1.8 Local Integrating Organization: The MRC will participate in meetings and operations of the Local Integrating Organization (LIO) in order to participate in the local planning process and action agenda update, including identification of Near Term Actions.

#### Task Goal Statement:

To carry out administrative functions in support of the mission (including work plan preparation, developing and preparing grant proposals, programmatic staff support, project monitoring and performance tracking, education programs and grant writing), travel, planning and participation in training opportunities.

#### Task Expected Outcome:

a. MRCs have a documented process to recruit and train members to be active participants and contributors to the work of the MRC.

b. Information about projects and the work of the MRC is accessible and shared regularly through presentations, meetings and web site.

Version 10/30/2015

c. The MRC meets regularly in a public forum that is promoted locally to community members and decision makers.

d. The MRC is informed of and contributes to the work of the Northwest Straits Commission.

e. The value of volunteer hours and other local contributions to the work of the MRC is documented and shared with the Commission and the County.

f. The work of the MRC is planned in advance through an annual workplan and documented in an annual report.

g. MRC members and staff contribute to other relevant local and regional processes related to marine issues.

٠

#### **SCOPE OF WORK**

Task Number:

Task Cost: \$17,900.00

Task Title:Education and Outreach

2

#### Task Description:

2.1 Public speaker series: Whatcom MRC will serve as the lead partner to organize four community events that will contribute to informing citizens about marine resources and issues specifically.

2.2 North Sound Stewards: Whatcom MRC will partner to implement a program developed in partnership with RE Sources for Sustainable Communities, training volunteers to become a citizen scientists who contribute to scientific research for the health of the Salish Sea. The MRC will maintain a database of volunteers and projects supported,

2.3 Community education and outreach: Whatcom MRC will participate in community events including but not limited to, Whatcom Water Week, Birch Bay Beach Day, Taylor Shellfest-tival, to provide learning opportunities on local marine resources issues and be viewed as a source of education in the community.

#### Task Goal Statement:

2.1 Public speaker series: The goal for participating in the Public Speaker Series is utilize partnerships in order to provide a forum for the exchange of information on marine related topics to the MRC and the broader local community.

2.2 North Sound Stewards: The goal of the North Sound Stewards program is to engage the community in MRC projects and mobilize citizen science volunteers for priority regional projects.

2.3 Community education and outreach: To increase public awareness and recognition of the MRC and marine resources in Whatcom County and identify future volunteers and MRC members.

#### Task Expected Outcome:

2.1 Public speaker series: Local leaders and communities will be better informed on topics such as ocean acidification and sea level rise.

2.2 North Sound Stewards: Through the North Sound Stewards program, marine programs in Whatcom County will have increased capacity and a trained group of volunteers will be available for future projects. At least 30 new volunteers will volunteer for the program.

2.3 Community education and outreach: The MRC will participate and table in at least three community events that attract a diversity of audiences. MRC staff and volunteers will communicate with at least 250 community members about local marine resource issues and will track the number of fact sheets distributed at events. At least 20 visitors to the MRC table will sign up to receive MRC information or volunteer for MRC projects.

## Recipient Task Coordinator: 2.1 Sue Blake/Austin Rose 2.2-2.3 Glen Alexander

### SCOPE OF WORK

Task Number:

Task Cost: \$12,120.00

Task Title: Monitoring

3

#### Task Description:

3.1 Chuckanut Pollution Identification and Control (PIC): North Chuckanut Bay is a recreational shellfish area that is closed due to degraded water quality and concerns about septic systems in the drainage area. Whatcom MRC will work with the Whatcom County Health Department, Whatcom County Public Works, citizen volunteers, and the local community to conduct intensive sampling and community outreach to continue a PIC project in North Chuckanut Bay. In this phase of the project, the MRC will complete tiered sampling around the marine station with high counts to determine how localized the hot spot is; summarize the status of water quality and OSS work that has been completed for discussion with Department of Health; conduct specific outreach to parcels with small farms to connect them with Whatcom Conservation District; and conduct outreach to the Chuckanut Village neighborhood about the Whatcom County Public Works septic rebate program and new small farm rebate program.

3.2 Bull kelp: Working in collaboration with the Northwest Straits Commission using existing protocols, Whatcom MRC will monitor floating kelp beds at four locations in Whatcom County, to provide information on the status of floating kelp communities. Surveys will take place during low-tide events between July-September, 2019. One location will a bed in the nearshore of the Aiston Preserve on Lummi Island.

3.3 Forage fish: Whatcom MRC will participate in a regional effort to characterize populations of the two species of forage fish that spawn on Puget Sound beaches: Pacific sand lance and surf smelt. WA Department of Fish and Wildlife is conducting wide scale surveys and Whatcom MRC will serve as a local partner to support their efforts and expand the impact of the study. The MRC will recruit and train volunteers and conduct surveys at two priority beaches monthly uaing existing protocols.

3.4 Boulevard Park intertidal monitoring: Whatcom MRC will contribute to the understanding of the biological value of shoreline improvement projects by conducting intertidal monitoring at Boulevard Park along Bellingham Bay. Trained volunteers will conduct an intertidal survey at Boulevard Park at four locations during mid to late June 2019. Volunteers will receive training on the sampling protocol and procedures, based on the work of the WSU Beach Watchers.

3.5 Olympia oyster restoration monitoring: Following a pilot planting of approximately 95,000 oysters in test plots in May 2018, Whatcom MRC will follow a monitoring plan to collect physical and biological parameter data to determine the status of restoration potential and assess needs for adaptive changes following restoration actions. A spring monitoring event will involve students from local college/universities. The MRC will develop an evaluation of oyster retention within pilot restoration plots, and changes in habitat characterization will be determined by assessing changes in restoration plots against an identified reference plot.

#### Task Goal Statement:

3.1 Chuckanut Pollution Identification and Control (PIC): The goal of this project is to identify sources of pollutants to guide water quality improvement projects, attain water quality standards, and protect beneficial uses (including recreational shellfish harvesting).

3.2 Bull kelp: The goal of the project is to support a larger regional kelp monitoring program and provide a better Version 10/30/2015

 State of Washington Department of Ecology

 Agreement No:
 SEANWS-2018-WhCoPW-00013

 Project Title:
 Whatcom Marine Resources Committee Operation and Projects

 Recipient Name:
 Whatcom County

understanding of kelp distribution, bed sizes, kelp speciation, and health within the Salish Sea.

3.3 Forage fish: The goal of forage fish monitoring is to support state wide sampling and to inform the MRCs shoreline restoration projects.

3.4 Boulevard Park intertidal monitoring: The goal is to document changes over time in beach slope, substrate, and biodiversity, using scientifically and statistically sound methods that will provide data comparable across various sites under study and monitoring years.

3.5 Olympia oyster restoration monitoring: The long-term goal of the project is to re-establish a native Olympia oyster population in N. Chuckanut Bay. For the current year, the goal of the project is to involve local community members in monitoring the seven test plots to quantify ecological parameters, evaluate restoration success, and facilitate adaptive management practices, in order to inform restoration potential.

## Task Expected Outcome:

3.1 Chuckanut PIC: This monitoring will contribute a fourth year to a robust dataset to characterize bacteria and pollutants in the Chuckanut watershed and improve understanding of the interaction between water quality and healthy shellfish harvest. 49 residents in the neighborhood adjacent to Chuckanut Bay will receive information about local rebate programs to assist with small farm management and on site sewer systems. Sampling near Chuckanut Creek will identify how localized the pollution input is on the south side of the bay.

3.2 Bull kelp: Kayak-based surveys will contribute to a georeferenced database of bull kelp distribution, bed sizes, and health of the beds that can be incorporated into SoundIQ and promote citizen science contributions to regional research.

3.3 Forage fish: Whatcom MRC will recruit and train volunteers, and use existing protocols to survey at least two priority beaches (index sites) monthly. Monitoring data will be submitted monthly to WA Department of Fish and Wildlife to be included in the regional data base. Locations of forage fish surveys will also be provided for inclusion in Sound IQ.

3.4 Boulevard Park intertidal monitoring:Monitoring in the summer of 2019 will be collect data on Year 5 post shoreline improvement work.

3.5 Olympia oyster restoration monitoring: The MRC will conduct bi-annual (fall/spring) monitoring of survival and growth of planted oysters and any habitat changes in the plot areas.

## AGREEMENT SPECIFIC TERMS AND CONDITIONS

N/A

## SPECIAL TERMS AND CONDITIONS

### SUB-RECIPIENT FEDERAL REQUIREMENTS

## CREDIT AND ACKNOWLEDGEMENT

Reports, documents, signage, videos, or other media, developed as part of projects funded by EPA funded Agreements shall display both the EPA and Puget Sound Partnership logos and the following credit line: "This project has been funded wholly or in part by the United States Environmental Protection Agency under Assistance Agreement [CE-01J31901]. The contents of this document do not necessarily reflect the views and policies of the Environmental Protection Agency, nor does mention of trade names or commercial products constitute endorsement or recommendation for use."

## 1. INTRODUCTION

This contains provisions that are not listed on OMB Standard Form 424B (Rev 4-2012). These provisions apply only to sub-recipients.

## 2. AUDIT REQUIREMENTS

Recipient shall meet the provisions in Office of Management and Budget (OMB) Guidance, Subpart F, §200.501 (Audit Requirements), if the RECIPIENT expends \$750,000 or more in total Federal funds in a fiscal year. The \$750,000 threshold for each year is a cumulative total of all federal funding from all sources. The RECIPIENT shall forward a copy of the audit along with the RECIPIENT'S response and the final corrective action plan to AGENCY within ninety (90) days of the date of the audit report. For complete information on how to accomplish the single audit submissions, visit the Federal Audit Clearinghouse Web site: http://harvester.census.gov/facweb/

## 3. COST PRINCIPLES/INDIRECT COSTS FOR STATE AGENCIES

RECIPIENT agrees to comply with the cost principles of 2 CFR 200 Subpart E as appropriate to the award. In addition to the General Terms and Conditions "Indirect Cost Rate Agreements", if the recipient does not have a previously established indirect cost rate, it agrees to prepare and submit its indirect cost rate proposal in accordance with 2 CFR 200 Appendix VII.

### 4. CIVIL RIGHTS OBLIGATIONS

This term and condition incorporates by reference the signed assurance provided by the recipient's authorized representative on Standard Form 424B. These assurances and this term and condition obligate the recipient to comply fully with applicable civil rights statutes and implementing EPA regulations.

# 5. NON DISCRIMINATION AND DISADVANTAGED, MBE, WBE BUSINESS ENTERPRISES ADDITIONAL REQUIREMENTS

RECIPIENT agrees to comply with the requirements of EPA's Program for Utilization of Small, Minority, and Women's Business Enterprises in procurement, contained in 40 CFR, Part 33. RECIPIENT shall include the following provision in all subcontracts involving use of federal funds:

In accordance with 40 CFR 33.106 and its Appendix A, the RECIPIENT shall not discriminate on the basis of race, color, national origin or sex in the performance of this contract. The RECIPIENT administration shall carry out applicable requirements of 40 CFR part 33 in the award of contracts awarded under EPA financial assistance agreements. Failure by the RECIPIENT to carry out these requirements is a material breach of this contract which may result in the termination of this contract or other legally available remedies.

## 6. DRUG FREE WORKPLACE

RECIPIENT shall make an ongoing, good faith effort to maintain a drug-free workplace pursuant to the specific requirements set forth in Title 2 CFR Part 1536 Subpart B. Additionally, in accordance with these regulations, the recipient organization shall identify all known workplaces under its federal award and keep this information on file during the performance of the award.

RECIPIENTS who are individuals must comply with the drug-free provisions set forth in Title 2 CFR Part 1536 Subpart C.

The consequences for violating this condition are detailed under Title 2 CFR Part 1536 Subpart E. Recipient can access the Code of Federal Regulations (CFR) Title 2 Part 1536 at: http://ecfr.gpoaccess.gov.

## 7. INTERNATIONAL TRAVEL (Including Canada)

All International Travel must be approved by the Office of International and Tribal Affairs (OITA) BEFORE travel occurs. Even a brief trip to a foreign country, for example to attend a conference, requires OITA approval. Please contact your Ecology project manager as soon as possible if travel is planned out of the country, including Canada and/or Mexico, so that they can submit a request to the EPA Project Officer if they approve of such travel.

## 8. LEP (Limited English Proficiency) Title VI

As a recipient of EPA financial assistance, you are required by Title VI of the Civil Rights Act to provide meaningful access to LEP individuals. In implementing that requirement, the recipient agrees to use as a guide the Office of Civil Rights (OCR) document entitled "Guidance to Environmental Protection Agency Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons." The guidance can be found at

http://frwebgate.access.gpo.gov/cgi-bin/getdoc.cgi?dbname=2004\_register&docid=fr25jn04-79.pd.

In accepting this contract, the recipient acknowledges it has an affirmative obligation to implement effective Title VI compliance programs and ensure that its actions do not involve discriminatory treatment and do not have discriminatory effects even when facially neutral. The recipient must be prepared to demonstrate to EPA/PSP that such compliance programs exist and are being implemented or to otherwise demonstrate how it is meeting its Title VI obligations. For example, if RECIPIENT's responsibilities under this contract include gathering public input on an environmental issue, RECIPIENT's communication with the public should attempt to minimize barriers that interfere

 State of Washington Department of Ecology

 Agreement No:
 SEANWS-2018-WhCoPW-00013

 Project Title:
 Whatcom Marine Resources Committee Operation and Projects

 Recipient Name:
 Whatcom County

with the ability of LEP persons to meaningfully participate.

#### 9. MANAGEMENT FEES

Management fees or similar charges in excess of the direct costs and approved indirect rates are not allowable. The term "management fees or similar charges" refers to expenses added to the direct costs in order to accumulate and reserve funds for ongoing business expenses, unforeseen liabilities, or for other similar costs which are not allowable under this CONTRACT. Management fees or similar charges may not be used to improve or expand the project funded under this Agreement, except to the extent authorized as a direct cost of carrying out the scope of work.

#### 10. PEER REVIEW

The results of this project may affect management decisions relating to Puget Sound. Prior to finalizing any significant technical products the Principal Investigator (PI) of this project must solicit advice, review, and feedback from a technical review or advisory group consisting of relevant subject matter specialists. A record of comments and a brief description of how respective comments are addressed by the PI will be provided to the Project Monitor prior to releasing any final reports or products resulting from the funded study.

#### 11. REIMBURSEMENT LIMITATION

If RECIPIENT expends more than the amount of the Environmental Protection Agency (EPA) funding in this agreement in anticipation of receiving additional funds from EPA, it does so at its own risk. EPA is not legally obligated to reimburse PSP, nor its sub-recipients, for costs incurred in excess of the EPA approved budget.

#### 12. SIX GOOD FAITH EFFORTS, 40 CFR, PART 33, SUBPART C

Pursuant to 40 CFR, Section 33.301, the recipient agrees to make the following good faith efforts whenever procuring construction, equipment, service and supplies under an EPA financial assistance agreement, and to require that sub-recipients, loan recipients, and prime contractors also comply. Records documenting compliance with the six good faith efforts shall be retained:

a) Ensure DBEs are made aware of contracting opportunities to the fullest extent practicable through outreach and recruitment activities. For Indian Tribal, State and Local Government recipients, this will include placing DBEs on solicitation lists and soliciting whenever they are potential sources.

b) Make information on forthcoming opportunities available to DBEs and arrange time frames for contracts and establish delivery schedules, where the requirements permit, in a way that encourages and facilitates participation b DBEs in the competitive process. This includes, whenever possible, posting solicitations for bids or proposals for a minimum of 30 calendar days before the bid or proposal closing date.

c) Consider in the contracting process whether firms competing for large contracts could subcontract with DBEs. For Indian Tribal, State and local Government recipients, this will include dividing total requirements when economically feasible into smaller tasks or quantities to permit maximum participation by DBEs in the competitive process.

d) Encourage contracting with a consortium of DBEs when a contract is too large for one of these firms to handle individually.

e) Use the services and assistance of the SBA and the Minority Business Development Agency of the Department of Commerce.

f) If the prime contractor awards subcontracts, require the prime contractor to take the steps in paragraph (a) through(e) of this section.

#### 13. SUB-AWARDS

If RECIPIENT makes sub-awards under this contract, RECIPIENT is responsible for selecting its sub-awardees and, if applicable, for conducting sub-award competitions. RECIPIENT agrees to:

Version 10/30/2015

a. Establish all sub-award agreements in writing;

b. Maintain primary responsibility for ensuring successful completion of the approved project (Sub-Recipient cannot delegate or transfer this responsibility to a sub-awardee);

c. Ensure that any sub-awards comply with the standards in Section 210(a)-(d) of OMB Circular A-133, and are not used to acquire commercial goods or services for the sub-awardee;

d. Ensure that any sub-awards to 501(c)(4) organizations do not involve lobbying activities;

e. Monitor the performance of sub-awardees, and ensure sub-awardees comply with all applicable regulations, statutes, and terms and conditions which flow down in the sub-award;

f. Obtain AGENCY's consent before making a sub-award to a foreign or international organization, or a sub-award to be performed in a foreign country; and

g. Obtain approval from AGENCY for any new sub-award work that is not outlined in the approved work plan in accordance with 40 CFR Parts 30.25 and 31.30, as applicable.

14. TRAFFICKING IN PERSONS AND TRAFFICKING VICTIM PROTECTION ACT OF 2000 (TVPA) AS AMENDED IN 22 U.S.C. 7104(g)

This provision applies only to a sub-recipient, and all sub-awardees of sub-recipient, if any. Sub-Recipient shall include the following statement in all sub-awards made to any private entity under this Agreement.

"You as the sub-recipient, your employees, sub-awardees under this award, and sub-awardees' employees may not engage in severe forms of trafficking in persons during the period of time that the award is in effect; procure a commercial sex act during the period of time that the award is in effect; or use forced labor in the performance of the award or sub-awards under this Award."

Sub-recipient, and all sub-awardees of sub-recipient must inform AGENCY immediately of any information you receive from any source alleging a violation of this prohibition during the award term.

Federal agency funding this agreement may unilaterally terminate, without penalty, the funding award if this prohibition is violated, Section 106 of the Trafficking Victims Protection Act of 2000, as amended.

#### 15. UNLIQUIDATED OBLIGATIONS (ULO)

Recipients, sub-recipients, and all sub-awardees of sub-recipients, if any, should manage their agreement and subaward funding in ways that reduce the length of time that federal funds obligated and committed to subaward projects are unspent (not yet drawn down through disbursements to sub-recipients and sub-awardees).

#### GENERAL FEDERAL CONDITIONS

# If a portion or all of the funds for this agreement are provided through federal funding sources or this agreement is used to match a federal grant award, the following terms and conditions apply to you.

#### A. CERTIFICATION REGARDING SUSPENSION, DEBARMENT, INELIGIBILITY OR VOLUNTARY EXCLUSION:

- 1. The RECIPIENT/CONTRACTOR, by signing this agreement, certifies that it is not suspended, debarred, proposed for debarrent, declared ineligible or otherwise excluded from contracting with the federal government, or from receiving contracts paid for with federal funds. If the RECIPIENT/CONTRACTOR is unable to certify to the statements contained in the certification, they must provide an explanation as to why they cannot.
- 2. The RECIPIENT/CONTRACTOR shall provide immediate written notice to ECOLOGY if at any time the RECIPIENT/CONTRACTOR learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.
- 3. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact ECOLOGY for assistance in obtaining a copy of those regulations.

- 4. The RECIPIENT/CONTRACTOR agrees it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under the applicable Code of Federal Regulations, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction.
- 5. The RECIPIENT/CONTRACTOR further agrees by signing this agreement, that it will include this clause titled "CERTIFICATION REGARDING SUSPENSION, DEBARMENT, INELIGIBILITY OR VOLUNTARY EXCLUSION" without modification in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
- 6. Pursuant to 2CFR180.330, the RECIPIENT/CONTRACTOR is responsible for ensuring that any lower tier covered transaction complies with certification of suspension and debarment requirements.
- 7. RECIPIENT/CONTRACTOR acknowledges that failing to disclose the information required in the Code of Federal Regulations may result in the delay or negation of this funding agreement, or pursuance of legal remedies, including suspension and debarment.
- 8. RECIPIENT/CONTRACTOR agrees to keep proof in its agreement file, that it, and all lower tier recipients or contractors, are not suspended or debarred, and will make this proof available to ECOLOGY before requests for reimbursements will be approved for payment. RECIPIENT/CONTRACTOR must run a search in <a href="http://www.sam.gov>"></a> and print a copy of completed searches to document proof of compliance.</a>

#### B. FEDERAL FUNDING ACCOUNTABILITY AND TRANSPARENCY ACT (FFATA) REPORTING REQUIREMENTS:

CONTRACTOR/RECIPIENT must complete the FFATA Data Collection Form (ECY 070-395) and return it with the signed agreement to ECOLOGY.

Any CONTRACTOR/RECIPIENT that meets each of the criteria below must report compensation for its five top executives using the FFATA Data Collection Form.

- Receives more than \$25,000 in federal funds under this award.
- Receives more than 80 percent of its annual gross revenues from federal funds.
- Receives more than \$25,000,000 in annual federal funds.

Ecology will not pay any invoices until it has received a completed and signed FFATA Data Collection Form. Ecology is required to report the FFATA information for federally funded agreements, including the required DUNS number, at <u>www.fsrs.gov <http://www.fsrs.gov/></u> within 30 days of agreement signature. The FFATA information will be available to the public at <u>www.usaspending.gov <http://www.usaspending.gov/></u>.

For more details on FFATA requirements, see <u>www.fsrs.gov <http://www.fsrs.gov/></u>.

#### GENERAL TERMS AND CONDITIONS

#### Pertaining to Grant and Loan Agreements With the state of Washington, Department of Ecology

#### GENERAL TERMS AND CONDITIONS AS OF LAST UPDATED 1/22/2018 VERSION

#### 1. ADMINISTRATIVE REQUIREMENTS

a) RECIPIENT shall follow the "Administrative Requirements for Recipients of Ecology Grants and Loans – EAGL Edition." (https://fortress.wa.gov/ecy/publications/SummaryPages/1701004.html)

b) RECIPIENT shall complete all activities funded by this Agreement and be fully responsible for the proper management of all funds and resources made available under this Agreement.

c) RECIPIENT agrees to take complete responsibility for all actions taken under this Agreement, including ensuring all subgrantees and contractors comply with the terms and conditions of this Agreement. ECOLOGY reserves the right to request proof of compliance by subgrantees and contractors.

d) RECIPIENT's activities under this Agreement shall be subject to the review and approval by ECOLOGY for the extent and character of all work and services.

#### 2. AMENDMENTS AND MODIFICATIONS

This Agreement may be altered, amended, or waived only by a written amendment executed by both parties. No subsequent modification(s) or amendment(s) of this Agreement will be of any force or effect unless in writing and signed by authorized representatives of both parties. ECOLOGY and the RECIPIENT may change their respective staff contacts and administrative information without the concurrence of either party.

#### 3. ARCHAEOLOGICAL AND CULTURAL RESOURCES

RECIPIENT shall take reasonable action to avoid, minimize, or mitigate adverse effects to archeological and historic resources. The RECIPIENT must agree to hold harmless the State of Washington in relation to any claim related to historical or cultural artifacts discovered, disturbed, or damaged due to the RECIPIENT's project funded under this Agreement.

**RECIPIENT** shall:

a) Contact the ECOLOGY Program issuing the grant or loan to discuss any Cultural Resources requirements for their project:

• For capital construction projects or land acquisitions for capital construction projects, if required, comply with Governor Executive Order 05-05, Archaeology and Cultural Resources.

- For projects with any federal involvement, if required, comply with the National Historic Preservation Act.
- Any cultural resources federal or state requirements must be completed prior to the start of any work on the project site.

b) If required by the ECOLOGY Program, submit an Inadvertent Discovery Plan (IDP) to ECOLOGY prior to implementing any project that involves ground disturbing activities. ECOLOGY will provide the IDP form. RECIPIENT shall:

- Keep the IDP at the project site.
- Make the IDP readily available to anyone working at the project site.
- Discuss the IDP with staff and contractors working at the project site.
- Implement the IDP when cultural resources or human remains are found at the project site.
- c) If any archeological or historic resources are found while conducting work under this Agreement:
- Immediately stop work and notify the ECOLOGY Program, the Department of Archaeology and Historic Preservation at (360) 586-3064, any affected Tribe, and the local government.
- d) If any human remains are found while conducting work under this Agreement:

Version 10/30/2015

• Immediately stop work and notify the local Law Enforcement Agency or Medical Examiner/Coroner's Office, and then the ECOLOGY Program.

e) Comply with RCW 27.53, RCW 27.44.055, and RCW 68.50.645, and all other applicable local, state, and federal laws protecting cultural resources and human remains.

#### 4. ASSIGNMENT

No right or claim of the RECIPIENT arising under this Agreement shall be transferred or assigned by the RECIPIENT.

#### 5. COMMUNICATION

RECIPIENT shall make every effort to maintain effective communications with the RECIPIENT's designees, ECOLOGY, all affected local, state, or federal jurisdictions, and any interested individuals or groups.

#### 6. COMPENSATION

a) Any work performed prior to effective date of this Agreement will be at the sole expense and risk of the RECIPIENT. ECOLOGY must sign the Agreement before any payment requests can be submitted.

b) Payments will be made on a reimbursable basis for approved and completed work as specified in this Agreement.

c) RECIPIENT is responsible to determine if costs are eligible. Any questions regarding eligibility should be clarified with ECOLOGY prior to incurring costs. Costs that are conditionally eligible require approval by ECOLOGY prior to expenditure.

d) RECIPIENT shall not invoice more than once per month unless agreed on by ECOLOGY.

e) ECOLOGY will not process payment requests without the proper reimbursement forms, Progress Report and supporting documentation. ECOLOGY will provide instructions for submitting payment requests.

f) ECOLOGY will pay the RECIPIENT thirty (30) days after receipt of a properly completed request for payment.

g) RECIPIENT will receive payment through Washington State Department of Enterprise Services' Statewide Payee Desk. RECIPIENT must register as a payee by submitting a Statewide Payee Registration form and an IRS W-9 form at the website, http://www.des.wa.gov/services/ContractingPurchasing/Business/VendorPay/Pages/default.aspx. For any questions about the vendor registration process contact the Statewide Payee Help Desk at (360) 407-8180 or email payeehelpdesk@watech.wa.gov.

h) ECOLOGY may, at its sole discretion, withhold payments claimed by the RECIPIENT if the RECIPIENT fails to satisfactorily comply with any term or condition of this Agreement.

i) Monies withheld by ECOLOGY may be paid to the RECIPIENT when the work described herein, or a portion thereof, has been completed if, at ECOLOGY's sole discretion, such payment is reasonable and approved according to this Agreement, as appropriate, or upon completion of an audit as specified herein.

j) RECIPIENT must submit within thirty (30) days after the expiration date of this Agreement, all financial, performance, and other reports required by this agreement. Failure to comply may result in delayed reimbursement.

#### 7. COMPLIANCE WITH ALL LAWS

RECIPIENT agrees to comply fully with all applicable federal, state and local laws, orders, regulations, and permits related to this Agreement, including but not limited to:

a) RECIPIENT agrees to comply with all applicable laws, regulations, and policies of the United States and the State of Washington which affect wages and job safety.

b) RECIPIENT agrees to be bound by all applicable federal and state laws, regulations, and policies against discrimination.

c) RECIPIENT certifies full compliance with all applicable state industrial insurance requirements.

d) RECIPIENT agrees to secure and provide assurance to ECOLOGY that all the necessary approvals and permits required by authorities having jurisdiction over the project are obtained. RECIPIENT must include time in their project timeline for the permit and approval processes.

Version 10/30/2015

ECOLOGY shall have the right to immediately terminate for cause this Agreement as provided herein if the RECIPIENT fails to comply with above requirements.

If any provision of this Agreement violates any statute or rule of law of the state of Washington, it is considered modified to conform to that statute or rule of law.

#### 8. CONFLICT OF INTEREST

RECIPIENT and ECOLOGY agree that any officer, member, agent, or employee, who exercises any function or responsibility in the review, approval, or carrying out of this Agreement, shall not have any personal or financial interest, direct or indirect, nor affect the interest of any corporation, partnership, or association in which he/she is a part, in this Agreement or the proceeds thereof.

#### 9. CONTRACTING FOR GOODS AND SERVICES

RECIPIENT may contract to buy goods or services related to its performance under this Agreement. RECIPIENT shall award all contracts for construction, purchase of goods, equipment, services, and professional architectural and engineering services through a competitive process, if required by State law. RECIPIENT is required to follow procurement procedures that ensure legal, fair, and open competition.

RECIPIENT must have a standard procurement process or follow current state procurement procedures. RECIPIENT may be required to provide written certification that they have followed their standard procurement procedures and applicable state law in awarding contracts under this Agreement.

ECOLOGY reserves the right to inspect and request copies of all procurement documentation, and review procurement practices related to this Agreement. Any costs incurred as a result of procurement practices not in compliance with state procurement law or the RECIPIENT's normal procedures may be disallowed at ECOLOGY's sole discretion.

#### 10. DISPUTES

When there is a dispute with regard to the extent and character of the work, or any other matter related to this Agreement the determination of ECOLOGY will govern, although the RECIPIENT shall have the right to appeal decisions as provided for below:

- a) RECIPIENT notifies the funding program of an appeal request.
- b) Appeal request must be in writing and state the disputed issue(s).
- c) RECIPIENT has the opportunity to be heard and offer evidence in support of its appeal.
- d) ECOLOGY reviews the RECIPIENT's appeal.

e) ECOLOGY sends a written answer within ten (10) business days, unless more time is needed, after concluding the review.

The decision of ECOLOGY from an appeal will be final and conclusive, unless within thirty (30) days from the date of such decision, the RECIPIENT furnishes to the Director of ECOLOGY a written appeal. The decision of the Director or duly authorized representative will be final and conclusive.

The parties agree that this dispute process will precede any action in a judicial or quasi-judicial tribunal.

Appeals of the Director's decision will be brought in the Superior Court of Thurston County. Review of the Director's decision will not be taken to Environmental and Land Use Hearings Office.

Pending final decision of a dispute, the RECIPIENT agrees to proceed diligently with the performance of this Agreement and in accordance with the decision rendered.

Nothing in this Agreement will be construed to limit the parties' choice of another mutually acceptable method, in addition to the dispute resolution procedure outlined above.

#### 11. ENVIRONMENTAL DATA STANDARDS

a) RECIPIENT shall prepare a Quality Assurance Project Plan (QAPP) for a project that collects or uses environmental measurement data. RECIPIENTS unsure about whether a QAPP is required for their project shall contact

 State of Washington Department of Ecology

 Agreement No:
 SEANWS-2018-WhCoPW-00013

 Project Title:
 Whatcom Marine Resources Committee Operation and Projects

 Recipient Name:
 Whatcom County

the ECOLOGY Program issuing the grant or loan. If a QAPP is required, the RECIPIENT shall:

Use ECOLOGY's QAPP Template/Checklist provided by the ECOLOGY, unless ECOLOGY Quality Assurance

(QA) officer or the Program QA coordinator instructs otherwise.

• Follow ECOLOGY's Guidelines for Preparing Quality Assurance Project Plans for Environmental Studies, July 2004 (Ecology Publication No. 04-03-030).

• Submit the QAPP to ECOLOGY for review and approval before the start of the work.

b) RECIPIENT shall submit environmental data that was collected on a project to ECOLOGY using the Environmental Information Management system (EIM), unless the ECOLOGY Program instructs otherwise. The RECIPIENT must confirm with ECOLOGY that complete and correct data was successfully loaded into EIM, find instructions at: http://www.ecy.wa.gov/eim.

c) RECIPIENT shall follow ECOLOGY's data standards when Geographic Information System (GIS) data is collected and processed. Guidelines for Creating and Accessing GIS Data are available at:

https://ecology.wa.gov/Research-Data/Data-resources/Geographic-Information-Systems-GIS/Standards. RECIPIENT, when requested by ECOLOGY, shall provide copies to ECOLOGY of all final GIS data layers, imagery, related tables, raw data collection files, map products, and all metadata and project documentation.

#### 12. GOVERNING LAW

This Agreement will be governed by the laws of the State of Washington, and the venue of any action brought hereunder will be in the Superior Court of Thurston County.

#### 13. INDEMNIFICATION

ECOLOGY will in no way be held responsible for payment of salaries, consultant's fees, and other costs related to the project described herein, except as provided in the Scope of Work.

To the extent that the Constitution and laws of the State of Washington permit, each party will indemnify and hold the other harmless from and against any liability for any or all injuries to persons or property arising from the negligent act or omission of that party or that party's agents or employees arising out of this Agreement.

#### 14. INDEPENDENT STATUS

The employees, volunteers, or agents of each party who are engaged in the performance of this Agreement will continue to be employees, volunteers, or agents of that party and will not for any purpose be employees, volunteers, or agents of the other party.

#### 15. KICKBACKS

RECIPIENT is prohibited from inducing by any means any person employed or otherwise involved in this Agreement to give up any part of the compensation to which he/she is otherwise entitled to or receive any fee, commission, or gift in return for award of a subcontract hereunder.

#### 16. MINORITY AND WOMEN'S BUSINESS ENTERPRISES (MWBE)

RECIPIENT is encouraged to solicit and recruit, to the extent possible, certified minority-owned (MBE) and women-owned (WBE) businesses in purchases and contracts initiated under this Agreement.

Contract awards or rejections cannot be made based on MWBE participation; however, the RECIPIENT is encouraged to take the following actions, when possible, in any procurement under this Agreement:

a) Include qualified minority and women's businesses on solicitation lists whenever they are potential sources of goods or services.

b) Divide the total requirements, when economically feasible, into smaller tasks or quantities, to permit maximum participation by qualified minority and women's businesses.

c) Establish delivery schedules, where work requirements permit, which will encourage participation of qualified

Version 10/30/2015

 Recipient Name:
 Whatcom County

minority and women's businesses.

d) Use the services and assistance of the Washington State Office of Minority and Women's Business Enterprises (OMWBE) (866-208-1064) and the Office of Minority Business Enterprises of the U.S. Department of Commerce, as appropriate.

#### 17. ORDER OF PRECEDENCE

In the event of inconsistency in this Agreement, unless otherwise provided herein, the inconsistency shall be resolved by giving precedence in the following order: (a) applicable federal and state statutes and regulations; (b) The Agreement; (c) Scope of Work; (d) Special Terms and Conditions; (e) Any provisions or terms incorporated herein by reference, including the "Administrative Requirements for Recipients of Ecology Grants and Loans"; and (f) the General Terms and Conditions.

#### 18. PRESENTATION AND PROMOTIONAL MATERIALS

ECOLOGY reserves the right to approve RECIPIENT's communication documents and materials related to the fulfillment of this Agreement:

a) If requested, RECIPIENT shall provide a draft copy to ECOLOGY for review and approval ten (10) business days prior to production and distribution.

b) RECIPIENT shall include time for ECOLOGY's review and approval process in their project timeline.

c) If requested, RECIPIENT shall provide ECOLOGY two (2) final copies and an electronic copy of any tangible products developed.

Copies include any printed materials, and all tangible products developed such as brochures, manuals, pamphlets, videos, audio tapes, CDs, curriculum, posters, media announcements, or gadgets with a message, such as a refrigerator magnet, and any online communications, such as web pages, blogs, and twitter campaigns. If it is not practical to provide a copy, then the RECIPIENT shall provide a description (photographs, drawings, printouts, etc.) that best represents the item.

Any communications intended for public distribution that uses ECOLOGY's logo shall comply with ECOLOGY's graphic requirements and any additional requirements specified in this Agreement. Before the use of ECOLOGY's logo contact ECOLOGY for guidelines.

RECIPIENT shall acknowledge in the communications that funding was provided by ECOLOGY.

**19. PROGRESS REPORTING** 

a) RECIPIENT must satisfactorily demonstrate the timely use of funds by submitting payment requests and progress reports to ECOLOGY. ECOLOGY reserves the right to amend or terminate this Agreement if the RECIPIENT does not document timely use of funds.

b) RECIPIENT must submit a progress report with each payment request. Payment requests will not be processed without a progress report. ECOLOGY will define the elements and frequency of progress reports.

c) RECIPIENT shall use ECOLOGY's provided progress report format.

d) Quarterly progress reports will cover the periods from January 1 through March 31, April 1 through June 30, July 1 through September 30, and October 1 through December 31. Reports shall be submitted within thirty (30) days after the end of the quarter being reported.

e) RECIPIENT must submit within thirty (30) days of the expiration date of the project, unless an extension has been approved by ECOLOGY, all financial, performance, and other reports required by the agreement and funding program guidelines. RECIPIENT shall use the ECOLOGY provided closeout report format.

20. PROPERTY RIGHTS

a) Copyrights and Patents. When the RECIPIENT creates any copyrightable materials or invents any patentable property under this Agreement, the RECIPIENT may copyright or patent the same but ECOLOGY retains a royalty free, nonexclusive, and irrevocable license to reproduce, publish, recover, or otherwise use the material(s) or property, and to

authorize others to use the same for federal, state, or local government purposes.

b) Publications. When the RECIPIENT or persons employed by the RECIPIENT use or publish ECOLOGY information; present papers, lectures, or seminars involving information supplied by ECOLOGY; or use logos, reports, maps, or other data in printed reports, signs, brochures, pamphlets, etc., appropriate credit shall be given to ECOLOGY.
c) Presentation and Promotional Materials. ECOLOGY shall have the right to use or reproduce any printed or graphic

materials produced in fulfillment of this Agreement, in any manner ECOLOGY deems appropriate. ECOLOGY shall acknowledge the RECIPIENT as the sole copyright owner in every use or reproduction of the materials.

d) Tangible Property Rights. ECOLOGY's current edition of "Administrative Requirements for Recipients of Ecology Grants and Loans," shall control the use and disposition of all real and personal property purchased wholly or in part with funds furnished by ECOLOGY in the absence of state and federal statutes, regulations, or policies to the contrary, or upon specific instructions with respect thereto in this Agreement.

e) Personal Property Furnished by ECOLOGY. When ECOLOGY provides personal property directly to the RECIPIENT for use in performance of the project, it shall be returned to ECOLOGY prior to final payment by ECOLOGY. If said property is lost, stolen, or damaged while in the RECIPIENT's possession, then ECOLOGY shall be reimbursed in cash or by setoff by the RECIPIENT for the fair market value of such property.

f) Acquisition Projects. The following provisions shall apply if the project covered by this Agreement includes funds for the acquisition of land or facilities:

1. RECIPIENT shall establish that the cost is fair value and reasonable prior to disbursement of funds provided for in this Agreement.

2. RECIPIENT shall provide satisfactory evidence of title or ability to acquire title for each parcel prior to disbursement of funds provided by this Agreement. Such evidence may include title insurance policies, Torrens certificates, or abstracts, and attorney's opinions establishing that the land is free from any impediment, lien, or claim which would impair the uses intended by this Agreement.

g) Conversions. Regardless of the Agreement expiration date, the RECIPIENT shall not at any time convert any equipment, property, or facility acquired or developed under this Agreement to uses other than those for which assistance was originally approved without prior written approval of ECOLOGY. Such approval may be conditioned upon payment to ECOLOGY of that portion of the proceeds of the sale, lease, or other conversion or encumbrance which monies granted pursuant to this Agreement bear to the total acquisition, purchase, or construction costs of such property.

#### 21. RECORDS, AUDITS, AND INSPECTIONS

RECIPIENT shall maintain complete program and financial records relating to this Agreement, including any engineering documentation and field inspection reports of all construction work accomplished. All records shall:

- a) Be kept in a manner which provides an audit trail for all expenditures.
- b) Be kept in a common file to facilitate audits and inspections.
- c) Clearly indicate total receipts and expenditures related to this Agreement.
- d) Be open for audit or inspection by ECOLOGY, or by any duly authorized audit representative of the State of

Washington, for a period of at least three (3) years after the final grant payment or loan repayment, or any dispute resolution hereunder.

RECIPIENT shall provide clarification and make necessary adjustments if any audits or inspections identify discrepancies in the records.

ECOLOGY reserves the right to audit, or have a designated third party audit, applicable records to ensure that the state has been properly invoiced. Any remedies and penalties allowed by law to recover monies determined owed will be enforced. Repetitive instances of incorrect invoicing or inadequate records may be considered cause for termination. All work performed under this Agreement and any property and equipment purchased shall be made available to ECOLOGY and to any authorized state, federal or local representative for inspection at any time during the course of 

 State of Washington Department of Ecology

 Agreement No:
 SEANWS-2018-WhCoPW-00013

 Project Title:
 Whatcom Marine Resources Committee Operation and Projects

 Recipient Name:
 Whatcom County

this Agreement and for at least three (3) years following grant or loan termination or dispute resolution hereunder. RECIPIENT shall provide right of access to ECOLOGY, or any other authorized representative, at all reasonable times, in order to monitor and evaluate performance, compliance, and any other conditions under this Agreement.

#### 22. RECOVERY OF FUNDS

The right of the RECIPIENT to retain monies received as reimbursement payments is contingent upon satisfactory performance of this Agreement and completion of the work described in the Scope of Work.

All payments to the RECIPIENT are subject to approval and audit by ECOLOGY, and any unauthorized expenditure(s) or unallowable cost charged to this Agreement shall be refunded to ECOLOGY by the RECIPIENT.

RECIPIENT shall refund to ECOLOGY the full amount of any erroneous payment or overpayment under this Agreement.

RECIPIENT shall refund by check payable to ECOLOGY the amount of any such reduction of payments or repayments within thirty (30) days of a written notice. Interest will accrue at the rate of twelve percent (12%) per year from the time ECOLOGY demands repayment of funds.

Any property acquired under this Agreement, at the option of ECOLOGY, may become ECOLOGY's property and the RECIPIENT's liability to repay monies will be reduced by an amount reflecting the fair value of such property.

#### 23. SEVERABILITY

If any provision of this Agreement or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Agreement which can be given effect without the invalid provision, and to this end the provisions of this Agreement are declared to be severable.

24. STATE ENVIRONMENTAL POLICY ACT (SEPA)

RECIPIENT must demonstrate to ECOLOGY's satisfaction that compliance with the requirements of the State Environmental Policy Act (Chapter 43.21C RCW and Chapter 197-11 WAC) have been or will be met. Any reimbursements are subject to this provision.

#### 25. SUSPENSION

When in the best interest of ECOLOGY, ECOLOGY may at any time, and without cause, suspend this Agreement or any portion thereof for a temporary period by written notice from ECOLOGY to the RECIPIENT. RECIPIENT shall resume performance on the next business day following the suspension period unless another day is specified by ECOLOGY.

#### 26. SUSTAINABLE PRACTICES

In order to sustain Washington's natural resources and ecosystems, the RECIPIENT is fully encouraged to implement sustainable practices and to purchase environmentally preferable products under this Agreement.

a) Sustainable practices may include such activities as: use of clean energy, use of double-sided printing, hosting low impact meetings, and setting up recycling and composting programs.

b) Purchasing may include such items as: sustainably produced products and services, EPEAT registered computers and imaging equipment, independently certified green cleaning products, remanufactured toner cartridges, products with reduced packaging, office products that are refillable, rechargeable, and recyclable, and 100% post-consumer recycled paper.

For more suggestions visit ECOLOGY's web page: Green Purchasing, , https://ecology.wa.gov/Regulations-Permits/Guidance-technical-assistance/Sustainable-purchasing.

#### 27. TERMINATION

a) For Cause

ECOLOGY may terminate for cause this Agreement with a seven (7) calendar days prior written notification to the

 State of Washington Department of Ecology

 Agreement No:
 SEANWS-2018-WhCoPW-00013

 Project Title:
 Whatcom Marine Resources Committee Operation and Projects

 Recipient Name:
 Whatcom County

RECIPIENT, at the sole discretion of ECOLOGY, for failing to perform an Agreement requirement or for a material breach of any term or condition. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination. Failure to Commence Work. ECOLOGY reserves the right to terminate this Agreement if RECIPIENT fails to commence work on the project funded within four (4) months after the effective date of this Agreement, or by any date

mutually agreed upon in writing for commencement of work, or the time period defined within the Scope of Work.

Non-Performance. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance by the RECIPIENT of all of its obligations under this Agreement. In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement. Despite the above, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and the State of Washington because of any breach of this Agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

#### b) For Convenience

ECOLOGY may terminate for convenience this Agreement, in whole or in part, for any reason when it is the best interest of ECOLOGY, with a thirty (30) calendar days prior written notification to the RECIPIENT, except as noted below. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Non-Allocation of Funds. ECOLOGY's ability to make payments is contingent on availability of funding. In the event funding from state, federal or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to the completion or expiration date of this Agreement, ECOLOGY, at its sole discretion, may elect to terminate the Agreement, in whole or part, or renegotiate the Agreement, subject to new funding limitations or conditions. ECOLOGY may also elect to suspend performance of the Agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions, although ECOLOGY will make a reasonable attempt to provide notice.

In the event of termination or suspension, ECOLOGY will reimburse eligible costs incurred by the recipient/contractor through the effective date of termination or suspension. Reimbursed costs must be agreed to by ECOLOGY and the recipient/contractor. In no event shall ECOLOGY's reimbursement exceed ECOLOGY's total responsibility under the agreement and any amendments.

If payments have been discontinued by ECOLOGY due to unavailable funds, the RECIPIENT shall not be obligated to repay monies which had been paid to the RECIPIENT prior to such termination. RECIPIENT's obligation to continue or complete the work described in this Agreement shall be contingent upon availability of funds by the RECIPIENT's governing body.

#### c) By Mutual Agreement

ECOLOGY and the RECIPIENT may terminate this Agreement, in whole or in part, at any time, by mutual written agreement.

#### d) In Event of Termination

All finished or unfinished documents, data studies, surveys, drawings, maps, models, photographs, reports or other materials prepared by the RECIPIENT under this Agreement, at the option of ECOLOGY, will become property of ECOLOGY and the RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work

State of Washington Department of EcologyAgreement No:SEANWS-2018-WhCoPW-00013Project Title:Whatcom Marine Resources Committee Operation and ProjectsRecipient Name:Whatcom County

completed on such documents and other materials.

Nothing contained herein shall preclude ECOLOGY from demanding repayment of all funds paid to the RECIPIENT in accordance with Recovery of Funds, identified herein.

#### 28. THIRD PARTY BENEFICIARY

RECIPIENT shall ensure that in all subcontracts entered into by the RECIPIENT pursuant to this Agreement, the state of Washington is named as an express third party beneficiary of such subcontracts with full rights as such. 29. WAIVER

Waiver of a default or breach of any provision of this Agreement is not a waiver of any subsequent default or breach, and will not be construed as a modification of the terms of this Agreement unless stated as such in writing by the authorized representative of ECOLOGY.

WHATCOM COUNTY Parks & Recreation 3373 Mount Baker Highway Bellingham, WA 98226-7500

	MEMORANDUM	RECEIVED
то:	Jack Louws, County Executive	SEP 17 2018
FROM:	Michael McFarlane	JACK LOUWS COUNTY EXECUTIVE
DATE:	September 13, 2018	
RE:	Property Use Agreement for Lookout Mountair	n Forest Preserve

Enclosed are three (3) originals of a property use agreement between Whatcom County, City of Bellingham (COB) and Whatcom Transit Authority (WTA), and associated agenda bill for council consideration on September 25, 2018.

#### Requested Action

Parks requests council authorization for the County Executive to enter into a property use agreement with WTA to allow construction, operation and maintenance of a bus shelter at Lookout Mountain Forest Preserve located at 2537 Lake Louise Road. A new shelter will improve transit user safety and comfort during inclement weather.

#### Background and Purpose

WTA has requested authorization to install a new bus shelter at an existing transit stop that is near the forest preserve entrance off of Lake Louise Road. Because this property is jointly owned with the COB City Council approval is also required and is scheduled to be on the city council agenda for September 24, 2018.

#### • Funding Amount and Source

This is a no cost revocable license between Whatcom County and COB and WTA.

Please contact Rod Lamb at extension 5858, if you have any questions or concerns regarding the terms of this agreement.

#### WHATCOM COUNTY CONTRACT INFORMATION SHEET

WHATCOM COUNTY CONTRACT NO. 201809011

#### WHATCOM TRANSPORTATION AUTHORITY LOOKOUT MOUNTAIN FOREST PRESERVE PROPERTY USE AGREEMENT

This Property Use Agreement (Agreement) is made by and between WHATCOM TRANSPORTATION AUTHORITY (WTA), WHATCOM COUNTY (COUNTY), through its Parks & Recreation Department, and the CITY OF BELLINGHAM (CITY), for purposes of installing a public bus shelter on property jointly owned by the COUNTY and CITY known as the Lookout Mountain Forest Preserve located at 2537 Lake Louise Road, Bellingham WA. The parties agree as follows:

- Premises. The COUNTY and CITY grants WTA a nonexclusive, revocable license to use a portion of the Lookout Mountain Forest Preserve, as depicted on Exhibit A hereto (the "Premises) for the purpose of operating a transit route. WTA will locate and install one bus shelter on the premises. The right granted herein is in the nature of a license; no property interest is conveyed.
- 2. **Term**. The Term of the Agreement shall commence on the date of signature and will continue year to year thereafter, unless 30 days written notice to terminate is given by any party.
- 3. **Improvements**. WTA will supply and install a bus shelter, at the bus stop on Lake Louise Road located adjoining the Premises. WTA is responsible for obtaining all necessary permits and for installation of the bus shelter and compliance with all applicable codes and regulations. WTA shall at its expense repair all damages caused during construction. The bus shelter will be the property of WTA, and WTA has authority to enforce appropriate behavior at its location<sup>1</sup>.
- 4. **Consideration**. WTA shall not be required to pay COUNTY and CITY for use of Premises described on Exhibit A. The parties recognize that the additional visitation to the premises and the increased economic activity resulting therefrom constitutes adequate consideration for the use of Premises.
- 5. **Maintenance**. WTA is responsible for maintenance, and upkeep of the bus shelter. WTA shall be responsible for maintenance of pavement markings, signs and other improvements which it installs. WTA shall, at its sole cost and expense, maintain the area set aside for the bus shelter, its amenities and the area commonly used by and for WTA users, in a safe and clean condition. WTA shall repair any damages to the area being used for the bus shelter (other than normal wear and tear).
- 6. **Towing of Vehicles**. For any vehicle blocking the bus stop, WTA may order such vehicle to be towed away at the vehicles owner's expense and risk after 6:00 AM and before 6:00 PM weekdays, except for holidays. WTA agrees to defend, indemnify, and hold COUNTY and CITY harmless from any and all claims arising out of the towing of vehicles at the request of WTA.

<sup>1</sup> RCW 9.91.025

WTA Bus Shelter Agreement Lookout Mountain Forest Preserve

Page 1

- 7. **Insurance & Indemnification & Liability**. With regard to insurance and liability for property damage and personal injury the following provisions shall apply.
  - 7.1 WTA expressly each waives, all immunity and limitation on liability under any industrial insurance act, including Title 51 RCW, other worker's compensation act, disability benefit act, or other employee benefit act of any jurisdiction which would otherwise be applicable in the case of such claim. <u>BY INITIALING BELOW, WTA CERTIFIES THAT THE WAIVER OF IMMUNITY SPECIFIED BY</u> THIS PROVISION WAS MUTUALLY NEGOTIATED.

\_\_\_\_\_ Date \_\_\_\_\_

WTA

- 7.2 To the extent allowed by law, WTA and its successors and assigns will defend and indemnify COUNTY and CITY and its authorized agents and employees, from all claims, actions, costs, damages or expenses of any nature whatsoever by reason of the negligent acts or omissions of WTA, its agents, contractors, or employees. The obligations in this paragraph shall not include such claims, costs, damages or expenses to the extent caused solely by the negligent acts of COUNTY and CITY or its authorized agents or employees; PROVIDED, that if the claims or damages are caused by or result from the concurrent negligent acts of (a) COUNTY and CITY, its agents, contractors, or employees and (b) WTA, its agents, contractors, or employees, or involves those actions covered by Chapter 4.24.115 RCW, the indemnity provision shall be valid and enforceable only to the extent of the negligent acts of WTA's agents or employees.
- 7.3 At all times during the term of this Agreement, WTA shall maintain an insurance policy of self-insurance or a commercial liability insurance policy, providing public liability coverage for defense and indemnity of property damage (including damage to Premises) and personal injury of not less than two Million Dollars (\$2,000,000.00) combined single limit per occurrence, with a general aggregate amount of not less than Four Million Dollars (\$4,000,000.00) per policy period and name COUNTY and CITY as an additional insured as to WTA operations covered by this Agreement. WTA shall provide to COUNTY and CITY evidence reasonably acceptable to COUNTY and CITY of its self-insured status and the status of COUNTY and CITY as an additional insured. WTA insurance shall be considered primary and shall waive all rights of subrogation. The County and City insurance shall be noncontributory.
- 7.4 In the event that WTA, after commencement of this Agreement, elects to terminate its self-insured status and secure commercial liability coverage, WTA will promptly notify COUNTY and CITY, and provide a certificate of insurance and a certificate naming COUNTY and CITY as an "additional insured" from an insurer licensed to conduct business in the State of Washington. The insurance shall have not less than the coverages specified in section 7.3 above.

WTA Bus Shelter Agreement Lookout Mountain Forest Preserve

- 8. **Governmental Charges**. WTA shall not be responsible for any taxes, assessments, or governmental charges of any kind which may be levied against the Premises except those required for the installation and maintenance of a bus shelter.
- 9. **Termination**. WTA will discontinue its use of the Premises on termination of this Agreement, will remove all signs and structures placed on the premises by WTA, and will repair any damage to the premises caused by their removal, and will restore the Premises to as good a condition as existed prior to the execution of this Agreement no later than 30 days after termination of the Agreement. City and County may mutually agree to terminate the license granted herein, with or without cause, on 30 days written notice to WTA at no expense to the City or County.
- 10. **Notices**. Any notice, demand, request, consent, approval, or communication that either party desires or is required to give to the other party shall be in writing addressed to the other party at the addresses as follows:

To COUNTY:	Whatcom County Parks & Recreation 3373 Mount Baker Hwy Bellingham, WA 98226
To CITY:	City of Bellingham Public Works/Natural Resources 2221 Pacific Street Bellingham, WA. 98226
To WTA:	Whatcom Transportation Authority 4011 Bakerview Spur

Bellingham, WA 98226

Or such address as may have been specified by notifying the other party of the change of address. Notice shall be deemed served on the date of actual delivery or the first attempted delivery as shown on the return receipt if mailed with the United States Postal Service by certified mail, return receipt requested.

- 11. Accommodation. The parties agree to make reasonable accommodations and work together to resolve problems that may arise from time to time. Upon seven (7) days' advance notice to WTA, or such lesser time as may be acceptable to WTA, COUNTY and CITY may secure the use of the Premises on a limited number of dates to allow for construction on surrounding property or special events. In this event, COUNTY and CITY will designate an alternate bus stop location.
- 12. **Equal Opportunity**. WTA agrees that in the conduct of activities on the Premises, it will be an equal opportunity employer in accordance with Title VII of the Civil Rights Act of 1964, 42 USC §2000 et seq. and shall comply with all requirements of the ADA.
- 13. **Survival**. All obligations of WTA, as provided for in the Agreement, shall not cease upon the termination of this Agreement and shall continue as obligations until fully

WTA Bus Shelter Agreement Lookout Mountain Forest Preserve

performed. All clauses of this Agreement, which require performance beyond the termination date, shall survive the termination date of this Agreement.

- 14. Entire Agreement. This document contains the entire agreement between the parties and supersedes all other statements or understanding between the parties.
- 15. Assignment. The license granted herein may not be transferred or assigned by WTA without the express written consent of the City and the County.

This Agreement is dated this \_\_\_\_\_day of \_\_\_\_\_, 2018

## Exhibit A

# Whatcom County Comprehensive Plan Amendments

Amend the Whatcom County Comprehensive Plan (Chapter 2 – Land Use) as follows:

#### Major Industrial Urban Growth Area / Port Industrial

#### <u>Cherry Point</u>

The Cherry Point Urban Growth Area (UGA) contains approximately 7,000 acres of industrial land. The land has long been planned and designated by Whatcom County for industrial development and is currently the site of three major industrial facilities including two oil refineries and an aluminum smelter. Together, these three existing industries own about 4,400 acres of the total Cherry Point industrial lands. A fourth large tract of undeveloped land constituting approximately 1,500 acres is designated for industrial development.

Because of the special characteristics of Cherry Point, including deep water port access, rail access, and proximity to Canada, this area has regional significance for the siting of large industrial or related facilities. General Petroleum constructed the Ferndale Refinery in 1954, Alumax/Pechiney/Howmet constructed the Aluminum Smelter in 1966, and the Atlantic Richfield Company constructed the Cherry Point Refinery in 1971. <u>The existing industries in the Cherry Point UGA, which provide significant employment, have produced and shipped refined fossil fuels and other products for decades.</u>

Cherry Point is also important historically and culturally to the Coast Salish people, and part of the usual and accustomed fishing area for five treaty tribes, reserved under the Treaty of Point Elliot of 1855. The Lummi Nation and Western Washington University have identified an ancestral village dating back over 3,000 years ago in this area. The Cherry Point UGA contains sites of primary archeological and cultural significance.

Since the designation of this area for industrial development years ago, newer scientific study of the shoreline ecology has identified Cherry Point's unique function as part of the Fraser River/Georgia Strait and greater Salish Sea ecosystem and the associated Cherry Point Aquatic Reserve has been designated by the state Department of Natural Resources to recognize the ecological importance of the aquatic lands in this area.

Since adoption of earlier versions of this Comprehensive Plan, governments have increased their recognition of the observed and projected effects that fossil fuel extraction, transportation and use have on human health and the environment.

- Policy 2CC-11: It is the policy of Whatcom County to limit the number of industrial piers at Cherry Point to the existing three piers, taking into account the need to:
  - Honor any existing vested rights or other legally enforceable agreements for an additional dock/pier;
  - Update the Whatcom County Shoreline Master Program to conform with this policy;
  - Encourage the continued agency use of best available science;
  - Support and remain consistent with the state Department of Natural Resources' withdrawal of Cherry Point tidelands and bedlands from the general leasing program and the species recovery goals of the Cherry Point Aquatic Reserve designation and Management Plan;
  - Recognize federal actions upholding treaty rights;
  - Protect traditional commercial and tribal fishing; and
  - Prevent conflicts with vessel shipment operations of existing refineries that could lead to catastrophic oil or fuel spills.
- Policy 2CC-16: The County <u>will, through applicable permitting processes, shall</u> undertake a study to be completed if possible by December of 2017 to examine existing County laws, including those related to public health, safety, development, building, zoning, permitting, electrical, nuisance, and fire codes, and develop recommendations for legal ways the County may choose to <u>seek</u> to limit the negative impacts on public safety, transportation, the economy, and environment from <u>new or expanded</u> crude oil, coal, liquefied petroleum gases, <del>and</del>-natural gas, <u>and hazardous</u> <u>substance</u> exports from the Cherry Point UGA above levels in existence as of March 1, 2017.

To provide clear guidance to current and future county councils on the County's legal rights, responsibilities and limitations regarding interpretation and application of project evaluation under Section 20.88.130 (Major Projects Permits) of the Whatcom County Code.

The County should consider any legal advice freely submitted to the County by legal experts on behalf of a variety of stakeholder interests, and make that advice publicly available.

- Based on the above study, develop proposed Comprehensive Plan amendments and associated code and rule amendments for Council consideration as soon as possible.
- Until the above mentioned amendments are implemented, t<u>T</u>he Prosecuting Attorney and/or the County Administration should provide the County Council written notice of all known preapplication correspondence or permit application submittals and notices, federal, state, or local that involve activity with the potential to expand the export of fossil fuels from Cherry Point.
- Policy 2CC-17: Policy 2CC-16 shall not limit existing operations or maintenance of existing facilities as of March 1, 2017.

Amend the Whatcom County Comprehensive Plan (Appendix A – Glossary) as follows:

**Hazardous Substance:** Any liquid, solid, gas, or sludge, including any material, substance, product, commodity, or waste, regardless of quantity, that exhibits any of the physical, chemical or biological properties described in WAC 173-303-090 and/or 173-303-100.

## Exhibit B

## Whatcom County Code Title 20 Amendments

Light Impact Industrial (LII) District

Amend WCC 20.66.050, LII Permitted Uses, as follows:

- **.063** Rail, truck and freight terminals; warehousing and storage; parcel delivery service; freight forwarding; inspection weighing services; and packaging and crating; except that new or expanded crude oil, liquefied petroleum gas, and natural gas facilities require a conditional use permit.
- **.067** Construction contractors' business offices and <u>related</u> storage and equipment yards.
- **.068** Wholesale trade or storage of durable and nondurable goods including automobile parts and supplies; tires and tubes; furniture and home furnishings; lumber and other construction materials; sporting goods, toys and hobby goods; metal service centers and offices; electrical goods; hardware, plumbing and heating equipment; machinery equipment and supplies; jewelry, watches and precious stones; other durable goods; paper and paper products; drugs, proprietaries and sundries; apparel, piece goods and notions; groceries and related products; beer, wine and distilled beverages; waste bottles; waste boxes; rags; waste paper; wiping rags and miscellaneous nondurable goods; provided, however, except that:
  - (1) tTrade, storage or processing of sulphur shall be prohibited.
  - (2) New or expanded crude oil, liquefied petroleum gas, and natural gas facilities require a conditional use permit.
- **.081** Freight railroad switching yards and terminals; except that new or expanded crude oil, liquefied petroleum gas, and natural gas facilities require a conditional use permit.

Amend WCC 20.66.150, LII Conditional Uses, as follows:

.170 New or expanded transportation, storage, and distribution facilities for crude oil, liquefied petroleum gas, and/or natural gas.

Amend WCC 20.66.200, LII Prohibited Uses, as follows:

.204 Bulk coal storage facilities.

# Heavy Impact Industrial (HII) District

Amend WCC 20.68.050, HII Permitted Uses, as follows:

**.054** The following are permitted uses except as otherwise prohibited:

- (1) The manufacture and process of paper including pulp, paper and paperboard mills; and building paper and board mill products.
- (2) The manufacture and processing of chemicals and allied products including industrial inorganic and organic chemicals; synthetic resins, rubber, fibers and plastic materials; soap, detergents and cleaning preparations; paint, linseed oil, shellac, lacquer and allied products; chemicals from gum and wood; and agricultural chemicals.
- (3) Refining and <u>accessory</u> storage of petroleum and asphalt.

On July 10, 2018, the County Council's Special Committee of the Whole provided direction to continue to allow accessory storage of refined petroleum products (such as gasoline) as a permitted use.

Question: Storage of crude oil for export would require a conditional use permit. Is it Council's intent to allow new or expanded storage facilities for crude oil that will be refined on-site as a permitted use or require a conditional use permit in the Heavy Impact Industrial zone?

- (4) The manufacture and processing of rubber and plastic products.
- (5) Leather tanning and finishing.
- (6) The manufacture and processing of cement and glass; and concrete, gypsum, plaster, abrasive, asbestos and nonmetallic mineral products.
- (7) Primary metal industries including blast furnaces and steel works; mills for primary smelting, secondary smelting, refining, reducing, finishing, rolling, drawing, extruding, and casting of ferrous and nonferrous metals; and the manufacture of miscellaneous metal products.
- **.059** Bulk commodity storage facilities, and truck, rail, vessel and pipeline transshipment terminals and facilities; except that new or expanded crude oil, liquefied petroleum gas, and natural gas facilities require a conditional use permit.
- **.081** Freight railroad switching yards and terminals; except that new or expanded crude oil, liquefied petroleum gas, and natural gas facilities require a conditional use permit.
- .082 Marine port facilities.

WCC 20.68.100, HII Accessory Uses, currently allows:

**.105** Other accessory uses and buildings, including security services, customarily appurtenant to a principally permitted use.

Note: No changes are currently proposed to WCC 20.68.105. It is included for informational purposes.

Amend WCC 20.68.150, HII Conditional Uses, as follows:

**.170** New or expanded transportation, storage, and distribution facilities for crude oil, liquefied petroleum gas, and/or natural gas.

Amend WCC 20.68.200, HII Prohibited Uses, as follows:

.201 New piers in the Cherry Point Urban Growth Area. Reserved.

.204 Bulk coal storage facilities.

# Public Utilities Chapter

Amend WCC 20.82.030, Conditional Uses in the Public Utilities Chapter, as follows:

#### 20.82.030 Conditional uses.

The following uses shall require a conditional use permit or major project permit and shall be subject to a threshold determination in accordance with the Whatcom County SEPA Ordinance:

- (1) <u>Petroleum Pipelines Pipelines carrying petroleum, petroleum products,</u> and/or liquefied petroleum gas, except for:
  - (a) Replacement pipelines that are no larger than the pipelines being replaced, which are permitted.
  - (b) Natural gas pipelines, which are regulated as set forth in (2) below.

Transmission pipelines, or pipelines termed a distribution pipeline but having characteristics that fit the definition of a transmission pipeline, carrying petroleum and petroleum products other than natural gas when such pipelines will be located outside the zoning district classified as Heavy Impact Industrial.

- (2) Natural Gas Pipelines Pipelines carrying natural gas, except for:
  - (a) Replacement pipelines that are no larger than the pipelines being replaced, which are permitted.
  - (b) Distribution lines that provide service directly to customers for consumption, which are permitted.

Regional transmission pipelines for the bulk conveyance of natural gas, or pipelines termed a distribution pipeline but having characteristics that fit the definition of a transmission pipeline. Except for the above conditions, natural gas pipelines which are owned and operated by a gas utility company regulated by the State Utilities and Transportation Commission and which are distribution lines owned by the utility that provide natural gas service directly to county citizens and businesses shall not be considered regional transmission lines.

## Major Project Permits Chapter

Amend WCC 20.88.215, Major Project Permit Procedures, as follows:

**.215** Procedures. <u>Major project permit</u> <u>Master plan</u> review shall be conducted under current review procedures. Other land use reviews may be conducted concurrently with the <u>major project permitmaster plan</u> review.

(a) Any modifications, additions or changes to an approved major project permitmaster plan are subject to the following:

(i) <u>Minor changes require approval of the zoning administrator, upon</u> consultation with the technical committee. Minor changes are those amendments which may affect the dimensions, location and type of improvements of facilities; provided, the amendment maintains the basic character of the major project permit application approved by the county council including general type and location of dwellings and other land use activities, arrangement of buildings, density of the development, and provisions of the project to meet density bonus and open space requirements; and provided further, the standards of this chapter are met.

Minor changes shall be reviewed for compliance and compatibility with the approved master plan. A determination is made by the director.

(ii) Major changes require approval of the county council. Major changes are those amendments which, in the opinion of the zoning administrator, upon consultation with the technical committee, substantially change the basic land use, design, density, open space or other requirements of the major project permit. No building or other permit shall be issued without prior review and approval of major changes by the county council Major changes shall be subject to the original procedural application type, subject to the fees as contained in the unified fee schedule.

(iii) <u>Major project permits</u><u>Master plans</u> may include, as a condition of their approval, a requirement for periodic progress reports and mandatory updates on a predetermined interval.

## Definitions Chapter

#### 20.97.434.1 Technical committee.

"Technical committee" or "technical review committee" means the designated representatives of the Whatcom County Planning and Development Services Director, who shall act as chairperson, the Whatcom County Public Works Director, and the Whatcom County Health Department Director.

## Exhibit C

## Whatcom County Code Title 22 Amendments

Amend WCC 22.05, Project Permit Procedures, as follows:

#### 22.05.110 Final decisions – Type I, II, and III applications.

- (1) The director or designee's final decision on all Type I or II applications shall be in the form of a written determination or permit. The determination or permit may be granted subject to conditions, modifications, or restrictions that are necessary to comply with all applicable codes.
- (2) The hearing examiner's final decision on all Type III applications per WCC 22.05.020 or appeals per 22.05.160(1) shall either grant or deny the application or appeal.

(a) The hearing examiner may grant Type III applications subject to conditions, modifications or restrictions that the hearing examiner finds are necessary to make the application compatible with its environment, carry out the objectives and goals of the Comprehensive Plan, statutes, ordinances and regulations as well as other official policies and objectives of Whatcom County.

(b) Performance bonds or other security, acceptable to the prosecuting attorney, may be required to ensure compliance with the conditions, modifications and restrictions.

#### (c) Insurance Placeholder

( $\underline{d}e$ ) The hearing examiner shall render a final decision within 14 calendar days following the conclusion of all testimony and hearings. Each final decision of the hearing examiner shall be in writing and shall include findings and conclusions based on the record to support the decision.

(<u>e</u><del>d</del>) No final decision of the hearing examiner shall be subject to administrative or quasi-judicial review, except as provided herein.

(<u>fe</u>) The applicant, any party of record or any county department may appeal any final decision of the hearing examiner to superior court, except as otherwise specified in WCC 22.05.020.

#### 22.05.120 <u>Recommendations and final decisions – Type IV applications.</u> Recommended decisions to county council.

- (1) For Type IV applications per WCC 22.05.020 the hearing examiner's recommendations to the county council may be to grant, grant with conditions or deny an application. The hearing examiner's recommendation may include conditions, modifications or restrictions as may be necessary to make the application compatible with its environment, carry out the objectives and goals of the Comprehensive Plan, statutes, ordinances and regulations as well as other official policies and objectives of Whatcom County.
- (2) Each recommended decision of the hearing examiner for an application identified as a Type IV application per WCC 20.05.020 shall be in writing to the clerk of the county council and shall include findings and conclusions based upon the record to support the decision. Such findings and conclusions shall also set forth the manner in which the decision carries out and conforms to the county's Comprehensive Plan and complies with the applicable statutes, ordinances or regulations.
- (3) The deliberation of the county council on quasi-judicial actions shall be in accordance with WCC 22.05.090(4) and Chapter 42.36 RCW.
- (4) For planned unit developments and major project permits the following shall apply:

(a) The recommendation of the hearing examiner regarding planned unit developments and major project permits shall be based upon the criteria set forth in WCC 20.85.335 and 20.88.130, respectively.

(b) The hearing examiner shall file the recommendation with the clerk of the county council within 21 calendar days following the conclusion of the open record hearing.

(c) The county council shall conduct the following within the specified timeframes, except as provided in subsection (iii):

(i) Hold a public meeting, not an open record public hearing, to deliberate on the project application within 28 calendar days after receiving the hearing examiner's recommendation.

(ii) Issue a final written decision within 21 calendar days of the public meeting.

(iii)The county council may exceed the time limits in subsection (i) or (ii) if the county council meeting schedule does not accommodate a meeting within the above timeframes, or if the county council makes written findings that a specified amount of additional time is needed to process a specific application or project type, per RCW 36.70B.080(1).

(5) The county council's final written decision may include conditions when the project is approved and shall state the findings of fact upon which the decision is based.

(a)Performance bonds or other security, acceptable to the prosecuting attorney, may be required to ensure compliance with the conditions, modifications and restrictions.

(b) Insurance Placeholder

(6) Any deliberation or decision of the county council shall be based solely upon consideration of the record established by the hearing examiner, the recommendations of the hearing examiner and the criteria set forth in county code.

## Exhibit D Whatcom County Code Title 16 Amendments

Amend WCC 16.08, State Environmental Policy Act (SEPA), as follows:

16.08.121 Preparation of EIS – Greenhouse gas analysis.

If a draft EIS and final EIS or draft and final SEIS is required for new or expanded transportation, storage, or distribution facilities for crude oil, liquefied petroleum gas, or natural gas, the EIS or SEIS shall include a greenhouse gas analysis.

Jill Nixon, Minutes Transcription

1 2 3	Special Committee of the Whole				
4 5	September 11, 2018				
6 7 8	CALL TO ORDER				
9 10 11	Council Chair Rud Browne called the meeting to order at 3:07 p.m. in the Council Chambers, 311 Grand Avenue, Bellingham, Washington.				
12 13 14	ROLL CALL				
15 16 17	Present:Tim Ballew, Barbara Brenner, Rud Browne, Barry Buchanan, Tyler Byrd, Todd Donovan, and Satpal Sidhu.Absent:None.				
18 19 20	COMMITTEE DISCUSSION				
21 22 23 24	1. DISCUSSION OF PRELIMINARY DRAFT COMPREHENSIVE PLAN AND ZONING AMENDMENTS – CHERRY POINT (AB2018-076D)				
24 25 26 27	Matt Aamot, Planning and Development Services Department, gave a staff report and answered questions.				
28 29 30 31 32 33	Councilmembers and staff discussed a public comment period, whether or not to make new or expanded storage facilities for crude oil that will be refined onsite a permitted or accessory use, the possibility of allowing permitting for anything up to 110 percent of current capacity, and tying the storage ability to the refining capacity, and the conditional use criteria and environmental impacts statement (EIS) process.				
33 34 35 36	Pam Brady, BP Cherry Point, stated she can provide technical experts from her company to speak to suggestions about capacity.				
37 38 39 40 41	Councilmembers and staff discussed catastrophic insurance requirements and the types of permits to which they would apply and about getting more information on existing industry insurance requirements and who has title and liability of crude oil when it's transported by rail through Whatcom County.				
42 43 44	<b>Brenner moved</b> to hold the agenda item in committee to get more information on the items they discuss today.				
45 46	The motion was seconded.				
47 48 49 50	The motion failed by the following vote: <b>Ayes:</b> Brenner and Byrd (2) <b>Nays:</b> Ballew, Browne, Buchanan, Donovan, and Sidhu (5)				

WHATCOM COUNTY COUNCIL

Mark Personius, Planning and Development Services Director, answered questions.

Aamot continued the staff report on the Public Utilities Chapter and federal and state
 permitting.

Councilmembers and staff discussed the processes for completing local, State and federal project permit requirements.

9 Donovan moved to add language to Section 20.88.130, "(8) Will have obtained, if 10 required, a state aquatic lands lease, a federal permit under Section 10 of the Rivers and 11 Harbors Act (for structures in or over navigable waters of the U.S.), and/or a federal permit 12 under Section 404 of the Clean Water Act (for fill into waters of the U.S.) prior to county 13 council approval of the major project permit."

The motion was seconded.

**Browne suggested a friendly amendment**, "...prior to county council approval of the major project permit."

Donovan accepted the friendly amendment.

The motion carried by the following vote:

**Ayes:** Ballew, Browne, Buchanan, Donovan, and Sidhu (5)

Nays: Brenner and Byrd (2)

**Browne moved** to amend to add language to add a condition to the major project permit process, "The applicant has no unresolved, unpaid taxes, permit/zoning violations, valuation disputes with the County greater than \$100,000 at the time of application."

The motion was seconded.

Karen Frakes, Prosecutor's Office, stated she would review the language in the
 motion for legality.
 34

Browne withdrew the motion.

37 Donovan moved to amend packet page 511, to amend language in section
 38 20.82.030, subsections (1)(a) and (2)(a), "Replacement, pipelines in the same right-of-way
 39 that do not increase the capacity of that are no larger than the pipelines being replaced,
 40 which are permitted."

Councilmembers discussed a company's ability to increase capacity without
increasing pipeline size, allowing a company to replace pipe as necessary, and minimizing
risk to the public from higher capacity and pressure pipelines.

46 The motion was seconded.

- 48 The motion carried by the following vote:
- 49 Ayes: Ballew, Browne, Buchanan, Donovan, and Sidhu (5)
- 50 Nays: Brenner and Byrd (2)

1	
2 3	(Clerk's Note: Councilmember Buchanan left the meeting at 4:43 p.m.)
4 5 6	<b>Browne moved</b> to amend Policy 2CC-16 to avoid unintended consequences, "natural gas, and <del>hazardous</del> radioactive substance exports from the Cherry Point"
7 8	The motion was seconded.
9 10 11	Councilmembers and staff discussed the definition of hazardous substances and how this amendment to the Comprehensive Plan would impact the County's current regulations, and limiting negative impacts instead of identifying substances.
12 13 14 15 16 17	The motion carried by the following vote: <b>Ayes:</b> Ballew, Brenner, Browne, Byrd, and Donovan (5) <b>Nays:</b> Sidhu (1) <b>Absent:</b> Buchanan (1)
18 19 20	Aamot stated he will work with the Council Chair to develop a list of questions to ask industry to get more information on the topics discussed and questions raised.
21 22 23 24 25	2. DISCUSSION REGARDING PROPOSED ORDINANCE ADOPTING AMENDMENTS TO THE WHATCOM COUNTY COMPREHENSIVE PLAN AND THE WHATCOM COUNTY CODE TITLE 24, HEALTH CODE, RELATING TO WATER RESOURCES AND THE IMPLEMENTATION OF ESSB 6091 (ORDINANCE SCHEDULED FOR INTRODUCTION THIS EVENING) (AB2018-253)
26 27 28	Cliff Strong, Planning and Development Services Department, gave a staff report.
20 29 30	(Clerk's Note: Councilmember Byrd left the meeting at 4:55 p.m.)
31 32 33	Karen Frakes, Prosecutor's Office, answered questions on making the correction to meet legislative requirements.
33 34 35	Sidhu moved to recommend introduction to the full Council.
36 37	The motion was seconded.
38 39 40 41 42	The motion carried by the following vote: <b>Ayes:</b> Ballew, Brenner, Browne, Sidhu, and Donovan (5) <b>Nays:</b> None (0) <b>Absent:</b> Buchanan and Byrd (2)
43 44	OTHER BUSINESS
45 46 47	There was no other business.

#### WHATCOM COUNTY PUBLIC WORKS DEPARTMENT

JON HUTCHINGS DIRECTOR

#### **MEMORANDUM**

To:	The Honorable County Executive Jack Louws and Honorable Members of the County Council
Through:	Jon Hutchings, Director
From:	Jon Hutchings, Director Andrew Hester, Real Estate Coordinator AH 8-28-18
Date:	August 28, 2018
Re:	Resolution Approving the Sale of Surplus Real Property

Enclosed is a resolution requesting the approval of the sale of surplus Whatcom County real property.

#### **Requested Action**

Public Works respectfully requests that the Whatcom County Council hold a public hearing and take action on the proposed resolution to approve the sale of surplus Whatcom County real property.

#### **Background and Purpose**

Public Works received an application to purchase Whatcom County real property located on Deeter Road, tax parcel number 400415 338138 0000. The property was formally Township property that the County obtained when townships were formally dissolved. The property consists of two small rectangular tracts and is bisected by Deeter Road. It is approximately 0.74 acres. Public Works determined that the property was not needed for Public Works' operations. The Property Management Committee (PMC) reviewed the application and determined that the property was useless and not needed by any other department. Per RCW and Whatcom County Code, the PMC has recommended the sale of the property. The property is to be sold by sealed bid with the minimum sale price of \$5,000 (five thousand 00/100 dollars).

#### **Funding Amount and Source**

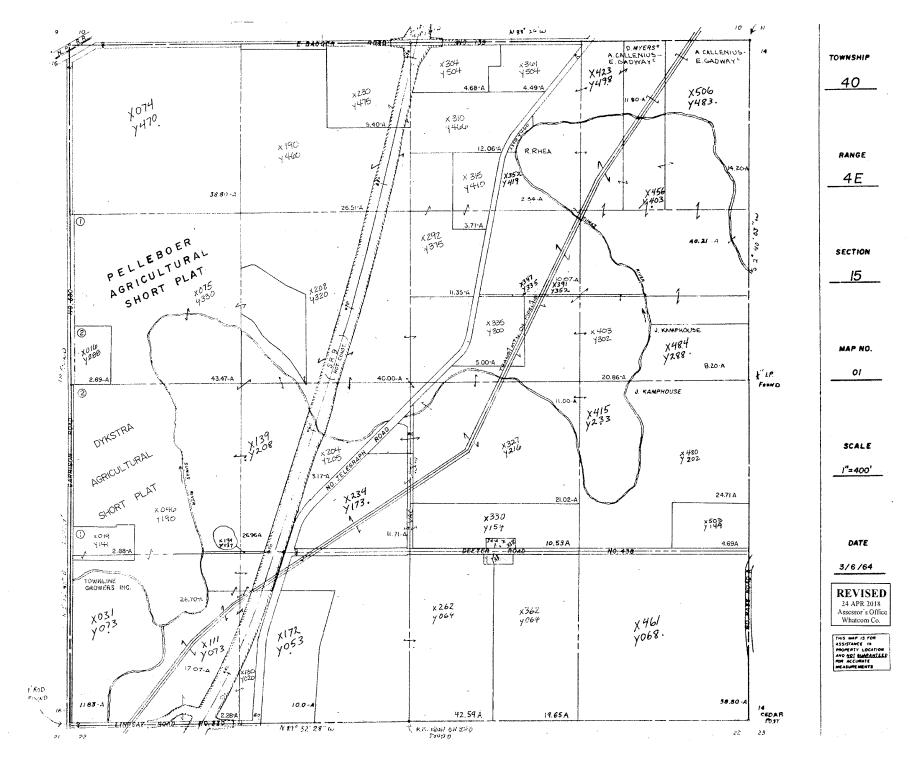

The successful bidder is responsible for paying all costs associated with the sale of property.

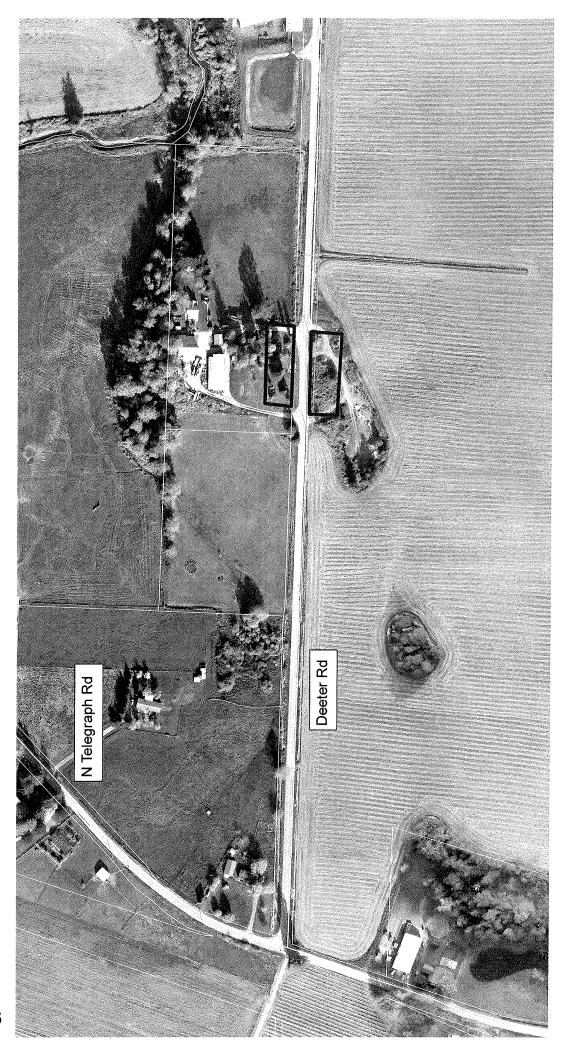

Please contact me at extension 6216 if you have any questions or concerns regarding this resolution.

2	PROPOSED BY:Public Works
3	INTRODUCTION DATE: 9/11/2018
4	
5	RESOLUTION NO
6	AUTHORIZING THE SALE OF WHATCOM COUNTY SURPLUS PROPERTY
7	PURSUANT TO WCC 1.10
8	
9	WHEREAS, RCW 36.34.005 authorizes counties to establish comprehensive procedures for the
10	management of county property, including the sale of surplus real estate where it is found to be in the best
11	interest of a county to sell same; and
12	
13	WHEREAS, in Whatcom County Code (WCC), Chapter 1.10, Whatcom County has established
14	those procedures; and
15	
16	WHEREAS, the Whatcom County Property Management Committee has recommended the sale of
17	Whatcom County real property located on Deeter Road, tax parcel number 400415 338138 0000, to the
18	highest bidder, by sealed bid, for not less than the amount as listed below, plus costs; and
19 20	WHEREAS WCC 1.10.200 outhorizes the Wheteen County Bronerty Menagement Committee to
20 21	WHEREAS, WCC 1.10.290 authorizes the Whatcom County Property Management Committee to use the County Assessor's value as the estimated market value if the value is \$15,000 or less; and
21	use the County Assessor's value as the estimated market value if the value is \$15,000 of less, and
23	WHEREAS, the assessed value of the property is \$5,000 and has been determined by the
24	Whatcom County Property Management Committee to be the estimated market value for the property; and
25	
26	WHEREAS, WCC 1.10.310 authorizes the Council, after receipt of estimated market values from
27	the Property Management Committee, to establish limitations and conditions upon sale of property, such as
28	the minimum price for said property and whether or not a contract will be allowed, or if it will be a cash
29	price; and
30 31	WHEREAS, WCC 1.10.310, as well as state law, allows the County to reserve from the sale oil,
32	gas, timber, mineral aggregates and other resources if the Council finds that it is the best interest of the
33	public to reserve these; and
34	
35	WHEREAS, a public hearing was held on, 2018 to discuss the
36	sale of said property; and
37	
38 39	WHEREAS, it was determined to be in the best interest of Whatcom County to sell the property;
39 40	NOW, THEREFORE, BE IT RESOLVED that it is in the best interest of the County to sell tax
40	parcel number 400415 338138 0000 to the highest bidder sealed bid.
42	parcer number 400415 556156 0000 to the nightest oldeer searce old.
43	LEGAL DESCRIPTION OF PROPERTY TO BE SOLD
44	
45	Whatcom County Tax Parcel Number 400415 338138 0000 (Approximately 0.74 acres, more or less)
46	
47	A tract of land located in Section 15, Township 40 North, Range 4 East of W.M.,
48	described as follows:

1			
2	Beginning at a point 514 feet West of	the North	east corner of the Southwest Quarter of the
3	Southeast Quarter; thence West 220 fe	eet; thence	South 99 feet; thence East 220 feet;

JACK LOUWS

#### Memorandum

	COUNTY EXECUTIVE
TO:	The Honorable Jack Louws, County Executive
	The Honorable County Council
FROM:	Cliff Strong, Senior Planner
THROUGH:	Mark Personius, Director M
DATE:	August 31, 2018
SUBJECT:	Proposed Whatcom County Comprehensive Plan and Health Code Amendments

Earlier this year, the Council adopted amendments to the Comprehensive Plan and development regulations to enact the Streamflow Restoration Act (ESSB 6091), an act that amended the state water and watershed management regulations and provided a resolution to the Washington Supreme Court's Hirst Decision.

On June 28, 2018, Hirst, *et al.* and Futurewise, petitioners in Case No. 12-2-0013, filed a *Concurrence in Part and Objection in Part to a Finding of Compliance on Water Quantity* with the Growth Management Hearings Board. In it, they concurred that our newly adopted policies and regulations for WRIA 1 (except for Point Roberts, Eliza Island, and Lummi Island) now comply with the GMA. But they objected to us exempting Point Roberts, Eliza Island, and Lummi Island, arguing that ESSB 6091 applies to *all* of WRIA 1. They also objected to us not including the Whatcom County portion of WRIA 4 (Upper Skagit) in the requirements for showing legal availability of water (even though doing so would have no actual effect on development, as all of it is National Forest land). The Prosecuting Attorney's Office agrees with their arguments and requested that we bring forth an amendment to remedy this.

At their July 26, 2018, meeting, the Planning Commission reviewed the proposal and held a public hearing. Based on their discussion and public testimony, they suggested some grammatical edits (which have been incorporated into Exhibit A) and then recommended approval.

Staff recommends that the Council review the attached staff report and Exhibit A showing the proposed amendments to the Whatcom County Comprehensive Plan and development regulations, hold a public hearing, and adopt these provisions consistent with ESSB 6091.

#### ORDINANCE NO. 2018-

#### AN ORDINANCE ADOPTING AMENDMENTS TO THE WHATCOM COUNTY COMPREHENSIVE PLAN AND THE WHATCOM COUNTY CODE TITLE 24 HEALTH CODE

WHEREAS, RCW 36.70A.070(1), requires that the land use element of a county comprehensive plan "shall provide for protection of the quality and quantity of groundwater used for public water supplies"; and,

WHEREAS, RCW 36.70A.070(5)(c)(iv) requires that the rural element of a county comprehensive plan "shall include measures that apply to rural development and protect the rural character of the area, as established by the County, by: ... protecting critical areas...and surface water and groundwater resources"; and,

WHEREAS, RCW 19.27.097(1) requires that applicants for building permits of buildings necessitating potable water provide evidence of an adequate water supply for the intended use of the building; and,

WHEREAS, RCW 58.17.110(2) requires that "A proposed subdivision and dedication shall not be approved unless the... county legislative body makes written findings that... appropriate provisions are made for... potable water supplies..."; and,

WHEREAS, WCC Chapter 24.11 contains requirements for potable water; and,

WHEREAS, to protect rural character and regulate groundwater withdrawals, Whatcom County adopted Ordinance 2012-032, amending its Comprehensive Plan to adopt by reference existing development regulations, adding Policy 2DD-2.C.6 which adopts by reference WCC 21.04.090 and 21.05.080, Policy 2DD-2.C.7 which adopts by reference WCC 24.11.050, Policy 2DD-2.C.8 which adopts by reference WCC 24.11.060, and Policy 2DD-2.C.9 which adopts by reference WCC 24.11.090, .100, .110, .120, .130, .160, and .170, any amendments to these WCC provisions are also amendments to the Comprehensive Plan; and,

WHEREAS, the Growth Management Hearings Board (Board) found the amended Comprehensive Plan lacked the required measures to protect water resources (GMHB Case No. 12-2-0013); and,

WHEREAS, on October 6, 2016, the Washington State Supreme Court (Court), in reversing a Court of Appeals decision, upheld the Board's decision that the County's

Comprehensive Plan does not satisfy the GMA requirements to protect water availability, and stated, "We hold that the Board properly concluded that the GMA requires counties to make determinations of water availability."; and,

WHEREAS, the Court stated, "...the GMA places the burden on counties to protect groundwater resources, and requires counties to assure that water is both factually and legally available before issuing building permits."; and,

WHEREAS, the Court stated, "...The county's policies incorporate WCC provisions that do not allow water to be withdrawn from 'an area where [the Department of Ecology] has determined by rule that water for development does not exist.' ...these ordinances further provide that an application for a permit-exempt appropriation will be approved without any analysis of that withdrawal's impact on instream flows. The Board found that these provisions result in water withdrawals from closed basins and senior instream flows—flows that the record indicated drop below the minimum levels 100 days out of the year. The Board properly held that this conflicts with the requirement placed on counties to protect water availability under the GMA..."; and,

WHEREAS, Chapter 173-501 WAC Instream Resources Protection Program – Nooksack Water Resource Inventory Area (WRIA) 1 identifies waterbodies in Whatcom County that are closed or partially closed to further appropriation, by listing their status as "closure," "partial year closure," "low flow," or "minimum flow,"; and,

WHEREAS, on January 18, 2018, the Washington State Legislature adopted ESSB 6091, which requires the Department of Ecology to work with the initiating governments and the planning unit in WRIA I to review existing watershed plans to identify the potential impacts of exempt well use, identify evidence-based conservation measures, and identify projects to improve watershed health. Until rules are adopted that specify otherwise, Section 202(5), which effectively reverses the Court's decision in *Hirst*, allows new domestic water uses in WRIA 1 that rely on groundwater withdrawals exempt from permitting under RCW 90.44.050, provided that applicants pay a fee of five hundred dollars to the permitting authority and limit their maximum annual average withdrawal of three thousand gallons per day, per connection, and record this limitation on the property title; and,

WHEREAS, ESSB 6091, Section 101(5), also provides that "[a]ny permit-exempt groundwater withdrawal authorized under RCW 90.44.050 associated with a water well constructed in accordance with the provisions of chapter 18.104 RCW before the effective date of this section is deemed to be evidence of adequate water supply under this section"; and,

WHEREAS, the amendments proposed by this ordinance are consistent with the aforementioned requirements of ESSB 6091 and are therefore consistent with the GMA, as specifically addressed in Section 102 of ESSB 6091; and,

WHEREAS, adoption of this ordinance is necessary to complete the GMA compliance proceedings before the Western Washington Growth Management Hearings Board (GMHB Case No. 12-2-0013); and,

WHEREAS, a determination of non-significance (DNS) (SEPA 2018-00063) was issued under the State Environmental Policy Act (SEPA) on July 19, 2018; and,

WHEREAS, ESSB 6091 was signed by Governor Inslee on January 19, 2018, and, pursuant to the emergency clause in Section 307, it became effective immediately as the Legislature declared that it was "necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing institutions . . ."; and,

WHEREAS, in accordance with RCW 36.70A.106, Whatcom County Planning and Development Services notified the Department of Commerce of the proposed amendments contained herein on July 17, 2018, and no comments were received from state agencies; and,

WHEREAS, The Planning Commission held a duly noticed public hearing on this ordinance on July 26, 2018; and,

WHEREAS, the County Council held a duly noticed public hearing on this ordinance on September 25, 2018; and,

WHEREAS, the amendments are in the public interest; and,

WHEREAS, the amendments are consistent with the Whatcom County Comprehensive Plan.

**NOW, THEREFORE, BE IT ORDAINED** that the Whatcom County Council adopts the above "WHEREAS" recitals as findings of fact and conclusions in support of its action as required by RCW 36.70A.390.

**BE IT FURTHER ORDAINED** by the Whatcom County Council that the Whatcom County Comprehensive Plan and the Whatcom County Code are hereby amended as shown in Exhibit A.

**BE IT FURTHER ORDAINED** that if a section, subsection, paragraph, sentence, clause, or phrase of this ordinance is declared unconstitutional or invalid for any reason by any court of competent jurisdiction; such decision shall not affect the validity of the remaining portions of this ordinance, and if the provisions of this ordinance are found to be inconsistent with other provisions of the Whatcom County Code, this ordinance shall control.

ADOPTED this \_\_\_\_\_ day of \_\_\_\_\_ 2018.

### EXHIBIT A

#### Whatcom County Code

#### AMENDMENTS

#### TITLE 24 HEALTH CODE

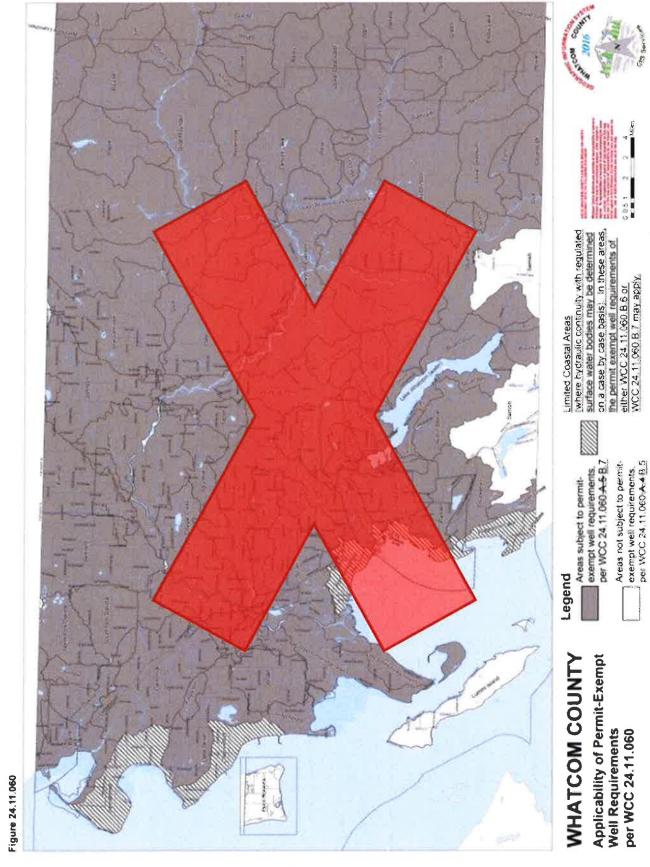

#### **CHAPTER 24.11 DRINKING WATER**

#### 24.11.060 Water availability required.

- A. Prior to issuance of a building or other project permit, and unless exempt pursuant to subsection (C), the applicant must provide Whatcom County Planning and Development Services evidence of adequate water supply as documented by a water availability notification signed by the director the Whatcom County Health Department. The water availability notification shall document a supply of potable water adequate to serve a land use associated with a project permit in terms of quality, quantity, and legal availability.
- B. The applicant must provide evidence of legal availability in the form of:
  - 1. A water right permit from the Department of Ecology; or,
  - 2. A letter from an approved public water purveyor with sufficient water rights, stating the ability to provide water; or,
  - 3. Evidence that a permit-exempt groundwater withdrawal (authorized under RCW 90.44.050) is associated with a well constructed (in accordance with the provisions of RCW Chapter 18.104) prior to January 19, 2018; or,
  - 4. Documentation Evidence that water can be supplied by a rainwater catchment system approved by the Whatcom County Health Department, per Department of Ecology Policy 1017; or,
  - 5. If the well site is located in WRIA 3 (Lower Skagit-Samish) or in Point Roberts, Eliza Island, or Lummi Island, as shown in Figure 24.11.060, evidencedocumentation that water for domestic use will be supplied by a new withdrawal exempt from permitting under RCW 90.44.050.
  - 5-6. If the well site is located in WRIA 4 (Upper Skagit), evidence that the requirements of chapter 173-503 WAC have been met.
  - 6. If the well site is located in those Limited Coastal Areas (that may or may not be in hydraulic continuity with regulated surface waterbodies) as shown on Figure 24.11.060, documentation that water for domestic use will be supplied by a new withdrawal exempt from permitting under RCW 90.44.050 and:
    - a. A study prepared by a qualified hydrogeologist licensed in the State of Washington demonstrating a proposed groundwater withdrawal would not impair a senior water right, including instream flows established in Chapter 173-501 WAC where applicable, in accordance with current statutes and case law. Such documentation must be verified by the County either through consultation with the Department of Ecology, or a qualified technical review team appointed by the County. The County may require a third party review by an

independent qualified hydrogeologist if the County determines additional technical expertise is needed. The cost of the third party review shall be borne by the County; or,

- b. A mitigation plan prepared by a qualified hydrogeologist licensed in the State of Washington, and approved by Whatcom County. The plan shall include:
  - i. Evidence that the proposed withdrawal with mitigation in place will not impair a senior water right, including instream flows established in Chapter 173-501 WAC where applicable, in accordance with current statutes and case law. Such documentation must be verified by the County either through consultation with the Department of Ecology, or a qualified technical review team appointed by the County. The County may require a third party review by an independent qualified hydrogeologist if the County determines additional technical expertise is needed. The cost of the third party review shall be borne by the County.
  - ii. A monitoring and reporting plan, including a quality assurance/quality control plan.
  - iii. Documentation adequate to demonstrate that the mitigation will remain in place for the duration of the impact, including, for example, financial assurances or documentation of permanent dedication of water for mitigation purposes.
- Except in Point Roberts, Eliza Island, or Lummi Island, f If the well site is located in WRIA 1 (Nooksack), or new permit exempt groundwater withdrawals for domestic use per RCW 90.44.050 within WRIA 1 (Nooksack) or within those Limited Coastal Areas where the applicant chooses not to use subsection (B)(6), the applicant may obtain approval for a withdrawal exempt from permitting pursuant to RCW 90.44.050 under the following conditions:
  - a. Water for domestic uses shall be subject to a maximum annual average withdrawal of 3,000 gallons per day per connection.
  - b. The applicant shall record with the property title any relevant restrictions or limitations associated with water supply; and
  - c. The applicant shall pay to the permitting authority any applicable fees for each project permit.
- C. A water availability notification is not required for:
  - 1. A project permit that does not require potable water.
  - 2. A project permit relying on either a permit-exempt groundwater withdrawal per RCW 90.44.050 or a surface water withdrawal for potable water for (a) a remodel of an existing building or (b) replacement of a demolished or removed building but not proposing a change of use, either of which would increase the floor area by no more than 50 percent over that of the existing building; however, such permits shall require documentation of current water quality and quantity, approved by the director.

File Name: Whatcom County Comprehensive Plan and Health Code Amendments

Applicants: Whatcom County Planning and Development Services (PDS)

**Summary of Request:** An ordinance amending the Comprehensive Plan and WCC 24.11.060 (Water availability required), amending the requirements for evidence of legal availability for permit exempt groundwater withdrawals in WRIAs 1 (Nooksack), 3 (Lower Skagit), and 4 (Upper Skagit) to be consistent with the Washington State Streamflow Restoration Act (ESSB 6091). The ordinance would remove the compliance exemption for islands and other coastal areas that are not in hydraulic continuity with the Nooksack River as well as subject properties in WRIA 4 (Whatcom County portion of the Upper Skagit) to the requirements of the Act, similar to the rest of WRIA 1 and 3 (Whatcom County portion). (See Figure 1 and Figure 2 for boundaries)

Location: Countywide.

#### I. BACKGROUND

The State Legislature passed, and the Governor signed into law, ESSB 6091, which amends the state water and watershed management regulations, providing a resolution to the Washington Supreme Court's Hirst Decision. Whatcom County amended its Comprehensive Plan and regulations earlier this year to incorporate the new state law into our code so as to be consistent with it and our Comprehensive Plan.

ESSB 6091 requires the Department of Ecology to work with the initiating governments, which includes tribes, and the planning unit to review existing watershed plans to identify the potential impacts of exempt well use, identify evidence-based conservation measures, and identify projects to improve watershed health. The watershed plan must then updated to include recommendations for projects and actions that will measure, protect, and enhance instream resources and improve watershed functions that support the recovery of threatened and endangered salmonids by February 1<sup>st</sup>, 2019. That work is underway.

Until the watershed plan is updated, ESSB 6091 does allow jurisdictions to rely on Ecology rules regarding new permit-exempt wells to comply with GMA requirements for protecting surface and ground water resources, as long as certain conditions are met. These conditions include:

- Withdrawals can be for domestic use only, with a maximum annual average withdrawal of three thousand gallons per day per connection.
- Applicants must pay a fee of \$500 dollars (\$350 of which the County must forward to the Department of Ecology).
- Applicants must record any relevant restrictions or limitations associated with water supply on their property's title.

Whatcom County is required by state law to document that every building and land use permit necessitating potable water has an "adequate water supply" prior to approval. Adequate water supply as defined by WCC 20.97.451 includes a three-part requirement: 1) water quantity (i.e., the water source has enough physical water to meet state Department of Health minimum requirements to supply a proposed use); 2) water quality (i.e., the proposed withdrawal of water meets state safe drinking water quality standards); and 3) legal availability (i.e., the applicant has legal authority to access and use the water source).

In Whatcom County the ways of showing the legal water availability for development purposes (where Whatcom County has to issue a permit for a use requiring water) are listed in WCC 24.11.060(B). This was one of the sections of code that Council amended earlier this year so as to comply with ESSB 6091.

#### **Reason for Proposed Amendments**

In crafting the previous ordinance, staff relied on previous determinations by the Department of Ecology that certain areas of Whatcom County—areas not in hydraulic continuity with the Nooksack River— would be exempt from complying with the conditions imposed by ESSB 6091. Thus, the ordinance specifically exempted properties in Point Roberts, Eliza Island, or Lummi Island from the three conditions. The ordinance also acknowledged that certain coastal areas might also not be in hydraulic continuity with the Nooksack River, and allowed property owners in those areas to perform a study to determine whether they were, and if not, then also not be subject to the three conditions.

Additionally, the ordinance did not address the portion of WRIA 4 (Upper Skagit) that lies within Whatcom County, as there are no private properties in that area (it all being National Forest land).

On June 28, 2018, Hirst, *et al.* and Futurewise, petitioners in Case No. 12-2-0013, filed a *Concurrence in Part and Objection in Part to a Finding of Compliance on Water Quantity* with the Growth Management Hearings Board. In it, they concurred that our newly adopted policies and regulations for WRIA 1 (except for Point Roberts, Eliza Island, and Lummi Island) now comply with the GMA. But they objected to us exempting Point Roberts, Eliza Island, and Lummi Island, arguing that ESSB 6091 applies to *all* of WRIA 1. They also objected to us not including the Whatcom County portion of WRIA 4 (Upper Skagit) in the requirements for showing legal availability of water (even though doing so would have no actual effect on development).

The Prosecuting Attorney's Office agrees with their arguments and requested that we bring forth an amendment to remedy this.

#### II. PROPOSED AMENDMENTS

#### A. Proposed Code Amendments

This ordinance would amend the health regulations (WCC 24.11.060, Water availability required) as shown in Exhibit A (attached) (and tabularized for explanation in Table 1, below). The amendments would eliminate the compliance exemption for Point Roberts, Eliza Island, Lummi Island, and coastal areas not in hydraulic continuity with the Nooksack River, and subject properties in WRIA 4 (Whatcom County portion of Upper Skagit) to the requirements of WAC Chapter 173-503.

#### **B.** Proposed Comprehensive Plan Amendment

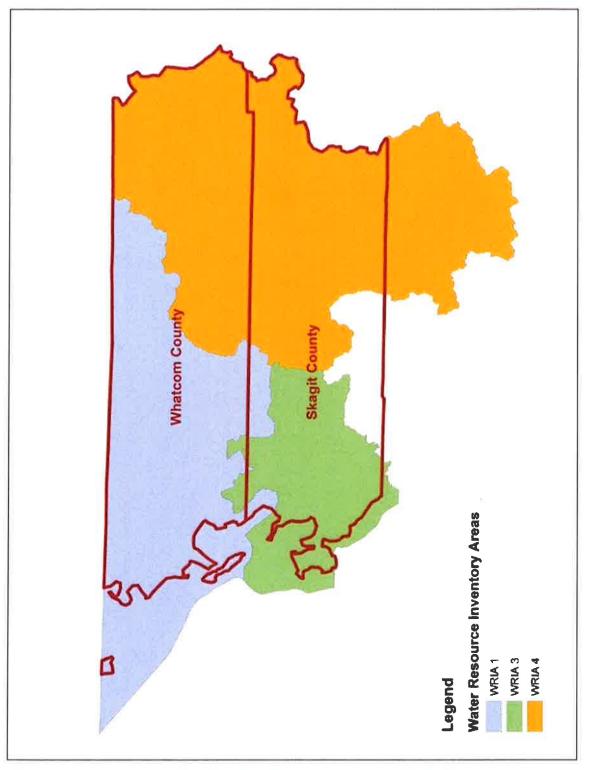

Due to a previous Growth Management Hearings Board decision regarding the lack of measures in our Comprehensive Plan to protect rural character, the County adopted into it by reference specific sections of the Whatcom County Code, found in Policy 2DD-2. Germaine to the matter at hand, Policy 2DD-2.C.8 adopts by reference WCC 24.11.060.

Because of this, each time we amend any of these referenced code sections we are also amending the Comprehensive Plan, and have to advertise as such. No further action is required on this portion.

Table 1. Conditions Under Which Water is Considered Legally Available for Purposes of Development in Whatcom County Pursuant to WCC 24.11.060

		Location

## III. COMPREHENSIVE PLAN EVALUATION

Below are listed all the pertinent Comprehensive Plan goals and policies regarding domestic water supply, protection of instream flows, water quantity, and watershed planning:

## Chapter 2, Land Use

- Goal 2A: Ensure designation of sufficient land and densities, with consideration of water availability, to accommodate the growth needs of Whatcom County and protect the local economy, rural lifestyle, habitat, fish, and wildlife, which are the cornerstone qualities that make the county a desirable place to live.
- Policy 2A-15: Strive to improve predictability to property owners regarding the connection between legal water use, and land use and development by:
  - Supporting completion of groundwater studies that provide a better understanding of water quantities available and the connection between groundwater use and instream flow levels.
  - Supporting the efforts of water purveyors to develop new legal water sources and the infrastructure and systems necessary to transport that water to existing water users that lack safe potable water or sufficient water rights.
  - Encouraging a negotiated water rights quantification and settlement between the Lummi Nation, Nooksack Indian Tribe and other water users in the Nooksack River basin.
  - Encouraging the Department of Ecology to protect instream flows, particularly in times of extremely low summer flows.
  - Coordinating with the Department of Ecology to find solutions to provide adequate water for out-of-stream users while protecting instream flows. Potential solutions may include consideration of recycling, conservation, water banking, public water system interties, stream recharge augmentation, change in place of use, desalinization and other alternative water supply measures.
  - Requesting the Department of Ecology to create a water management plan for exempt wells in closed water basins that better aligns instream flows with current water rights and legal decisions on hydraulic continuity.

## Goal 2DD: Retain the character and lifestyle of rural Whatcom County.

- Policy 2DD-2: Protect the character of the rural area through the County's development regulations. In addition to the policies of this plan that provide measures governing rural development, the following County's key development regulations are incorporated into this plan by reference to assure that the plan contains measures to protect rural character:
  - ...
  - C. Measures to protect critical areas and surface and groundwater resources:
  - •••
- 6. Limit water withdrawals resulting from land division through the standards in the following Whatcom County Land Division regulations, adopted herein by reference:
  - a. WCC 21.04.090 Water supply, Short Subdivisions.
  - b. WCC 21.05.080 Water supply, Preliminary Long Subdivisions.

- 7. Regulate groundwater withdrawals by requiring purveyors of public water systems and private water system applicants to comply with Washington State Department of Ecology water right requirements per WCC 24.11.050, adopted herein by reference.
- 8. Require evidence of an adequate water supply prior to issuance of any building permit, per WCC 24.11.060, adopted herein by reference.
- 9. Determine adequacy of water supply for building permit applications proposing to use a well, spring, or surface water, per WCC 24.11.090, .100, .110, .120, .130, .160, and .170, adopted herein by reference.
- .....

## Goal 2M: Protect and encourage restoration of habitat for fish and wildlife populations including adequate instream flows.

Policy 2M-7 Engage in efforts to better define groundwater resources and connection to surface water, current water usage, water rights, adequate instream flows, and policy barriers that create conflicts between these things.

Chapter 5, Utilities

- Goal 5R: Ensure that potable water supplies required to serve development are available at the time the development is available for occupancy and use.
- Policy 5R-1: Building permit applicants, new subdivisions, short plats, and binding site plans will be required to provide evidence that adequate and legal (in consultation with the Department of Ecology) supplies of water are available prior to their approval by the County.

## Chapter 10, Environment

- Goal 10F: Protect and enhance water quantity and quality and promote sustainable and efficient use of water resources.
- Policy 10F-3: Work cooperatively with Federal, State, and local jurisdictions, Tribal governments, municipal corporations, and the public to implement the goals and policies of the Comprehensive Plan as well as state water resources and water quality laws.
- Policy 10F-4: Participate in the coordination of all local water and land management efforts, plans, and data to ensure adequate oversight of water quantity and quality issues.
- Policy 10F-5: Manage water resources for multiple instream and out-of-stream beneficial uses, including instream flows set by the State Department of Ecology.
- Policy 10F-9: In conjunction with all jurisdictions, develop and adopt programs to protect water quality and quantity within watersheds, aquifers, and marine waterbodies that cross jurisdictional boundaries.

## Goal 10G: Protect and enhance Whatcom County's surface water and groundwater quality and quantity for current and future generations.

Policy 10G-3: In conjunction with the public and appropriate local, state, Tribal, and federal jurisdictions, define, identify, and develop management strategies for watershed basins and subbasins that may require special protection. These areas may include aquifers, critical aquifer recharge areas as defined under the Growth Management Act, Groundwater Management Areas, wellhead protection areas, and high priority watersheds such as those specified under WAC 400 (Local Planning and Management of

Non-point Source Pollution), WRIA Watershed Management Planning, and under legislative policy direction (e.g. Nooksack Basin, Lake Whatcom, Lake Samish and Drayton Harbor).

- Policy 10G-4: Management efforts should consider both water quality and quantity. Water quality efforts should help reduce the likelihood that potential contaminant sources will pollute water supplies. Water quantity efforts should include consideration and protection of recharge areas and potential effects on stream flow.
- Policy 10G-5: Support the implementation of local and state Watershed Management Plans, the Lower Nooksack Strategy, the Lake Whatcom Management Program, NPDES Phase II Permitting, and the WRIA Watershed Management Projects.
- Policy 10G-6: Pursue the adoption and implementation of ground and/or surface water management plans and their integration into local comprehensive plans. Designate the Lake Whatcom and Lake Samish Watersheds as high priorities in this effort.

Goal 10-I: Support water conservation, reclamation, reuse measures, and education as a means to ensure sufficient water supplies in the future.

- Policy 10I-2: Support efforts to establish and protect sustainable water supplies to meet existing and future demands for water in the county.
- Policy 10I-3: Develop and implement plans to comply with the Department of Ecology's instream flow and water management rules and water resources management programs.
- Policy 10I-4: Coordinate local water and land management efforts, plans, and data to ensure adequate oversight of water quality and quantity issues.

**Conclusion:** The proposed amendments to the Whatcom County Comprehensive Plan and development regulations would affirm the County's intent to work cooperatively with the Department of Ecology, WRIA 1 Initiating Governments, and the Planning Unit to update the WRIA 1 Watershed Management Plan pursuant to the Streamflow Restoration Act (ESSB 6091), as well as implement the Act's requirements for allowing the conditioned use of permit-exempt wells (RCW 90.44.050) as a legal source of water for domestic use, and are consistent with the above listed Comprehensive Plan goals and policies.

## IV. PROPOSED FINDINGS OF FACT AND REASONS FOR ACTION

Staff recommends the County Council adopt the following findings of fact and reasons for action:

- 1. RCW 36.70A.070(1) requires that the land use element of a county comprehensive plan "shall provide for protection of the quality and quantity of groundwater used for public water supplies"; and,
- RCW 36.70A.070(5)(c)(iv) requires that the rural element of a county comprehensive plan "shall include measures that apply to rural development and protect the rural character of the area, as established by the County, by: ... protecting critical areas...and surface water and groundwater resources"; and,
- 3. RCW 19.27.097(1) requires that applicants for building permits of buildings necessitating potable water provide evidence of an adequate water supply for the intended use of the building; and,
- 4. RCW 58.17.110(2) requires that "A proposed subdivision and dedication shall not be approved unless the... county legislative body makes written findings that... appropriate provisions are made for... potable water supplies..."; and,

- 5. WCC Chapter 24.11 contains requirements for potable water; and,
- 6. To protect rural character and regulate groundwater withdrawals, Whatcom County adopted Ordinance 2012-032, amending its Comprehensive Plan to adopt by reference existing development regulations, adding Policy 2DD-2.C.6 which adopts by reference WCC 21.04.090 and 21.05.080, Policy 2DD-2.C.7 which adopts by reference WCC 24.11.050, Policy 2DD-2.C.8 which adopts by reference WCC 24.11.050, Policy 2DD-2.C.8 which adopts by reference WCC 24.11.090, .100, .110, .120, .130, .160, and .170, any amendments to these WCC provisions are also amendments to the Comprehensive Plan; and,
- 7. The Growth Management Hearings Board (Board) found the amended Comprehensive Plan lacked the required measures to protect water resources (GMHB Case No. 12-2-0013); and,
- 8. On October 6, 2016, the Washington State Supreme Court (Court), in reversing a Court of Appeals decision, upheld the Board's decision that the County's Comprehensive Plan does not satisfy the GMA requirements to protect water availability, and stated, "We hold that the Board properly concluded that the GMA requires counties to make determinations of water availability."; and,
- 9. The Court stated, "...the GMA places the burden on counties to protect groundwater resources, and requires counties to assure that water is both factually and legally available before issuing building permits."; and,
- 10. The Court stated, "...The county's policies incorporate WCC provisions that do not allow water to be withdrawn from 'an area where [the Department of Ecology] has determined by rule that water for development does not exist.' ...these ordinances further provide that an application for a permit-exempt appropriation will be approved without any analysis of that withdrawal's impact on instream flows. The Board found that these provisions result in water withdrawals from closed basins and senior instream flows—flows that the record indicated drop below the minimum levels 100 days out of the year. The Board properly held that this conflicts with the requirement placed on counties to protect water availability under the GMA..."; and,
- 11. Chapter 173-501 WAC Instream Resources Protection Program Nooksack Water Resource Inventory Area (WRIA) 1 identifies waterbodies in Whatcom County that are closed or partially closed to further appropriation, by listing their status as "closure," "partial year closure," "low flow," or "minimum flow,"; and,
- 12. On January 18, 2018, the Washington State Legislature adopted ESSB 6091, which requires the Department of Ecology to work with the initiating governments and the planning unit in WRIA I to review existing watershed plans to identify the potential impacts of exempt well use, identify evidence-based conservation measures, and identify projects to improve watershed health. Until rules are adopted that specify otherwise, Section 202(5), which effectively reverses the Court's decision in *Hirst*, allows new domestic water uses in WRIA 1 that rely on groundwater withdrawals exempt from permitting under RCW 90.44.050, provided that applicants pay a fee of five hundred dollars to the permitting authority and limit their maximum annual average withdrawal of three thousand gallons per day, per connection, and record this limitation on the property title; and,
- 13. ESSB 6091, Section 101(5), also provides that "[a]ny permit-exempt groundwater withdrawal authorized under RCW 90.44.050 associated with a water well constructed in accordance with the provisions of chapter 18.104 RCW before the effective date of this section is deemed to be evidence of adequate water supply under this section"; and,

- 14. The amendments proposed by this ordinance are consistent with the aforementioned requirements of ESSB 6091 and are therefore consistent with the GMA, as specifically addressed in Section 102 of ESSB 6091; and,
- 15. Adoption of this ordinance is necessary to complete the GMA compliance proceedings before the Western Washington Growth Management Hearings Board (GMHB Case No. 12-2-0013); and,
- 16. A determination of non-significance (DNS) (SEPA 2018-00063) was issued under the State Environmental Policy Act (SEPA) on July 19, 2018; and,
- 17. ESSB 6091 was signed by Governor Inslee on January 19, 2018, and, pursuant to the emergency clause in Section 307, it became effective immediately as the Legislature declared that it was "necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing institutions..."; and,
- In accordance with RCW 36.70A.106, Whatcom County Planning and Development Services notified the Department of Commerce of the proposed amendments contained herein on July 17, 2018, and no comments were received from state agencies; and,
- 19. The Planning Commission held a duly noticed public hearing on this ordinance on July 26, 2018;
- 20. The County Council held a duly noticed public hearing on this ordinance on September 25, 2018.

## V. PROPOSED CONCLUSIONS

- 1. The proposed amendments to the Whatcom County Comprehensive Plan and development regulations would affirm the County's intent to work cooperatively with the Department of Ecology, WRIA 1 Initiating Governments, and the Planning Unit to update the WRIA 1 Watershed Management Plan pursuant to the Streamflow Restoration Act (ESSB 6091), as well as implement the Act's requirements for allowing the conditioned use of permit-exempt wells (RCW 90.44.050) as a legal source of water for domestic use, and are consistent with the Comprehensive Plan goals and policies listed in Section III of this staff report.
- 2. The amendments are in the public interest.
- 3. The amendments are consistent with the Whatcom County Comprehensive Plan.

## VI. RECOMMENDATIONS

At their July 26, 2018, meeting, the Planning Commission reviewed the proposal and held a public hearing. Based on their discussion and public testimony, they suggested some grammatical edits (which have been incorporated into Exhibit A) and then recommended approval.

Staff recommends that the County Council review the proposed amendments, hold a public hearing, and adopt these provisions.

WHATCOM COUNTY CONTRACT NO. 201809001

CITY SECRETARY CONTRACT NO. 2018 -0547

THE STATE OF WASHINGTON

## COUNTY OF WHATCOM

## INTERLOCAL AGREEMENT BETWEEN THE CITY OF BELLINGHAM, AND COUNTY OF WHATCOM

## 2018 BYRNE JUSTICE ASSISTANCE GRANT (JAG) PROGRAM AWARD

This Agreement is made and entered into this 17th day of August, 2018, by and between The COUNTY of Whatcom, acting by and through its governing body, the County Council, hereinafter referred to as COUNTY, and the CITY of Bellingham, acting by and through its governing body, the City Council, hereinafter referred to as CITY, both of Whatcom County, State of Washington, witnesseth:

WHEREAS, each governing body, in performing governmental functions or in paying for the performance of governmental functions hereunder, shall make that performance or those payments from current revenues legally available to that party: and

**WHEREAS**, each governing body finds that the performance of this Agreement is in the best interests of both parties, that the undertaking will benefit the public, and that the division of costs fairly compensates the performing party for the services or functions under this agreement: and

WHEREAS, per the grant, Whatcom County Jurisdiction is allocated \$35,780 in grant funding, \$22,557 for the City and \$13,223 for Whatcom County: and

WHEREAS, the CITY agrees to provide the COUNTY \$13,223 from the JAG award for the purchase of Inclement Weather Protective Gear: and

WHEREAS, the CITY and COUNTY believe it to be in their best interests to reallocate the JAG funds.

## NOW THEREFORE, the COUNTY and CITY agree as follows: Section 1.

CITY agrees to pay COUNTY a total of \$13,223 of JAG funds.

## Section 2.

COUNTY agrees to use \$13,223 for the purchase of Inclement Weather Protective Gear until 2019.

## Section 3.

Nothing in the performance of this Agreement shall impose any liability for claims against the "CITY" or "COUNTY"

## Section 4.

Each party to this agreement will be responsible for its own actions in providing services under this agreement and shall not be liable for any civil liability that may arise from the furnishing of the services by the other party.

Page 1 of 2

## Section 5.

The parties to this Agreement do not intend for any third party to obtain a right by virtue of this Agreement.

## Section 6.

By entering into this Agreement, the parties do not intend to create any obligations express or implied other than those set out herein; further, this Agreement shall not create any rights in any party not a signatory hereto.

## Whatcom County Sheriff's Office 2018 Bryne JAG Grant Program Abstract

## Abstract

Enhanced officer safety and operability for first responders/tactical personnel – In response to continued violent critical incidents across the nation and abroad, the Whatcom County Sheriff's Office has developed enhanced training for incidents involving active violence against vulnerable populations and critical infrastructure. In an effort to better prepare for, respond to, and provide continuous operations during critical incidents, the Whatcom County Sheriff's Office conducts ongoing training to deal with these threats and unusual situations in a rural environment which exposes personnel to extreme environments and inclement weather.

In addition to training, law enforcement must be prepared and equipped to deal with suspects in inclement weather for prolonged periods of time in order to effectively mitigate the threat posed to the public and critical infrastructure. In the face of such violence and destruction, law enforcement must be adequately equipped to respond in an effective manner. It is essential that all members of the Sheriff's Office have sufficient protective gear and clothing to protect them from the dangerous effects exposure to extreme weather can cause.

SWAT has a current need for specialized outer wear that is designed for their assignment and operational needs The Sheriff's Office objective is to utilize allocated funds to purchase inclement weather gear, solid green in color, to improve officer safety/wellness and operational performance.

*Project identifiers* – Equipment – General –, Tactical, Violence/Violent Crime, Officer Safety, Officer Wellness.

## Whatcom County Sheriff's Office 2018 Bryne JAG grant Program Narrative

## Narrative

The continued trend of violent attacks nationwide and abroad has reaffirmed why it is imperative that responders be trained and prepared to respond to incidents of active violence in a safe, efficient, and effective manner. The Sheriff's Office is uniquely positioned on the international border between the US and Canada, and is subject to both domestic and international threats. This includes not only schools and public venues, but multiple federal facilities and critical infrastructure that may be the targets of violent attacks and/or terrorism. The Sheriff's Office continues to train all deputies to deal with critical incidents, to include terrorist attacks, active shooter scenarios, and high-risk operations.

In addition to training, law enforcement officers must be provided necessary equipment that enhances their officer safety and increases the likelihood that they will be able to carry out their duties without serious injury or loss of life. Sheriff's Office personnel operate in various, ever-changing, extreme weather conditions that can dramatically affect the ability to safely and effectively perform their duties and protect the populace and critical infrastructure within Whatcom County.

SWAT has a current need for specialized outer wear which is designed for their assignment and operational needs, and allows them to perform their duties in a safe and effective manner for a prolonged period of time in inclement weather.

The Sheriff's Office intends to utilize JAG funding to purchase inclement weather gear, solid green in color, to improve officer safety/wellness and operational performance.

## Whatcom County Sheriff's Office 2018 Edward Bryne Memorial JAG Program FY 2018 Local Solicitation

## **Review Narrative**

The Whatcom County Sheriff's Office intends to make its Fiscal Year 2018 JAG application available to the Whatcom County Council for its review and comment on July 31st, 2018.

The application has not yet been made available for public review and comment. The Whatcom County Sheriff's Office will make its Fiscal Year 2018 JAG application available to citizens for comment at the Whatcom County Council meeting on September 25<sup>th</sup>, 2018.

## **BUDGET NARRATIVE**

## EQUIPMENT

Appropriate inclement weather clothing gear is essential personal protective equipment that is utilized by members of the Whatcom County Sheriff's Office. The use by deputies allows them to carry out their duties while protecting them from the effects of extreme weather environments commonly affecting Whatcom County.

Inclement Weather Protective Clothing Solid Green in Color - The intent is to equip deputies with protective clothing which will keep them safe and functional in extreme weather environments. The Whatcom County Sheriff's Office is looking to purchase top and bottom pieces of apparel which will protect them from wind, water, and snowfall. These protective pieces will be worn by all tactical personnel when responding to incidents where inclement weather presents operational and officer safety concerns. The use of effective protective gear by tactical personnel allows them to respond to critical incidents and perform their duties in a safe, efficient, and effective manner which improves both public and officer safety. Recent events in which the Whatcom County Sheriff's Office has responded to has demonstrated the operational need for the requested gear.

## WHATCOM COUNTY PUBLIC WORKS DEPARTMENT

Jon Hutchings Director

## Joseph P. Rutan, P. E.

County Engineer/Assistant Director 322 N. Commercial Street, Ste 301 Bellingham, WA 98225-4042 Phone: (360) 778-6210 Fax: (360) 778-6211

## Memo

То:	The Honorable Jack Louws, Whatcom County Executive, and Honorable Members of the Whatcom County Council
Through:	Jon Hutchings, Director
From:	Joseph P. Rutan, P.E., County Engineer/Assistant Director
Date:	August 28, 2017
Re:	Six-Year Transportation Improvement Program, 2019-2024 PW Committee Work Session, Introduction, Public Hearing and Adoption

## **Requested Action:**

The Department of Public Works requests that a Council Public Works Committee work session be scheduled for September 11<sup>th</sup>, for discussion of the information attached to this memorandum regarding the 2019-2024 Six-Year Transportation Improvement Program (STIP). If approved by the Committee we request that the STIP Resolution and its associated exhibits, 2019-2024 Six-Year Transportation Improvement Program and 2019-2032 Fourteen-Year Ferry Capital Program, be introduced at that evenings County Council meeting. We then request that a public hearing be advertised for and held at the September 25th County Council meeting, with the resolution potentially adopted at said meeting.

## **Background and Purpose:**

Each year the County is required to update its Six-Year Transportation Improvement Program, per RCW 35.77.010 and RCW 36.81.121. The County is also required to prepare a Fourteen-Year Ferry Capital Program each year per RCW 36.54.015 and an Annual Bridge Report per RCW 36.81.121. The STIP includes the capital elements of the first six years of the Fourteen-Year Ferry Capital Program which is Exhibit "B" of the resolution.

## Information:

## 1- Memorandum to County Executive and Council

Attachment "A" – Removed and Added Projects Attachment "B" - 2019-2024 Capital Projects List Attachment "R1-R33, B1-B16, F1-F4, Y1-Y8" – Project Summary Sheets Attachment "C1"- Road Fund Balance Projections Attachment "C2"- Road Fund Revenue Projections Attachment "C3"- Road Fund Expenditure Projections Attachment "D" - Roadway Priority Rating Program Attachment "E" – Annual Bridge Report

Attachment "A" is a simplified form of Exhibit "A" to the STIP. This is being provided in order to facilitate the Public Works Committee work session.

## Birch Bay Drive and Pedestrian Facility CRP #907001

Construction Funding Year(s):

2019 / 2020

## **Project Narrative:**

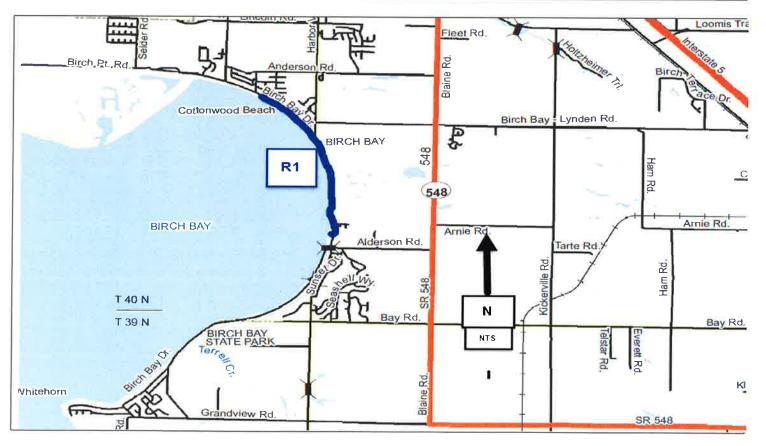

This project is located parallel to Birch Bay Drive from Cedar Avenue to the mouth of Terrell Creek, in Sections 30 and 31, T40N, R1E, and Sections 24 and 25, T40N, R1W. This is a 1.58 mile separated berm with pathway to encourage pedestrian use along Birch Bay Drive to support safety and to protect the roadway from storm damage. In addition, the project will provide mitigation for both beach erosion and roadway protection. This project is listed **#R1** on the 2019-2024 Six-Year Transportation Improvement Program.

## Project Status:

Phase I of the Feasibility Study was completed in 2006. Phase 2A (Preliminary Construction Cost Estimate) was completed in 2007, and updated in spring of 2013. Preliminary Engineering began in late 2013, R/W acquisition began in 2016 (95% complete), permitting is 85% complete, and construction is planned for 2019 / 2020. Additional funding sources will be pursued as they become available.

		Funding Sources:	
Total Estimated Project Cost:	\$11,450,000	Federal	\$3,170,000 (STP and TAP)
Expenditures to Date:	\$3,500,000	State	\$0
	+0,000,000	Local	\$8,280,000

Environmental Permitting	Whatcom County-Shorelines; WDFW-HPA, Army Corps of Engineers, DOE; Sec 404 Clean Water Act		
Right-of-Way Acquisition (Estimate)	\$1,500,000		
County Forces (Estimate)	N/A		

## Lake Whatcom Boulevard, Phase II Water Quality Improvements CRP # 915009

Construction Funding Year(s):

TBD

## **Project Narrative:**

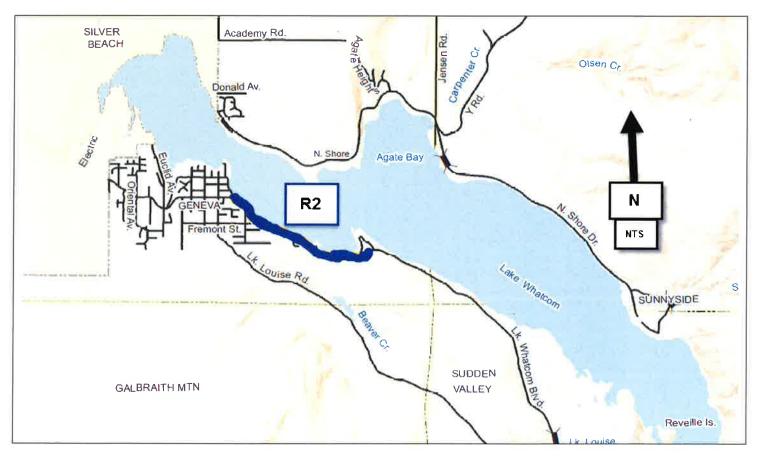

This project is located approximately 1 mile east of Bellingham, in Sections 35 and 36, T38N, R3E. The work will involve drainage improvements and pedestrian improvements to a 1.3 mile section of Lk Whatcom Blvd between Cable Street and Strawberry Point, addressing stormwater quality issues. This project is listed **#R2** on the 2019-2024 Six-Year Transportation Improvement Program.

## **Project Status:**

Survey work with associated base map and R/W research began in 2015. Preliminary design will be initiated to evaluate R/W needs, permit requirements and overall project costs. Construction time frame will be contingent on addressing funding needs along with resolution of permitting and R/W issues.

	A ====	Funding Sour	ces:
Total Estimated Project Cost:	\$ TBD	Federal	\$0
Expenditures to Date:	\$ 55,000	State	\$0
		Local	\$100,000 (Grant funding will be sought)

Environmental Permitting	SEPA, CLR/CAO, Shorelines
Right-of-Way Acquisition (Estimate)	\$50,000
County Forces (Estimate)	\$10,000

## Horton Road Northwest Drive to Aldrich Road CRP # 916002

## Construction Funding Year(s):

TBD

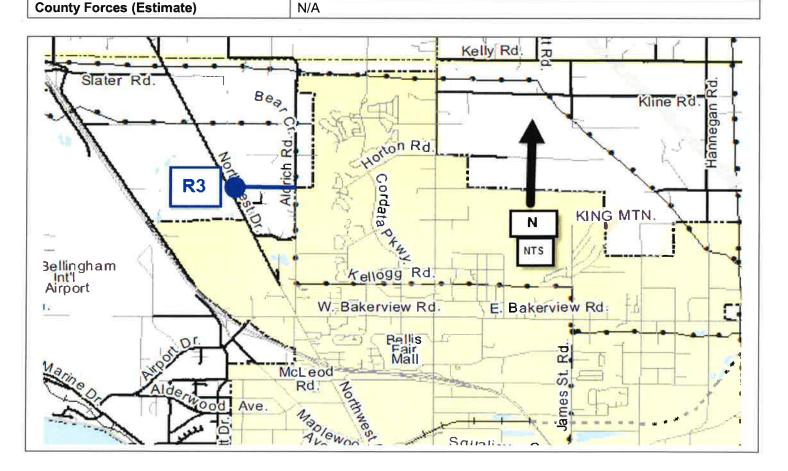

## **Project Narrative:**

This new roadway project is located between Northwest Drive and Aldrich Road in Section 2 of T38N, R2E. The work involves a ½ mile of new roadway alignment and intersection with N.W. Drive, along with all the associated permitting, storm water and R/W issues. This project is listed **#R3** on the 2019-2024 Six-Year Transportation Improvement Program.

## **Project Status:**

Design, right-of-way, and permitting to begin in 2017 with Surface Transportation Program (STP) Grant awarded to Whatcom County and transferred to the City of Bellingham. An interlocal agreement is in place for the City of Bellingham to perform design of the project in coordination with their section of Horton Road construction. Construction schedule dependent upon funding agreements with City of Bellingham and other sources.

Total Estimated Project Cost:       TBD         Federal       (\$1,000,000)*	
Expenditures to Date: \$5,000 State 0	
*\$1,000,000 STBG Grant transferred to COB for design of county portion.	
Environmental Permitting ECS, BA, SEPA, CLR/CAO, Corps of Engrs	
Right-of-Way Acquisition (Estimate) TBD	

## Slater Road and Northwest Drive CRP # 914001

Construction Funding Year(s):

TBD

## **Project Narrative:**

The intersection of Slater and Northwest Roads is in Section 2 of T38N, R2E. The intersection will be reconstructed to a 4-leg round-a-bout. Fish passage improvements will also be constructed on Bear Creek which passes underneath Slater Road at this location. This project is listed **#R4** on the 2019-2024 Six-Year Transportation Improvement Program.

## **Project Status:**

\$21,000,000 in state funding available for this project and project #R5, Slater Road/I5 Interchange, in 7/2019. Design and permitting expected to take 3-4 years with construction in 2022 or 2023.

## Slater Road I-5 Interchange CRP # 916003

## Construction Funding Year(s):

TBD

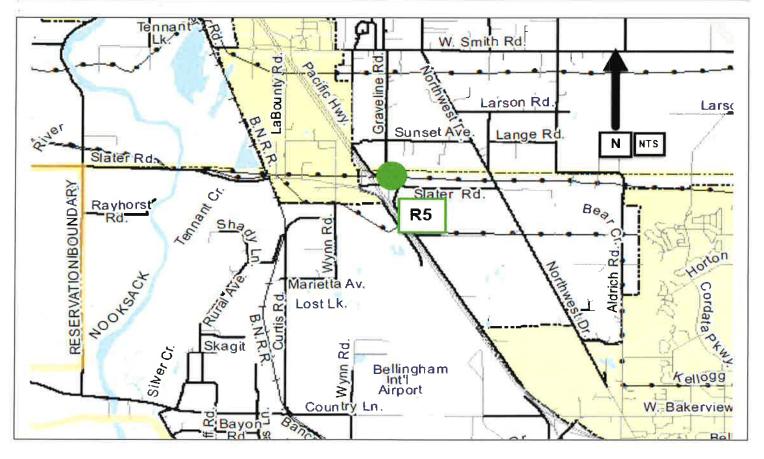

## Project Narrative:

This project is located north of Bellingham in Section 3, T38N, R2E. This project will improve the interchange/intersection of Interstate 5 and Slater Road. This includes the intersection of Slater Road with Rural Road and Pacific Highway. This project is listed **#R5** on the 2019-2024 Six Year Transportation Improvement Program.

**Project Status:** \$21,000,000 available for this project and project #R4, Slater Road /Northwest, in 7/2019. Design and permitting expected to take 3-4 years with construction in 2022 or 2023.

## Slater Road Northwest Drive to Aldrich CRP # 914012

## Construction Funding Year(s):

TBD

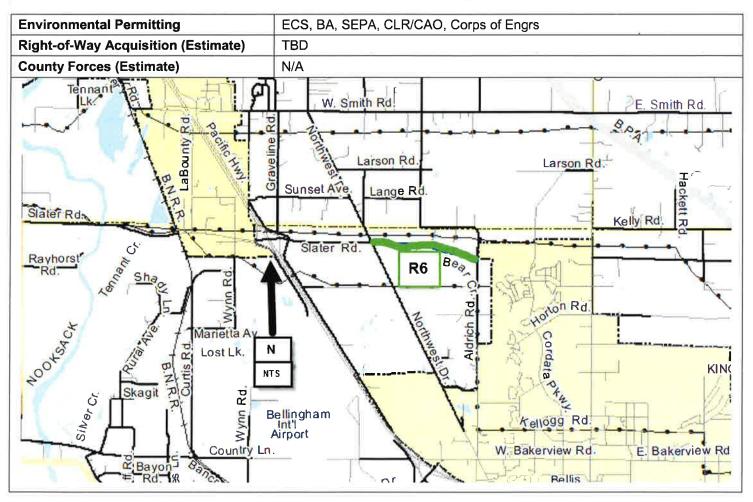

## Project Narrative:

This new roadway project is located in Sections 1 and 2 of T38N, R2E. The work involves the construction of a new roadway between Northwest Drive and Aldrich Drive as well as construction of a round-a-bout at the new intersection of Northwest Drive and Aldrich Road. This project is listed **#R6** on the 2019-2024 Six-Year Transportation Improvement Program.

## Project Status:

Design, permitting, right-of-way and construction dependent upon funding agreements with the City of Bellingham and other sources.

	Funding Source	ces:	
Total Estimated Project Cost: TBD	Federal	\$0	
Expenditures to Date: \$0	State	\$0	
	Local	\$50,000	

## Smith Road & Northwest Drive Intersection Improvements CRP # Not Assigned

Construction Funding Year(s):

TBD

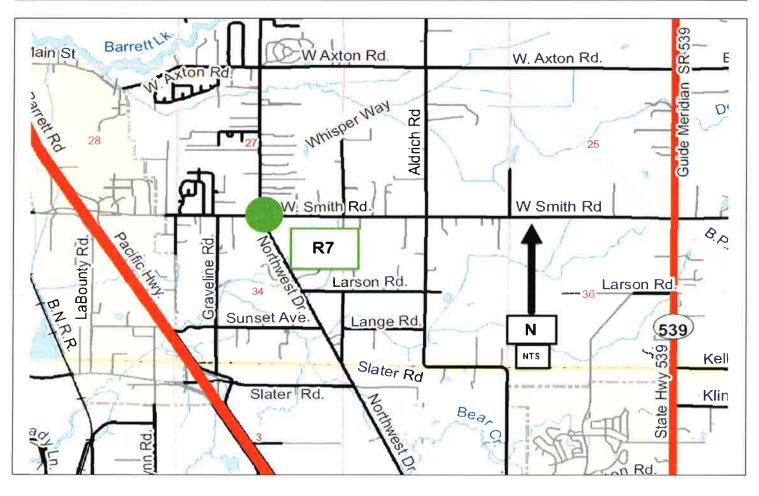

## **Project Narrative:**

This project is located in Section 27 & 34 of T39N, R2E. The work involves intersection improvements that will likely be a roundabout or traffic signal at the current 4-way stop. This project will also require drainage upgrades and R/W acquisition, and is dependent on the NW Annex building being demolished at a future date. This project is listed **#R7** on the 2019-2024 Six-Year Transportation Improvement Program.

Project Status: The project is currently being scoped.

## Roadway Frost Depth Detectors CRP # 918001

Construction Funding Year(s):

2019

## **Project Narrative:**

This item provides funding to address replacement of the County's aging network of roadway frost depth detectors. These detectors are critical for implementing appropriate roadway restrictions to prevent structural damage following periods of deep frost. It is listed **#R8** on the 2019-2024 Six Year Transportation Improvement Program.

## Project Status:

Design work underway, construction scheduled for 2019.

	Funding Sources:		
Total Estimated Project Cost:	\$355,000	Federal	\$
Expenditures to Date:	\$30,000	State	\$
		Local	\$325,000

Right-of-Way Acquisition (Estimate)	TBD
County Forces (Estimate)	TBD

Due to the nature of this item, no map exists. Location of the new roadway frost depth detectors will be determined in 2019.

## Marine Drive Locust Avenue to Alderwood Avenue Reconstruction and Bike/Ped Facilities CRP # 917001

## Construction Funding Year(s):

2021

**Project Narrative:** 

This Marine Drive project is located between Locust Ave. and Alderwood Avenue in Section 15 of T38N, R2E. The work involves reconstruction of approximately ½ mile of roadway with emphasis on bike/pedestrian and stormwater quality enhancements. This project is listed **#R9** on the 2019-2024 Six-Year Transportation Improvement Program.

Project Status: Survey completed and design initiated in 2017.

	<b>\$0,005,000</b>	Funding Sour	Funding Sources:

## North Shore Road Bellingham City Limits to Y Road CRP # 902007

## Construction Funding Year(s):

TBD

## **Project Narrative:**

This project is located in Sections 25 and 26, T38N, R3E. The work will involve improvements to a 2.87 mile section of the North Shore Road from the Bellingham City Limits to 'Y' Road, including: various improvements to address horizontal and vertical alignment deficiencies; spot safety upgrades, and stormwater quality treatment. This project is listed **#R10** on the 2019-2024 Six-Year Transportation Improvement Program.

## **Project Status:**

Preliminary design and construction time frames will be contingent on resolution of funding needs, along with permitting and R/W issues associated with the final selected sites.

		Funding Sources:	
Total Estimated Project Cost:	TBD	Federal	\$0
Expenditures to Date:	\$0	State	\$0
		Local	\$10,000 (Grant funding will be sought)

## Lummi Nation Transportation Projects CRP #912017

Construction Funding Year(s):

2019

## **Project Narrative:**

The Lummi Nation Transportation Projects is located in Section 2, T37N, R1E and Section 34, T38N, R1E. This work, in fulfillment of the ferry lease obligation, involves the construction of transportation improvement projects in accordance with Exhibit C of the October 27, 2011 Uplands Lease Agreement for Lummi Island Ferry Use at Gooseberry Point. This project is listed **#R11** on the 2019-2024 Six-Year Transportation Improvement Program.

## Project Status:

Projects funds will be available for expenditure when funds of equal or greater value are matched by the Lummi Nation.

		Funding Sources:		
Total Estimated Project Cost:	\$4,000,000	Federal	\$0	
Expenditures to Date:	\$2,000,000	State	\$0

Due to the nature of this item, no map exists. Location of the new transportation projects will be determined in 2019.

## Point Roberts Transportation Improvements CRP # 910002

Construction Funding Year(s):

2019

## **Project Narrative:**

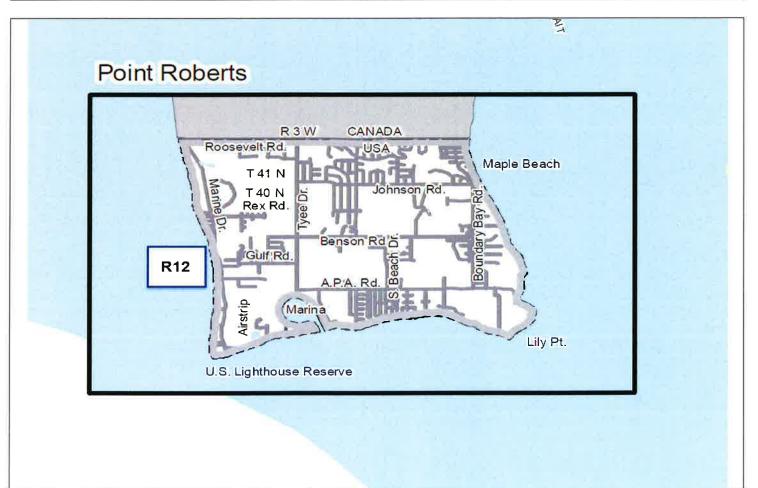

Point Roberts is located in T40N and T41N, R3W. The proposed improvements would be specific to area needs and the development of projects to be funded by the Pt. Roberts Transportation Benefit District. This project is listed **#R12** on the 2019-2024 Six-Year Transportation Improvement Program.

## **Project Status:**

Public Works has assigned staff working with the Point Roberts Transportation Benefit District Advisory Committee to coordinate project evaluation, selection, and development.

	Funding Sources:	
Total Estimated Project Cost: \$150,000	Federal	\$0
Expenditures to Date: \$0	State	\$0
	Local	\$150,000

Environmental Permitting	TBD
Right-of-Way Acquisition (Estimate)	TBD
County Forces (Estimate)	TBD

### Slater Road/Haxton Way CRP # 917002

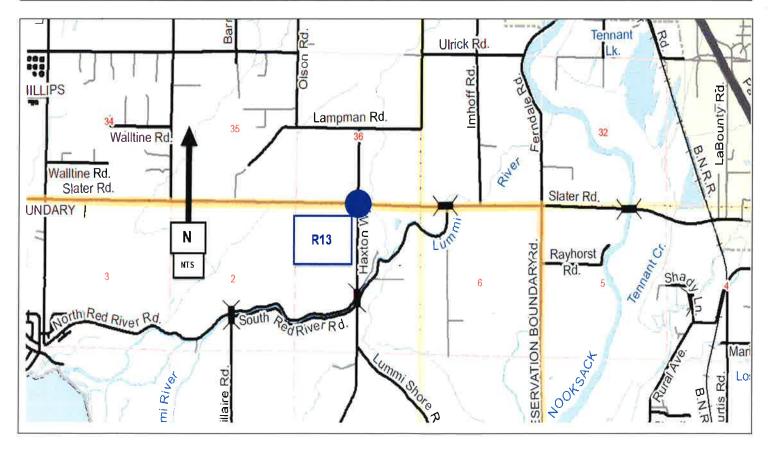

# Construction Funding Year(s): TBD

**Project Narrative:** This project is located on Slater Road in Section 36, T39N, R1E. The project is to improve the intersection, through location of a dedicated left hand turn signal, pavement, drainage, signing, and striping improvements. This project is listed **#R13** on the 2019-2024 Six Year Transportation Improvement Program.

**Project Status:** The County has selected a traffic design consultant and completed the design of a protected left hand turn for both legs of Slater Road. Additional preliminary engineering for pavement design is anticipated for 2018.

## East Smith Road & Hannegan Road Intersection Improvements CRP # 914002

Construction Funding Year(s):

2021

### Project Narrative:

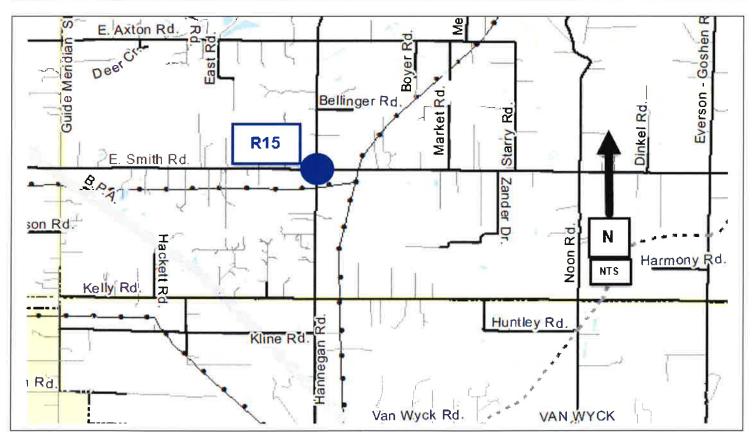

The intersection of East Smith and Hannegan Roads is located in Sections 28, 29, 32 and 33, T39N, R3E. This project is listed **#R15** on the 2019-2024 Six-Year Transportation Improvement Program. This intersection currently experiences delays due to the lack of left-turn channelization on Smith Road. The first phase of this project is to analyze a range of solutions as well as their associated benefits, limitations, and costs.

#### **Project Status:**

Traffic counts and warrants completed with an associated 'Alternatives Analysis' performed by a traffic consultant in 2018. Construction proposed for 2021.

Total Estimated Project Cost:	\$3,700,000	Funding Sources:	
		Federal	\$1,000,000 STBG available in 2021
Expenditures to Date:	\$120,000	State	\$0

County Forces (Estimate)	TBD

Due to the nature of this item, no map exists. Location of the new guardrails are at 25 sites countywide.

### Birch Bay Drive – Jackson Rd. to Shintaffer Rd. CRP #Not Assigned

Construction Funding Year(s):

2022

### **Project Narrative:**

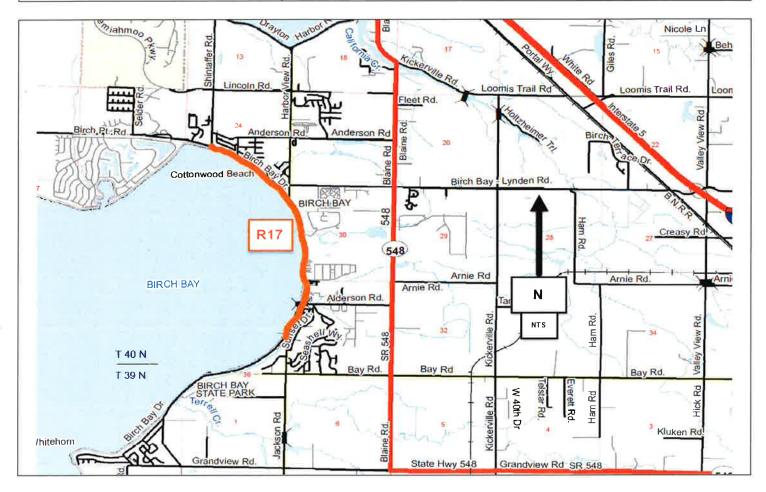

This project is located in Sections 24, 30, and 31 of T40N, R1E. The work involves pavement rehabilitation of approximately 2.5 miles of roadway through a grind/repave operation. This project is listed **#R17** on the 2019-2024 Six-Year Transportation Improvement Program.

### **Project Status:**

Project design and construction will closely follow the Birch Bay Drive & Pedestrian Facility project to rehabilitate Birch Bay Drive after the soft shore berm construction activities. Additional funding sources will be pursued as they become available.

# Birch Bay Lynden/Blaine Rd. Intersection Improvements CRP # Not Assigned

Construction Funding Year(s):

TBD

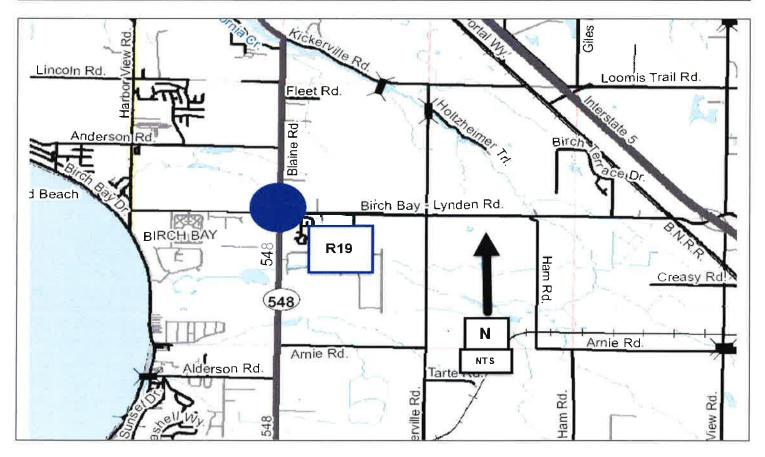

**Project Narrative:** 

This project is located 4.6 miles south of Blaine, at the corners common to Sections 19, 20, 29, and 30, T40N, R1E. Intersection improvements being considered are a roundabout or a signal. This is a joint project with the Washington State Department of Transportation; however, it is unlikely that they will participate as a funding source. This project is listed **#R19** on the 2019-2024 Six-Year Transportation Improvement Program.

**Project Status:** Survey work and R/W Plan started. Preliminary design will be initiated to evaluate R/W needs, permit requirements and overall project costs. In addition, preliminary design will be sent to WSDOT to request additional funding support and design concurrence.

### Hemmi Road Flood Mitigation CRP # 916007

Construction Funding Year(s):

2020

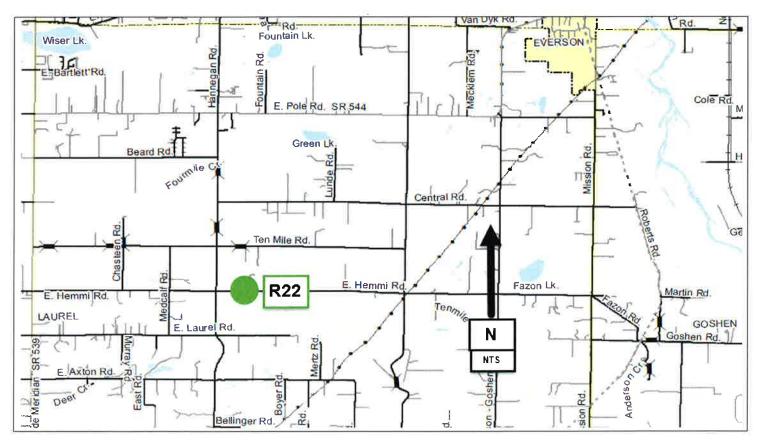

### **Project Narrative:**

This Hemmi Road Flood Mitigation project is located on Hemmi Road approximately a half mile east of Hannegan Road, located in Section 16 and 21 of T39N, R3E. Hemmi Road is submerged several months of the year at this location. Project work will include raising this portion of the road, installing a larger culvert and associated road work. This project is listed **#R22** on the 2019-2024 Six-Year Transportation Improvement Program.

**Project Status:** Engineering, permitting and real estate work expected to be completed in 2019 with construction scheduled in 2020.

		Funding Sources:		
Total Estimated Project Cost:	\$1,350,000	Federal

# Marine Drive / Little Squalicum Creek - Bridge No. 1 Rehabilitation CRP #910017

**Construction Funding Year(s):** 

TBD

### **Project Narrative:**

This project is located near the Bellingham city limits in Section 8, T38N, R2E. This is a rehabilitation project to replace the bridge deck, strengthen the girders and cross beams, and remove the structurally deficient designation and existing load restrictions on the bridge. The project is listed **#B1** on the 2019-2024 Six Year Transportation Improvement Program.

### **Project Status:**

Preliminary design work to begin in 2019. Construction pending acquisition of BRAC funds.

		Funding Sources:		
Total Estimated Project Cost:	TBD	Federal	\$0	
Expenditures to Date:	\$0	State	\$0	
		Local	\$20,000	

Environmental Permitting	HPA, NEPA
Right-of-Way Acquisition (Estimate)	TBD
County Forces (Estimate)	TBD

### Jackson Road / Terrell Creek - Bridge No. 81 Replacement CRP # 917004

Construction Funding Year(s):

TBD

### Project Narrative:

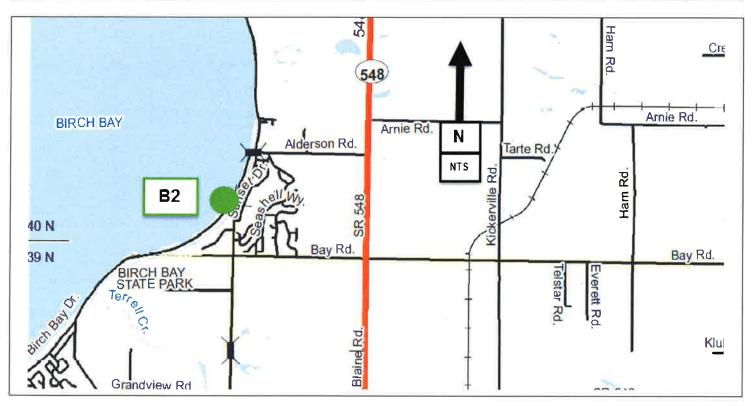

This project is located near Birch Bay in Section 31, T40N, R1W. This is a project to replace the existing 62-foot structurally deficient bridge. This project is listed **#B2** on the 2019-2024 Six Year Transportation Improvement Program.

### Project Status:

Project was submitted for BRAC funding in 2017 and was not selected for funding. Preliminary design work, including a type, size, and location study to begin in 2019. Outside funding will be pursued for the construction phase of this project.

# Mosquito Lake Road / Porter Creek - Bridge No. 141 Replacement CRP # Not Assigned

Construction Funding Year(s):

TBD

### **Project Narrative:**

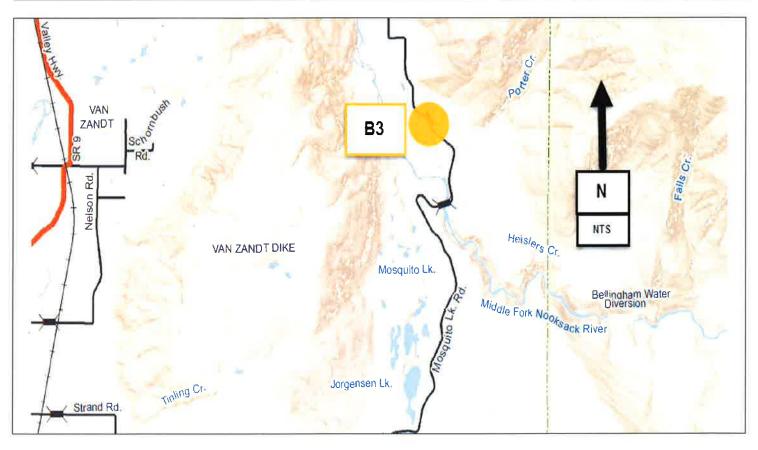

This project is located south of Welcome in Section 11, T38N, R5E. This is a project to replace the existing 31-foot bridge in order to mitigate ongoing scour and debris issues. This project also affords an opportunity to address geometric issues that arose from the emergency realignment of Mosquito Lake Road in 2004. This project is listed **#B3** on the 2019-2024 Six Year Transportation Improvement Program.

### Project Status:

Preliminary design and permitting to begin in 2021.

Total Estimated Project Cost: TBD	Funding Sources:		
	Federal	\$0

# N. Lake Samish Road Bridge No. 107 Replacement Study CRP # 913006

Construction Funding Year(s):

TBD

### **Project Narrative:**

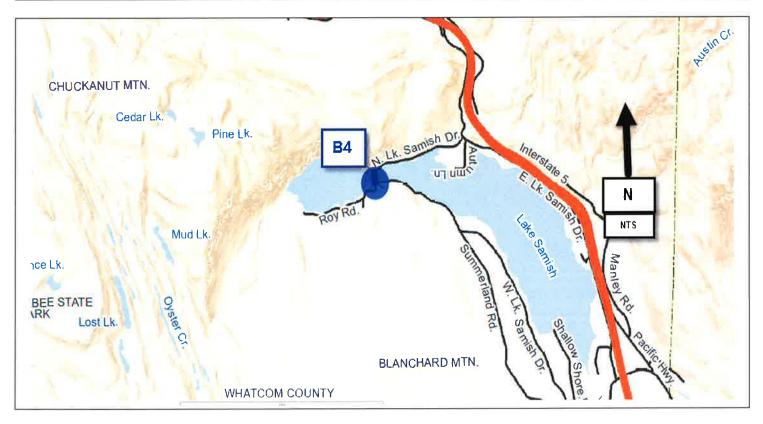

This project is located on Lake Samish in Section 27, T37N, R3E. This project will replace the existing 250-foot timber bridge which is structurally deficient. This project is listed **#B4** on the 2019-2024 Six-Year Transportation Improvement Program.

### Project Status:

Project was submitted for BRAC funding in 2017 and was not selected for funding. The type, size, and location study for the replacement bridge was completed in 2017. Final design, permitting, and real estate work is underway. Outside funding will be pursued for the construction phase of the project.

# Hannegan Road Bridge No. 236 Replacement CRP # 913007

Construction Funding Year(s):

2018

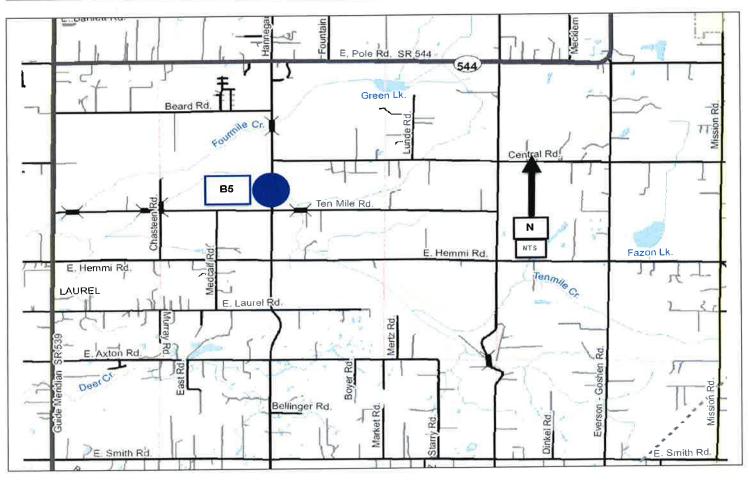

#### **Project Narrative:**

This project is located on Hannegan Road between Central and Ten Mile Roads in Section 16, T39N, R3E. This is a project to replace the last 31-foot channel beam bridge on the Hannegan Road. This old design is not suited for the volume of truck traffic present on the Hannegan Road. This project is listed **#B5** on the 2019-2024 Six Year Transportation Improvement Program.

Project Status: Project design and permitting completed in 2017. Construction of this project expected to be completed in 2018. Project closeout will continue into 2019. Rural STP funds have been obtained for construction of this project

Whatcom County Public Works Project Narrative

#### North Fork Road/Kenny Creek Fish Passage CRP # Not Assigned

#### Construction Funding Year(s):

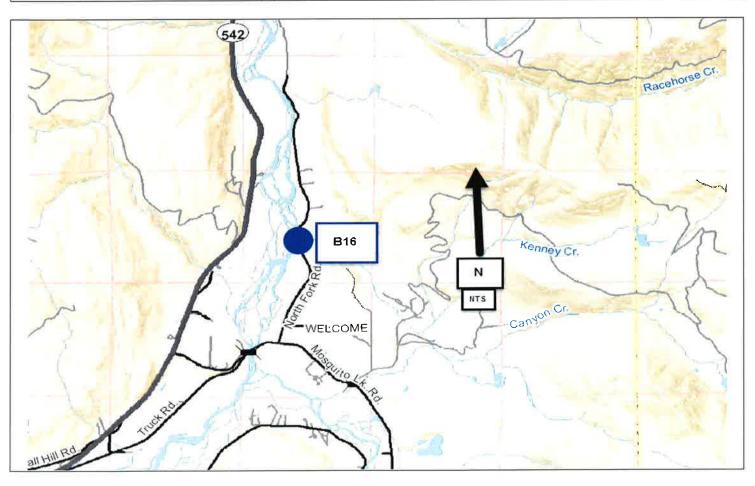

TBD

**Project Narrative**: The existing 5-foot diameter corrugated steel culvert which carries Kenny Creek under the North Fork Road has been identified as a barrier to fish passage and, considering habitat to be gained, is considered one of the highest priority barriers within the County road system. Washington State Fish Barrier Removal Board funding has been applied for the design phase of this fish passage project. Results of this funding application are expected in the fall of 2018. Should these funds be obtained preliminary engineering work and an alternative analysis will be initiated in 2019. This project is listed as **#B16** on the 2019-2024 Six-Year Transportation Improvement Program.

**Project Status:**

#### Replacement of Whatcom Chief & Terminal Modification CRP # Not Assigned

Construction Funding Year(s):

TBD

#### **Project Narrative:**

This project includes replacement of the Whatcom Chief with a 34 car vessel and modifications of the existing ferry terminals to accommodate the new vessel. This work will be accomplished as outlined in the Lummi Island Ferry Service Level of Service Action Plan approved by the Whatcom County Council via Resolution 2018-026. This project is listed **#F1** on the 2019-2024 Six Year Transportation Improvement Program.

#### Project Status:

Design work for the new vessel is expected to begin in 2019. This work will coincide with the next cycle of funding by the County Road Administration Board.

# 2017 Annual Bridge Report

Prepared by the Whatcom County Public Works Bridge and Hydraulic Group Submitted September 2018

# Whatcom County 2017 Bridge Report

Submitted: September 2018

This bridge report is prepared by Whatcom County Public Works Bridge and Hydraulic Division under the direction of the County Engineer each year to fulfill requirements of the Washington Administrative Code (WAC) 136-20-060. This WAC requires the County Engineer's report of bridge inspections as follows:

"Each county engineer shall furnish the county legislative authority with a written report of the findings of the bridge inspection effort. This report shall be made available to said authority and shall be consulted during the preparation of the proposed six-year transportation program revision. The report shall include the county engineer's recommendations as to replacement, repair or load restriction for each deficient bridge. The resolution of adoption of the six-year transportation program shall include assurances to the effect that the county engineer's report with respect to deficient bridges was available to said authority during the preparation of the program. It is highly recommended that deficient short span bridges, drainage structures, and large culverts be included in said report."

Slater Road Bridge No.10 spanning over Jordan Creek. This 142-feet precast, pre-stressed, single span bridge was constructed in 2017 and went into service in November of 2017. This bridge replaced a failing 10-feet wide by 7-feet tall steel arch culvert which had been identified as a barrier to fish passage. Construction of the new bridge included reconstruction of Jordan Creek through the project site which provides for full fish passage.

# **Executive Summary**

This report has been completed in compliance with WAC 136-20-060, which requires that each County Engineer furnish a written resume of the county's bridge inspection efforts to the county legislative authority. It is also the intention of this report that information presented here be incorporated into a comprehensive program strategy to preserve the county's roadways. This report summarizes the status of the Whatcom County Bridge Program for calendar year 2017.

Whatcom County's bridge inventory is vital in connecting the nearly 974 miles of County roads and providing for the safe and efficient movement of people and freight. Specifically, bridges on key transportation and freight corridors are monitored closely to prevent bridges on these routes from becoming restricted.

One of the key overall Bridge Program goals is to replace or rehabilitate bridges that are considered structurally deficient (SD) per the National Bridge Inspection Standards (NBIS). At the end of 2017 Whatcom County had a total of 162 bridges in the overall inventory and 13 of these bridges were designated as SD. Of those 13 bridges 5 were actively worked on in 2017 for future replacement or rehabilitation. For a comprehensive list of the SD bridges please see Exhibit C.

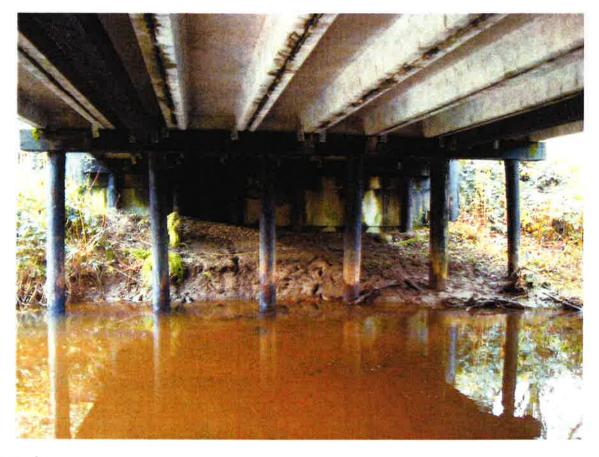

As recommended in WAC 136-20-060 Whatcom County also inspects large culverts, defined as culverts with a diameter of 5' or larger. Bridge Program staff inspected 152 of these structures in 2016 and 2017 which are listed in Appendix B.

#### 2017 Bridge Program Highlights

- Whatcom County bridge inventory consists of 162 structures.
- A total of 90 Whatcom County bridge condition inspections were completed.
- Whatcom County provided bridge inspection services for 72 structures owned by outside local agencies.
- A total of 46 bridge repair and maintenance work orders were completed by the Maintenance & Operations Bridge Crew.
- A new bridge was constructed on Slater Road over Jordan Creek, replacing a failing steel arch culvert that had been identified as a barrier to fish passage.
- The existing bridge over Swift Creek at Oat Coles Road was replaced with an elevated one-lane bridge which provides increased clearance over the Swift Creek channel to assist in maintaining vehicular access at this location.
- A Type, Size & Location Study was completed for the replacement of the existing North Lake Samish Bridge No. 107. This process included 3 public meetings with the Lake Samish community. Detailed design will begin in 2018 on the preferred alternative and future funding will be pursued for the construction phase of this project.

# **Bridge Inventory Summary**

Of the 162 structures in the Whatcom County inventory 5 are of timber construction, 101 are of concrete construction, 6 are predominately steel (all of which are fracture critical) and the remainder are a combination of these materials. See Appendix A for a complete list of Whatcom County Bridges.

W. Badger Road/Bertrand Creek Bridge No. 50 is typical of our channel beam girders supported by timber piles and caps

#### Lummi Island Ferry Terminals

The Gooseberry Point and Lummi Island Ferry Terminal structures are considered bridge structures and are inspected and maintained just like other bridges in the inventory. These consist of a steel transfer span and a timber approach span at the Gooseberry Point terminal and a steel transfer span and a reinforced concreted girder approach span at the Lummi Island terminal.

**Gooseberry Point Terminal** 

#### **Short Span Bridges**

The National Bridge Inspection Standards do not require short span bridges (span length of 20 feet or less) be reported to FHWA. Out of the 162 bridges in the Whatcom County inventory, 24 of these bridges are classified as short span bridges. Even though the inspection reports and bridge information for short span bridges are not reported to WSDOT or FHWA, Whatcom County inspects and operates these bridges the same as the larger, federally reported bridges in our inventory.

#### **Outside Local Agency Bridges**

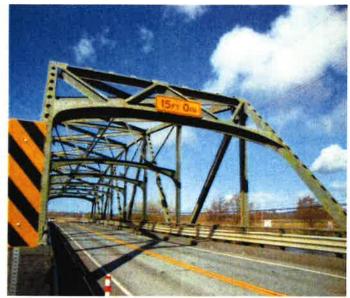

The Whatcom County Bridge and Hydraulics program provides inspection services to local agencies upon request. The county works with cities under inter-local agreements (ILA), with conditions set forth in the Revised Code of Washington (RCW) Chapter 39.34. The county's services are provided primarily to local agencies that lack expertise and resources to inspect and maintain their bridge inventory. In addition, the Whatcom County Public Works Road Maintenance Division contracts with local agencies for the maintenance of other local agency bridges. In 2017 the county provided inspection services on 72 structures for outside local agencies.

Local Agency	Number of bridges inspected in 2017		
City of Everson	1		
City of Bellingham Parks	15		
City of Bellingham	41		
City of Lynden	11		
City of Sumas	2		
San Juan County	1		
Port of Bellingham	1 (ferry terminal)		

Summary of outside local agency bridges inspected in 2017

#### **Oversize/Overweight Load Permits**

There were 173 oversize/overweight permits issued in 2017 and of those 38 involved routes over county owned bridges. Bridge program staff reviews these applications to ensure that these oversize/overweight loads can cross these bridges without causing any harm to the structure.

Height restriction sign posted on the Slater Road/Nooksack River Bridge No. 512

# **Bridge Inspections and Findings**

Bridge inspections are performed in accordance with the National Bridge Inspection Standards (NBIS) in conformance with 23 CFR 650.3. The standards mandate that all public agencies with a bridge inventory inspect and report the findings at a minimum of once every two years (routine inspection). Special inspections are required for bridges that cannot be given close or adequate inspection from the ground. For these bridges an Under-Bridge Inspections with special inspection equipment. A third category of special inspections are the Under Water Inspections which are required every five years for bridges with piers that extend below ordinary low-water levels.

During bridge inspections, the current condition of each bridge element is noted. The deficiencies are coded to NBIS standards and show the degree of deterioration in various elements, the three primary elements being:

- Deck,
- Superstructure, and
- Substructure.

As deterioration accelerates, the coding values drop and work orders for repairs are issued. In the case where the coding factors are extremely low, recommendations are made for repair, replacement or rehabilitation. Bridges with identified deficiencies may be inspected or monitored at more frequent intervals.

The results of our inspection program are forwarded to the Washington State Department of Transportation (WSDOT) for review. Once the report has been accepted by WSDOT it is made available to the Federal Highway Administration (FHWA).

The NBIS utilizes information from the latest bridge inspection to determine the Sufficiency Rating (SR) which is a calculated rating based on information from the most recent bridge inspection. The SR is a number from 0 to 100 with 100 being an entirely sufficient bridge, and 0 being an entirely insufficient or deficient bridge. Items that factor into the determination of the SR include: load bearing capacity, average daily traffic, availability and length of detour, the geometry of the bridge and the risk of scour on bridge foundations at waterway crossings.

Whatcom County owns 7 bridges located on designated truck freight routes with a T-2 classification (there are no T-1 routes currently designated in Whatcom County). T-2 freight routes are defined as carrying 4 million to 10 million annual gross tonnage and serve as vital transportation corridors in Whatcom County. The T-2 freight routes with bridges on them include the following County roads; Birch Bay Lynden Road, Hannegan Road and Slater Road. Of the 7 bridges on these roads none are restricted.

See Exhibit A for our master list of special inspections and details on inspection frequencies and schedules for all of our UBIT and underwater bridge inspections.

#### Exhibit "A" - Master List of Special Inspection and Equipment Needs

# Load, Height and Width Restricted Bridges

Each bridge is required to have a "Load Rating" calculation. The Load Rating establishes how much weight the bridge can carry for several standard configurations of vehicle axle loads.

During the 2017 inspection cycle, no bridges were added to the load restriction list. As of the end of 2017 there were a total of 16 weight restricted bridges in the county.

Bridges that have height restrictions of 15'-3" or less are required to be posted with the allowable height. Whatcom County has two roads passing through posted height restricted bridge structures, both of which are steel truss structures. They are Slater Road/Nooksack River Bridge No. 512 and Mosquito Lake Road/Middle Fork Nooksack River Bridge No. 140. The list of current load, height and weight restricted bridges is shown in Exhibit 'B'.

# Bridge Replacement and Rehabilitation Plans for Deficient Bridges

One area of emphasis within the Bridge Program is to replace or rehabilitate bridges that are classified as structurally deficient (SD) per NBIS. The 5 SD bridges listed below were actively worked on in 2017:

- 1. West Badger Road/Bertrand Creek Bridge No. 50 Replacement (construction scheduled for 2019, BRAC funded)
- 2. Roberts Road/Anderson Creek Bridge No. 249 Replacement (construction scheduled for 2019, BRAC funded)
- 3. North Lake Samish Bridge No. 107 (TS&L completed in 2017, design, permitting and real estate work underway in 2018)
- 4. Massey Road/Sumas River Bridge No. 291 Deck Replacement Project (construction scheduled in 2019)

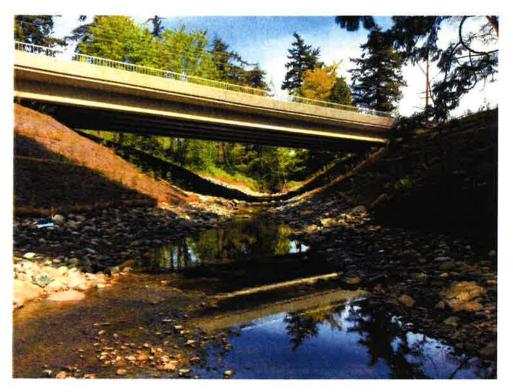

5. Mosquito Lake Road/NF Nooksack River Bridge No. 332 Cap Replacement Project (construction completed in May 2018)

Design and permitting work was completed in 2017 on the Hannegan Road/Ten-Mile Creek Bridge No. 236 Replacement Project. While this bridge is not currently designated as SD, it is the last remaining reinforced concrete channel girder bridge remaining on the Hannegan Road, which is a designated T-2 freight route and an important transportation corridor in Whatcom County. The existing bridge utilizes an older style reinforced concrete channel girder that has historically not held up well to truck traffic. This replacement project is scheduled for construction in 2018 and aims to remove this bridge from Hannegan Road before problems develop and the bridge needs to be load restricted. Since 2000, 19 SD bridges have been replaced or re-built in Whatcom County. The list of current SD bridges is shown in Exhibit 'C.'

#### 2017 Replacement and Rehabilitation Construction Projects

#### Slater Road/Jordan Creek Fish Passage Project

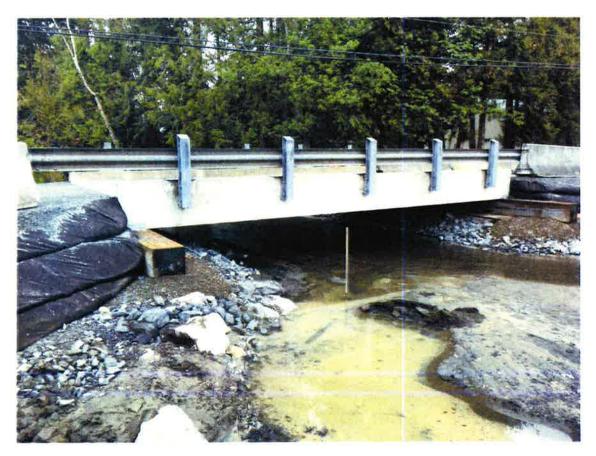

This project included replacement of a failing 10' wide by 7' tall steel arch culvert that had been identified as a barrier to fish passage. The culvert was replaced with a 142' span reinforced concrete bridge on a deep pile foundation. Work also included reconstruction of the Jordan Creek channel through the project site to address fish passage. The new structure was opened to traffic in the fall of 2017.

Picture of recently competed Slater Road/Jordan Creek Bridge No. 10

#### Oat Coles Road/Swift Creek Bridge Replacement

This project included replacing the existing bridge, which had minimal freeboard above Swift Creek, with a bridge that provides additional clearance above the Swift Creek channel.

Oat Coles Road/Swift Creek Bridge No. 313

# Exhibit "C" – Structurally Deficient Bridges

# 2017 Large Culvert Inventory

In 2016 and 2017 Whatcom County Bridge Program staff inspected all culverts with a diameter of 5' or greater located on the County road system. All culvert inspections were completed using FHWA publication No. FHWA-CFL/TD-10-005 titled "*Culvert Assessment and Decision Making Procedures Manual*" dated September 2010. All told 152 structures were inspected as part of this effort. As part of the inspection effort each culvert was given an overall condition rating and any needed repairs or maintenance work was forwarded to Maintenance & Operations. These large diameter culverts will continue to be inspected moving forward on a regular basis. For a detailed list of the large diameter culverts please Appendix "B".

# **Maintenance and Repair Activities**

The majority of bridge repair and maintenance work is done by Whatcom County Maintenance & Operation crews, with support from various vendors. During 2017 Maintenance & Operation crews washed all of the bridges in the County inventory. In addition, the majority of the bridges were brushed to support ongoing maintenance, repair and inspection activities. Forty six (46) maintenance work orders were completed in 2017. (See Exhibit D below).

In April of 2017 a privately owned and fully load dump truck and trailer hit the bridge rail on the north side of Breckinridge Road/Sumas River Bridge No. 315, destroying the entire section of bridge rail. M&O crews responded quickly, replacing the bridge rail and getting the bridge opened to traffic with minimal disruptions to the traveling public.

Bridge No.	Bridge Name	Work Completed	Date Repaired
172	MARINE DRIVE	APPROACH REPAIR	JANUARY 2017
507	FERRY – LUMMI ISLAND	DOLPHIN REPAIR	JANUARY 2017

82	ALDERSON ROAD	DECK REPAIR	DECEMBER 2017
313	OAT COLES ROAD	POTHOLE REPAIR ON BRIDGE DECK	DECEMBER 2017

# **Glossary of Bridge Terms**

Abutment – a substructure supporting the end of a single span, or the extreme end of a multi-span super-structure and, in general, retaining or supporting the bridge approach fill.

Approach span – the span or spans connecting the abutment with the main span or spans.

**Back wall** -the top-most portion of an abutment functioning primarily as a retaining wall to contain approach roadway fill.

**Beam** -a linear structural member designed to span from one support to another.

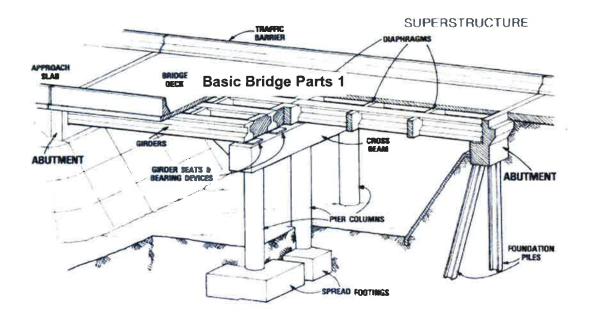

**Bent** – a supporting unit of the beams of a span made up of one or more column or column-like members connected at their top-most ends by a cap, strut, or other horizontal member.

**Box Girder** – a support beam that is a hollow box; Its cross-section is a rectangle or square. **Bracing** – a system of tension or compression members, or a combination 0I these, connected to The parts to be supported or strengthened by a truss or frame. It transfers wind, dynamic, impact, and vibratory stresses to the substructure and gives rigidity throughout the complete assemblage. Can also refer to diagonal members that tie two or more columns of a bent together.

Cap – the horizontally-oriented, top-most piece or member of a bent sewing to distribute the beam loads upon the columns and to hold the beams in their proper relative positions.

**Cast-in-Place** – concrete poured within form work on site to create a structural element in its final position.

**Catwalks** – temporary foot bridges, used by bridge inspection personnel.

**Chord** – in a truss, the upper-most and the lower- most longitudinal members, extending the full length of the truss.

**Column** -a vertical structural member that transfers dead and live load from the bridge deck and girders to the footings or shafts.

**Column crosses brace** – transverse brace between two main longitudinal members.

**Compression** – a type of stress involving a pressing or squeezing together; tends to shorten a member; opposite of tension.

**Culvert** – a pipe or small structure used for drain- age under a road, railroad or other embankment. A culvert with a span length greater than 20 feet Is included in the National Bridge Inventory and Receives a rating using the NBI scale.

**Dead load** -a static load due to the weight of the structure itself.

**Deck** – the roadway portion of a bridge that provides direct support for vehicular and pedestrian traffic.

**Deck bridge** – a bridge in which the supporting members are all beneath the roadway.

**Deck truss** – a bridge whose roadway is supported from beneath by a truss.

**Diagonal** – a sloping structural member of a truss or bracing system.

**Elastomeric pads** – rectangular pads made of neoprene, found between the sub-structure and superstructure that bears the entire weight of the superstructure. Elastomeric pads can deform to al- low for thermal movements of the superstructure. **End wall** – the wall located directly under each end of a bridge that holds back approach roadway fills. The end wall is part of the abutment.

**Expansion joint** -A joint designed to provide means for expansion and contraction movements produced by temperature changes, load, or other forces.

**Fatigue** – Cause of structural deficiencies, usually due to repetitive loading over time.

**Footing** – The enlarged, lower portion of a substructure that distributes the structure load either to the earth or to supporting piles; the most common footing is the concrete slab; "footer" is a colloquial term for footing.

**Fracture critical member** – a member in tension or with a tension element whose failure would probably cause a portion of or the entire bridge to collapse.

**Girder** – a main support member for the structure that usually receives loads from floor beams and stringers; also, any large beam, especially if built up.

**Hanger** – a tension member serving to suspend an attached member.

**Hinge** -a point in a structure at which a member is free to rotate.

Live load – vehicular traffic, wind, water; and/or earthquakes.

Lower chord – the bottom horizontal member of a truss.

Main beam -a beam supporting the spans and bearing directly onto a column or wall. Member – an individual angle, beam, plate, or built piece intended to become an integral part of an assembled frame or structure.

**Oscillation** – a periodic movement back and forth between two extreme limits. An example is the string of a guitar that has been plucked. Its vibration back and forth is one oscillation. A vibration is described by its size (amplitude), its oscillation rate (frequency), and its timing (phase). In a suspension bridge, oscillation results from energy collected and stored by the bridge. If a part of the bridge has to store more energy than it is capable of storing, that part will probably fail.

**Pier** -a structure comprised of stone, concrete, brick, steel, or wood that supports the ends of the spans of a multispan superstructure at an intermediate location between abutments. A pier is usually a solid structure as opposed to a bent, which is usually made up of columns.

**Pile** -a linear (vertical) member of timber, steel, concrete, or composite materials driven into the earth to carry structure loads into the soil.

**Pile bent** – A row of driven or placed piles with a pile cap to hold them in their correct positions; see "Bent."

**Plate girder** – a large, solid web plate with flange plates attached to the web plate by flange angles or fillet welds. Typically fabricated from steel.

**Post or column** – a member resisting compressive stresses, in a vertical or near vertical position.

**Pre-cast girder** – fabricated off site of Portland Cement Concrete, reinforcing steel and post-tensioning cables. These girders are shipped to the construction site by truck and hoisted into place by cranes. **Reinforced concrete** – concrete with steel rein- forcing bars bonded within it to supply increased tensile strength and durability.

**Scour** – erosive action of removing streambed material around bridge substructure due to water flow. Scour is of particular concern during highwater events.

Short span bridge -these bridges have a single NBIS span length of 20 feet or less. They are typically supported by timber piles or shallow concrete footings.

**Soffit** – the underside of the bridge deck or sidewalk.

**Spall** – a concrete deficiency wherein a portion of the concrete surface is popped off from the main structure due to the expansive forces of corroding steel rebar underneath. This is especially common on older concrete bridges.

**Span** – The distance between piers, towers, or abutments.

Steel-A very hard and strong alloy of iron and carbon.

Stringer – a longitudinal beam (less than 30 feet long) supporting the bridge deck, and in large bridges, framed into or upon the floor beams.

Sufficiency rating -the sufficiency rating is a numeric value from I<sup>M</sup> (a bridge in new condition) to 0 (a bridge incapable of carrying traffic). The sufficiency rating is the summation of four calculated values: Structural Adequacy and Safety, Serviceability and Functional Obsolescence, Essentiality for Public Use, and Special Reductions. **Substructure** – the abutment, piers, grillage, or other structure built to support the span or spans of a bridge superstructure, and distributes all bridge loads to the ground surface. Includes abutments, piers, bents, and bearings.

**Superstructure** – the entire portion of a bridge structure which primarily receives and supports traffic loads and in turn transfers the reactions to the bridge substructure; usually consists of the deck and beams or, in the case of a truss bridge, the entire truss.

**Tension** – type of stress involving an action which pulls apart.

Tie – a member carrying tension.

Torsion - a twisting force or action.

**Truss bridge** – a bridge having a pair of trusses for the superstructure.

**Upper chord** - the top longitudinal member of a truss.

Web - the portion of a beam located between and connected to the flanges.

Welded joint -a joint in which the assembled elements and members are united through fusion of metal.

Wheel rail – a timber curb fastened directly to the deck, most commonly found on all-timber bridges.

Wing wall -walls that slant outward from the corners of the overall bridge that support road way fill of the approach.

# Appendix "A" – 2017 Whatcom County Bridge Inventory Total of 162 Bridges Including 24 Short Spans

PROPOSED BY: \_\_\_\_\_\_\_ INTRODUCED: \_\_\_\_\_\_\_\_\_\_

# RESOLUTION NO.

# WHATCOM COUNTY SIX-YEAR TRANSPORTATION IMPROVEMENT PROGRAM FOR THE YEARS 2019 THROUGH 2024

WHEREAS, pursuant to RCW 36.81.121, Whatcom County is required to prepare and approve a Six-Year Transportation Improvement Program each year; and

WHEREAS, pursuant to RCW 36.54.015, Whatcom County is required to prepare a Fourteen-Year Ferry Capital Program each year; and

WHEREAS, the Road Priority Array and the Annual Bridge Report were made available to the legislative authority during the preparation of this program; and

WHEREAS, following approval of the Six-Year Transportation Improvement Program, the law requires an annual review of the work accomplished under the program and a determination of current transportation needs; and

WHEREAS, based upon the findings of the annual review, and after a public hearing, a Six-Year Transportation Improvement Program shall be approved; and

WHEREAS, pursuant to RCW 36.81.121, the Six-Year Transportation Improvement Program and Fourteen-Year Ferry Capital Program must be consistent with the County comprehensive plan pursuant to RCW 36.70A; and

WHEREAS, the Six-Year Transportation Improvement Program attached hereto as Exhibit "A" has been reviewed and determined to be consistent with the County's comprehensive plan; and

WHEREAS, the Fourteen-Year Ferry Capital Program attached hereto as Exhibit "B" has been reviewed and determined to be consistent with the County's comprehensive plan; NOW, THEREFORE, BE IT RESOLVED by the Whatcom County Council as follows:

- 1. That the Whatcom County Six-Year Transportation Improvement Program for the years 2019 through 2024, which is attached hereto as Exhibit "A", including the capital elements of the first six-years of the Fourteen-Year Ferry Capital Program, which is attached hereto as Exhibit "B", is hereby approved.
- 2. That the County Engineer is directed to file a copy of the same with the County Road Administration Board and the State Secretary of Transportation.

APPROVED this \_\_\_\_\_ day of \_\_\_\_\_, 2018.

ATTEST:

WHATCOM COUNTY COUNCIL WHATCOM COUNTY, WASHINGTON

Dana Brown-Davis, Clerk of the Council

Rud Browne, Chair of the Council

APPROVED AS TO FORM:

Chris Quinn, Civil Deputy Prosecutor

# **EXHIBIT "B"**

# WHATCOM COUNTY 2019-2032 FOURTEEN-YEAR FERRY CAPITAL PROGRAM

# **Overview**

This program provides a blueprint for the effective, efficient, and continuing operation of the Whatcom County Ferry System within existing financial constraints. Capital improvements are scheduled based on many years of experience operating and maintaining the system, while complying with applicable regulations.

Inevitably, priorities and available funds for the ferry system will change over the fourteen years projected in this program. Therefore, the intention of the program is to be a guide indicating long-range improvements and anticipated revenues and expenditures. Strict adherence is not required.

Enacted in 1975, Revised Code of Washington **(RCW) 36.54.015** states "The legislative authority of every county operating ferries shall prepare, with the advice and assistance of the county engineer, a fourteen year long range capital improvement plan embracing all major elements of the ferry system. Such plan shall include a listing of each major element of the system showing its estimated current value, its estimated replacement cost, and its amortization period."

**Table 1: Ferry System Current and Replacement Values** – meets applicable requirements, showing the current value, replacement cost, and amortization periods for the vessels and facilities. The current value of the M/V Whatcom Chief is the insured value, the closest approximation of true worth. The facilities' current value is book value; original cost less depreciation plus depreciated improvements.

**RCW 36.81.121** (1) states "...the legislative authority of each county, after one or more public hearings thereon, shall prepare and adopt a comprehensive transportation program for the ensuing six calendar years....and for those counties operating ferries shall also include a separate section showing proposed capital expenditures for ferries, docks, and related facilities. Copies of the program shall be filed with the county road administration board and the secretary of transportation not more than thirty days after its adoption by the legislative authority..." Subsection (2) requires expanded information on how a county will spend all its money on the various facets of the transportation program. This RCW Section was enacted in 1961. The capital expenditure portion of Subsection (1) is satisfied by:

**Table 2:** Projected Revenues defines the known and/or anticipated sources of operating and capital project funding for the 14-Year Plan.

**Table 3: Projected Expenditures** includes all other expenditures on the system that meet Subsection (2) requirements. Operational expenditures are delineated between vessel and non-vessel costs. U.S. Coast Guard regulations currently require the ferries to be dry-docked every two years, however to extend the life, improve reliability and protect our capital investment Whatcom County schedules dry-docking every year for its vessel. The landings are inspected regularly as required by the National Bridge

Inspection Standards administered through the Washington State Department of Transportation. The inspection report helps identify and schedule major maintenance and replacement of these facilities.

This RCW section also provides the reporting requirement and timing of program submission, as well as establishing the annual update requirement.

Additionally, the Federal Highway Administration requires all agencies within a Metropolitan Planning Organization to develop and annually update the long range Transportation Improvement Plans and their Biennial Element. Whatcom County updates this 14-Year plan each year and incorporates the results into the Six-Year Transportation Improvement Program.

# Level-of-Service

On July 24, 2018 the Whatcom County Council passed resolution #2018-0026. This resolution established a level of service for the Lummi Island Ferry System. In addition, the resolution enacts an action plan to achieve the recommended improvements including:

# 1. Vessel

- A. Balancing capacity against operating costs (fuel, personnel, etc.) to ensure affordable fares over the long run, including needs-based fares, while optimizing vehicle demand, deck space and trip frequency to minimize wait times, the design and construction of a 34 car vessel is added to the 2019-2024 Six-Year Transportation Improvement Program. The timing of the design and construction shall coincide with the next cycle of funding by the County Road Administration Board.
- B. The design of the vessel shall accommodate all walk-on passengers during typical peak times, accommodate legal loads of vehicles per Washington State Commercial Vehicle Guide and comply with U.S. Coast Guard safety standards and the Americans with Disabilities Act.
- C. To approach the goal of a carbon neutral vessel and provide flexibility for future electric conversion and reliability, the design of the vessel shall be a hybrid diesel-electric.

# 2. Terminals

- A. Design and construction of the marine structure modifications to the Gooseberry Point terminal and Lummi Island terminal to accommodate the new vessel is added to the 2019-2024 Six-Year Transportation Improvement Program. The timing of the design and construction shall coincide with the next cycle of funding by the County Road Administration Board and the construction of the new vessel.
- B. In addition to the modifications to accommodate a new vessel, improvements to the Lummi Island terminal shall include: reconfigure the queuing lanes, install ADA restrooms, and improve bicycle and pedestrian loading by locating the

queuing area as close to the vessel as possible to reduce the time required to load onto the ferry.

- C. Implement remote ferry queue monitoring.
- D. Implement self-service ticketing.
- E. Whatcom County will initiate an intergovernmental agreement with the Lummi Nation to confirm the location of the Gooseberry Point Terminal as shown on the 2015 Lummi Nation TIGER grant application. Upon the finalization of the agreement Whatcom County Public Works shall initiate the environmental review and permitting process for the Gooseberry Point terminal relocation.
- F. Construction of the new Gooseberry Point terminal relocation is to be accomplished prior to the end of the Uplands Lease Agreement with the Lummi Nation (October 2046). The design shall include dual lane loading and improve bicycle and pedestrian loading by locating the queuing area as close to the vessel as possible to reduce the time required to load onto the ferry.
- G. Whatcom County shall coordinate the Gooseberry Point terminal relocation with the Lummi Nation's permitting, funding and construction of the future Fisherman's Cove Improvements.
- H. As property becomes available, Whatcom County shall purchase lands adjacent and near the new location of the Gooseberry Point terminal. The property will be utilized for off-street queuing, parking, and passenger amenities.
- I. All infrastructures shall be designed to accommodate the 100-year sea level rise prediction by NOAA.
- 3. Operations
  - A. A Whatcom County ferry district will be created to increase grant opportunities. This district shall be funded by a seasonal surcharge on single cash fares for the capitalization of future vessels.
  - B. The long-term improvements shall be phased over time to allow for a complete funding portfolio to leverage a variety of funding sources and mechanisms.

# **Minor Maintenance**

General minor maintenance is continual on the ferry, landings, aprons, approaches, and waiting facilities. The costs and extent of the work is unpredictable, and frequently problems must be repaired immediately upon detection. Routine maintenance such as building painting and roof cleaning is more predictable and scheduled in advance.

# **History of the Ferry System**

The ferry system is the only public transportation link for the majority of Lummi Island residents and vehicles to the mainland at Gooseberry Point. In the event of an emergency ferry outage or mechanical failure, the County has contracted pedestrian only ferry services while the vessel is being repaired.

Following is a brief chronology outlining the history of the Whatcom County Ferry System.

**GP** denotes work occurred at the Gooseberry Point Terminal LI denotes work occurred at the Lummi Island Terminal

- 1926 Lummi Shore Road from Bellingham was completed and a ferry, the Central, owned by Whatcom County and large enough to hold six small Model-T Fords started making scheduled runs between Lummi Island and Gooseberry Point.
- 1929 The slightly larger Chief Kwina replaces the Central.
- 1950 Gooseberry Point terminal built (GP)
- 1962 The M/V Whatcom Chief begins service
- 1977 Lummi Island terminal is relocated (LI)
- 1981 New transfer span and tower superstructure installed (LI)
- 1982 Approach span trestle refurbished (GP)
- 1986 Transfer span, tower structures, and marine structures replaced (GP)
- 1993 South inner and mid-ship timber dolphins replaced/installed (LI)
- 1999 Emergency South outer dolphin and breakwater repair (LI)
- 1999 Electrical feeder replacement (GP)
- 2001 Major maintenance on both terminals including painting, new aprons, electrical work, new hydraulics, tower bolt replacement (LI and GP)
- 2002 20-Year Plan Phase 1 Process and report completed
- 2005 South outer timber dolphin replaced with steel structure (LI) Major Status Report on Ferry System
- 2006 Emergency bearing seat pedestal replacement (LI) Parking lot improvements (LI) Major corrosion repair to vessel hull Completed design package for a 35-car replacement vessel Completed design package for urgent electrical/structural terminal repairs First Rate Increase in 5 years
- 2007 Bridge bearings replaced (LI) Electrical repairs (LI and GP)
- 2008 Two North timber dolphins replaced with steel doughnut dolphins designed for larger 35-car ferry boat design (LI) Counterweight sheaves replaced (GP and LI) Rate increase
- 2009 Emergency North wingwall replacement (LI)

Traffic Gates Installed (LI and GP) Rate adjustment

- 2010 Emergency South wingwall replacement (LI)
- 2011 New live load hangers and pins installed (GP)
- 2013 Steel apron flaps replaced with rubber-coated flaps (LI) Timber wingwalls replaced with steel structures (GP) Terminal remote control system installed, electrical and hydraulic equipment updates (LI)
- 2014 Terminal remote control system installed (GP) All four timber dolphins replaced with steel structures (GP)
- 2015 Steel apron flaps replaced with rubber-coated flaps (GP) Emergency temporary repair to outer timber dolphin (LI) Rate adjustment
- 2017 Electrical system overhaul (GP)

WHATCOM COUNTY **Health Department** 

**Regina A. Delahunt** Director

Greg Stern, M.D. Health Officer

TO:	Jack Louws, County Executive	OK NOLE TOW
FROM:	Elizabeth Harmon-Craig, Veterans Specialist	We Kept
DATE:	September 11, 2018	
RE:	Nomination for Initial Appointment to the Veterans' Adv	visory Board

Two positions on our Veterans Advisory Board (VAB) are currently vacant due to two resignations. Ms. Heather Mueller resigned to move out of state to care for her family. Mr. Christopher Brown has chosen to resign in order to pass his position to Ms. Lynne Graham (a fellow Vet Center colleague.) This office would like to recommend Ms. Lynne Graham and Ms. Andrea Vance for appointment to the VAB to fulfill these vacant positions.

Ms. Lynne Graham is a 20 year veteran of the Air Force who has volunteered at the Vet Center as a Veterans Service Officer for the past three years. Ms. Graham also interns at the Vet Center in Bellingham as part her Masters of Social Work Program through the University of Washington. Ms. Graham is expected to hire on at the Vet Center as the Military Sexual Trauma counselor at the completion of her degree. Ms. Graham's position on the Board would continue representation of the Vet Center in Whatcom County Veterans' policy planning.

Ms. Andrea Vance is an Army combat Veteran of Operation Joint Endeavor. She has worked within the Veterans Affairs system for the past fifteen years at all levels from clinician to homeless housing case management. She currently works locally with veterans as a therapist under the Veterans Affairs' CHOICE Program. Her experience and knowledge of the Veterans Affairs Administration will be extremely helpful in crafting future programs.

Both Ms. Graham and Ms. Vance bring a breadth of experience and diverse background to our Veterans Advisory Board. Their input will be essential in planning future programs for Whatcom County veterans.

Thank you for considering these recommendations for appointment.

1. Name of Board or Committee	Veteran's Advisory Board
2. Do you meet the residency, employment, and/or affiliation requirements of the position for which you're applying?	Yes
3. Which Council district do you live in?	District 1
4. Are you a US citizen?	Yes
5. Are you registered to vote in Whatcom County?	Yes

· ,	
6. Have you declared candidacy (as defined by RCW 42.17A.055) for a paid elected office in any jurisdiction within the county?	Νο
7. Have you ever been a member of this Board/Commission?	Νο
8. Do you or your spouse have a financial interest in or are you an employee or officer of any business or agency that does business with Whatcom County?	No
You may attach a resume or detailed summary of experience, qualifications, & interest in response to the following questions	<u>avresume.pdf</u> – attached
9. Please describe your occupation (or former occupation if retired), qualifications, professional and/or community activities, and education	I am a licensed, Master's level Social Work professional with over 15 years of experience working with Veterans in housing, medical, mental health and substance abuse treatment. I am also a Veteran, having served in the Oregon National Guard for ten years, as well as deployed overseas on Active Duty during Operation Joint Endeavor. I feel am uniquely qualified to serve on the Veterans Advisory Board as a social worker who is committed to social justice, a Veteran, a woman and a mental health professional who has worked for the VA most of my career. As a health care provider and housing advocate, I understand the resources available to Veterans in our county along with the barriers to access these resources. I think the combination of my professional and personal experiences make me an excellent candidate for the Veterans Advisory Board.
10. Please describe why you're interested in serving on this board or commission	As a relatively new arrival to Whatcom County (2013), I am working to become more involved in my neighborhood and my community. I feel the voice of a female Veteran on the County Veteran Advisory Board is not only desirable, but crucial as the Board advises the County Council and County Executives on the needs of the Veterans of Whatcom county. Often, the experiences and needs of female Veterans are overlooked by both the VA and agencies serving these Veterans and their families. As someone who is a strong advocate for female Veterans, who is a Veteran myself and who has been a provider for Veterans, I feel I can speak to the specific needs of female Veterans. The number of female Veterans is expected to double by 2045, while the number of male Veterans are expected to drop by half. It will be even more important to consider carefully the needs of female Veterans and their families in the future. I would welcome the chance to continue my advocacy work for Veterans at the county level, and to have a chance to influence policy and effect change for some of the most vulnerable Veterans of Whatcom County.

#### SUMMARY OF QUALIFICATIONS

Licensed Independent Social Work professional with over 15 years of experience providing patient focused therapeutic interventions including crisis management, risk assessment, individual and group therapy, expert consultation, utilization management, individualized case management and care coordination. Specialization in advocacy for Veterans and treatment/care coordination of issues specific to the Veteran population, including VA eligibility and benefits.

Strong assessment and treatment coordination skills; solid knowledge of local, state and national social service resources and experience with complex situations requiring creative problem solving. Comfortable working in multiple settings (inpatient, outpatient, crisis, home based) with clients from a wide array of socio-economic backgrounds and with issues including medical, mental health, substance abuse and social components.

Skilled in program evaluation/implementation, graduate student supervision and supervision for licensure.

#### **PROFESSIONAL EXPERIENCE**

#### **Behavioral Health Utilization Management Clinician, Clinical Services Team**

Cambia Health Solutions - Burlington, WA

Performs utilization review and care management for Behavioral Health, including substance abuse services provided to members. Ensures that medical necessity and quality of care guidelines are met across all levels of service, from acute care to outpatient services. Ensures that NCQA, URAC and HIPAA standards are met, assists in coordination of care as necessary, including discharge planning and referrals. Familiar with InterQual, MCG (Milliman) and other managed care guidelines. Effectively manages workflow and prioritizes tasks in a high volume, fast paced work environment.

#### Social Worker, Community Housing and Outreach Services

VA Puget Sound Health Care System - Everett, WA

Provided intensive case management support for Veterans and their families in the Housing and Urban Development Veterans Affairs Supportive Housing program, including outreach, referrals and care coordination for homeless Veterans of all eras (WWII to present) in Snohomish, Island, Skagit and Whatcom counties.

#### Senior Social Worker, Primary Care Mental Health Team

VA Puget Sound Health Care System – Mount Vernon, WA

As a collaborative member of the Primary Care and Mental Health teams, provided assessment and therapeutic services for Veterans in a large Community Based Outpatient Clinic. Provided consultation/education to medical staff regarding the behavioral health needs of patients and how behavioral health issues impact medical issues/treatment and continuity of care. Provided individual, couples, group and telehealth remote counseling services. Evaluated patients for access to acute care services through Psychiatric Emergency Services (PES) at Seattle VA Hospital.

#### Senior Social Worker, Primary Care Mental Health Integration

VA Montana Health Care System - Kalispell, MT

Implemented Primary Care Mental Health Integration program in a Community Based Outpatient Clinic (CBOC) serving 5,000 Veterans in a rural community. Provided direct patient care in Behavioral Health, both onsite and offsite using Telehealth technology and provided consultative and educational services to Primary Care multi-disciplinary teams. Provided local support for Military Sexual Trauma outreach project and screening of The Invisible War.

#### **Emergency Department Social Worker, Chaplain and Social Work Service**

Portland VA Medical Center, Chaplain and Social Work Service - Portland, OR

Provided assessment, referral, care coordination and discharge planning for Veterans as part of a multi-disciplinary team in a busy ER setting. Performed mental health, substance use and cognitive evaluations, consulted with law enforcement and state agencies to protect vulnerable patients. As Living Renal Donor Advocate, worked with living renal donors to ensure appropriate care and adherence to UNOS guidelines. Provided supervision for graduate level interns.

October 2014 to December 2015

April 2012 to April 2013

August 2009 to April 2012

April 2013 to October 2014

January 2016 to present

multi-disciplinary team including nurses, physicians, occupational and physical therapists and other allied health

#### **Primary Care Social Worker** Portland VA Medical Center, Primary Care Clinic - Portland, OR

Provided independent assessment and intervention for primary care patients seeking assistance with a variety of social, psychological, and medical issues. Provided social work consultation to Traumatic Brain Injury (TBI) and Geriatric specialty clinics, provided case management services as a member of a multi-disciplinary team including referrals to housing, mental health, occupational, legal, social and spiritual community/VA resources.

#### Substance Abuse counselor (Social Worker)

Portland VA Medical Center, Substance Abuse Treatment Program - Portland, OR

As part of a multi-disciplinary team, provided assessment, evaluation and treatment for veterans attending outpatient substance abuse treatment program using evidence based treatment modalities including Dialectical Behavioral Therapy, Rational Emotive Therapy, Gorski's Relapse Prevention techniques and Motivational Interviewing. Provided case management services including referrals to appropriate housing, mental health, occupational, legal, social and spiritual community/VA resources.

#### **Therapist/Social Work Intern**

Portland VA Medical Center, Mental Health Clinic - Portland, OR Worked collaboratively with VA Mental Health care providers/programs to provide individual, couples, group and family therapy for veterans and eligible others experiencing a variety of psychiatric or social problems. Referred clients to VA and community resources as needed, and provided case management where indicated.

**Case Manager** Transition Projects, Rehabilitation Services for Homeless Veterans (RSHV) - Portland, OR Served as a Veteran's Administration liaison for a community shelter provider, provided case management and resource referral services to homeless Veterans including mental health, social, legal and employment needs.

#### EDUCATION

Masters of Social Work, Portland State University, Graduate School of Social Work, Portland, OR 2003 Bachelor of Science in Psychology, Portland State University, Portland, OR 2001

Exhibit "C" – Project Narratives

PROPOSED BY:

INTRODUCED: 9/25/18\_\_\_

RESOLUTION NO.

## (A Resolution of the Whatcom County Flood Control Zone District Board of Supervisors)

#### WHATCOM COUNTY FLOOD CONTROL ZONE DISTRICT SIX-YEAR WATER RESOURCES IMPROVEMENT PROGRAM FOR THE YEARS 2019 THROUGH 2024

**WHEREAS**, pursuant to RCW 86.15.110, flood control or storm water control improvements may be extended, enlarged, acquired, or constructed by a zone pursuant to a resolution adopted by the Board of Supervisors; and

**WHEREAS**, Whatcom County Public Works Department on behalf of the Flood Control Zone District has prepared a Six-Year Water Resources Improvement Program for adoption; and

**WHEREAS**, pursuant to RCW 86.15.120, the supervisors shall hold a public hearing prior to adopting the resolution; and

**WHEREAS**, the Six-Year Water Resources Improvement Program attached hereto as Exhibit "A" has been reviewed and determined to be consistent with the County's comprehensive plan and is consistent with the following plans:

- Lower Nooksack River Comprehensive Flood Hazard Management Plan, October 1999
- Jones Creek Debris Flow Study, March 2004
- WRIA 1 Salmon Recovery Plan, October 2005
- Birch Bay Comprehensive Stormwater Plan, July 2006
- Lake Whatcom Comprehensive Stormwater Plan, March 2008
- Lake Samish Basin Comprehensive Stormwater Plan, July 2012
- Swift Creek Sediment Management Action Plan, July 2013
- Lake Whatcom Management Program 2015-2019 Work Plan, April 2015
- Nooksack River System-Wide Improvement Framework, June 2016; and

Page 1

**WHEREAS**, pursuant to RCW 86.15.110, for constructed improvements the preliminary engineering studies are on file with the Whatcom County Public Works Department; and

**WHEREAS**, pursuant to RCW 86.15.110, the estimated cost of the acquisition or construction of the improvement, together with supporting data is included in the Six-Year Water Resources Improvement Program; and

**WHEREAS**, the improvements will benefit one or more zones, subzones and the county as a whole;

**NOW, THEREFORE, BE IT RESOLVED** by the Whatcom County Flood Control Zone District Board of Supervisors as follows:

That the Whatcom County Flood Control Zone District Six-Year Water Resources Improvement Program for the years 2019 through 2024, which is attached hereto as Exhibit "A", is hereby adopted.

APPROVED this \_\_\_\_\_ day of \_\_\_\_\_\_ 2018.

Flood Control Zone District Board of Supervisors WHATCOM COUNTY, WASHINGTON

ATTEST:

Dana Brown-Davis, Clerk of the Council

Rud Browne, Chair

APPROVED AS TO FORM:

Christopher Quinn, Senjor Civil Deputy Prosecutor Raice Burling

#### Agate Heights Stormwater Project Phase 2 Database ID No. 07-102

Construction Funding Year(s):

2019

#### **Project Narrative:**

System upgrades to improve water quality through installation of treatment vaults.

**Project Status:** 

Preliminary engineering design began in 2017. Construction is scheduled to take place in the summers of 2019 during the Lake Whatcom watershed work window.

#### Northshore Drive, East of City Limits Database ID No. 14-002

Construction Funding Year(s):

2020

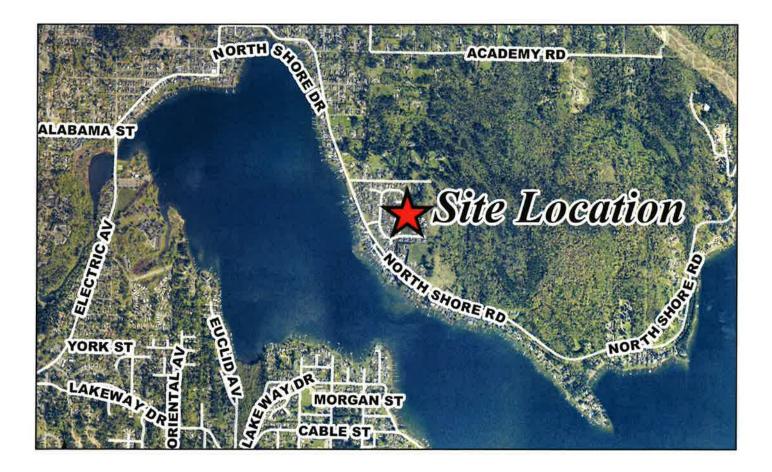

**Project Narrative:** 

System upgrades to improve water quality including bio-infiltration swales to reduce ditch erosion.

Project Status:

Design in 2019 with construction in 2020.

Total Estimated Project Cost: \$740,000

#### Silver Beach Creek – Main Channel Database ID No. 07-095

Construction Funding Year(s):

2021

**Project Narrative:** 

Restoration of the main channel of Silver Beach Creek below Hillsdale using natural vegetation.

**Project Status:** 

Preliminary engineering design is anticipated to begin in 2019. Construction to take place in the summer of 2021 during the Lake Whatcom watershed work window.

Total Estimated Project Cost: \$1,040,000

### Sudden Valley Database ID No. 13-004

Construction Funding Year(s):

2022

#### **Project Narrative:**

Drainage system upgrades including bio-infiltration swales and media filter drains in Sudden Valley.

#### Project Status:

Preliminary engineering design is anticipated to begin in 2019. Construction will take place in the summer of 2022 during the Lake Whatcom watershed work window.

Total Estimated Project Cost: \$750,000

#### Lowell Drive and Cedarbrook Court Database ID No. 14-003

Construction Funding Year(s):

2023

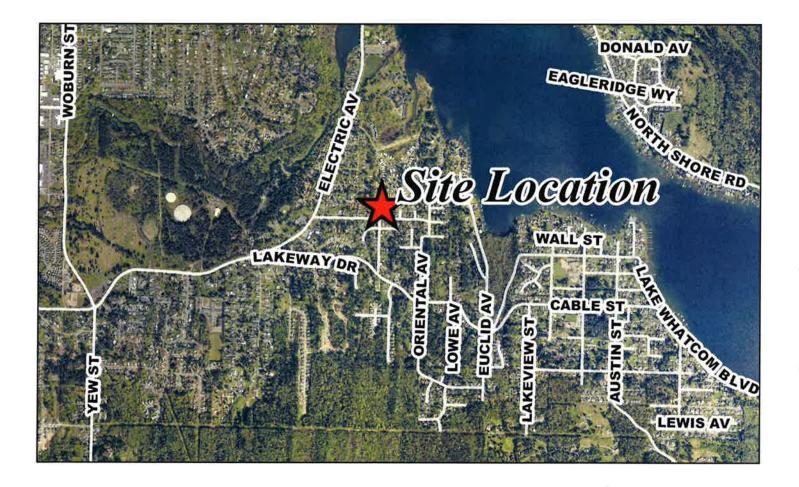

**Project Narrative:** 

End of pipe media filtration and natural drainage system improvements.

Project Status:

Design in 2021 with construction in 2023..

Total Estimated Project Cost: \$790,000

#### Glen Cove Lane and Lakeside Street Database ID No. 15-002

**Construction Funding Year(s):** 

2024

#### **Project Narrative:**

System upgrade to improve water quality--bioinfiltration swales, filter vaults, media filter drains, and rain gardens.

Project Status:

Design in 2022 with construction in 2024.

Total Estimated Project Cost: \$620,000

## South Bay Drive Database ID No. 16-010

Construction Funding Year(s):

2025

**Project Narrative:** 

System upgrades to improve water quality (treatment vaults and bio-infiltration swales).

**Project Status:** 

Design in 2023 with construction in 2025.

Total Estimated Project Cost: \$820,000

### Strawberry Point / Lake Whatcom Boulevard Database ID No. 17-001

Construction Funding Year(s):

2026

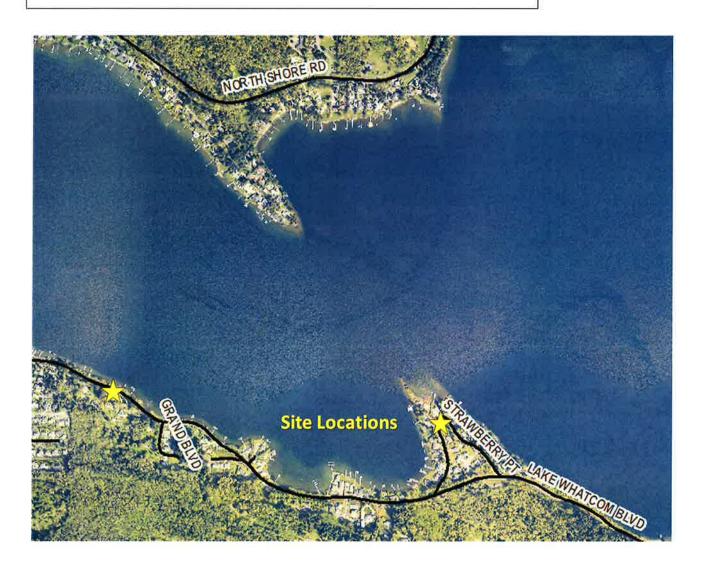

**Project Narrative:** 

System upgrades to improve water quality (treatment vaults and bio-infiltration swales).

**Project Status:** 

Design in 2024 with construction in 2026.

Total Estimated Project Cost: \$400,000

#### Birch Bay Drive & Petticote Lane Storm Drain Improvements (PW-2 & PW-3) Database ID No. 07-242

Construction Funding Year(s):

2019

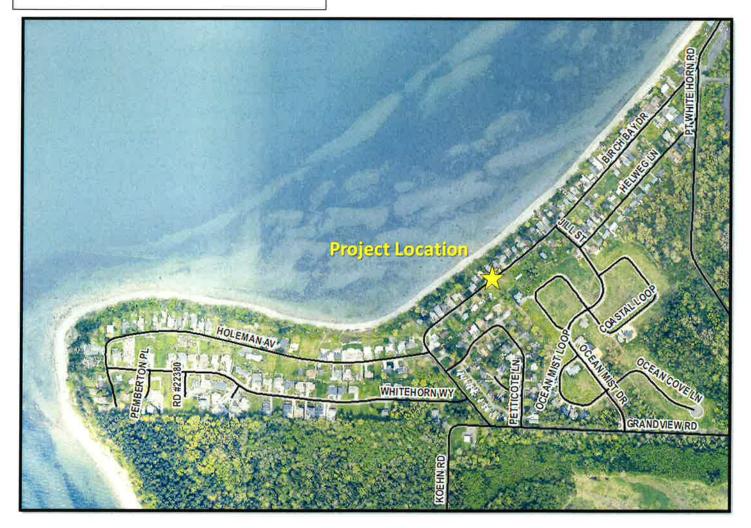

#### **Project Narrative:**

This project aims to reduce beach and bluff erosion on Point Whitehorn by bypassing the current failing outfall pipe and routing water to an existing discharge point just east of Point Whitehorn Road. Drainage along Birch Bay Drive between Holeman Avenue and Point Whitehorn Road will also be improved by replacing and upsizing catch basins, upsizing conveyance pipes and reestablishing ditches.

#### Project Status:

Design is underway and construction is scheduled to take place in 2019. Bluff stabilization measures are anticipated for the fall of 2018.

Total Estimated Project Cost:	\$1,064,500
Expenditures to Date:	\$187,000

#### Harborview Road & Birch Bay Drive Drainage Improvements, Phase 1 Database ID No. 07-217

Construction Funding Year(s):

2020

#### Project Narrative:

This project involves upsizing the upland drainage system along Harborview Road from the intersection of Birch Bay Lynden Road to Birch Bay Drive, improving drainage along a portion of Birch Bay Drive, and connecting the existing drainage system into a new marine outfall into Birch Bay. Water quality treatment will be included if suitable sites exist.

#### **Project Status:**

Design will be completed in 2018, permitting in 2019, construction in 2020.

Total Estimated Project Cost:	\$1,655,000
Expenditures to Date:	\$300,000

#### Lora Lane Drainage & Tide Gate Modifications (TC1-2) Database ID No. 18-008

Construction Funding Year(s):

2021

#### Project Narrative:

The project involves replacing the existing flap gate structure with a self-regulating side-hinged tide gate that would aim to improve drainage from the ditch bordering Leisure Park at Lora Lane and improve fish passage. The embankment surrounding the tide gate would be repaired and stabilized and the culvert passing under Birch Bay Drive from the tide gate would be repaired to a stormwater vault east side of Birch Bay Drive, which would allow access for maintenance.

#### **Project Status:**

Preliminary engineering design will begin in 2019 and be completed in 2020. Construction is scheduled to take place in 2021.

Total Estimated Project Cost: \$450,500

#### Semiahmoo Drive Drainage Improvements - North (BP-2) Database ID No. 18-009

Construction Funding Year(s):

2022

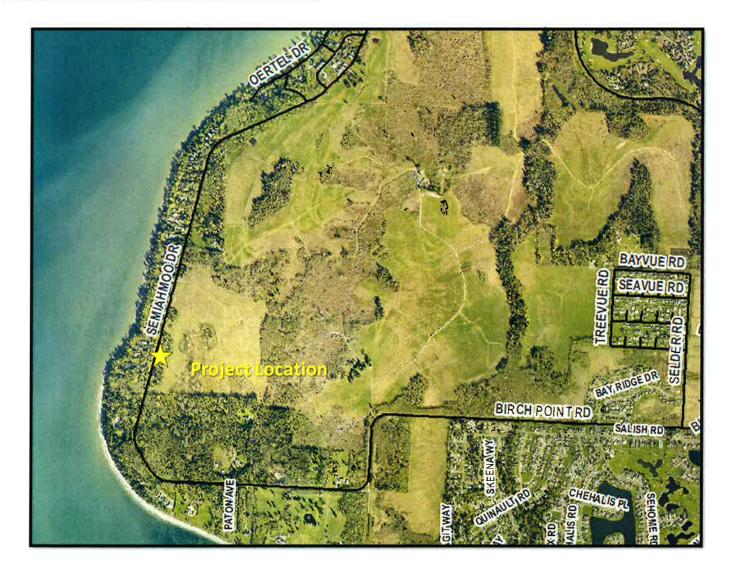

#### Project Narrative:

This project will improve the conveyance system along the east side of Semiahmoo Drive by upsizing pipes and reestablishing ditches to reduce flooding.

#### Project Status:

Design is anticipated in 2020 and construction scheduled to take place in 2022.

Total Estimated Project Cost: \$200,000

#### Holeman Avenue Storm Drain Improvements Database ID No. 07-242

Construction Funding Year(s):

2023

#### **Project Narrative:**

The project goal is to reduce roadway flooding on Holeman Avenue by replacing undersized pipe and catch basins and re-establish existing ditch to match pipe invert elevations. This area is particularly sensitive due to the steep, unstable bluff along the shoreline and the concern is that flooding could lead to bluff failure and property damage. This is a critical public safety issue.

#### Project Status:

Design is anticipated in 2021 and construction scheduled to take place in 2023.

Total Estimated Project Cost: \$285,000

## Wooldridge Avenue Storm Drain Improvements (TC-2) Database ID No. 13-007

Construction Funding Year(s):

2024

#### **Project Narrative:**

This project will improve the conveyance system along Wooldridge Avenue, Jackson Road and Sunset Drive by upsizing pipes, installing or replacing catch basins and culverts, reestablishing roadside ditches, installing a water quality filter vault and 100 linear feet of water quality treatment swale.

#### **Project Status:**

Design is anticipated in 2022 and construction is scheduled to take place in 2024.

Total Estimated Project Cost: \$1,220,000

#### Semiahmoo Drive Drainage Improvements - South (BP-5) Database ID No. 18-010

Construction Funding Year(s):

2025

#### Project Narrative:

This project will improve the conveyance system along the east side of Semiahmoo Drive by upsizing pipes and deepening exiting ditches to reduce flooding.

#### **Project Status:**

Design is anticipated in 2023 and construction scheduled to take place in 2025.

Total Estimated Project Cost: \$300,000

# Birch Bay Drive and Pedestrian Facility Database ID No: 07-030

**Construction Funding Year(s):** 

2019-2021

## **Project Narrative:**

This project is located parallel to Birch Bay Drive from Cedar Avenue to the mouth of Terrell Creek. This is an approximate 1.5 mile natural beach berm with pedestrian facility to provide soft-shore erosion protection, habitat enhancement, and encourage pedestrian use along Birch Bay Drive. This multi-beneficial project is included in the Six-Year WRIP to reflect contributions from TAP road funds, STP road funds, WC Road fund, BBWARM, REET, and EDI.

## **Project Status:**

Project is currently on hold until permits can be secured. Construction is scheduled to begin 2019 with completion spring of 2021. To lessen impacts to the tourist economy and aquatic habitat issues, the construction window for each year will begin after Labor Day and suspend prior to Memorial Day.

# Shallow Shore Drive- Culvert Relocate Database ID No. 18-007

Construction Funding Year(s):

2022

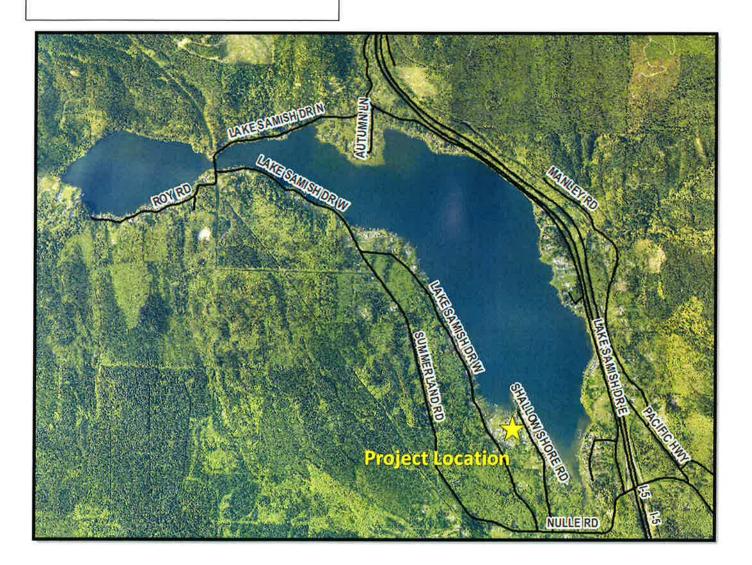

## Project Narrative:

This project will improve the conveyance system from Shallow Shore Drive to Lake Samish by relocating the outfall to a existing right-of-way and include water quality treatment.

# **Project Status:**

Design is anticipated in 2020 and construction scheduled to take place in 2022.

Total Estimated Project Cost: \$230,000

# Marietta Acquisition Database ID No. 07-002

Construction Funding Year(s):

2001 - Present

#### **Project Narrative:**

Acquire residential properties in the frequently-flooded repetitive flood loss area of Marietta. Remove existing structures and restore properties with native vegetation.

## **Project Status:**

Property acquisition began in 2001 and is ongoing. As properties are acquired through tax title sales, purchases are funded with hazard mitigation, habitat restoration grants, and FCZD funding, structures are removed and native vegetation is planted. All acquisitions are voluntary and the project is ongoing as current property owners decide to sell their properties. Estimated project cost includes some funding for cleanup of up to four former gas stations, though the exact nature of the work is still undefined.

Total Estimated Project Cost:	\$3,500,000
Expenditures to Date:	\$2,046,000

# Truck Road Emergency Erosion Protection Database ID No. 18-002

Construction Funding Year(s):

2018-2019

#### **Project Narrative:**

The project is located along Truck Road about 0.3 miles easterly from Mt. Baker Highway (SR 542). During high-water events of the 2017/2018 winter, the North Fork Nooksack River eroded the unprotected bank of Truck Road to within 13 feet of the roadway surface. This prompted an emergency proclamation on February 9, 2018, to facilitate the immediate protection of the roadway. Work included construction of a passive (buried) 350 foot long riprap revetment along the riverward edge of the existing roadway. The new revetment ties into an existing revetment located immediately upstream of the project. The work also included placement of two passive habitat structures in the floodplain between the river and the revetment along the downstream 175 foot segment.

#### **Project Status:**

Emergency work started on February 16 and was finished on March 12, 2018. The roadway within the construction zone is still not surfaced pending anticipated settling of the roadway. The downstream 175 feet of revetment was fully mitigated by installing the two habitat structures. Mitigation for the upstream 175 feet of revetment has yet to be determined.

Total Estimated Cost:	\$541,000
Expenditures to Date:	\$471,000

# Marine Drive Levee Repair Database ID No. 15-004

Construction Funding Year(s):

2018-2019

## **Project Narrative:**

The Marine Drive Levee provides flood protection during smaller, more frequent floods to the Marietta area and Slater Road. Over the past few years, overtopping has caused damage to the backslope of the levee. The levee is located on property owned by the Washington Department of Wildlife who is managing the property for wildlife. The project involves restoring the levee crest and backslope to the original geometry while trying to minimize the impacts to existing vegetation.

## **Project Status:**

The project was constructed in summer 2018. Mitigation planting will occur from fall 2018 through spring 2019.

Total Estimated Cost:	\$286,000
Expenditures to Date:	\$281,000

# High Creek Database ID No. 07-125

## Construction Funding Year(s):

2018-2019

## Project Narrative:

High Creek flooding damaged nearby homes and closed Mount Baker Highway in the early 1990's. A settlement agreement between Whatcom County and Washington Department of Transportation and several private landowners following the flood stipulated that the County should develop a management plan to address the potential for future flooding. The plan identified a course of action that can reduce future flood damages and produce a net benefit for the anadromous and resident fish that utilize High Creek. The recommended alternative includes removal of accumulated sediment, reconstruction of the adjacent levees, and construction of grade control structures and sediment traps to reduce the length of creek that will require future maintenance.

## **Project Status:**

The project was constructed in summer 2018. Expenditures in 2019 are for performance monitoring and removal of sediments that accumulate in the sediment traps. After 2019, annual maintenance will be funded outside of the capital budget appropriation.

Total Estimated Project Cost:	\$1,564,000
Expenditures to Date:	\$1,504,000

# Hannegan Levee Rehabilitation Database ID No. 18-003

Construction Funding Year(s):

2019

## **Project Narrative:**

The November 23, 2017 flood on the Nooksack River resulted in scour of the levee slope and toe, including loss of embankment material. The damage site is approximately 50 Linear Feet (LF) long but the total length needed to repair and protect the levee from further damage is approximately 300 LF.

The proposed project includes repair of the levee slope and toe along 300 LF. Repair consists of a riprap bank and toe for 70 LF; the remaining 230 LF will be a buried riprap trench with tree plantings at the ground surface.

## **Project Status:**

US Army Corps of Engineers has completed the design; permitting is underway and the project is on schedule for construction in 2019.

Total Estimated Cost:	\$491,000	57
Expenditures to Date:	\$5,000	

# Sande-Williams Levee Rehabilitation Database ID No. 18-004

Construction Funding Year(s):

2019

#### **Project Narrative:**

The November 2017 flood resulted in scour of the levee slope and toe, including loss of riprap. Diking District #2 (DD#2) sponsors this levee in the Public Law (PL) 84-99 program administered by the US Army Corp of Engineers (USACE). DD#2 requested the USACE rehabilitate the levee after the 2017 flood; as the local sponsor DD#2 is responsible for 20% of construction cost or \$100,000. DD#2 has requested that the FCZD provide funding towards their local sponsor contribution at a 70/30 cost-share. The project involves rehabilitation of the levee slope and riprap protection along approximately 680 feet of levee.

#### Project Status:

Construction of the levee repair is planned for 2019.

Total Estimated Cost:	\$521,000
Expenditures to Date:	\$0

# Abbott Levee Erosion Protection Database ID No. 18-005

## **Construction Funding Year - 2019**

#### **Project Narrative:**

The project is located along Abbott Road about 1.7 miles east of Hannegan Road. Recent erosion along the Nooksack River has removed a section of riprap that previously protected the land adjacent to the Abbott Road Levee and Abbott Road. The project site currently has sufficient land remaining between the levee and the river to install a buried rock structure to protect Abbott Road and Abbott Levee from erosion. The proposed project involves constructing a buried rock trench with a self-launching toe with log root wads. Engineered log jam (ELJ) structures will also be constructed on the upstream and downstream ends of the buried rock trench to anchor the buried rock structure.

## **Project Status:**

The project is currently in the engineering design phase. Preliminary design plans will be developed in sufficient detail for permit submittal. Construction is planned for summer of 2019.

Total Estimated Cost:	\$1,160,000
Expenditures to Date:	\$25,000

# Rayhorst Levee Improvements Database ID No. 16-001

Construction Funding Year(s):

2019

## **Project Narrative:**

The Rayhorst Levee runs adjacent to the Nooksack River and provides flood protection to the Lummi Reservation, public roads, including Ferndale Road and Haxton Way, and agricultural land. A project to widen the levee crest and backslope along a 200 foot long section adjacent to a farmstead is included in the System-wide Improvement Framework (SWIF) to address a deficiency identified by the US Army Corps of Engineers.

# Project Status:

A conceptual design has been developed as part of the SWIF planning process. Detailed designs will be developed starting in fall 2018. Construction is planned for 2019.

Total Estimated Cost:	\$90,000
Expenditures to Date:	\$5,000

# Red River Levee Stabilization Database ID No. 16-004

Construction Funding Year(s):

2019

## Project Narrative:

The Red River Levee protects portions of the Lummi Reservation, including Haxton Way and other public roadways. The levee is occasionally used as emergency access to and from the Lummi Reservation during floods. Riprap is missing on approximately 200 feet of the levee, and erosion is starting to cause sloughing of the levee prism. These areas need to be repaired for the levee to remain eligible in the Public Law (PL) 84-99 Program.

## Project Status:

A conceptual design has been developed as part of the System-wide Improvement Framework (SWIF) planning process. Detailed designs will be initiated in fall 2018. Construction is planned for 2019.

Total Estimated Cost:	\$245,000
Expenditures to Date:	\$10,000

# Twin View Levee Improvements Database ID No. 16-002

Construction Funding Year(s):

2020

## Project Narrative:

The Twin View Levee is locate upstream of Everson and provides flood protection to commercial, residential and agricultural properties and a state highway. Widening and backsloping of a 200 foot long section just upstream of the Everson bridge is included in the System-wide Improvement Framework (SWIF) to address deficiencies identified by the US Army Corps of Engineers.

## Project Status:

A conceptual design has been developed as part of the SWIF planning process. Detailed design has not been initiated yet.

Total Estimated Cost:	\$90,000
Expenditures to Date:	\$O

# Lynden Levee Improvement Database ID No. 16-003

Construction Funding Year(s):

2020

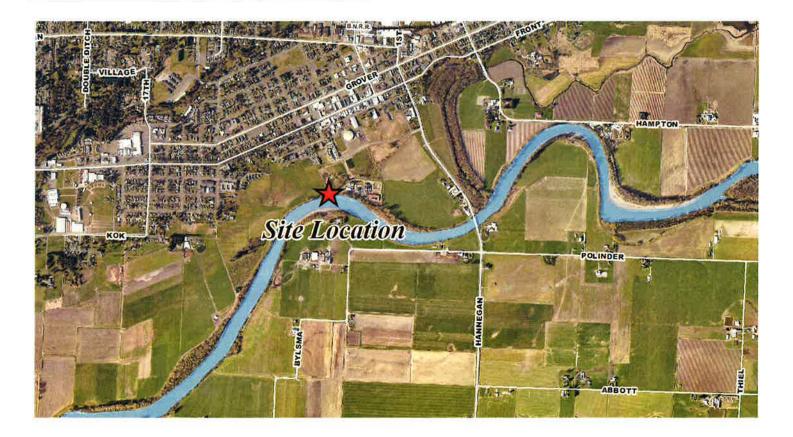

#### **Project Narrative:**

One 24" culvert and one 48" culvert are located less than 50 feet apart providing interior drainage through the Lynden Levee. One of the pipes drains a channel that flows through the City of Lynden's wastewater treatment plant. The levee has overtopped where the culverts are located, damaging the levee backslope and the small berm that separates the drainage channel from a water treatment settling pond. The conceptual design includes relocating the treatment plant drainage channel through a forested area further away from the pond, connecting the two drainages, and replacing the two culverts with a single larger fish-passable culvert with a side-hinge flood gate.

#### **Project Status:**

A conceptual design has been developed as part of the System-wide Improvement Framework (SWIF) planning process. Preliminary engineering including analysis of design alternatives has been initiated.

Total Estimated Cost:	\$1,150,000
Expenditures to Date:	\$30,000

# Bertrand Creek Levee Stabilization Database ID No. 16-005

Construction Funding Year(s):

2022

## **Project Narrative:**

The Bertrand Creek Right and Left Bank Levees are designed to overtop during larger floods, but provide protection to agricultural land during the growing season. The left bank levee has a 250 foot long section where erosion is starting to threaten the levee prism. The right bank levee face is sloughing at three locations with a total length of approximately 250 feet. The levees will have to be repaired to remain eligible for rehabilitation through the Public Law (PL) 84-99 program.

## Project Status:

A conceptual design has been developed as part of the System-wide Improvement Framework (SWIF) planning process. Detailed design has not been initiated yet.

Total Estimated Cost:	\$190,000
Expenditures to Date:	<b>\$0</b>

# Upper Hampton Levee Improvements Database ID No. 16-006

**Construction Funding Year(s):** 

2025

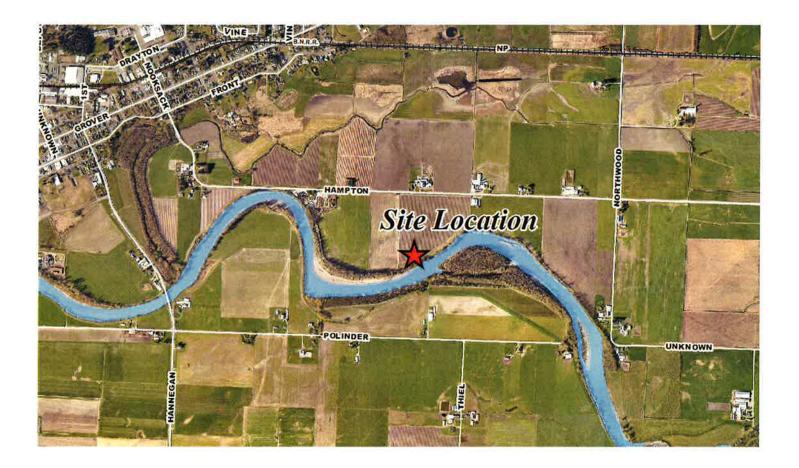

## **Project Narrative:**

Several deficiencies were identified by the US Army Corps of Engineers on the Upper Hampton Levee. Improvements to the levee geometry are proposed in two locations and improvement to address seepage is proposed at a third location.

# **Project Status:**

A conceptual design has been developed as part of the System-wide Improvement Framework (SWIF) planning process. Detailed design has not been initiated yet.

Total Estimated Cost:	\$650,000
Expenditures to Date:	\$0

483

# Abbott Levee Upstream Tie-In Database ID No. 16-007

Construction Funding Year(s):

2023

## **Project Narrative:**

The upstream end of the Abbott Levee ties into a small berm along Abbott Road. The berm is narrow, with little erosion protection, and overtops frequently. This project is designed to improve the upstream tie-in by extending and realigning the levee to run under Abbott Road. The improved section will be designed to maintain the overflow as this is an area where floodwaters can access the floodplain with low potential for damage.

# Project Status:

A conceptual design has been developed as part of the System-wide Improvement Framework (SWIF) planning process. Detailed design has not been initiated yet.

Total Estimated Cost:	\$975,000
Expenditures to Date:	\$0

# Neevel Levee Bank Stabilization Database ID No. 16-008

Construction Funding Year(s):

2023

## **Project Narrative:**

The Neevel Levee provides varying levels of protection to a significant amount of agricultural land. Approximately 250 feet of the levee running along Cougar Creek is over-steepened and experiencing sloughing of the riverward face. A stabilization project incorporating large woody debris at the toe and reducing the slope of the riverward face is proposed in the System-wide Improvement Framework (SWIF) to resolve the deficiency identified by the US Army Corps of Engineers and keep the levee eligible for repair under the Public Law (PL) 84-99 Program.

## **Project Status:**

A conceptual design has been developed as part of the SWIF planning process. Detailed design has not been initiated yet.

Total Estimated Cost:	\$190,000
Expenditures to Date:	\$0

# Floodplain Acquisition Database ID No. 07-002

## Acquisition Funding Year(s):

2017- TBD

#### **Project Narrative:**

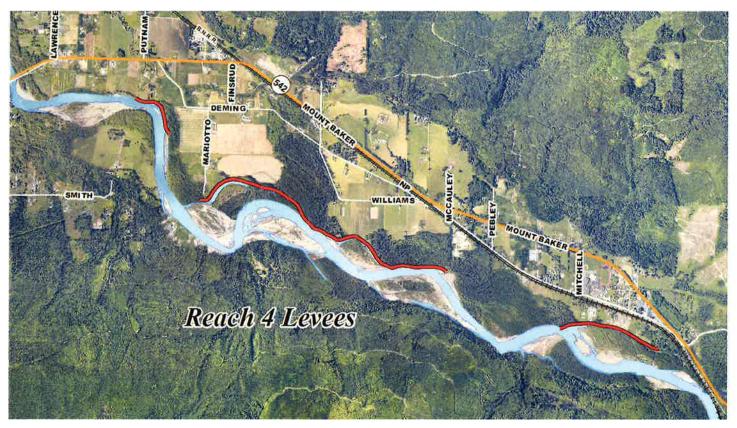

Reach-scale projects to reconfigure flood infrastructure are being evaluated through the integrated planning processes that started with the System-wide Improvement Framework (SWIF) and has transitioned into the Floodplain Integrated Planning (FLIP) process. The goal of this work is to reduce flood risk and expenditures and restore habitat and the processes that form it.

Voluntary acquisition of lands is proposed to enable future levee reconfigurations to reduce flood risk and future levee repairs, while improving habitat.

## **Project Status:**

Three alternative levee configurations in upper Reach 4 were developed as part of the System-wide Improvement Framework (SWIF) planning process. Several of the key landowners are considering selling portions of their properties if funding can be secured and a favorable purchase price can be negotiated.

Total Estimated Cost:	TBD
Expenditures to Date:	\$100,000

# Jones Creek Debris Flow Protection Database ID No. 07-105

Construction Funding Year(s):

2021 - 2022

#### **Project Narrative:**

Acquire residential properties in the high hazard area of the Jones Creek alluvial fan and construct setback deflection berm to route debris flows around the town of Acme. Project includes potential realignment and bridge improvements at Turkington Road.

## Project Status:

Property acquisition began in 2005 and additional properties will need to be acquired. Preliminary design has been performed for the deflection berm and a preferred alternative for Turkington Road has been selected. Detailed design is being imitated in 2018.

Total Estimated Cost:	TBD
Expenditures to Date:	\$990,000

# Ferndale Levee Improvement Project Database ID No. 07-104

Construction Funding Year(s):

2024 - 2026

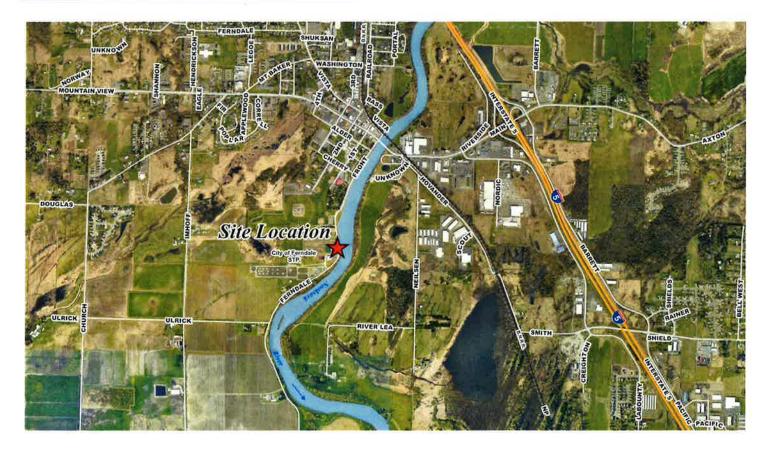

#### Project Narrative:

Two levee segments, one sponsored by the City of Ferndale and one by the FCZD and Diking District #1, provide protection to the three treatment facilities along Ferndale Road. The US Army Corps of Engineers has identified several deficiencies along these two levee segments, including a gap in which super sacks filled with sand have been placed. The 1999 Comprehensive Flood Hazard Management Plan recommended improving these levees to provide 100-year protection to the City and the treatment facilities. The System-wide Improvement Framework (SWIF) also includes this project to address the identified levee deficiencies.

## **Project Status:**

This project has been laid out at the conceptual levee only. No detailed design has been initiated yet; outside funding will likely be needed to fully implement this project. Preliminary engineering including analysis of design alternatives will be initiated in 2019.

Total Estimated Design Cost:	\$1,175,000
Expenditures to Date:	\$0

# Glacier-Gallup Creeks Alluvial Fan Restoration Database ID No. 18-006

Construction Funding Year(s):

2026

## **Project Narrative:**

The Glacier Creek Levee on the left (west) bank of the creek was constructed in the 1960s to prevent overflows into Gallup Creek and damage to State Route (SR) 542. Since construction, the levee has been subject to ongoing damage. Constriction of the Glacier-Gallup channel migration zone (CMZ) has exacerbated aggradation upstream of SR 542 and severely degraded fish habitat. WSDOT replaced the Gallup Creek bridge and is working to construct a new bridge over Glacier Creek and the alluvial fan between the two creeks. The FCZD is developing a project in coordination with WSDOT and is evaluating the feasibility of full or partial removal of levees blocking natural channel migration on the Glacier and Gallup Creeks alluvial fan and construction of a setback levee on Gallup Creek to protect the Community of Glacier.

## **Project Status:**

A feasibility study and alternatives analysis for evaluating levee removal and setback alternatives is being initiated in 2018. Preliminary design of the preferred alternative will be initiated in 2019. Construction of the levee removal and setback is anticipated to occur concurrently with the Glacier Creek bridge replacement in 2026.

Total Estimated Project Cost:	TBD	
-------------------------------	-----	--

Expenditures to Date:

\$125,000

# Emergency/New Projects Database ID No. 08-003

Construction Funding Year(s):

2019 - 2024

## **Project Narrative:**

This item provides funding to address unanticipated projects resulting from new damage to flood control facilities.

## **Project Status:**

Design and construction to occur as necessary.

<b>Total Estimated Project Cost:</b>	\$425,000

Expenditures to Date:

# ORDINANCE NO. \_\_\_\_\_

# ORDINANCE ESTABLISHING THE FINANCIAL SYSTEM SOFTWARE FUND AND ESTABLISHING A PROJECT BASED BUDGET TO REPLACE THE FINANCIAL SYSTEM SOFTWARE

WHEREAS, the existing J.D. Edwards World financial system software was purchased in 1993, and

**WHEREAS**, the J.D. Edwards World financial system software is becoming increasingly difficult to support and is approaching the end of its useful life, and

**WHEREAS,** modern financial system software would enable Whatcom County to operate more efficiently, and

WHEREAS, Section 6.80 of the Whatcom County Home Rule Charter allows for projectbased capital budget appropriation ordinances that lapse when the project has been completed or abandoned or when no expenditure or encumbrance has been made for three (3) years,

**NOW, THEREFORE, BE IT ORDAINED** by the Whatcom County Council that a new fund is hereby established effective October 9th, 2018 titled Financial System Software Fund. This fund shall be used to account for the revenues and expenditures related to replacing Whatcom County's existing J.D. Edwards World financial system software, and

**BE IT FURTHER ORDAINED** by the Whatcom County Council that the Financial System Software Fund is approved as described in Exhibit A with an initial project budget of \$1,750,000.

**ADOPTED** this \_\_\_\_\_ day of \_\_\_\_\_\_, 2018.

Costs: Object	Object	Object Description	Amount Requested	
	6630	Professional Services	\$125,000	
	7420	Computer-Capital Outlays	\$1,625,000	
	8301.001 Operating Transfer In		(\$1,750,000)	
	Request To	tal	\$0	

#### 1a. Description of request:

Replace existing J.D.Edwards financial system.

- 1) Perform a needs assessment of Whatcom County's financial system needs.
- 2) Development of bid specifications.
- 3) Acquire new financial system software and implementation services
- 4) Acquire necessary network file servers.

#### 1b. Primary customers:

The financial system serves all branches of county government and all county departments.

#### 2. Problem to be solved:

Our existing J.D. Edwards World financial system (JDE) was purchased in 1993. The system is based on an old text based system. It is written in IBM's RPG program language. RPG programmers are rapidly transitioning out of the work force, therefore system interfaces to other systems are getting more challenging to maintain. The system is not Windows based therefore it is not user friendly to new employees. By today's standards it has limited online inquiries and its report writhers are difficult to use. We are currently pushing the limits of the JDE payroll system. It is challenging to accommodate changes in union contracts, state laws and employee benefits. The JDE human resources system is difficult to use and does not meet the county's current needs. While J.D. Edwards still supports it's World system, it has replace the World system with a newer system called Enterprise One. J.D. Edwards' resources supporting it's World software are on the decline. The company has been very late in updating the tax reporting components of it's World software which puts unappreciated pressure on county staff to meet IRS deadlines.

#### 3a. Options / Advantages:

It is an option to continue to use the current system however the challenges the current system presents will likely get progressively worse in the future. Replacing the system is the best option because the more modern design will make the financial information more accessible to all levels of the government and should make county operations more efficient.

#### 3b. Cost savings:

In the short term it is not likely that there will be any cost savings. Software maintenance on a new system will likely be more than we are paying now and we will need to train all employees on use of the new system. Over the long term we could see savings from more efficient processes.

#### 4a. Outcomes:

A new financial system will be selected and purchased in calendar year 2020. A modern financial system will be implemented in calendar year 2021.

# MEMORANDUM

TO: Jack Louws. County Executive PJA Whatcom County Council

Perry Rice, IT Manager FROM:

Closure of Telecommunications System Replacement Project Budget RE:

DATE: September 14, 2018

Over the past 4-years, Whatcom County Information Technology (IT), with assistance from numerous vendors and staff in all county departments, has completed the large project to replace our 25-year old Ericsson analog telecommunications system with the new ShoreTel system.

I appreciate your strong support for technology projects and am pleased to report that this project was completed on schedule and under budget as shown below.

ltem	Amount
Funding: Ordinance 2014-013	\$100,000
Funding: Ordinance 2014-037	\$2,123,809
Total Funding	\$2,223,809
Total Expenditures	-\$1,619,077
Remaining Balance	\$604,732

The primary project highlights and benefits include:

- County Data Network Replacement: The data network was redesigned and modernized to support a new digital telecommunications system as well as improve network reliability, performance and security for computer usage.
- Telecommunications System Replacement: The new ShoreTel system replaced . a 25-year old end-of-life analog system. The new system includes features such as computer integration, reporting, workgroups, enhanced 911 and redundancy that were absent or limited in the prior system.

It is important to recognize the core IT team of Denise Toth Banyan, Lee LaMar, Chris Wilson and Tami Gee-Hardy for their very capable and hard work on this implementation.

Please contact Perry Rice at x5235 for additional information on this project.

WHATCOM COUNTY EXECUTIVE'S OFFICE

County Courthouse 311 Grand Avenue, Suite #108 Bellingham, WA 98225-4082

# MEMO:

TO:	Whatcom County Council
DATE:	September 13, 2018
FROM:	Rob Ney, Project and Operations Manager
RE:	Jail Improvement Project Budget

# **Requested Action**

Please allow this memo to serve as a request for approval of the accompanying Budget Supplemental for increased spending authority in the amount of \$4,589,000 within the Jail Improvement Project Based Budget to perform the work as outlined in the Design2Last contract as well as improvements requested by the Sheriff's Office for both the Jail and Work Center.

# Background and Purpose:

In 2011, Budget Ordinance #2011-031 was approved to expand Jail Controls Project to include other critical Jail Improvements. On November 28, 2017 a design charrette was held with the stakeholders participating in the jail improvement project. Through an Evaluation and Analysis Study immediate and future improvements were developed into the scope. The expanded scope for the Design 2Last work was approved in contract #201607005-3. Additionally, increased project budget funding will support several improvements requested by the Sheriff's Office and submitted through 2019-2020 Additional Service Requests, including a Limited Appointment Special Projects Sergeant to facilitate the construction impacts. Generally, the task items identified in the expanded scope of work include but are not limited to:

- Detention Door replacements and locking component upgrades
- Life safety improvements, most notably fire suppression coverage improvements
- Electric system upgrade including substantial lighting improvements
- Emergency lighting upgrades to eliminate a lag when emergency power is used
- Special Project Sergeant To facilitate the jail improvement construction impacts.
- Facilities staff wages and benefits for hours dedicated to Jail Improvements
- Pre-booking privacy booth
- Private Consultation Booth
- Access Gate at the Work Center
- Work Center Custody Desk
- Work Center locker room

# Funding Amount and Source:

\$4,589,000 from the \$7M reserved in the General Fund for capital projects.

# EXHIBIT A

	8301	Operating Transfer In	(\$4,589,000)
	Request To	otal	\$0

#### 1a. Description of request:

This action will assign a portion of the \$7M reserved for capital to the Jail Improvement project based budget to execute future jail improvement projects. \$4,589, 000 will be transferred to the Jail Improvement project budget to accomplish the improvements Detention Doors project, replacement of other detention locks and hardware, task items approved by Council and included in the Design2Last scope of work and Facilities' staff wages and benefits for hours dedicated to Jail Improvement projects. Additionally, jail improvements requested by the Sheriff's Office included in thier 2019-2020 biennium budget request have been directed to this project budget including a limited appointment (2 years) Sheriff's Sergeant assigned to facilitate construction impacts.

Generally, the task items identified in the expanded scope of work include:

- -Detention Door replacements and locking component upgrades
- -Life safety improvements, most notably fire suppression coverage improvements
- -Electrical system upgrades including substantial lighting improvements and replacement with LED fixtures, improving coverage, lighting levels, and energy efficiency
- -Emergency lighting upgrades to eliminate a lag in lighting when emergency power is initialized
- -HVAC replacement and upgrades
- -Access Gate at the Work Center
- -Pre-booking privacy booth
- -Work Center Custody Desk

Jail and Facilities staff, as well as jail occupants.

# 2. Problem to be solved:

Facilities needs spending authority to execute projects approved in the scope of work for the Jail Improvements identified in the design2last contract, and as requested by the Sheriff's Office in their 2019-2020 budget.

# 3a. Options / Advantages:

This is the only option to execute the scope of work.

The Jail improvements have been identified as a high priority by the Council and Administration.

# 3b. Cost savings:

There is no cost savings option other than not performing the work at this time.

# 4a. Outcomes:

The detention door project will be out to bid within the next few months, and a contractor will be selected to perform the improvements by the end of 2019. Other improvements will be scheduled as appropriate.

## 4b. Measures:

Future jail improvement projects will be executed and successfully completed. Executing projects in the jail on-time and within budget.

# 5a. Other Departments/Agencies:

This project will have no impact to other staff.

# 5b. Name the person in charge of implementation and what they are responsible for:

Rob Ney

## MEMORANDUM

FROM:

TO: Jack Louws, County Executive

Debbie Adelstein, County Auditor Aublie auto

DATE: September 13, 2018

Supplemental Budget Request RE:

The Auditor's Office has an ongoing project to bring historical documents online. . This is funded through the Auditors O&M Fund (that is monies set aside for special projects such as this from a small portion of the recording fees collected). We have three part-time staff that are working on this project. This supplemental budget request is to provide additional funding to complete the year (2018).

## 1a. Description of request:

6710

**Request Total** 

Whatcom County received a grant from the state to pay for the return postage (not the envelope printing costs) related to the new mandate to provide prepaid postage envelopes for elections. The County expects to pay \$43,000 for prepaid postage for the primary and general elections to be funded by the state grant.

Postage/Shipping/Freight

#### 1b. Primary customers:

Voters of Whatcom County

#### 2. Problem to be solved:

Printing and mailing service costs have risen significantly since the 2017-2018 budget was developed. Additionally new envelopes were needed to accommodate the return envelopes the state was now intentding to use, as well as new ballot sleeves and mailing envelopes which the grant was not covering. Over the past couple of years, we have also added several thousand more voters which added to our costs. The Elections Division is requesting \$53,000 more budget authority from printing costs for the general election (\$82,000 budget increased to \$135,000). We are also requesting \$7,000 more in contractual services for the ballot mailing and tracking service part of the contract. These amounts will be covered by increases in revenue from elections and registrations billed to municipalities throughout Whatcom County which utilize our services.

#### 3a. Options / Advantages:

After much discussion, this proposal offers the best option for covering the costs incurred.

#### 3b. Cost savings:

There are no additional cost savings to be gained.

#### 4a. Outcomes:

The efforts and costs will be covered by the completion of the general election.

## 4b. Measures:

The costs incurred will be paid.

#### 5a. Other Departments/Agencies:

None.
